This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Warrant No 751. Ordered that a warrant be issued in favour of John Bingham Esqr on account of said Committee for $1000.

*The Alderman and Assistant of the 7th Ward to whom the subject was referred reported in favour of the Street Commissioner's report relating to Stanton Street, presented at the last meeting of the Board, which was confirmed accordingly.

A representation of the Attorney, in favour of remitting the fine, as far as the Corporation is concerned, recovered against Samuel Gurnea, for selling liquors without licence, was confirmed.

[140] The Attorney to whom was referred the Bond of Indemnity of Carey Ludlow on his claim against the intestate estate of Reuben Johnson deceased, reported his approbation of the same.

Whereupon resolved that a warrant be issued in favour of
Warrant Carey Ludlow for $470.57. the Ballance reported by the
No 753. Chamberlain as recd and paid into the Treasury of said intestate estate.

The Attorney presented the following

Report

†The Attorney of the Board in the absence of the Counsel has the honour to report,

That according to the Act of the Legislature Revised Laws. Vol. 1. p. 580. s. 38 there can be no doubt, that a Majority of Five persons thereby directed to be appointed is necessary to the discharge of the duties of Overseers of the poor and that a smaller number does not comport with the letter or meaning of the Act. The undersigned is further of opinion, in which he thinks every person will coincide, that five persons, and no smaller number ought to be appointed; the words of the Act being, "The Corporation shall appoint not more

*Marginal note reads *See P. 127.*—Ed.
†Marginal note reads *See Resolution P. 107.*—Ed.

"than Five of the Freeholders &c. which said persons being so "appointed or the Major part of [141] them shall have the same "power &c." The words "Major part of them" clearly do not here mean, that a major part of Five may be appointed in the first instance, but taken in their connection and indeed in their separate and independent sense, presuppose the appointment of Five and that of that number, Three, may discharge the duties subject to the control of the whole. The undersigned would not have submitted this report in the absence of his Colleague, had it not been for the direction contained in the resolution that a report should be presented at the next meeting of the Board.

The undersigned takes the liberty to add that the powers given to any two of the Commissioners, in the latter part of the section, form an exception to the general principle, and are confined to the putting or binding out apprentices.

All which is submitted.

Feb. 15th 1808. S. Cowdrey

*Ordered that the same be referred to the Committee appointed to examine into the System of the conduct and management of the Alms House.

The Comptroller presented the following communication.

The Comptroller begs leave to inform the Board that Mr Brown the present occupant of two thirds of the cellar under Catharine Market declines [142] taking it after May next at the present rent.

Mr Brown has proposed to the Comptroller to settle the rent due by him up to May next by a note with a sufficient indorser. The Comptroller does not conceive himself authorized to make that arrangement without the direction of the Board tho' he would recommend it.

Which is respectfully submitted.

Feby 15th 1808. J. Morton.
Compr

†Ordered that the Comptroller be authorized to settle with Mr Brown and accept his note with a sufficient indorser, for the ballance of rent due by him, and that he advertize the premises to be let from and after the 1st day of May next.

The following Report was presented.

M. Woolsey, praying a Water grant in front of his property on the North river

Reports that in his opinion the prayer of the Petition should be granted under the usual conditions.

Febʸ 15th 1808. J. Morton, Comptr

Ordered that the same be confirmed.

[143] The Comptroller reported the sum of $2685. in the Treasury.

The Street Commissioner presented the following Report.

*The Street Commissioner, charged with the duty of applying to the Proprietors of ground required for Canal Street, has the honor to

Report

1st John Jay & Peter Jay Munro
2d Dominick Lynch. } These Gentlemen own all the ground through which Canal Street will run on the East side of Broadway, And agreeably to the conditions sometime since entered into between Mr Munro and the Corporation, they will voluntarily cede the whole of Canal Street and such parts of Elm and Crosby Streets, as will pass through their grounds; upon the express condition, however, that they are to be released from all charge for opening Canal Street, on the West side of Broadway.

3d John Cameron, owns a two Story frame house and one lot of ground in Broadway at the corner of and upon the grounds required for Canal Street, the lot is 25 feet on Broadway and 100 along Canal Street, for the whole of the premises and appurtenances he asks £.2500.

4th [144] Thomas Duggan. By the †report of the Committee presented to and confirmed by the Common Council, is to be paid for all the grounds in Canal Street running through his former property, which has not already been valued by the Jury. For the plot bounded upon Broadway and running 100 feet westerly containing about 5000 square feet he asks the same as was given by the Jury to others, which was, as he says 12/6 ℔ square foot, which will at that rate amount to $8000 Dollars: And for the two plots westerly of the above mentioned, and containing about 17.000 square feet, he asks 6/6 ℔. square foot, which he also says was allowed by the former Jury, and will, at that rate, amount to the additional sum of $12.200.

5th Walter Bowne, owns a gore of ground adjoining Mr Duggan

* Marginal note reads *See P. 94.*—Ed.
† Marginal note reads *See. P. 92.*—Ed.

on the west and through which Canal Street runs, called on his Map three lots, the ground required will be about 4000 feet: he also owns a lot a little more westerly, of which about 700 square feet will be required. For these plots of ground he asks $2000.

There are no other grounds between Broadway and the Lots on Greenwich Street that will be required for Canal Street except those belonging to the Corporation of Trinity Church and the heirs [145] of Anthony Lispenard deceased. All the other proprietors were included in the former award, which the Acts of the Corporation has, it is believed, sufficiently confirmed.

6th The Corporation of Trinity Church, are proprietors of all the ground in Canal Street from the westerly boundary of ground sold by Anthony Lispenard to Miller & Baker, to the intersection of Watts and Hudson Streets. Some part of it is, however, under a long lease to Mr Lispenard. By a recent cession, that Corporation have ceded all that part of Canal Street which is intersected by Watts, Hudson, Varick and Vestry streets, containing probably one quarter of the grounds solicited of them for this Street.

Mr Barrow has been applied to respecting the cession of the residue. He informed that a meeting of the vestry was to take place last week, but they could not make a Board. He has promised to call a meeting the present week, when the subject of Canal Street will be laid before them. In the mean time he requests that the operations of the Corporation may not be retarded and that the Corporation of Trinity Church will be willing to receive the summons to attend the Jury. In case of cession, previously, the attendance, will of course, be unnecessary: and he says they are willing to take short notice.

7th The Heirs of Anthony Lispenard with one [146] exception own all the residue of Canal Street to the shore of Hudson river; no part of which has been leased except two lots hereafter mentioned. Mr Lispenard left his estate to be divided between his two sons Leonard and Anthony, his daughter Mrs Stewart, and his grand daughter, the daughter of Paul Beach deceased, the latter of whom is still in her minority. Since the death of the father, Anthony Lispenard, the son, has deceased unmarried and intestate; his estate of course devolves upon the Survivors.

Mr Stewart has been appointed Guardian of the daughter of Mr Beach, but he has no power to convey any part of her real estate which remains in common with the other Heirs and undivided.

Mr Stewart is also the active manager of the said undivided estate of Mr Lispenard and contracting for valuable improvements

upon their grounds. The Subscriber has applied to him for a cession, and he has answered that they will, when they have the power, cede all the Streets through their ground in the same manner and upon the same principles as may be done by the Corporation of Trinity Church: but that it would be useless for himself and Leonard Lispenard to cede their rights in Canal Street while the title of Miss Beach would remain an incumbrance thereon: and that in addition to [147] this, it is uncertain how oppressive such an operation will be to them, when a division of the property shall take place; and that it would at any rate, perplex the demands upon the assessments that may be made upon the undivided premises. Mrs Stewart further states that he is now preparing a petition to the Chancellor to authorize him to convey some part of his wards real property for the purpose of improving the rest; and that at the same time he will apply for special permission to cede her interests in the Streets, in common with the other heirs, to the Corporation. The reasonableness of such an application creates a strong presumption that it will be successful as her property cannot otherwise be so well improved.

8th Edward J. Ball, owns the lease of a lot of ground situate on the East side of Greenwich Street, 14 years of which is unexpired, the reversion belongs to the heirs of Mr Lispenard. Canal Street cuts a triangular piece from the rear of this lot, containing about one third of it, and for his interest therein, he asks one hundred and fifty Dollars and an indemnification against Mr Lispenards heirs for a due proportion of the ground rents that may accrue, to the expiration of the Lease.

9th James Nelson owns the Lot on the east side of Greenwich Street, adjoining the lot of Mr Ball. Canal Street will cut off about one half of it in a diagonal manner, in which will be [148] included a wooden Stable. He asks £900. for the ground required of him, with permission to remove the Stable. His title is in fee simple and he contends that he will be put to a great expense by paving and regulating Canal Street which will be to him of no use, the remainder of the lot being insufficient for a building.

10th William Tait owns a Smiths shop upon grounds of Mr Lispenard North of Mr Nelson. The ground is let to him annually. Canal Street runs diagonally through the centre of the shop; and he asks 100 Dollars for his right in the premises, with liberty to move his Shop.

11th Lewis Lorton, by virtue of purchase and by a water grant from the Corporation owns 56 feet fronting Greenwich Street on the

west side, and joining Brannon Street on the North and running from thence the same breadth to West Street. This ground is filled and regulated to the East side of West Street, and is joined by Mr Lispenard on the South. Canal Street will cut off above one half the plot between Washington and West Streets, and he rates his interest at £700 per lot of 56 feet in length by 20 in breadth, which amounts to above $10,000. It is here to be observed, that Canal Street will not go through this ground until the Basin lately agreed to be reserved from Washington to West Streets shall [149] be filled, which may not take place for many years hence, but it is still adviseable to extinguish Mr Lorton's title, not only to prevent his building thereon, but also to afford a landing on the North side of the basin.

The Street Commissioner has thus given a fair account of his mission, and hazards the opinion, that the Board ought not to accept the terms offered by the several proprietors on the West side of Broadway, except such other and additional arrangements as may remain in reserve with the Corporation of Trinity Church. And he further states, that it would, in his opinion, be adviseable to accede to the terms agreed to with Mr Jay and Mr Munro, as well as with Mr Lynch for the grounds on the East side of Broadway. The Ordinance to be passed by the Common Council directing the Assessment, may direct the Assessors, in addition to the Sum that may be specified therein, to assess "All the Common Council have paid, or are bound to pay," towards the operation. And the Assessors can easily state such sums as they would probably have assessed upon the property east of Broadway, which can by them be added to the other conditions; for it is in fact the consideration paid or promised to be paid to these gentlemen for their cession, and therefore legally and properly chargeable in the Assessment.

[150] With respect to the property taken by the former award and for which bonds have not been given, the Street Commissioner conceives that the operations of the Common Council upon that award will be sufficient to bind them to a compliance. and he believes there are no fears that the proprietors will decline to accept of the sums then allowed, especially as they claim interest thereon, since the date of the award.

All which is respectfully submitted.

Febʸ 15th 1808 John S. Hunn
Sᵗ Commʳ

Ordered that the same lie for consideration.

The Street Commissioner presented a deed of cession, in the usual form and without any covenants, for such part of Elm, White and Sugar loaf Streets, as belong to John Jay, Gouverneur Morris, James Morris and Henry White being the whole of White and Sugar loaf Streets from Church to Elm Street, and their right in Elm Street, between the ground of the Corporation near Leonard Street, and their ground north of Mr Jay;

Ordered that the same be referred to the Counsel and Attorney.

The Street Commissioner to whom it was referred to give an opinion of the compensation due to N. King for the copy of Mr Colvers Mud machine, reported that in his opinion the charge [151] of Eight Dollars and Fifty cents would be no more than reasonable, which, together with the charge for making out the exemplification of said Colver's patent, would amount to $15.

Warrt No 754. Ordered that a warrant be issued in favour of the Mayor for that Sum, and that he be requested to remit the same to Mr King at Washington.

The Street Commissioner represented that there is now due to Carmen employed in carting earth to the Collect, the sum of $500.

The Minutes of the last meeting were read and approved.

His Excellency the Governor, by and with the advice of the Council of appointment, having been pleased to appoint the Honorable Dewitt Clinton to the Office of Mayor of this [157] city, who having taken the Oaths of Office prescribed by law, appeared at the Common Council, produced his Commission which was read and published with the usual formalities and he took his seat at the Board.

The Mayor laid before the Board, for the information of the Common Council, the Governor's Message to the Legislature enclosing documents relating to the operations of the General Government towards fortifying the City of New York, together with a Bill, now before the Senate "Supplementary to an Act, entitled "An Act to "cede the Jurisdiction of certain Lands in this State to the United States," passed 20th March 1807." which were referred to the Committee of Defence to report, at a special meeting to be held for the purpose, their observations on the same, and to suggest such improvements or amendments as, in their judgment may appear proper.

The Board agreed to meet on Thursday next at 4 o'clock P. M. to receive the Report of the Committee of Defence.

The Mayor presented a letter from Jacob Morton, late Comptroller, mentioning that a Ballance of money, received by him on account of the Corporation, remained in his hands, and requesting that a Committee may be appointed [158] to examine his accounts to enable him to make a settlement of the same.

The Street Commissioner presented the following report.

The Street Commissioner has the honor to represent, That in pursuing the operations contemplated in the resolutions directing the ‡regulations of the grounds North of Canal Street between Broadway and the East side of Varick Street, he finds them to be so materially connected with, and dependant upon the regulations which ought to be made on the West side of Varick Street, that it is, in his opinion, expedient to take profiles of the Streets lately ceded by the Corporation of Trinity Church North of Spring Street, otherwise errors may occur in fixing the lines for the course of the water, which it may be very difficult afterwards to correct.

The great extent of the low grounds, northwesterly of the dwelling, late of Col. Burr, and which is intersected by Varick Street, will

* Marginal note reads *See P. 3. 78.*—ED.

make it necessary to be very particular with respect to the surveys in that vicinity, especially as it will [170] be impracticable to convey the water the whole distance from the Bridge in Art Street, without the aid of a Subterraneous passage, or Canal. And in order that these surveys may not be repeated at the expence of the public, it will be adviseable to place Stones at the most convenient angles, designating the present as well as the intended heights.

The Street Commissioner has further to remark, That the Corporation of Trinity Church have ceded their Streets with an expectation that it would stimulate the Common Council to improve the adjacent grounds, by opening such streets and directing such regulations as may be deemed of advantage to the Community. Under this view of the subject, he takes the liberty to state that the opening of Clarkson Street, on the South side of Williamson's Nursery its intended width from Greenwich to Varick Streets, and directing it to be levelled and regulated between Hudson and Varick Streets, would be a public benefit, by facilitating the communication to the south side of Greenwich, and comport with the wishes of the proprietors. In its present situation, it is dangerous for carriages of every sort, and is daily becoming more so by Carmen digging clay. The proprietors can do this work with ease, and at this time contract for it upon reasonable terms.

[171] The Vestry of Trinity Church will meet this week and not again for some time. And if they are informed of such intended regulations, they will then have an opportunity of signifying their disapprobation of the measure, or, which is more probable, of directing contracts to be made for carrying them into effect.

In order to bring these subjects more specifically before the Board, the Street Commissioner proposes the two following resolutions.

Resolved, That the Street Commissioner cause profiles to be made of the surfaces of such Streets lately ceded by the Corporation of Trinity Church to this Corporation, North of Spring Street, as he may deem necessary more effectually to aid the Surveyors in regulating the Streets between Broadway and Varick Streets, as lately ordered by this Board: and that he cause monumental Stones to be fixed in the most convenient angles and intersections, and a field book to be made descriptive of their several heights of the Streets where they may be placed.

Resolved further, That the Street Commissioner take order for opening Clarkson Street from Greenwich to Varick Streets, and that he direct the same to be regulated from Hudson to Varick Street, at

the expence of the adjoining Proprietors, in such temporary manner and within [172] such reasonable time as he may direct, with the advice and consent of the Alderman and Assistant of the Eighth Ward.

The Recorder offered the following as a Substitute for the Resolution.

To the Honorable the Legislature of the State of New York in Senate and Assembly convened

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York represents

That various plans have been suggested at different times to furnish the said City with an [178] abundant supply of water for the preservation of the public health and the prevention of fires. That in the adoption of proper measures to obtain this important object, it may be adviseable to obtain a transfer of the rights of the Manhattan Company in that respect.

Your Memorialists therefore without considering themselves in the least compromitted to make the said purchase, and without intending to do so, unless the most favourable terms can be obtained, and unless the interests of the city shall require it, do hereby represent to the Legislature their desire that a Law, authorizing such transfer, may pass.

Whereupon Mr Mulligan proposed the following amendment

After the words " it may be adviseable," to strike out the remainder to the conclusion, and insert

"to obtain the exclusive right to supply the said city with good and wholesome water; do hereby request your Honorable Body will pass a law, vesting in the Mayor, Aldermen and Commonalty of this City the right to supply the said City with good and wholesome water, together with such [179] powers as may enable them to effect the same. New York. 24th Febʸ 1808

Sir.

We are this instant informed that the Honorable the Common Council have been pleased to appoint us Commissioners of the Alms [184] House and Bridewell, and are duly impressed with the honour conferred on us by that appointment, but we do not fully understand what the duties are that may be required of us, nor how far our authority will extend towards a general and complete reformation and arrangement of both those institutions, which we conceive to be im-

portant and indispensably necessary. The law of the City Corporation "for the regulation and better government of the Alms House" is silent on that subject, nor does the Law of the State sufficiently vest and define the powers necessary for the Commissioners to exercise. Under these circumstances we take the liberty of suggesting to the Honorable the Common Council the expediency of pointing out the duties and more explicitly vesting the Commissioners of the Alms House and Bridewell with all the powers necessary to accomplish the objects of their appointment.

We will then endeavour, the utmost of our power, to carry into effect the original intention in establishing those institutions on principles the most beneficial and useful to the public.

We are very respectfully

referred the several communications of the Street Commissioner, under date of the 4th & 25th of May last and of the 8th inst. respecting the obstructions to the lateral drain at the lower end of Chapel Street, have the honour to

Report

That they have viewed the premises and find several of the cellars now filled 8 or 10 inches with water and rendered unfit for use. [190] That it is represented to them, that the drain, which is of wood, is too small to void the water, and that the mouth of it is continually obstructed by the wash of the streets: but that when the mouth of the drain is cleared the water runs from the cellars in a few hours.

The Committee believe that the most adviseable plan to be adopted at this time is that recommended by the Street Commissioner, to sink the ditch through Chapel Street from the mouth of the drain, and to plank the sides with coarse, refuse plank, to prevent the earth from washing therein and to prevent the carts from crossing it; and they recommend that the Superintendant of repairs be directed to perform the same, under the directions of the Street Commissioner.

The Committee further observe that if it should be found that the drain will not sufficiently vent the cellars, after this operation; that then it will be expedient to pass an Ordinance for opening, cleaning and repairing it, at the expence of the persons who may thereby be benefitted. Or to construct one large enough to answer the purpose.

The Committee also report that they have requested the Street Commissioner to report a further plan of improving Thomas Street, which is now a dead level, when he may find it [191] necessary and the inhabitants shall have consented thereto; and for which purpose he is requested to apply to them, that there may be no charge upon the Corporation, in this respect.

The Street Commissioner presented the following report.

*The Street Commissioner to whom was referred the memorial of sundry inhabitants of the upper part of Broadway, against the alterations in that Street proposed by David Dunham, has the honor to

Report

That he was with the Jury upon the premises when the property

*Marginal note reads *See. P. 160.*—ED.

of David Dunham and others was valued, for the purpose of opening Broadway. That it was then stated that Mr Dunhams kitchen and stairway were in the street, as well as about 15 or 18 inches of the northwest corner of his main dwelling; but that it would not be expected that he should disturb the main house, until the buildings south of him, on the same side of the street should be sufficiently built up, to warrant such alteration. The Jury, at least many of them, were present when these observations were made, and it is [192] believed by the subscriber, that this circumstance was duly considered by them, as they have allowed Mr Dunham ample compensation for all these contingencies, which has been paid to him, above two years, by the Corporation.

The Street Commissioner further states, that after repeatedly warning Mr Dunham to remove his buildings from the Street, and threatening to prostrate them if he did not, He called and wished a further indulgence of trenching upon the Street, by placing his kitchen which then stood in the Street, to the north of his house, upon a piece of ground less than the kitchen, consequently upon either the Bowery road or upon Broadway. This privilege was of course refused, but Mr Dunham, notwithstanding, has placed his kitchen there, and it is this building, of which the Memorialists now complain.

With respect to the application to narrow the Street, it is well known to every gentleman of the Board, that no such power at present rests with them, and even if it did, there would be a great degree of impropriety in such an act, not only as the width of 80 feet has been taken by the award and assessed; but more especially, as it is within the district of the Commissioners where the Act appointing them stipulates, that the great leading avenues shall be eighty feet in width.

[193] The Street Commissioner is therefore of opinion that the Street should remain of the width taken by the Jury, without any alteration whatever: And that Mr Dunham ought to be directed forthwith to remove so much of the aforesaid Kitchen as may stand upon the Streets, agreeably to the prayer of the Memorialists

All which is respectfully submitted.

Feb. 29. 1808. John. S. Hunn

Ordered that the same be confirmed, and that the Street Commissioner give notice to Mr Dunham, to remove, forthwith, so much of his Kitchen as may encroach upon the public Street.

*The Street Commissioner presented the following communication.

The Street Commissioner is under the necessity of communicating to the Board that Samuel L. Page Junr, who was some time Collector on Street Assessments, has been frequently applied to for a settlement of the monies received by him upon the assessments put into his hands: and that he has at last rendered his accounts, by which it appears he is several hundred Dollars in arrears, which he says he is unable, at this time, to discharge; but offers to the Corporation the lease of a house he has in Greenwich Street near Spring Street market, upon a very low valuation, as the [194] only means in his power to settle the account.

The Street Commissioner not having it in his power to make any such arrangements, but believing it adviseable, promptly to adjust Mr Pages accounts, recommends that a Committee be appointed to examine into the State of the affair, with power to accept of Mr Pages proposition, and to whom the letters from him on the subject and other papers and accounts may be delivered.

The Street Commissioner further states, that he has obtained from Abraham Stagg a statement of his accounts as Collector, by which it appears he has received about One thousand Dollars, for which he has not accounted. That Mr Stagg has due to him about Eight hundred Dollars upon Contracts for regulating Streets, and expressed his wishes, that a set off may take place. The Street Commissioner having no power so to do recommends that the abovementioned Committee be directed to adjust this business with Mr Stagg also.

The Street Commissioner further states that Simon Ackerman was also a Contractor and Collector. That there is several hundred Dollars due to him on his contract, and that he has received a much greater sum upon Assessments as Collector, which has not been paid over. That Mr Ackerman has disappeared, and that his security wishes a settlement and has detained [195] the money due on those contracts, as a set off against the sum for which he has become bound. As the Street Commissioner has no power to make such arrangements, he also recommends that the case of Mr Ackerman be adjusted by the same Committee.

All which is respectfully submitted.

*The Street Commissioner presented the following Communication.

The Street Commissioner has the honor to communicate to the Board, that his application to Mr Barrow for a cession of ground possessed by the Corporation of Trinity Church and required for Canal Street, was laid before the vestry at their last meeting and by them referred to their Committee of leases.

That Committee met on Friday evening and invited the Subscriber to attend them; when he was informed, that they would propose to the vestry to cede all the remainder of ground required of them for Canal Street to the Corporation of New York upon the same conditions as has been [196] proposed by Mr Jay and Mr Lynch: vizt that they are not to be assessed for any ground further required for Canal Street, or for the removal of any buildings or obstruction therein. Considering that the Corporation of Trinity Church have made, gratuitously, a cession of all the Streets intersecting their grounds, of liberal widths, and that Canal Street will pass diagonally through two of their most valuable squares, the Street Commissioner assured the Gentlemen of the Committee that the Common Council, upon an inspection of the Map would consider their proposition in a generous light. And he now recommends the terms proposed.

The difficulties with Mr Duggan having been adjusted according to his wishes, and the necessary applications to treat having been made with all the other proprietors, there remains nothing further to be done, until the Attorney is directed to prepare and serve upon the Sheriff the usual precept for summoning the Jury.

The Street Commissioner sincerely hopes that this business will not be suffered to lie over. The proprietors are now known, difficulties and embarrassments are continually creeping in by every sale or lease. These operations have already been too long delayed, and perhaps a period will not again arrive when this subject can be better handled by the Corporation [197] and more advantageously to the community.

All which is respectfully submitted.

*The Committee to whom the subject was referred, reported the draft of a memorial to the Legislature and of a Bill " for the more speedy collection of Taxes and Assessments in the city of New York," which were read and referred to the Counsel of the Board.

†The same Committee was likewise instructed to prepare a Law to amend the Poor Law.

The following Memorial, together with a draft of a Law for dividing the Seventh Ward of this city, and for extending the time of Charter elections, was presented, and approved and ordered to be engrossed and the Seal of the [198] Corporation to be thereunto affixed and to be forwarded to the Legislature at Albany

To the Honorable the Legislature of the State of New York, in Senate and Assembly convened.

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York

Respectfully sheweth,

That since the passing of the last act for dividing and regulating the respective wards of the said City, by reason of the progressive and unequal increase of population within the same, a considerable inequality exists in the representation of the inhabitants in the Common Council. That the number of the inhabitants residing in the Seventh Ward greatly exceeds the number contained in any of the other wards of the said city, and that it hath been found altogether impracticable to receive the votes of the aforesaid ward at elections for representatives in the Legislature or for Charter Officers.

Your Memorialists considering that an equality in representation is congenial to the spirit of our government and essential to the preservation of liberty: Do therefore respectfully pray, that the Seventh Ward of the City of New York may be divided into two separate and distinct wards in the manner and according to the [199] boundaries contained in the draft of a bill, hereunto annexed and submitted to the consideration of your honorable body.

And Your Memorialists further represent, that it has been found impracticable to receive the votes of Electors at Elections for Charter Officers in other wards of the said city within the period at present allowed by law. And that many Electors have been deprived of an

*Marginal note reads *See P. 65 204.*—ED.

opportunity of giving in their suffrages, although they have attended for that purpose.

Your Memorialists therefore respectfully pray, that the period allowed by law for the election of Charter Officers may hereafter be extended to three days, subject in every other respect to the provisions contained in the present act which regulates these elections.

And Your Memorialists &c[a]

Draft of the Bill.

An Act for dividing the Seventh Ward of the City of New York, and for extending the time of Charter Elections in the said City.

The preamble recites the substance of the Memorial.

Be it enacted &c[a] That from and immediately after the passing of this Act, the Seventh Ward of the said City of New York, shall be divided into and [200] compose two separate and distinct wards in manner following, to wit; That so much and such part of the said Seventh Ward as is at present contained within a line commencing at and to be drawn from Catharine Market at the East river and thence running up Catharine Street until its intersecting with Division Street and thence through the middle of Division Street until it enters into and unites with Grand Street and thence through the middle of Grand Street to the East river unto the place of beginning so as to include and comprehend the easterly side of Catharine Street and the Southerly sides of Division Street and of Grand Street aforesaid, shall constitute and compose one separate and distinct ward and be called and known by the name of the Seventh Ward of the City of New York: And that all the rest and residue of the Seventh Ward of the said city as bounded, described and regulated by the said Act, shall hereafter constitute and compose another separate and distinct ward, and be called and known by the name of the Tenth Ward of the said City.

And be it further enacted &c[a] that the Electors of the said Seventh Ward, as the same is described and bounded by this Act, possessing the legal qualifications for such purpose shall hereafter elect and choose, One Alderman, One Assistant, Two Assessors, One Collector and two Constables. And further, that the Electors of [201] the said Tenth Ward as the same is described and bounded by the present Act, possessing the legal qualifications for such purpose, shall also hereafter elect and choose one Alderman, One Assistant, two Assessors, one Collector and two Constables. And further that all such other Officers shall be elected and appointed in the said Seventh and Tenth Wards

respectively as are by law to be elected or appointed in the other respective wards of the said city. Provided always and it is hereby directed that the Alderman and Assistant, Assessors, Collector and Constables of the present Seventh Ward, elected before the passing of this Act, shall remain in Office and continue to perform their respective duties for the said Seventh and Tenth Wards, until the first Monday in December next, in the same manner as if the present Act had never been passed.

And be it further enacted &c. That elections for Charter Officers of the City of New York shall hereafter be held and continued and the polls of election remain open for the period of three days, commencing at the time and subject in every other respect to the regulations prescribed and directed in and by the Act entitled an Act "relative to the election of Charter Officers in the City of New York."

*The City Treasurer pursuant to the order of the Board reported, that James Grant, Merchant from Philadelphia, died in this city in the year 1799. [202] That having collected the monies due to him, and paid the respective creditors the amount of their demands against the said James Grant, there was a ballance of $97.70. remaining in his hands which was carried to the credit of the City and County of New York.

Ordered that the same be referred to the Attorney.

An Application from the Assignees of the estate [of] Theophylact Bache deceased, requesting that the quit due on four houses and Lots, situate in Water and Front Streets, belonging to said Estate may be ascertained, was referred to the Alderman and Assistant of the First Ward.

Resolved that the Road Committee be authorized to cause so much earth to be removed from Art Street between Broadway and the Bridge, as may be necessary to open said Road to such width that Carriages may with safety pass each other.

The Board proceeded to elect by ballot Three Commissioners of the Alms House and Bridewell, in the place of

John J. Westervelt, whose appointment was vacated, on account of filling the office of Purveyor of the Alms House, and of John Murray Junr and John Targee resigned.

[203] On counting the Ballots Peter Bonnett, George Warner and Philip J. Arcularius were duly elected.

the Legislature on the subject, which were approved, ordered to be engrossed and the Seal of this Corporation to be thereunto affixed, and to be forwarded to the Legislature at Albany.

To the Honorable the Legislature of the State of New York in Senate and Assembly, convened

The Memorial of the Mayor, Aldermen [205] and Commonalty of the City of New York in Common Council convened.

Respectfully sheweth

That the collection of taxes and Assessments in the said city on Lots belonging to various descriptions of persons is attended with great delay and inconvenience, and that the existing Laws do not furnish any adequate remedy. Your Memorialists refer especially to cases in which those Lots are vacant or in which their owners are unknown or being known are minors or absent or refuse or neglect to pay the said taxes and assessments and have no personal estate on which the same can be levied.

That where taxes or assessments, on account of either of the above circumstances cannot be collected or remain unpaid, the individuals in the respective wards in the first case are subjected to the hardship and injustice of making up the deficiencies and are rarely, if ever reimbursed, on account of the tedious and complicated mode pointed out by law for that purpose. And in the second, Your Memorialists are obliged to advance large sums of money to effect the necessary regulations and improvements of the said city.

With respect to the Collection of taxes in the City of New York, Your Memorialists conceive that circumstances require a greater promptitude than is necessary in other parts of the State. When the [206] indispensible and increasing expenses attendant on its multiplied concerns, mutations which are continually taking place in titles, and which are as secret as they are constant: the disposition too common to evade or delay the payment of those impositions which are made for salutary and general purposes. The inconsiderableness of their individual, yet the importance of their aggregate amount, and the embarrassments which ensue on the delay of their collection: When these considerations are accurately weighed, Your Memorialists feel a confidence that Your Honourable Body will agree in the opinion that different rules ought to prevail in the City of New York on the subject of taxation from those which are adapted for the counties at large.

Your Memorialists do therefore respectfully pray that Your Honourable Body will be pleased to take the subject of this Memorial into

consideration and grant such relief in the premises, as in the wisdom of Your Honourable Body shall be deemed just and proper.

New York. 3d March 1808. And Your Memorialists &c.

Draft of a Law for the more speedy collection of Taxes and Assessments in the City of New York.

1 Be it enacted &c. That whenever any tax of any description on Lands or Tenements within the City of New York shall remain un- [207] paid on the day upon which the Collectors are limited by Law to account for the collection of the same, and the Collectors of the Ward in which the same shall be charged shall make oath before the Mayor or Recorder or one of the Aldermen of the said City, that the owner or owners of the premises on which the same is imposed, cannot upon diligent inquiry be found, or that being found, he, she or they have not sufficient personal estate whereon the said Tax can be levied, it shall be lawful for the Mayor, Aldermen and Commonalty of the City of New York to take order for advertising the same in two or more of the public newspapers printed in the said City, for three weeks, each day successively (except Sundays) thereby requiring the owners of such lands and tenements respectively to pay the amount of such tax so remaining unpaid, to the Treasurer or Chamberlain of the said City; and that if default shall be made in such payment, such lands and tenements will be sold at public auction at a day and place therein to be specified, for the lowest term of years at which any person shall offer to take the same in consideration of advancing the amounts of the taxes so remaining unpaid, together with all costs and charges aforesaid, then it shall and may be lawful for the said Mayor, Aldermen and Commonalty, to cause such lands and tenements to be sold at public auction, for a term of years, for the purposes and in the manner expressed in the said advertisement, and to give a declaration of such sale, to the purchaser under the Common Seal of the said City: And such purchaser [208] his executors, administrators and assigns, shall by virtue thereof and of this Act, lawfully hold and enjoy the same for his and their own proper use against the owner or owners thereof, and all, persons claiming under him or them until his said term therein shall be fully complete and ended; and be at liberty to remove all the buildings which he, she or they shall erect thereon during the said term within one month after the expiration of the said term.

2. And be it further enacted, That all the provisions, herein before

made relative to taxes on Lands or Tenements within the City of New York, remaining unpaid, Shall apply to all such taxes charged on Lands or Tenements within the said city, as shall appear by the returns of the respective collectors at any time heretofore to be in arrear.

3. And be it further enacted, That whenever arrearages of any tax shall be collected in manner aforesaid, it shall be carried to the credit of the Ward in which it shall be charged.

4. And be it further enacted, That the provisions contained in the seventeenth section of the Act, entitled "An Act for the better govern- "ment of the City of New York and to grant certain additional "powers and rights to the Mayor Aldermen and Commonalty thereof, "and to explain, continue and amend the respective acts therein "mentioned" passed April 2. 1806. Shall [209] be and are hereby extended to cases in which the Collector mentioned in the said section shall make Affidavit in the manner therein specified that the owner or owners of any Lot or Lots therein described is or are unknown or cannot upon diligent enquiry be found.

*The following draft of a Bill was also reported, approved, ordered to be engrossed and to be transmitted to the Legislature at Albany.

An Act to amend an Act "entitled an Act for the settlement and "relief of the Poor and for other purposes."

Be it enacted &c[a] That the person or persons, who may have or hereafter shall come into any City or Town within this State, from any other State within the United States of America shall not be deemed and adjudged legally settled agreeable to the first section of the Act hereby amended, unless the party shall first prove to the satisfaction of the Overseers of the poor of such city or town, or any person having the same power and authority, that after his or her arrival therein, he or she, as the case may be, shall have acquired such requisites to constitute a settlement as is necessary in and by the laws of such State from whence he or she may have or hereafter shall come as aforesaid.

And be it further enacted, That all and singular the power and authority vested in the Mayor, Recorder and Aldermen of the City of New York [210] or any three of them, in and by virtue of the 4th. 9th. 10th. & 11th Sections of an Act entitled an Act "Concerning Apprentices and Servants," be and the same are hereby given to and conferred upon the Commissioners of the Alms House and Bridewell of the City of New York, in relation to the Children bound out agreeable to the directions of the said Fourth Section of the Act last aforesaid.

*Marginal note reads *See. P. 197.*—ED.

A Petition from a large number of labourers in this City, out of employment in consequence of the existing Embargo, praying for an increase of rations for the support of their families, was referred to the Committee of ways and means with discretionary power to employ suitable persons to examine into the wants of the petitioners, and to report to the Common Council what additional relief ought to be extended.

The following communication from the Commissioners of the Alms House and Bridewell was presented.

Alms House, March 2d 1808

Sir

In pursuance of our appointment, we have this day convened and taken a general view of the arrangements of the Alms House, which we believe to be susceptible of many alterations and amendments that [211] will require much application and great attention to accomplish; but under the existing laws, we do not conceive ourselves sufficiently authorized to act effectually and therefore take the liberty of suggesting to the Honourable the Common Council the expediency of giving the Commissioners of the Alms House and Bridewell full power to do and perform every Act and thing necessary for the better regulation, improvement and government of those establishments, except the application of money and appointment of officers. So soon as the Honourable Common Council may please to vest the Commissioners with the necessary powers, we will then commence the business and will endeavour to the utmost of our power to perform the duties of our appointment in such way as may encrease the usefulness of those institutions, and be most beneficial to the public.

We are very respectfully

The following Report was presented

*The Alderman and Assistant of the First Ward and the Street Commissioner to whom was referred the petition of sundry inhabitants of Broadstreet, praying that the drain on the west side of the said Street may be opened and cleansed, have the honor to

Report

That this drain is composed of Wood, and as appears from the Minutes of the Common Council, has lain since the year 1790 when the pavement in Broad Street was taken up and altered from the old method of [219] conveying the water through the centre of the Streets. It is now obstructed opposite the dwelling of M^{r} Stevenson and from the long time it has been down, it is very probable that when opened, it will be found to be very rotten and to require considerable repairs, if not to be made new.

From the best information Your Committee have been able to obtain, they believe that, taking into consideration the great expence that the repaving so wide a street would be to its inhabitants, at a time when the city was resuscitating from the calamities of a ruinous war, the Common Council consented to defray the expense of the drain out of the public Treasury, without in the least compromitting themselves with respect to future alterations or repairs.

Your Committee further report, that this drain is intended for the sole purpose of discharging the water from the cellars; That no part of it receives the water from the Street; and that it has invariably for many years, been the practice of the Common Council, in such cases, to assess the persons benefitted, agreeably to Law, without contributing any thing towards it themselves.

Your Committee therefore recommend that the drain be opened and repaired as far as it may be deemed, upon examination to require it; and if so rotten as to be irreparable, that a new drain be constructed

an L on the North and South sides thereof as far as the permanent line, was referred to the same Committee.

[228] A Petition of William Wright and William Post butchers, on the subject of their supplies of Beef, for the rations issued at the Alms House, requesting that a higher price may be allowed for the same, than their contract price for Beef furnished for the Alms House and Bridewell, was read and ordered to lie on the table.

*An Application of Jacob Morton late Comptroller, for compensation for drafting deeds for the Inclenberg Lots, was referred to the Comptroller.

A Petition of sundry Masters and Owners of vessels using the public Slips recommending the leasing the same to Charles Smith former lessee, was referred to the Committee on Wharves Slips and Piers.

†An Application of Benjamin Waldron to be permitted to blast a rock in the public road at the 3. Mile Stone and to retain the stone, as compensation for his expense and labour, was referred to the Road Committee with power to grant the privilege, if proper.

An Application of Carey Ludlow respecting a judgment obtained against him by John Strong for part of a partition wall built by him adjoining the premises lately held by the petitioner, belonging to the Corporation in Chatham Street, and for which he has applied for a renew- [229] al of the lease; and further requesting that the Attorney of the Board may be directed to defend another suit brought against him in the Justices Court, to be tried the 15th inst. for $50 damages for the expense of cutting off the gable end of the House on the premises aforesaid, which projected over the Lot of the said Strong, was referred to the Alderman and Assistant of the Sixth Ward and the Attorney of the Board.

‡A Petition of Henry Ryer for a stand in Duane Market was referred to the Market Committee.

An Application of Jacob Patcher, butcher, to be permitted to erect Scales for weighing meat in the lower end of the Flymarket, was referred to the same Committee.

A Petition of Francis Bibbens requesting to be employed in taking charge of the Park, was referred to the Superintendant of the Alms House.

The Finance Committee

Report

That the following is a statement, as nearly as can be ascertained at present, of the debts due to the Corporation and the amount that will probably be paid into the Treasury by the 1st May next.

			Probable receipts by. 1st May.
Taxes	$50.892.13		
deduct Comm^{n} & Insolv^{ts}	9.000		
		41.892.13.	$15.000.

*The Committee to whom was referred the Petition of William Wright and William Post butchers, praying relief for the loss they sustained in supplying the Committee of ways and means with Beef to be distributed to the poor of the City:

Report

That they have maturely considered the subject and the situation of said petitioners, and are of opinion, that from the prompt manner in which they supplied the Committee when called upon, and which far exceeded the quantity calculated upon, as obliged them from the pressing demand to purchase Beef of a superior, when that of an ordinary quality would have answered the purpose. Therefore recommend that the petitioners be relieved in the premises, and that they be allowed for the Beef [235] so furnished the Committee, Four Dollars and Twenty five cents for each hundred, which will nearly if not quite indemnify them for the loss they may have sustained.

The Attorney presented the following Report.

†The Attorney of the Board to whom was referred the Petition of Divie Bethune, Attorney of the Heirs of James Grant with the accompanying documents, has the honor to

Report

That he has examined the instruments constituting Mr Bethune Attorney of the heirs and finds them correctly drawn. The application is however deficient in a very material point, as it furnishes no evidence or proof whatsoever of the consanguinity or heirship of those on whose account it is made. This is left to be presumed, and altho' that presumption may be correct, yet the undersigned is of opinion, that the Board ought to receive, in cases like this, the best evidence which can reasonably be supposed to exist. He therefore recommends that the petition in this case be dismissed.

The Comptroller presented the following Report.

†The Comptroller has the honor to report on the Petition of Garrit Walgrove, John Dennison and George Walgrove, weighers of Hay, the following statement.

On the 1^st of January 1806. the [237] Petitioners agreed to rent of the Corporation the several stands for weighing hay which they now occupy: viz^t Garrit Walgrove the one at Whitehall Slip for $300.

John Dennison, at George' Slip on the East river or some other convenient place for $250. and

George Walgrove near the new Market at the foot of Duane Street for $250 per an. payable quarterly.

There was due 1 Year's rent from each on the 1^st January last.

From a statement exhibited by Garrit Walgrove it appears, that in the year 1806. the amount received by him for weighing was $895 and in 1807. $952.

George Walgroves return for 1806 is $904.25 and for 1807. $925.50.

M^r Dennison has not yet made a report altho' requested some time since.

From the above statement of facts, which are all that have come to his knowledge in this business, he finds a difficulty in ascertaining

*Marginal note reads *See. P. 215.*—Ed.

†Marginal note reads *See. P. 161. & further Report P. 265.*—Ed.

whether or not the present ground rent is at an equitable rate. As the contract was but for one year, perhaps it would have been proper for the petitioners to have applied for an alteration in the price at the end of the term, if they considered themselves aggrieved, [238] and not to have delayed an application for reduction of rent until upwards of two years have elasped. Whether the Corporation will think it just to make any abatement for the year past, or reduce the price for the future, is submitted to their wisdom and discretion.

The Comptroller would take the liberty of suggesting, whether a lease for a term of years might not be given the present occupants, at a price to be fixed on by a Committee of the Board, to be appointed for that purpose.

March. 14th. Respectfully submitted by
1808 G. N. Bleecker. Compr

Ordered that the same be referred to the Finance Committee.

The Comptroller reported the sum of $243.43. in the Treasury.

*The Street Commissioner presented the following Communication.

The Street Commissioner has the honor to represent, that from the numerous subdivisions of property, the rapid improvements by buildings and the encreased value of Lots of ground in this city: it has become necessary for the promotion of justice, that the surveys should be made with more precision than they heretofore have been done: and many surveys which were [239] supposed to be correct, are found upon more strict examination to be so inaccurate as to render it difficult for the Surveyors to ascertain the true position of the lots or the streets by which they are bounded. And the aforesaid difficulties have been greatly increased by the practice of individual proprietors dividing their land and selling it in lots by a Map exhibiting their particular dimensions and binding them by Streets therein designated, without causing sufficient surveys to be made, or land marks to be placed upon the premises to determine the position of such streets.

The Street Commissioner further represents, that for the want of such sufficient evidence of the place of departure, the original direction of the Streets, or the true dimensions of the blocks or squares, the Surveyors have been led into repeated errors, and perhaps with the best intentions, have directed buildings to be placed upon the Streets, which the Corporation have been frequently obliged to remove at a considerable expense, and are continually liable to impositions

*Marginal note reads *See Vol. 19. P. 410.*—Ed.

of this nature, without possessing adequate powers to correct this growing evil. It therefore seems to be necessary, in order that the Corporation may escape these expenses in future, which may become very burthensome, as well as to secure the citizens in the peaceable enjoyment of their property, that application be made to the Legislature to grant them adequate power in the premises, or otherwise to place the subject matter of this communication upon a [240] more secure, certain and permanent footing by appointing some special persons with power for that purpose.

The Street Commissioner has given the subject a thorough investigation, and is persuaded, that it will be best for the Corporation to make an immediate application for such ample powers as the case requires, and that if it is delayed longer, considerable difficulties will be added before the meeting of the next legislature.

With respect to the Bill itself, the Street Commissioner has found great difficulties and as it requires considerable knowledge of the existing rights of individuals, it ought to be drafted in such manner as not to oppress them while it gave the necessary power to the Corporation to effect the permanent surveys, and to do justice to interested proprietors.

Under these impressions the Street Commissioner recommends, that the Counsel and Attorney of the Board be directed to draft the copy of a Bill to be laid before the Legislature for this purpose, and present such draft to this Board on Monday next: and the Street Commissioner suggests the propriety of instructing them to introduce in the said Bill, a clause directing the Justices of the Supreme Court to appoint three persons, one of whom ought to be a [241] Surveyor, to adjudge and finally determine upon the lines and monuments of any block or square laid out by direction of the Common Council, by virtue of the said Bill, in case a majority of the proprietors of the said property should object to the mensuration.

Similar authority has been given by the Legislature to "the Justices to nominate disinterested persons" in the Law lately appointing "Commissioners of Streets and Roads." A clause to that effect would relieve the Corporation from the censure of an erroneous survey, and clear them from the most remote idea of partiallity.

All which is respectfully submitted

March. 14th. John S. Hunn.

Ordered that the same be referred to Aldermen Mott Mesier Hopkins Messrs Ludlam Bloodgood Torbert and Ward.

The Street Commissioner represented that the contracts for delivering earth at the Collect are nearly completed, and that he has not entered into any new engagements since the 5th inst. as it appears necessary to stop the carmen until a considerable portion of the mud is removed. That accounts for work, during the last week, to the amount of $400 have been presented, for the payment of [242] which provision has not been made. The Recorder informed the Board that he had written to the Secretary at war on the subject of obtaining employment for an additional number of Labourers at Governor's island, to which he had received the following answer

War Department
March. 14. 1808

Sir

Your letter of the 9th inst. on the subject [246] of employing the laborers belonging to the Port of New York has been received. Col.

Williams who has been detained here longer than was expected, will set out immediately for that place, and will undoubtedly find employment for many of the persons alluded to in your letter. I shall give directions to employ as great a number of labourers as can be conveniently employed to advantage at the different works in and about your city and harbor.

Ordered that the same be referred to the *Counsel and Attorney of the Board, with directions to report a draft of a Memorial and Bill to the Legislature, in conformity, at the next meeting.

†The Road Committee reported, that agreeably to the resolution of the Board to cause [250] the public roads to be immediately repaired, that they had examined them and had given orders for finishing the ends of the Stone Bridges on the Manhattan Avenue near the powder House and Mr Posts; as also to reduce Inclenberg Hill on the Boston road forthwith.

The following Report was presented.

The Committee to whom was referred the ‡petition of Henry Brevoort, David Mann Henry Spingler, Joseph Mott and Mary Brady together with Doctor Ardens letter to the Corporation on the subject of the Assessment on Broadway between Art Street and the Bowery, respectfully

Report.

That after mature consideration of all the circumstances of the case, it evidently appears to them that a misunderstanding at the commencement of the business of opening Broadway has occurred between the petitioners and the Street Commissioner; and that should a new assessment take place, very great perplexity and difficulty as well as expense would attend the measure. And considering that the Trustees of the Sailors Snug Harbour, a benevolent institution engaged with the Corporation in ameliorating the distresses of the poor, have made similar objection with the above mentioned petitioners, and upon at least as good grounds as any of them, there [251] is no reason why they should not be placed upon as favourable a footing as any of the proprietors that have consented to cede the Street.

The Committee therefore recommend in conformity with the opinion of the Committee before appointed, to investigate the same subject, that as no deed of cession is yet obtained from Doctor Arden or

Ordered that the same be confirmed.

The following Report was presented.

The Committee to whom was referred the *Communication of the Street Commissioner relative to the cession of ground for Canal Street proposed to be made by the Corporation of Trinity Church

Report

That viewing all the circumstances connected with the subject and finding from the experience of Amity Street and other Streets that the whole value of a Street assessed upon the adjacent property becomes oppressive, [252] they believe it would be most conducive, to the furtherance of the object, to accept of the cession proposed by the Corporation of Trinity Church, upon the terms they mention as stated in the communication of the Street Commissioner; and they recommend that the Street Commissioner be directed to procure the deeds of cession accordingly.

The following communication was presented by the Attorney.

†The undersigned has the honor to inform the Corporation that Stephen Colver's suit against them is noticed for trial at the next circuit court of the United States, which commences on the 1st day of April next.

‡The Common Council sometime since directed that Messrs Colden and Baldwin should be retained as Assistant Counsel, the cause being of such importance as, in the opinion of Mr Harrison then Counsel of the Board, to require their aid. Should the Board think proper to sanction this arrangement, the undersigned will wait on them and

The Comptroller presented the following Report

The Comptroller has the honor to

Report

on the several petitions of John Moore presented the 25th May 22d June and 10th August last, respecting the ground he occupies adjoining the Arsenal and which he holds under John McLean Commissary of Military Stores.*

That from all the circumstances which have come to his knowledge on this business it appears that the Corporation assigned to the State for the purpose of erecting an Arsenal the ground which is now covered by that Building. It does not appear that any grant was made of this property to the State, and from the representation of a Gentleman† who was one of a Committee in behalf of the Corporation for the purpose of erecting the Arsenal, the yard adjoining was fenced in and was considered as belonging to the Corporation.

Mr Moore has paid several sums of money to Mr McLean for rent of the premises [254] he now occupies, and wishes to know whether he is to pay the residue that is owing to him or the Corporation. There are several circumstances connected with this business which the Comptroller respectfully suggests might be proper for the decision of a Committee of this Honorable Board, and as Mr Moore is very solicitous to have the controversy between himself and Mr McLean settled, a reference of the papers appertaining to the subject.

The Street Commissioner represented that two weeks wages were due to the Carmen and Labourers employed at the Collect, for the payment [255] of which provision is necessary.

Warr[t] N° 859. Ordered that a warrant be issued in favour of John Bingham Esq[r] for $500 to discharge the same.

The City Inspector reported drafts of Ordinances, for the purpose of correcting various nuisances, from N° 4162 to N° 4189. inclusive.

Ordered that the same do pass.

M[r] Mulligan presented the following draft of a Memorial to the Legislature which was unanimously approved.

To the Honorable the Legislature of the State of New York, in Senate and Assembly convened.

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York respectfully sheweth.

That the Act of the Legislature of this State to restrain Insurance of Lottery Tickets, passed the 7[th] day of April 1807. has had a very favourable tendency towards diminishing the evils which it was intended to remedy.

That notwithstanding the views of the Legislature in passing that act, Your Memorialists have reason to believe its provisions are evaded [256] by various artful pretences, so as still to subject the operation of the prejudicial consequences arising from the Insurance of Lottery Tickets.

That Your Memorialists are persuaded, that the permission of such insurance, in any way, will be productive of very pernicious and demoralizing effects, and cannot be attended with any good consequences commensurate with the evils it may occasion.

That Your Memorialists having received information, that a Bill is pending before Your Honorable Body, for the partial repeal of the said Act, for the purpose of establishing and licencing in this city, Offices for the Insurance of Lottery Tickets, consider it a solemn duty, the performance of which they owe to the community they represent, most respectfully to memorialize Your Honorable Body on this subject, and to request that no bill may be passed by which the insurance of Lottery Tickets shall receive the sanction of Law.

Ordered that the same be engrossed with the usual formalities, and forwarded to the Legislature.

Mr Ward offered the following resolution

The following Report was presented

The Committee to whom was referred the *Communication enclosing a circular letter issued by Tammany Society respecting the interment of the relics of American Seamen, Soldiers and Citizens who perished on board the Jersey Prison Ship at the Wallabout, during the revolutionary War,

Report

That they have taken the subject of that communication into consideration and while it brings to their recollection an event which must awaken the sensibility of every American citizen, still it seems to have been reserved for the Tammany Society alone to have rescued from oblivion and place on an imperishable basis the memory of a large portion of our unfortunate but much lamented fellow citizens who perished defending the precious rights of our liberty and Independence.

Your Committee are therefore of an opinion that the interment of the bones of [268] our unfortunate countrymen in the manner as proposed will be the means of transmitting to posterity an event which will be deeply engraved on the hearts of every American.

Feeling on an occasion of this nature the importance of the communication do highly approve of the laudable and patriotic measures adopted by Tammany Society, and do recommend that we give to an undertaking of this nature every encouragement that may be consistent with the duties of the Common Council.

Your Committee therefore further recommend that the following resolutions may be adopted, vizt

Resolved that the Common Council do highly approve of the patriotic measures taken by the Tammany Society or Columbian Order for interring the remains of the American Seamen, soldiers and Citi-

The following Report was presented.

‡The undersigned Counsel and Attorney of the Board to whom was referred a resolution, directing the draft of a Memorial to the Legislature for a grant of ground through which to open a continuation of Bridge Street, to be prepared, and also the draft of a Bill for that purpose, have the honor to Report the inclosed for the consideration of the Common Council.

[270] To the Honorable the Legislature of the State of New York, in Senate and Assembly convened

The Memorial of the Mayor Aldermen and Commonalty of the City of New York in Common Council convened

Most respectfully sheweth

That they have received a petition from a large number of the most respectable Freeholders and Inhabitants residing in the neighborhood of the Government house in the said City of New York, praying that measures might be taken for opening a continuation of Bridge Street, through the ground adjacent to the said Government House to the Battery. That Your Memorialists are deeply impressed with the

importance of such a measure, and are satisfied that it would conduce essentially to the health, convenience and general interests of that part of the city.

Your Memorialists do therefore respectfully solicit the attention of the Legislature to this subject. Your Memorialists have also understood that a Bill is or has been before Your Honorable body, the object of which is to cede to the United States, for public purposes, the ground before mentioned. Your Memorialists beg leave to express it as their opinion, that the grant they solicit may be made, without prejudice to the interests of the United States, as Bridge Street is narrow, and there is a sufficiency of ground, in the estimation of [271] Your Memorialists, for both purposes. Your Memorialists wish however to be understood, as having no desire to interfere with any plans that may be adopted for the benefit of the United States, being satisfied that they are entitled to the first and highest consideration. Should it be found on investigation that Your Honorable Body can, in the grant to the United States, make a sufficient reservation for the opening of Bridge Street, Your Memorialists entertain a confidence that the present application will receive the favourable notice of Your Honorable Body.

Draft of a Bill to cede to the Corporation of the City of New York, a quantity of ground for the opening a continuation of Bridge Street.

Be it enacted by the People of the State of New York, represented in Senate and Assembly, that so much of the public ground adjacent to the Government House in the City of New York, as shall be necessary to open and extend Bridge Street in continuation from its present limits to the Battery, be and the same is hereby granted to the Mayor, Aldermen and Commonalty of the City of New York, for that purpose. Provided nevertheless that the opening and extending the said Street shall not interfere with the plans [272] or arrangements of the United States for defensive preparation:

Which, being severally read, were approved, ordered to be engrossed with the usual formalities and to be forwarded to the Legislature.

The Comptroller presented the following Report

Ordered that the same be referred to the Committee on Wharves, Slips and Piers.

The Comptroller represented that it would be adviseable to contract for the renting of the Wehawk, Fort Lee and Bull's ferries, which at present are unproductive to the Corporation.

Ordered that the Comptroller advertise for proposals for renting such of the public Ferries, the lease of which expire this Spring, and all other Ferries for which leases have not been granted by this Board.

[273] The Street Commissioner presented the following communication.

The Street Commissioner has the honor to represent to the Board that the walks in every part of the city have become so much broken, and in many places so dangerous to passengers, that very repeated applications are made to him to cause them to be repaired which he is unable to do, but in a very limited manner, as he has no person under him at present to perform that duty. Mr Hardie, however, has delivered notices in several streets, but his other more important avocations render it impossible for him to give the subject so much of his time as the exigencies require.

The Street Commissioner is of opinion that the whole and entire time of a person of activity and attention ought to be dedicated to this work for at least three or four of the ensuing months, otherwise the remote parts of the city will not be notified in due time to enable the workmen to complete it before half the summer has expired; and he therefore suggests the propriety of appointing a person of sufficient capacity and activity, to whom this duty may be assigned.

The Street Commissioner further represents that he has no predilection in favour of any particular person, and as he deems it [274] unadviseable to recommend, he hopes the Board will not consider him responsible for the performances of the duties of a third person in the election of whom he has no choice. But he thinks it his duty to premise that the person so to be appointed in order to render himself useful, ought at least to possess the ability to measure the pavement or work required, to calculate the contents in square yards or feet, to make out the expense, to make judicious agreements with the pavers to prevent their imposing upon the citizens and to judge of the sufficiency of the work when done.

The Street Commissioner further submits to the Board, whether it is not expedient to appoint another person to attend to the removal of incumbrances which have become very incommoding to the citizens.

All which is respectfully submitted.

March. 28th 1808 John S. Hunn.

Ordered That Messrs Moran & Otterson at present employed by the City Inspector be attached to the Street Commissioner's department to execute the duties mentioned in the preceding communication.

The Street Commissioner reported an Assessment for regulating *Orange Street from Hester Street to the present pavement near [275] Cross Street which was confirmed and William Dustan was appointed Collector.

The Street Commissioner represented that the wages accruing to persons employed at the Collect and unprovided for amounted to above $300. and that the Contractors have brought in Tickets to the amount of $300. more. He therefore recommended that a warrant be issued on account of the same for $500.

Warrt N° 868. Ordered that a warrant be issued in favour of John Bingham Esqr to discharge the same for $500.

The City Inspector reported drafts of Ordinances for the purpose of correcting nuisances from N° 4190. to N° 4219. inclusive.

Ordered that the same do pass.

The Clerk presented the following communication.

The Clerk has the honour to represent, that at the last meeting of the Common Council, on hearing the †Petition of the Trustees of the African Zion Methodist Episcopal Church, a warrant was ordered in favour of the Collector for $28. to exonerate said Society from an Assessment for the regulation of First Street.

On investigation it appears that the Lot occupied as a burial ground, on which [276] said Assessment is levied, belongs to some other African Society, and Mr Dustan the Collector informs the Clerk that means are provided to discharge the same.

As some mistake therefore has arisen in respect to the merits of the petition, it may be proper perhaps for the Board to rescind their order, and to permit the petitioners to withdraw their petition.

Which is respectfully submitted

March. 28th 1808. John Pintard.

Ordered that the same be confirmed.

Resolved that the Road Committee be empowered to permit Benjamin Waldron to blast such rocks in the public roads which obstruct the same, for his private benefit and without any expense to this Board, as in their judgment may be for the improvement of said roads.

The Recorder laid before the Board the following letter from the Mayor.

Albany 25th March. 1808

Sir

I send you by Mr Fairlie for the information of the Common Council, three [279] Newspapers printed by the State printers which contain most of the Acts, passed this session, that apply immediately to the City of New York These acts being published officially are sufficiently authenticated for every purpose that may be wanted by the Common Council.

The Common Council will observe that no notice has been taken in the Act for the erection of a new Arsenal of the intended appropriation of the present one for the use of the Free School. This was considered as an arrangement proper to be made by the Common Council and the Trustees of that establishment without the interference of the Legislature: but it has been fully understood that the design of the Corporation as expressed in their memorial will be fully carried into effect. The Free School is undoubtedly one of the most useful institutions we have, and I have no doubt will receive additional patronage from the Corporation. To prevent any future misunderstanding I would recommend that the agreement between the Common Council and the Trustees of the Free School be reduced to writing and signed.

The Street Commissioner has informed me that there is some inaccuracy in the description of the boundaries of the 7th Ward His suggestion came too late, but if it is deemed [280] of primary importance to rectify the error, if any, and the Common Council will signify their wishes to that effect, I will endeavour to do it.

The Act authorizing the cession of soil and jurisdiction to the Ud States for the purpose of fortifications is among those transmitted.

The Commissioners constituted by that act will meet in New York shortly after the rising of the Legislature. Additional appropriations will, in all probability, be made for the purchase of Artillery, Arms and Ammunition.

A Bill has passed the Senate appropriating $100.000 to aid in and expedite the defence of the city and port of New York. If this bill passes the Assembly, which I confidently hope it will, I shall send a copy to the Common Council The Governor assured me yesterday that he will immediately proceed to the execution of the powers committed to him by this Bill if, [it] should pass into a Law.

The Bill respecting the poor laws has passed the Senate, it is now before the Assembly. The bill indicated by the Common Council respecting the collection of taxes is now under consideration. It does not strike me in a favorable point of view. If the time of sale is extended, perhaps, I may give it my support.

The Memorial against the Insurance Lottery Offices will be presented to the [281] Assembly this morning.

I am with every sentiment of respect for the Gentlemen of the Common Council,

Your most obed^{t} serv^{t}

P. C. Van Wyck. Esq^{r} Dewitt Clinton.

Ordered that the Laws referred to in the preceding letter be published in the newspapers employed by this Board.

A Report from the Police Office that Cap^{t} Darling had suspended David Halsted, for sleeping on his post, and that

Cap^{t} Van Wart had suspended John Devine for the like offence, was referred to the Watch Committee.

A Petition of *Thomas Ross in confinement as security in a Bastardy recognizance for Robert Miller, setting forth his distressed and destitute situation, and praying to be released, was referred to the Commissioners of the Alms House with power to discharge him if they should judge proper.

A Petition of Benoit Vieusse praying that the Ordinance N^{o} 4219. directing him to cause the vault belonging to the house N^{o} 56 Pearl Street, to be filled with earth may be repealed, and that he may be allowed to empty the same, was referred to the Alderman & Assistant of the First Ward.

[282] Petitions of John Roshore to be appointed keeper of the Flagstaff, and of James Tompson offering $225. per annum for the privilege, were referred to the Finance Committee.

The Committee further report, that as the season has arrived when the late objects of the public bounty may be able to procure support for themselves and families by their own industry, they have discontinued issuing any more rations from the Alms House. They have likewise directed Captain Chauncey to discharge the Seamen, admitted by their order, at the Navy Yard.

In consequence of these arrangements the Committee will have it in their power to close the accounts of their expenditures, and to report the total amount to the Board which shall be done with all possible despatch.

The following report was presented

*The Committee appointed by the Corporation to examine the accounts and take charge of the Books of the late Superintendant [285] of the Alms House

Report

That having with the Comptroller carefully examined the accounts and vouchers with the entries in the Books of the Alms House, they find the same to be correct, and that Mr Furman, in order to facilitate the settlement of the accounts, so as finally to close the same, has assumed debts due to the Alms House of $608.50 in consequence of which it appears that a ballance then became due from him to the Corporation of $307.91. which the Committee herewith present to the Board in the late Superintendants check on the Manhattan Bank, signed in his official capacity. The Committee in a former report suggested that a probable ballance of $500. would be due him after a warrant then to be issued in his favour of $2500. but the circumstances of Mr Furmans assuming debts due the Alms House by individuals to the amount above mentioned, caused the ballance to be due from him instead of to him, and which your Committee thought proper to make known, in order that the present and former †report which they have had the honour to present to this Board should correspond with each other. As Mr Furmans accounts are now satisfactorily settled, and as the Corporation are possessed of his and his sureties Bond for

the faithful performance of the duties of [286] his Office, they recommend that the same be handed over to him.

Ordered that the same be confirmed that the warrant be paid into the treasury and that the Bond be cancelled and returned to Mr Furman.

The following Report was presented.

Mr Divie Bethune of the City of New York merchant having preferred a *Petition to the Corporation praying for an order that the estate of James Grant late of the said city deceased may be delivered to him as the Attorney for the heirs of the said James Grant who reside in foreign parts and having produced powers of Attorney authorizing him to act in this behalf and having made oath that Peter Grant, Grizel Grant, Ann Grant and Margaret Grant the persons so constituting him their Attorney are the sole heirs of the said James Grant, all which I have examined, and am of opinion that the prayer of the petitioner ought to be granted upon the usual surety being given to refund, in case of other legal claimants appearing. I am also of opinion that it would be well to have the power of Attorney put upon record.

The Comptroller has the honor to
Report
That the following leases will expire on the 1st of May next.
William Snyder, Lot N° 113 Chatham Street

Mr Ludlow applied to the Board for a renewal of his lease the 4th May.
*29th. April 1807. and the Committee reported the †14th. September following, fixing the price on the lots in Chatham Street on the South east side at the yearly rent of $250. generally, and on the Northwest side of said street from the Arsenal to Barley Street, at the yearly rent of $200.

A Question arises whether the Lease should commence from the 1st of May last at the above rent or from the 1st of May next.

[288] Mr Ludlow contends that as the Board did not fix the price till a length of time after the expiration of the old lease, he ought not to be charged therewith for the past year, and that he has rented out the lots under the old lease for less than the Sum now charged by the Board.

The Comptroller would respectfully solicit the decision of the Board on this business, as well as the mode of leasing the above-mentioned lots of ground which will expire at May next: whether by public or private contract, in case no proposals are made therefor by the middle of April. It would be proper also to authorize the Comptroller to have a survey of the property belonging to the Corporation in Chatham Street made in order to apportion the Lots which are now to be leased in such dimensions as the Board may direct.

Which is respectfully submitted.

April. 4th 1808. G. N. Bleecker, Comptr

Ordered that the ‡Lease of Mr Ludlow be dated from the 1st day of May last agreeably to the terms reported by the Committee on the 14th September following: And that the Comptroller renew the leases which will expire on the 1st of May next in conformity with the principles of said report.

The Street Commissioner presented the following communication

The Street Commissioner covers the Assessment upon the Lots filled in by order of the Common Council in Hester and Rynder Streets, which according to the instructions in the State Law, must be advertised three weeks in two of the newspapers in this city.

The sums charged upon this assessment for filling the lots, are the amounts of actual contracts made, and the apportionment apparently just and proper. The Street Commissioner therefore solicits the Board to confirm the same and to permit the advertisements to be put in the papers agreeably to law.

Which is respectfully submitted.

April. 4th. 1808. John S. Hunn St Commr

Ordered that the same be confirmed.

[290] *The Street Commissioner presented the following communication.

The Street Commissioner has the honor to state, that agreeably to the 3d 4th & 5th Sections of the Law "more effectually to regulate the paving and keeping in repair the several Streets in this city &c." he has divided the paved part of said city into Nine Sections and has appointed the following persons to perform the duties expressed in the said Law, for the ensuing season, Vizt

John Meghan	"	3d & 4th	"
James Hogan	"	5th	"
Charles Mooney	"	6th	"
John McComb	"	7th & 8th	"
Richard Terney	"	9th	"

The Street Commissioner further states that by the 4th Section above mentioned the appointment so to be made must be approved by the Board: and as he is well acquainted with all the persons mentioned, he solicits the Board to confirm the said appointments, subject, however, to any change that may be deemed adviseable.

Which is respectfully submitted

April 4th 1808. John S. Hunn.

Ordered that the same be referred to Alderman Bingham Messrs Campbell & Ward.

* Marginal note reads *See Report P. 358.*—Ed.

[291] The Street Commissioner presented the following report.

*The Street Commissioner has the honor to represent that an Ordinance passed the Common Council on the 12th day of October last, for repaving, raising and improving Oak, Bancker and Chesnut Streets, but that the season was too far expended to perform the work, after it was determined in what particular manner it should be done.

The Street Commissioner now presents profiles of the said Streets, upon which he has drawn pencil lines, designating the kennels of each street, in the manner he recommends the improvement to be made; and which, in his opinion, will make the best improvement of the Street, with the least damage to the dwellings.

It is to be observed that the line drawn for the kennel on the profile of Bancker Street where it intersects Pearl Street, is below the present pavement of that Street. The descent of Bancker Street will be much lessened and made easy and agreeable if the kennel is so adjusted, and to do which it will be necessary to sink about 100 feet of pavement in Pearl Street where it is now extremely broken and, as much as any part of the city, requires to be repaved.

The Street Commissioner therefore seriously recommends that an Ordinance be passed to enable him to make such disposition [292] of this improvement as will redound to the pleasure of the projectors and to the credit of the Common Council. The draft of such Ordinance is herewith presented for their consideration and to be connected, if passed with the other Ordinance above mentioned.

All which is respectfully submitted

April. 4th. 1808. John S. Hunn.

†Ordered that the same be referred to the Alderman and Assistant of the 4th. Ward.

The Street Commissioner informed the Board that a very good Well has lately been discovered in Barley Street near Broadway in a dangerous situation which has been covered up some time in consequence of its being on the line of the Street and that an old building covers the north side of the wall of the Well, to which it answers as part of the foundation.

That There are no Wells within a reasonable distance of this place, and it would be much to the convenience of the neighbourhood if it was made useful: in order to do which it will be only necessary for the Superintendant of repairs to lead it to the Curb in the usual

way: and the Street Commissioner recommended that he be directed so to do.

Ordered that the Superintendant of [293] repairs, open said Well and fix a Pump agreeably to the recommendation of the Street Commissioner.

The Street Commissioner informed the Board that there was near $500 due to the Carmen and Labourers employed at the Collect and recommended that a Warrant be issued towards paying them off.

Warr[t] N[o] 893. Ordered that a warrant be issued in favour of Alderman Bingham for $500. to discharge the same.

The Street Commissioner solicited a renewal of the *permission, given to him last fall which he then found it inexpedient to use in consequence of the pressure of public duty, for leave of absence for a few weeks, which was granted.

The City Inspector reported drafts of Ordinances for the purpose of correcting various nuisances, from N[o] 4220. to N[o] 4250. inclusive.

Ordered that the same do pass.

Alderman Fish submitted the following resolution, which was passed

Resolved that a †public pound be established at some convenient situation as near the two Mile Stone on the Bowery as may be, and also that another Pound be established at or near Harlem and that the Aldermen and Assistants [294] of the Eighth and Ninth Wards be a Committee to carry this Resolution into effect.

Ordered that so much of the Law "regulating the Sale of Horses &c" as relates to prevent racing in the public Streets be published in the papers employed by this Board, and that the Clerk cause handbills containing said extract to be printed and posted in the suburbs of this city.

‡The Committee of repairs were instructed to view the Dock at the Old Ferry at Brooklyne and to direct such repairs thereto as, in their judgment, should appear necessary.

Warrant N[o] 892. Ordered that a warrant be issued in favour of John Bingham Esq[r] on account of the Committee of repairs for $100.

The following persons were appointed Firemen, the Chief Engineer certifying correspondent vacancies.

The following Communication from the Commissary of Military Stores was presented.

To the Honorable the Corporation.

Gentlemen

I would inform you that I was notified to appear before the Grand Jury on Saturday last to testify to what I know concerning Powder and Ammunition in the Arsenal. I was a few minutes too late they had just broken up.

Your Honorable Body will recollect that according to a late law of the Legislature and an order of the Commander in Chief, whose duty it is, agreeably to said Law, to make a deposit of Arms and Ammunition in the different counties in the eastern and western districts of this State, We are therefore under the necessity of supplying them immediately. All Ammunition for Artillery and Musketry must be prepared and put up safe in boxes previous to its leaving this place. The Arsenal and Laboratory are the only places we have for preparing stores of that kind. You will find, accompanying this, an order from General Morton, on the part of the Corporation, to General Steddiford and myself, [302] to cause a quantity of fixed and loose ammunition for Artillery and Musketry to be deposited in the Arsenal for the supply of the military in case of necessity. You will likewise see by the certificate of the Quarter Master of the Artillery that all Ammunition for practising on public days has heretofore been prepared

in the Arsenal and the Yard, and that the greatest precaution has always been used to prevent accidents. We are now under the Necessity of keeping so many Mechanics at work at mounting Artillery, it is therefore impossible to keep the Yard clear of shavings, but the greatest care is taken in the business, not the least Fire is allowed to be brought within the inclosure, there can be no danger, except it arises from the Armoury adjoining, which I think it will be proper to remove as soon as possible.

I have the honor to be
Gentlemen.
Your obd Servant
John McLean
Commy of Mily Stores

New York. April 11th 1808.

Ordered that the same be referred to the Finance Committee.

A Counter Memorial of a large number of Watchmen, stating their perfect satisfaction with the present rate of their Wages, which they do not wish to be augmented, was referred [303] to the Watch Committee.

Alderman Mott, Chairman of the Building Committee, presented the following Communication to him from the Architect.

Alderman Mott

Sir

If the funds of the Corporation will not admit of carrying on the work of the New City Hall to the extent that was contemplated the last season, for which every preparation has been made and to accomplish which would require a sum of about Thirty Thousand Dollars.

The following detailed estimate shews the sum requisite to continue the business on a reduced Scale from this time to the first of December next: Vizt

One Master Mason, 200 days @ 40/	$1000	
10 Masons, each 200 do @ 10/	2500	
16 Labourers, each 200 do 7/	2800	
Building Stone $300. Brick $400	700	
Lime & Sand	600	
Scaffolding $200. Iron work $250	450	
		$8050
1 Carpenter $350. 1. Apprentice $175	525	
1 Journeyman Carpenter	225	
Oil, Paint & Ironmongery	250	
Timber & Plank	150	
		1150

[304] Carried Over					$9200
1. Master Stone Cutter	200 days	@	40/	$1000	
14 Apprentices each	200 do		7/	2450	
20. Stone Cutters each	200 do		9/	4500	
2 Stone Sawyers each	200 do		7/	350	
Large Brown Stone				1000	
Sharpening Stone Cutters Tools				600	
1 Master Carver,	200 days	@	32/	800	
3 Apprentices each	200 do		8/	600	
2 Stone Cutters each	200 do		10/	500	
Contingencies, say				2300	
					14.100
					$23.300

Although the amount of the above estimates will not enable us to carry up the Walls to the height that could be wished, Yet we shall be able to raise them above the heads of the second Story windows, so that the Building may be roofed in the course of the next Season. This will be placing a large quantity of valuable Stone out of the reach of accident, which ought to be done, should we even stop from preparing any more.

There are, at present, Forty three Stonecutters employed, but presume we can work to advantage with the number calculated on in the estimate. Could the means be provided to Keep the number we now have, it would be very desirable, as many of these poor men will soon be reduced to great distress for want of employ.

I beg leave to observe that the foundation is sufficiently settled. No danger can be apprehended in [305] carrying the Building up to its height. The walls are now built to the Sills of the Second Story windows a considerable part of the work above is plain and already prepared, so that the Walls can with ease be raised to a sufficient height this season to have the whole put under cover the following year.

The Slow progress of this building from its commencement has greatly enhanced the expense, and should it be much longer delayed a number of articles requisite for carrying on the work must be renewed for they are now in a State of decay. Our Lime Houses, Fences, and Work Shops were put up with a view to last only five or six years; these will have to be rebuilt in a short time. A considerable quantity of timber has been exposed for three years, Scaffolding, Poles, Ropes, plank, covering and many other Articles are decaying very rapidly. There is also a large quantity of Marble and Stone already prepared,

valued at Twenty Thousand Dollars, which is much exposed and easily injured. The loss occasioned by frequent handling the cut Stone and piling them away, is at least equal to ten per cent on the original labor, which would be saved by taking them directly on the walls. It appears therefore prudent and economical to set the Masons at work immediately, which will tend to lessen the expense, give satisfaction to the Corporation, and pleasure to the Building Committee to have the [306] Work progressing with spirit and propriety under their direction.

Which is respectfully submitted

New York. 11th April 1808. John M'Comb. Junr

Ordered that the Building Committee direct the Architect to remove the coverings over the Walls of the New City Hall and to proceed with the Building forthwith.

The City Inspector presented the following report respecting an Attempt to set fire to a Cooper's Shop on the 6th inst. made to him by his Assistant Mr James Hardie.

Sir

Agreeably to your directions I have made enquiry respecting the attempt to set fire to Mr Charles Devoe's Cooper Shop, in Cherry near Charlotte Street, on the night of Tuesday last and am abundantly satisfied, upon a careful examination of the premises, that the fire which commenced there on that night, was not the effect of accident but of design.

The under part of the shop being open, towards the river, seems to have afforded the incendiary a convenient place for depositing some combustibles, where these were placed, amidst a quantity of light stuff, several shingles dipped in [307] tar, the remainder of which are still preserved by Mr Devoe.

A spot more favourable to the nefarious design of an incendiary can scarcely be conceived. Directly in the rear of the Shop and almost adjoining it, there are immense quantities of staves &ca A great part of which, having been there about two Years, would, of course, catch fire like tinder. There are likewise a number of Wooden buildings in the vicinity, which must soon have become involved in flames, and the shipping, from their proximity, could with difficulty, if at all, have been saved from the devouring element. It is therefore highly probable, that if this fire had not been providentially checked at its commencement, the conflagration would have soon acquired such an

ascendancy as to have baffled the united exertions of all the firemen of the city.

Your obed^{t} Serv^{t}

M^{r} John Pintard, City Inspec^{r} James Hardie

April. 9th. 1808.

Ordered that the Recorder be authorized to issue his Proclamation, under the Seal of this Corporation offering a reward, for the discovery and Conviction of the Incendiary, of Two Hundred Dollars.

On representation by the Comptroller that Burdet Stryker, lessee of the Ferry from Flymarket to Brooklyne, offered John Dykman [308] and John Vreeland as sureties, in the place of John Hicks deceased and John Jackson who declines.

Ordered that the same be accepted.

*The Comptroller presented a Bond of Divie Bethune and James R. Smith, to indemnify the Corporation for the payment of the ballance of the intestate Estate of James Grant deceased, paid into the Treasury, to the said Divie Bethune Attorney for the Heirs of the said Grant.

Ordered that the Same be approved and filed with the Comptroller.

The Street Commissioner presented two Assessments for opening Cross Street: the one for ground taken opposite the Manhattan Water Works between Reed and Barley Streets, and the other for ground taken on the North side of Magazine Street.

Ordered that the same be published in the papers employed by this Board, and that 200 Handbills be also printed and posted in the vicinity of Cross and Magazine Streets.

The Street Commissioner presented an Assessment for regulating Walker Street from Church Street to Chapel Street and recommended [309] William Dustan as Collector.

†Ordered that the same be referred to the Alderman and Assistant of the 5th Ward.

The Street Commissioner presented the following Report.

The Street Commissioner has the honour to represent to the Board that it was expected when an Order passed the Board, at the request of M^{r} Andrew Morris to alter the lateral Sewer on the West side of Broad Street, that M^{r} Morris would consent to pay the whole expence attending it, and in consequence of this understanding the account has been presented to him: but he has hitherto declined assuming

* Marginal note reads *See. P. 286.*—Ed.

it, upon the presumption that a small portion of that expense ought to be charged upon some of the proprietors, from whose property the water will run into the sewer. It has been represented to Mr Morris that in all probability there will not be more money charged upon such proprietors than the current expences, and that his account will therefore be as great as it now is; but he seems willing to risk the effect of an Assessment.

The Street Commissioner therefore presents the draft of an Ordinance for making the Assessment, which, in his opinion, ought to be passed.

Which is respectfully submitted

April. 11th 1808. John S. Hunn.

[310] Ordered that the same do pass and that Tunis Quick George Brinckerhoof Thomas Storm Samuel Tooker John T. Ball be appointed Assessors.

*The Alderman and Assistant of the Fifth Ward, to whom was referred the Assessment for regulating Walker Street, between Church and Chapel Streets, reported that the same was correct.

Ordered that said Assessment be confirmed, and that William Dustan be appointed Collector.

The Comptroller presented the following report.

The Comptroller respectfully represents the following statement of the lots in Chatham Street.

†Court Went has agreed to renew the lease of lot N^{o} 112. Chatham Street, at the price fixed by the Committee, Sept^{r} 14. 1807.

‡Patience Bonnett, Lot 113. on same terms

[319] ||James Langley part of Lot 101. on same terms

Zadock Seeley, the remainder of Lot 101 d^{o}

This last mentioned lot being irregular in its dimensions, agreeably to the accompanying sketch, The Comptroller would propose, for the concurrence of the Board, that the price be regulated according to the value of a 27. foot lot.

M^{r} Carey Ludlow having declined to renew his leases on Lots N^{o} 11 & 12. it is respectfully submitted to the discretion of the Board, what measures should be taken thereon.

G. N. Bleecker. Compt^{r}

§Ordered that the Comptroller advertise Lots N^{o} 11 & 12. Chatham Street to be leased at public Auction, for the term of Twenty one Years from and after the 1st of May next. And if said Lots shall not bring the rent stipulated in the report of the Committee of the 14th September last, That the Comptroller be authorized to bid the same in on account of this board.

The Street Commissioner presented the following report.

The Street Commissioner having advertised the assessments for opening Cross Street [320] agreeably to the direction of the Board, has now the honor to cover them with Sundry remonstrances against the charges, for the consideration of the Common Council.

*Marginal note reads *See P. 308.*—Ed. †Marginal note reads *See P. 299.*—Ed. ‡Marginal note reads *d^{o} d^{o}*—Ed. ||Marginal note reads *See, P. 3.*—Ed. §Marginal note reads *See Report P. 361.*—Ed.

Upon the merit of these remonstrances it is perhaps irrelevant to the duty of the Street Commissioner to give an opinion, but he thinks it necessary to remark, that the Statement made by Mr Stockholm is correct, and that he intended to have represented the error to the Common Council, if Mr Stockholm had not done it.

Under such circumstances the Street Commissioner believes it would be most adviseable to refer the Assessments to the same Assessors, to correct the errors that can be pointed out, and to whom the aforesaid remonstrances might also be referred.

Which is respectfully submitted.

April. 18th 1808. John S. Hunn, St Com

Ordered that the Assessments for opening Cross Street be referred back to the Assessors.

The Street Commissioner presented the following report.

The Street Commissioner has the honor to represent to the Board, that the [321] Assessors appointed in an Ordinance for opening Jay Street have neglected to make out the Assessment although they have all qualified 12 or 18. months ago and have been repeatedly requested to attend to it. The Assessors, however, delayed the Assessment until the Corporation settled with Mr Rhinelander, but this business has been done some months since and there is no reasonable cause for a further delay of the Assessment.

The Street Commissioner therefore recommends that the Assessors be directed to prepare the Assessment by the next meeting of the Board, or offer their reasons for the delay, as was done in a like case with respect to Art Street.

Which is respectfully submitted.

April 18th 1808. John S. Hunn.

Ordered that the same be confirmed.

The Street Commissioner presented a return of Delinquents on the Assessment for the intersection of Henry Street.

Ordered that a Warrant be issued, in favour of Richard Clarkson, to enforce payment.

The City Inspector reported Ordinances No 4255 & 4256, for the purpose of correcting nuisances, which were passed.

[322] A Report made by James Hardie to the City Inspector of an incendiary attempt made on the Painter Shop of Andrew Sitcher, 57 William Street on the night of the 17th inst. was read and ordered to lie for consideration.

The Commissioners of the Alms House and Bridewell attended the

Common Council and submitted their Minutes for inspection together with a communication of their ideas for the better regulation and government of the Alms House which was referred to Alderman Hopkins King, and Mr Bloodgood.

Ordered that said Commissioners be authorized to appoint a Schoolmaster for the instruction of the Children in the Alms House, and that they also provide a suitable cell for solitary confinement.

Mr Ward submitted the following resolution which was passed.

Resolved that the Superintendant of Streets make a report of all the monies by him received and what is due for manure for the last year, and also the separate expenses of the Streets and cleaning the docks: And also to make a monthly report to this Board.

[323] Ordered that the Comptroller prepare a grant to the State of New York of the soil under water in front of the ground belonging to the State Prison.

Warrt No 917. Ordered that a warrant be issued in favour of John H. Sickles on account of the Building Committee for $1000.

Warrt No 918. Ordered that a warrant be issued in favour of William Mooney Superintendant of the Alms House, for $3000.

[330] The following Report was presented.

†The Committee to whom was referred the subject of establishing a Public Pound in the vicinity of the two Mile Stone

Report

That a lot of ground 28 feet front by 95 feet in depth can be procured in a convenient situation adjoining the corner of the Bowery road and Gerard Street near the two mile stone; that the proprietor has consented to execute a lease of said Lot to the Corporation for any term not exceeding eight years, free of rent, on condition, that the same be made use of, during the whole term as a public pound, and that he be exonerated during the continuance of said lease from the payment of all taxes and assessments thereon. The Committee are of opinion that it would be adviseable to accept the same; and that the Superintendant of repairs cause a suitable fence to be forthwith erected to inclose the same.

* Marginal note reads *See Report P. 373.*—ED.
† Marginal note reads *See P. 293.*—ED.

They further Report, that in their opinion, the following appointments should be made by this Board, viz[t]

One Keeper of the Pound, and Six Fence viewers

All which is respectfully submitted

Thurston Wood.

[331] Ordered that the same be confirmed.

The Board proceeded to make the following appointments.

William Martine, Keeper of the Pound John Adriance Benjamin Vreendenburg, Robert Gedney, John Stevens, Gilbert Coutant, and Daniel Jarvis, Fence Viewers.

The following Report was presented.

*Agreeably to a Resolution of the Board of the 11[th] inst. the Committee appointed to superintend the improvements at the Collect,

Report.

That the only source from which they could obtain information, relative to the expenses, is from a statement of the Street Commissioner, which statement is hereunto annexed, amounting to Five thousand, Seven hundred and One Dollars, since the 15th day of January to the 16th of April, the particulars of which are contained in said statement.

Your Committee had contemplated to report, what, in their opinion, would be the expense of completing the work, but from a survey [332] lately made it appears that the Corporation are the Proprietors of a large space of ground, perhaps an Acre, more than the Committee had any idea of, consequently the expense will be considerably more than had been supposed. But in this case the Corporation will be well compensated, as a large proportion thereof may be filled at a small expense, when compared with what has been filled during the winter past.

Your Committee are of opinion, however, that it will be necessary and expedient to continue the work, as by the suspension thereof a number of men will be turned out of employment, and probably it cannot be done hereafter, unless at a very advanced price, as the earth, in that neighbourhood will likely be principally removed this season.

Your Committee further state, that, in their opinion, the Corporation will be fully remunerated for the expense of filling the Collect, or so much as has been filled last winter, by the Sale of the manure

*Marginal note reads *See, P. 312.*—ED.

that has been removed therefrom, as by the information they have received from those employed in Agriculture and gardening, they are induced to believe that it will all be purchased for that purpose.

Thurston Wood
April, 25th 1808. Thos J. Campbell
Stepn Ludlam.

[333] Ordered that the same be confirmed.

The following Report was presented.

The Alderman and Assistant of the Fourth Ward, to whom was referred the *Communications of the Street Commissioner, recommending additional improvements in Oak and Bancker Streets by lifting up part of the pavement in Pearl Street:

Report

That they have viewed the premises with the profiles and consulted the neighbours respecting the same, from all which they are of opinion that it is desireable to make the alteration suggested, and recommend the accompanying Ordinance to be passed for that purpose.

The Committee further report, that they have agreed to give Doctor Torbert, Forty eight pounds and Mr Dodge Twenty eight pounds four shillings, for their fee simple right in an Alley of three feet running from Chesnut to Roosevelt Street, and necessary to accommodate this improvement, which sums are to be included in the expenses and assessed. The Committee observe that the price agreed upon, as aforesaid, is the ratio of the original purchases without interest; and they have directed deeds of cessions to be made to the Corporation accordingly.

†The Committee appointed at the last meeting of the Board to confer with Mr Ovutt the Lessee of the ground formerly called the Old Pottersfield, beg leave to

Report,

That said William Ovutt, in the year 1803, leased from the Surveyor General of the State, the ground adjoining to Potters field, which said ground, in or about the year 1796, had been ceded by the Corporation to the State as a scite for an Arsenal or Military Magazine, with the proviso that the same should revert to the Corporation if not applied by the State for those purposes: the term of said lease was for seven years, from the passing of the act, at the rate of $87.50. and consequently will not expire until the 4th of April 1810. It appearing to the Legislature that some informality had arisen in consequence of the Surveyor General leasing the land in question to Mr William Ovutt, they thought proper to introduce the following explanatory section in the law passed 2d April 1806, viz[t]

"Whereas the Surveyor general under the authority of the act directing him to lease lands attached to Arsenals and Military Stores [342] has leased the ground adjoining to Potters field in the City of New York, which was conveyed by the Corporation of said City to the State for the purpose of erecting Military Stores thereon, and no other; and it appearing that the leasing of the said ground as aforesaid is not authorized by law: Therefore"

"Be it further enacted, That it shall be lawful for the Surveyor General to assign the said lease to the Corporation of the said City of New York and thereupon the Treasurer shall, on the warrant of the Comptroller, pay to the said Corporation the monies that have been paid as rent on said lease."

The Committee, therefore, are of opinion that the Act of the Legislature, above recited, and the assignment of the said Lease by the Surveyor General to the Corporation, together with the acceptance of the stipulated rent from Mr Ovutt constitute a complete recognition of his lease and consequently the title to the land is vested in him during the continuance of it agreeably to its worth and condition; and further,

* Marginal note reads *See Report P. 436.*—ED.
† Marginal note reads *See P. 328. 399.*—ED.

that any informality which may [have] existed originally in the same, has been done away by the Comptroller of this Board receiving the rents of said ground from Mr Ovutt according to its tenor and condition.

[343] They have had an interview with Mr Ovutt on this subject, and he has declared that he does not wish, by any means, to empede the public improvements contemplated, but as he will suffer a very material injury from the destruction of his crop, he agrees, provided the Board will agree also that the whole matter in question shall be decided by arbitration, according to the terms and conditions of his lease. Your Committee are of opinion that a Bond should be entered into by him to abide the award of Arbitrators, one of whom to be chosen by the Board, and the other by Mr Ovutt, and that the Attorney of the Corporation should be directed to prepare the same without delay. It appears that the house in which Mr Ovutt resides is not comprehended in that part of the land ceded to the United States, but is in that portion which is reserved for a public square and the Committee are of opinion that he should be allowed for the present to occupy the House, as a tenant by the courtesy of the Board, and which, they find from a conversation had with the Architect, will not at all interfere with the plans of improvement.

Respectfully submitted

May. 2d 1808. Stepn Ludlam
John Slidell

Ordered that the same be confirmed and [344] that Henry Brevoort be appointed Arbitrator on the part of this Board.

The following Report was presented.

*The Alderman and Assistant of the Second Ward to whom was referred the Petition of Peter P. Van Zandt to be relieved from the Assessment for widening Burling Slip

respectfully report

That they have conferred with Mr Van Zandt on the matters stated in his petition, and have been applied to on behalf of other persons to whom the principle on which he requests *requests* would also apply.

The foundation of his claim, however, rests on alledged sacrifices on his part in an arrangement made, as stated in his petition, between him and the Corporation, by means of which a water grant was obtained by him, to the westward of the said Slip.

* Marginal note reads *See P. 229.*—Ed.

It is further submitted that Mr Van Zandts petition does not profess to state reasons why the Assessment should be set aside as unequal or improper in any other respect than as aforesaid.

The Assessors however, could not properly take into consideration the former merits of Mr Van Zandt in his transactions with this [345] board and therefore the only relief which could be granted if any would be to assume the payment of the amount assessed on Mr Van Zandt, and inasmuch as according to the facts stated in the petition the cession of Mr Van Zandts interest was accompanied by a valuable acquisition on his part, Your Committee think it inexpedient to discharge him from the payment of his proportion of the payment or to interfere with the duty of the Collector respecting the same.

The †Counsel and Clerk presented the draft of a conveyance of the Arsenal to the Trustees of the New York Free School Society, which was ‡referred to Alderman Drake, Miller and M^r Ludlam to report the boundaries.

The Street Commissioner presented the following report.

‖The Street Commissioner has the honor to communicate to the Board, That the Governor has informed him that the Commissioners appointed by the Legislature to cede ground to the United States for Fortifications have consented to convey to the Common Council a plot of ground in the rear of the Government House of the breadth of Forty eight feet eight inches and running from Whitehall to State Street, for the purpose of continuing Bridge Street to the Battery. and has suggested the propriety of the Common Council's adopting the same for a public Street, and of authorising the Street Commissioner to accept of the cession, under the approbation of the Council of the Board.

The Street Commissioner further informs that M^r Gracie owns a small gore or [348] triangle required for the Street which he will also cede gratis, and which is particularly portrayed upon the Map herewith presented.

The Street Commissioner therefore proposes the following resolutions.

Resolved, That Bridge Street be continued of the width of 48 feet 8. inches from Whitehall Street to State Street, the north line of which to be a continuation of the North line of Bridge Street, as the same is now built upon, and agreeably to the dotted lines on a Map thereof exhibited by the Street Commissioner, and

The Minutes of the last meeting were read and approved.

The Mayor laid before the Board the following letter from his Excellency the Governor.

New York, May 7th. 1808

Sir

By an Act passed at the last session of the Legislature of this State entitled "An Act for the erection of a State Arsenal in the City [354] "of New York" the person administering the government of this State is authorized and empowered to select for that purpose one of three lots mentioned in the recital of the Act. Having inspected the lots referred to, I am fearful that they will not be convenient for the purpose contemplated by the Legislature, unless the part now covered with water be filled up according to the regulation of Collect Street. If to the lot bounded by Elm Street, Sugar Loaf Street and White Street, could be added the strip or piece of ground belonging to the Corporation in the block on the North easterly side of White Street, so that upon the Westerly part of the one the Arsenal might be erected, and the Westerly part of the other might be appropriated for an Arsenal Yard, and if both could be filled up to the permanent regulation of Collect Street, I presume the object of the Legislature may be accomplished. As it is desireable that the Arsenal, if erected the present Season, should be commenced as speedily as possible, I have

to request that the Corporation will be pleased to determine, whether the cession of the abovementioned ground, regulated and filled up to Collect Street can be obtained for that purpose.

I am, Sir very respectfully
Your obd Servt
Daniel D. Tompkins

Hon. De Witt Clinton.

[355] Which was read and referred to Messrs Ludlam Bloodgood, and Aldn Drake.

Who forthwith reported in favour of ceding the grounds required by the Governor, in conformity with the "Act for the erection of a State Arsenal in the City of New York," which was confirmed, and a *deed ordered to be prepared in conformity.

The Mayor presented an instrument Signed by Daniel D. Tompkins Governor
John Broome, Lieut Governor
John Lansing Junr Chancellor
James Kent, Chief Justice of Sup. Court and
De Witt Clinton, Mayor of this City
"Commissioners named and appointed by the Legislature of the State of New York for the purpose of ceding such of the lands and jurisdiction of this State to the United States as may be deemed necessary for the defence of the city and port of New York, certifying that in their opinion the opening and extending Bridge Street, in the manner described in the †Resolution of this Board, of the 2d inst. will not interfere with the plans or arrangements of the United States for defensive preparations, and therefore, pursuant to the provisions of the last section of an Act of the Legislature of this State entitled "An Act authorizing the purchase [356] of an additional quantity of Ordnance and Arms and Ammunition for the use of the State and for other purposes" passed the 8th day of April 1808. approving of and sanctioning said Street.

‡Ordered that the same be filed.

Commissioners under the Act of the Legislature of this State of the 3d of April 1807, entitled " An Act respecting a claim for the extension of the Eastern boundary of the State of New Jersey," which was ordered to be reposited in the Archives of this Corporation.

The following report was presented.

The Committee of ways & means

Report

That having settled their Accounts of expenditures for relieving the [371] wants of indigent and necessitous citizens in the course of the last winter, they submit a Summary of the Same for the information of the Common Council.

At the period when the duty of examining into and providing for the exigencies of their distressed fellow citizens devolved on Your Committee, neither the extent of their number nor their wants could be determined. At all events it was considered most eligible and equitable to make provision for their relief, through the Corporation, rather than by soliciting voluntary contributions In seasons of general *of general* calamity and pressure, the protection of indigence and misery is a public duty. Private charity, especially at those junctures, can never want objects for the exercise of individual benevolence.

In the distribution of the public bounty the strictest attention has been exercised to relieve the wants of the applicants with due regard to economy. Among the great multitude relieved, some impositions must, undoubtedly, have been practised but Your Committee are satisfied that, under all circumstances, these abuses have been less than could have been reasonably expected.

The total of their expenditures amounts to $14.228.83½ in which is included, besides the charges for the rations furnished at the Alms House, and the monies disbursed towards the relief of necessitous families, the expenses incurred for erecting the boilers in the Soup House and for the services of persons employed in examining into the circumstances of the applicants for relief & distributing the public bounty, and [372] also the charge for maintaining the seamen at the Navy Yard.

The following Report was presented.

The Committee to whom was referred a *Communication from Monsr Du Buc de Marentille, on the subject of fortifying the harbour of New York by means of defence which are not in use

Report

That they have had an interview with Monsr Du Buc, and from a long conference with him are of opinion, that he is a man of education, talents and military experience: That he professes to have discovered means of defence which are not in use, and are at present unknown to any person but himself and one confidential friend, to whom he has imparted the discovery, and which, if adopted, would render this harbour completely secure against naval attack. That in addition to the advantage of affording complete security to the city, which his plan possesses over all other plans of defence which have been proposed, there would be an immense saving both of time and money; insomuch that the defence and security of the city may be [374] rendered complete and effectual by the 1st day of November next: and the expense attending the same would not amount to one fourth part of the sum which would be required to complete either of the systems contemplated by the Corporation.

He further proposes to make a full disclosure of his plan and means of defence to the Corporation allowing them fourteen days for considering and examining the same, and then to decide, whether they approve of any of the said means and determine to make use of it, or them, in any form or modification whatever, in which case he is to receive the sum of Sixty Thousand Dollars.

Although the Committee are unable to form any precise opinion on the merits of a plan, the particulars of which have not been made known to them, yet they are impressed with a belief that the disclosure of the means contemplated by Mr Du Buc for the defence of this and other harbours of the United States, might be a public benefit, and perhaps of essential importance to the defence and security of this City, in case of War with any maritime nation. They do not however feel themselves authorized to advise the assumption by this Board,

of so high responsibility as the payment of the sum in question, without indemnification from the [375] Government of the United States, to whom it of right belongs, to direct and manage all measures relative to the public defence.

Under these impressions the Committee recommend the following resolution,

*Resolved, that his Honour the Mayor be requested to communicate to the Executive of the United States the proposals which have been made to this Board by Monsr Du Buc relative to the defence of this City, by means not in use, and to express the willingness of the Common Council to enter into arrangements for obtaining from him a disclosure of his plan, Provided the General Government will authorise the measure and provide for the ultimate payment of the sum which they may agree to pay for the same.

Street and that Fenders ought to be provided for the middle pier at the Albany Basin.

Ordered that the Superintendant make said repairs forthwith.

*The Street Commissioner reported that a small part of Robinson Street between Church Street and the College Yard has never been paved or properly dug out, and is built upon throughout. That this portion of the Street has been a considerable nuisance for several years, being fenced in and occupied for a Cow Yard and Hog stye: and that for the correcting said nuisance, he presented the draft of an Ordinance to pave said Street.

Ordered that the same do pass.

The Street Commissioner represented, that in order to clean the drain in Broad Street, it became necessary to lift a considerable [384] portion of the walks, some of which have been relaid by the proprietors. Others are so much broken up and uneven, that it will be impossible to relay the part that has been taken up in a regular manner, unless other parts are also relaid in conformity thereto. That the assessors have no power by the Ordinance to take up more than is necessary to repair the drain and that several of the proprietors of the Lots, where the walks are in the worst condition, refuse to do it.

He therefore suggested the propriety of directing so much of the said walks to be lifted as in the opinion of the Assessors may be necessary for the public convenience, and he presented the draft of an Ordinance for that purpose.

Ordered that the same do pass.

The Street Commissioner presented the following communication.

The Street Commissioner being directed by a †resolution of the Common Council to cause Greenwich Street, forthwith, to be opened in the direction lately ceded by the Corporation of Trinity Church, immediately communicated the subject of the resolution to M^r Barrow, the organ of that Corporation. M^r Barrow is a gentleman of reflection, and has by his liberal ideas [385] contributed greatly to the beauty and improvement of the city through the acts of the Corporation of Trinity Church, and is as much disposed as any man to cherish public improvements; and as he has been a long time employed as a Street Commissioner for that Corporation, his opinions are entitled to some respect. [389] War Department, May 20. 1808

Sir

Your favor of the 17th inst. has been duly received, with the report of the Common Council of the City of New York on M^{r} Du Buc's proposals.

M^{r} Du Buc has made communications to the President of the United States and to this department relative to a system of defence: &c^{a} The conditions on which M^{r} Du Buc proposed divulging his secret system of defence which were as well as I am able to recollect, that he was to receive $50.000. with such additional sum as Congress might afterwards be pleased to grant; being of so unusual and extraordinary a nature, as to bar any further correspondence with him on the subject

If M^{r} Du Buc will state explicitly what his system of defence is, it can then be judged of, and if not approved, or if not considered of so

much importance as to entitle him to such a sum as he may ultimately demand, I will agree on the part of the government of the United States, that no use shall be made of his proposed system or any communication relative thereto made public without his consent. The president of the United States could not consider himself authorized to enter into any agreement that would or might involve a payment of fifty or sixty thousand [390] dollars, without being specially authorised by Congress.

I have the honor to be with great respect

Your Ob. Servant

Dewitt Clinton Esq. H. Dearborn.

*The Committee, appointed to confer with the Committee of Tammany Society, beg leave to recommend the following resolutions:

[396] Whereas a respectful application hath been made to the Common Council by a Committee of the Tammany Society or Columbian Order inviting the concurrence and co-operation of this Board in the plan of arrangements for interring the remains of the American Prisoners who perished on board the Jersey Prison Ship at the Wallabout during the revolution. And whereas the Common Council do conceive this undertaking to be highly laudable and patriotic, and that the due execution of it is a public and national duty: And Whereas the interment is to take place on Wednesday the 25th. inst. Therefore

Resolved that this Board do recommend that the citizens do observe the same day in as respectful a manner as may be, consistent with their avocations, and that, as far as may be convenient, they do unite in setting the same apart, to the commemoration of our brave but unfortunate countrymen, who perished on board of the British prison ships during the revolutionary war, and the interment of their remains.

Resolved that it be recommended that the different Church bells and the bells on board the Ships in the harbour, be tolled seventeen minutes to commence at Sunrise on [397] said day and also during the procession.

Resolved that it be recommended that the colors of the different vessels in the port be hoisted, halfmast, during the said day.

Resolved that this Board will attend the procession which is to take place on the said day.

Resolved that the lessee of the public wharves and Slips and the Ferry Masters be and are hereby requested to cause all boats and vessels of every description, except ferry boats, to be removed from the Slips at the end of the Flymarket and Catherine Market.

of Madame Eugene Ursule Jouet, reported that on a further investi- [398] gation he was of opinion that as further testimony might be adduced of the claims of the constituents upon the Corporation, and it not appearing with sufficient certainty what portion of the monies in the hands of the Treasurer ought to be paid over to Mr La Forgue as the Attorney aforesaid, it would be adviseable that the Petitioner should have leave to withdraw his Petition, and that a power of Attorney more peculiarly adapted to the case of his constituents and other claimants, if there be such, should be preferred: which was confirmed.

The Counsel to whom was referred the *petition of Walter Bowne, reported that after the best reflection he had been able to give the subject he was of opinion that the Memorialist ought to be exonerated from the judgments, upon condition of indemnifying the Corporation from all costs and charges, and paying a prompt attention to whatever Ordinances the lots may now be subject to.

Ordered that the same be confirmed and the penalties of the Ordinances be remitted on payment of costs and the City Inspector certifying that the Ordinances have been fulfilled.

The Attorney to whom was referred the †Petition of Paul Williams reported that he could discover no reason for the interposition of the [399] Board, and recommended that the Petition be dismissed, which was confirmed.

‡The Comptroller reported an award of Henry Brevoort and John Craig Arbitrators to settle with William Ovutt for the damages sustained by him by the surrender of that portion of Old Pottersfield, ceded by this Board to the United States for an Arsenal, for which he has an unexpired lease for the term of two years, together with the Bond of said Ovutt to abide by the Arbitration; which was confirmed, and ordered to be filed with the Comptroller.

The Comptroller represented that a ballance of $71.50. remained due to the Clerks Constables and Marshals attending the late election. Warrt No 993. Ordered that a Warrant for that amount be issued in favour of William J. Waldron to discharge the same.

The Street Commissioner presented the following report.

ground was left much higher to meet this contingency than is necessary or [400] convenient in the present State of the Streets in that quarter.

That several buildings are about to be erected at the northwesterly corner of Spring and McDougal Streets, and that it would be adviseable, previously, to amend the Street by giving it a less descent from McDougal to Sullivan Streets. This can be done by carrying the highest point 75 feet westerly of McDougal Street, instead of leaving it in the centre of that Street, without any damage, as no buildings will be affected by the alteration, all which is designated by lines upon the profile, herewith presented, made by Charles Loss, dated 10th inst.

The Street Commissioner therefore recommends, That Spring Street be regulated from the westerly kennel of Varick Street with an ascent of One and three quarters of an inch on ten feet, to a point Seventy five feet westerly of the westerly line of McDougal Street: thence with a regular descent of about two and half inches on ten feet, to a point One foot three inches below the floor of the dwelling house now erected on the Northeasterly corner of Spring and Sullivan Streets.

All which is respectfully submitted

May. 23. 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the eighth Ward.

[401] The Street Commissioner presented the following report.

*The Street Commissioner has the honor to represent to the Board, that Mr Bowrowson is building upon a gore of land belonging to him on the westerly side of Sullivan Street, and upon ground which will be required for the continuation of a Street long since laid out by the Corporation of Trinity Church.

Without previously knowing that a Street would pass through that ground, he began and laid a foundation, but he has, since that work was done, been repeatedly advised that if he built there his house would be removed, a great part of the expense of which would be assessed upon him.

Mr Bowrowson called on the subscriber on Saturday and stated that unless he was indemnified for the expense of removing his house, and the Corporation immediately directed the Street to be opened, he would go on with his building.

The inclosed letter from Mr Barrow received this morning, with the Map accompanying this communication will show the necessity of doing something immediately.

The Street Commissioner therefore recommends the following resolution.

[402] Resolved that the Street Commissioner take order for opening a Street Sixty feet in width parallel to and one hundred and seventy five feet south of Spring Street, from Varick Street to Sullivan Street, through the grounds belonging to the Corporation of Trinity Church and the grounds belonging to Anthony Bowrowson.

Which is respectfully submitted.

*The Committee appointed to confer with His Excellency the Governor, on such ground as he may fix on for the purpose of erecting a Powder Magazine for the State of New York

Report

That they have sold to the State all the right of this Board, in the Lots of land purchased by Adam Fink, bounded on Manhattan Avenue, commonly called the Common lands: N° 103. subject to a rent of Ten Dollars per an. for Twenty years from the 1st May 1803 and Lot N° 102. subject to a quit rent of 4. Bushels of Wheat forever.

The above lots of land have been sold for the sum of Seven hundred Dollars, to be paid to this Corporation on delivery of a good and sufficient title from them to the people of the State of New York:

Jacob Mott
May 30. 1808 John Slidell
Abm Bloodgood.

[411] Ordered that the same be confirmed and that a deed be executed accordingly under the Seal of this Corporation.

The following Report was presented.

The Committee of Finance to whom was referred the †application of John Jacob Astor respecting his water grants on the Hudson river, between the improvements of Mr Ritter and the State Prison, having taken into consideration the present mode of issuing grants from time to time without any uniform system, are induced to make the following

Report;

The circumstance of charging the same price between high and low water, whether the distance is great or little, has been so much fixed by custom that the impropriety of it has in a great measure been overlooked until a Committee of last year established a more equitable plan at Corlaers Hook, by considering 100 feet as a data for low water. It will be found that this custom is very unjust and unequal if a calculation is made in an extreme case; for the grantees who bound a bold shore will not only have to pay as much for a small distance as those bounded by a flat, a great depth into the river, but they will be at a greater expense in sinking their bulkheads, and will, notwithstand-

* Marginal note reads *See P. 394.*—ED.
† Marginal note reads *See. P. 315.*—ED.

[412] ing be charged in the second grant, commencing at low water a greater sum for that grant in consideration of the greater depth, they will require to bring them to the termination of the Second grants.

It is therefore reasonable to adhere to the principle laid down by the Committee for the grants at Corlaers Hook.

With respect to the abovementioned grants to be issued on the Hudson, these considerations ought to have some weight:

1st That an immense expense must be sunk in filling up the low grounds between the House late of Col. Burr and Greenwich Street.

2d That it will be many years before the water lots can be productive, because there are no buildings to draw trade.

3d That the property decreases rapidly in value as it recedes from the improved parts of the town: and

4th That the quits on the Hudson, the same distance from the compact settlements, are much higher, as they now stand, than those upon the East river.

It therefore follows that it is proper to liquidate the rates of quit in such manner as to promote equal justice, and in order to do this we have data at the two extremes, namely, the rents [413] charged to Mr Ritter and the rents charged to Mr Gidney above the State prison.

It will be found upon calculation that Mr Ritter pays about 30 cents pr foot for a depth of 100 feet between high and low water mark, and Mr Gidney 20 Cents for the same distance being a difference of 10 cents pr foot which will average deductions of one cent pr foot successively upon each block, as it is more remote from the interior.

From the above premises the following Scale is produced upon the first grant.

Block between	Charlton & King Streets	29.	cents
"	" King and Hammersley	28.	"
"	" Hammersley & Clarkson	27.	"
"	" Clarkson & Leroy	26.	"
"	" Leroy & Morton	25.	"
"	" Morton & Barrow	24.	"
"	" Barrow & Christopher	23.	"
"	opposite the State prison	22.	"
"	between State prison & Hammond St	21.	"

As the same reasons will apply to the second grant, the same scale would be proper: taking Mr Ritter's quit, being 37½ cents for 200 feet as one extreme and 18. cents for Mr Gidney as the other, which last

is 50 p^{r} cent more than is paid at Corlaers Hook, it follows therefore that the rates for the second grant will be as stated below.

[414]

		Cents	
Block between	Charlton & King Streets	36. p^{r}	foot
" "	King & Hammersley	34.	"
" "	Hammersley & Clarkson	32.	"
" "	Clarkson & Leroy	30.	"
" "	Leroy & Morton	28.	"
" "	Morton & Barrow	26.	"
" "	Barrow & Christopher	24.	"
" opposite	State Prison	22.	"
" between	State prison & Hammond	20.	"

While your Committee believe that the above scales will be a fair price with respect to the Corporation and not oppressive to the proprietors, they still cherish the idea that it will be adviseable to increase the rents ultimately to the uniform sum of One dollar and twenty five cents ℔^{r} foot throughout, but they are of opinion that this increase ought not to take place for a considerable time: And they therefore recommend that all the grants to be issued on the Hudson river, between M^{r} Ritters and M^{r} Gidney's aforesaid be issued according to the above scales: that the first period be thirty years from the 1st of May instant and the second period be twenty years: and that M^{r} Astor receive his grants upon the principles above mentioned.

The Comptroller respectfully reports on the account of ||Anthony Smith for expenses incurred by the Inspectors of the 9th Ward at the last election:

The Comptroller presented the following communication.

The Comptroller takes leave to solicit the attention of the Board to the following subject.

The dispersed situation of the property belonging to the Corporation, and the very imperfect information which he has been able to obtain of the sites and boundaries thereof, have caused frequent inconveniences when application has been made at the Office to ascertain various [420] particulars relative to public property. A remedy for this great defect, must, at first view, appear to be very desireable, and as a complete knowledge of the various positions of real estate under the control of the Corporation, will not only be absolutely necessary for the facility of public business at the present day, but also may be extremely useful and valuable at a remote period of time; the Comptroller would beg the liberty of earnestly pressing on the Board their attention to this matter, and respectfully submits for their approbation the following.

That the Street Commissioner and Comptroller be authorized to procure suitable registers or Field books wherein to insert Maps and descriptions of all the lands, plots of ground Wharves, Docks and Slips and Ferries belonging to the Corporation, whether under lease or otherwise, designating their boundaries and such other circumstances attending them, as may give a full view of all the Corporate estate.

Connected with this subject the Comptroller respectfully recommends, that the Street Commissioner be empowered to procure a Map and description of all the property bounded by water within the jurisdiction of this Board, South of the line of the Commissioners designating such parts as are now occupied by docks or wharves, and for which no grant has been obtained.

An attention to this is of great import- [421] ance, to the fiscal concerns of the Corporation, as there is reason to believe that many

persons have improved the soil under water adjoining their lots of land who have never taken up grants for the same.

All which is respectfully submitted

This account has been, by the Board, referred to a †Committee, upon whose report the means of paying Mess[rs] Hulsart and Stagg will rest.

The Street Commissioner is anxiously waiting such report as it is otherwise impossible for him to adjust the numerous claims upon him for balances due upon the assessments of Bussing, many of which have been due to persons who cannot afford to lay out of the money for nearly three years.

All which is respectfully submitted.

Ordered that the same be referred to the former Committee on the accounts of John Bussing. Mess[rs] Mulligan, Ludlam, and Ald. Mott.

‡The Street Commissioner presented the following report.

The Street Commissioner covers an Assessment for opening Cross Street North of Magazine Street as revised and corrected by the [423] Assessors to whom it has been returned for that purpose.

* Marginal note reads *See. P. 391. 450.*—ED.
† Marginal note reads *See. Vol. 17. P. 334.*—ED.
‡ Marginal note reads *See Report. P. 452.*—ED.

The Street Commissioner finds a few alterations have been made in this assessment by altering the names of sundry persons improperly included, but that no material change has been attended to with respect to the principle upon which this assessment ought to be founded. The Street Commissioner cannot omit to draw the attention of the board seriously to the following circumstances in relation to the assessment.

George Janeway owned all the ground from Chamber Street to Magazine Street through which he thought proper to open Cross Street. Certain lots bounded upon Cross Street he leased and others sold. Upon attempting to pave part of Cross Street it is well known to most of the gentlemen of the Board that Mr Janeway put in his claim to that street, and after a full investigation by the Attorney of the Board to whom the subject had been referred, it was agreed, that Mr Janeway's right was complete and that it would be adviseable and necessary to extinguish his claim by purchase and arbitrators were reciprocally chosen for that purpose.

In order that the arbitrators should have a full view of the matter a survey and map of the ground, for which Mr Janeway demanded compensation was directed to be made.

[424] Mr Janeway, however, when the map was nearly completed, directed the surveyor to take in an additional piece of ground, being also part of Cross Street, and for which until then, it was not understood he laid claim for compensation. This addition to the area of ground to be valued was objected to as improper and unjust as Mr Janeway had sold ground to the Manhattan Company bounded by it under the name of Cross Street.

Mr Janeway then claimed the whole of Cross Street as unceded, and that he had an equal right to shut every part of it up, as he had the ground above mentioned; "but agreed, that in case he was not "assessed for opening Cross Street north of Magazine Street and "was allowed for the area directed by him to be included in the map, "that he would cede the residue of Cross Street through his ground "gratis."

The Street Commissioner has the honour further to state to the Board, that he was invited and attended the assessors to give them the necessary explanation respecting this subject and that he did in an explicit manner inform them of the abovementioned agreement with Mr Janeway, but they have thought proper to make no alteration in their assessment on that account.

The consequence of confirming the assessment as it now stands are these: That [425] the Corporation will be obliged to pay all Mr Janeway's portion of the assessment, to obtain a cession of the residue of Cross Street or be compelled to purchase the same from him, in which latter case, an assessment very heavy and more than the surrounding property will bear must be laid, and upon that portion of the ground North of Magazine Street, which it was conjectured would, under the agreement with Mr Janeway be charged with the whole of this assessment. The additional burthen such an act would create is incalculable and which it is the particular province of the Common Council to prevent or at least to lessen.

Which is respectfully submitted

May. 30. 1808. John. S. Hunn.

Ordered that the same be referred to Alderman Drake Mr Ludlam and Ald. Mesier.

*The Street Commissioner presented an assessment for opening Cross Street opposite the Manhattan works as the same has been revised by the Assessors.

Ordered that the same be advertised in the papers employed by this Board, under the inspection of the Alderman and Assistant of the Sixth Ward.

[426] The Street Commissioner presented the following report.

The Street Commissioner has the honour to state to the Board, that the Collector of an assessment for opening Varick Street between Brannon and Budd Streets was, last Spring, directed to stop his collection by Mr Bogardus, then of the Common Council, said to be by direction of the Board. That this order has, if ever given, never been reversed, and the said assessment lies in an unfinished State.

The Street Commissioner further states that the money to be collected upon that Street is payable to the Corporation Treasury, and that 4 or 5000 Dollars ought to be procured from that Source: and he therefore recommends that the Collector be directed to proceed immediately to collect the money due upon that assessment.

Which is respectfully submitted.

The Street Commissioner presented the following report.

The Street Commissioner has been repeatedly applied to by Mr Catlin in behalf of Mrs Duryee for a payment upon a bond given to [427] her for ground to open Amity Street. The collection of money upon that Assessment, it is well known to the board, has been by various and imperious circumstances retarded, and unless the Common Council take upon themselves to deduct, at least one fourth, of the amount to reduce the assessment to a reasonable sum, it will be impossible to collect the money. Mrs Duryee, however, is entitled to some relief. The Bond was given to her at the same time that another bond was given to Doctor Van Solingen for the same purpose, but for more than three times as much as hers. The whole of the Bond given to the Doctor has been advanced by the Corporation some time since and nothing paid to Mr Duryee. It is true that there is part of her bond to be deducted for an Assessment upon her property adjoining the street: but there is a considerable surplus due her, and she has consented that she will deduct the assessment when liquidated. The Street Commissioner, under these circumstances recommends that a warrant be directed to issue in her favour for Fifteen hundred Dollars in part of the said bond.

Which is respectfully submitted.

May. 30. 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the 8th Ward:

[428] The Street Commissioner presented the following report.

The Street Commissioner has been repeatedly applied to by individuals and lately requested by the Alderman and Assistant of the Ward to direct the removal of incumbrances from the several streets west of Greenwich Street and North of Duane Street, which have been a long time in that situation, and particularly North Moore Street but that in his opinion it would be useless so to do with many of them unless the several proprietors were directed to fill up the sunken parts of those streets, which are in many places so low that the pavement in Greenwich street has sunken the width of the walks, and is daily growing worse.

With respect to North Moore Street, the Street Commissioner has to remark, that it has been shamefully incumbered for a long time by Mr McKie with large timber, and is now nearly impassable. That Mr McKie has had a water grant for several years with directions to make half of North Moore Street, but that he has hitherto neglected to

do it, much to the disadvantage of his opposite neighbours, who have long since filled their portion of the Street, and to the injury of the public: and that he will not regulate the street, unless compelled by a special order.

[429] The Street Commissioner submits to the Board whether it is not therefore adviseable to pass orders similar to the following.

Ordered, that John McKie be and he is hereby required to cause North Moore Street to be filled up and regulated with a regular descent from Greenwich Street to the present wharf on Hudson river, within three months from this day, agreeably to the conditions of his water grant: and that he cause the timber and other incumbrances to be removed from said Street, on or before the expiration of two weeks from this day.

Ordered that the incumbrances in that part of Beach, Hubert, Laight, Vestry and Desbrosses Streets, to the west of Greenwich Street, be forthwith removed: And that the Street Commissioners cause so much of the said Streets to be filled up and secured from washing away, as in the opinion of the Alderman and Assistant of the Fifth Ward may be necessary to preserve the pavements and walks in Greenwich Street.

All which is respectfully submitted.

May. 30. 1808. John S. Hunn.

Ordered that the same be confirmed.

The Street Commissioner presented the award of the *Arbitrators, appointed to value a gore of land, the property of the Widow Lynch, situate [430] at the corner of Elm and Magazine Streets, which was †referred to Alderman Drake Mr Ludlam and Ald. Mesier.

The following report was presented.

†The letter addressed to the Corporation from Jacob and Thomas Walden, respecting the purchase of a tract of land under lease, situated on West road or Albany Avenue, was referred on the 30th Ulto to the Finance Committee, who have had the same under mature consideration, and respectfully submit to the Board the following

Report.

As it appears to have been a favourite object with our predecessors to secure a permanent revenue, to be derived from real, estate, which, in all human probability, will increase in value with the growth of our city. It would not comport with the duties we owe to our Successors, to encroach materially on that prudent measure: and as there appears no necessity for this Board to establish a precedent, which may [438] open the door to dangerous inroads on the Corporate estate, without an equivalent advantage.

The Committee respectfully recommend that the offer of the applicants, ought not to be accepted.

The following report was presented.

The Finance Committee have the honor to report on the accounts presented by Anthony Smith for expenses of Inspectors of Election in the 9th Ward at the late election.

It has not been the uniform practice of this Board to pay bills of this nature, and to sanction the principle, at this time, would be the means of introducing a vast number of old accounts which have hitherto been paid by the Inspectors. Besides, it should be remembered, that the members of this Board devote a considerable portion of their time to public business without receiving any emolument for the same.

Viewing the subject in all its points, the Committee are clearly of opinion that it would be improper for this Board to sanction the payment of any accounts similar to the above mentioned.

[439] Ordered that the same be confirmed.

The Committee to whom was referred the petition of *Thomas Anderson for the lease of a lot of ground at the corner of Anthony and Elm Streets, reported that the same be leased at Auction for the term of twenty one years from the 1st of May last, which was confirmed.

The Comptroller presented the award of the †Arbitrators appointed to value the building erected by John McLean, Commissary of Military Stores, for an Armourers Shop, in the Yard attached to the Arsenal, amounting to $70. which was confirmed.

Warrant No 1037. Ordered that a warrant be issued in favour of John McLean for that amount.

The Comptroller presented an Account of Benjamin Romaine against the Corporation for sundry incidental expences incurred in the discharge of his duty whilst Comptroller, which was referred to the Finance Committee.

A report of the Commissioners of the Alms House and Bridewell on the petition of ‡William S. Shaw, that its prayer was founded on principles similar to the petition of Jeremiah Haley, was referred to Alderman Mesier, Drake and Mr Ludlam.

[440] The Alderman and Assistant of the 8th Ward to whom was referred the *Report of the Street Commissioner respecting the Assessment in Varick Street, reported that in their opinion the Collector ought to proceed, forthwith, in the collection of the money due on said Assessment.

Ordered that the same be confirmed.

The Street Commissioner presented the following report.

†The Street Commissioner has applied to Mr Bowrowson for a cession of the ground required of him for the Street between Vandam and Spring Streets, but he will not state the sum he is willing to accept for it.

Mr Bowrowson, through his agent, has represented that he will have no objection to removing his foundation from the intended Street provided he is paid 50 or 60 Dollars towards the expense, if by so doing he can occupy the ground uninterruptedly for five or six years: in which case he will stipulate that he will put no buildings upon that part intended for the street but such as he will remove at his expense when the street is actually to be opened.

From the conversation the Street Commissioner has had with Mr Barrow, he believes the Corporation will be willing to pay that sum to prevent a greater evil, as they have no absolute [441] disposition to open the Street at present.

If Mr Bowrowson will agree with this arrangement, the Street Commissioner is of opinion that it ought to be adopted.

June. 6. 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the 8th Ward.

The Street Commissioner presented the following report.

The Street Commissioner, agreeably to the ‡resolution of the Board for opening Hudson Street, applied to Mr Astor for a cession of his unexpired 60. years lease of so much of Hudson Street as will pass through his grounds purchased of Col. Burr.

Mr Astor states that it will not be of any immediate use to him, as he will be obliged to improve next the river before he attends to regulating the low grounds near the Mansion house, and therefore is unwilling to enter into the expense of regulating Hudson Street. But he proposes to cede the Street to the Corporation immediately, upon the condition that they will make it a passable road at their expense, as

The Street Commissioner presented the following report.

The Street Commissioner, agreeably to the *order of the Board presents the draft of an Ordinance for a Pier and L on the north side of Jay Street between the Corporation Basin north of Duane Street and the grant to William Rhinelander Junr

Mr Rhinelander has called on the Street Commissioner and requested him to state to the Board his inclination of carrying out at the same time another L to the pier above mentioned forming a T, with the pier which is included in the inclosed ordinance and submitted for the consideration of the Board.

The Street Commissioner is of opinion that the permission ought to be granted and that the said Ordinance ought to pass.

Which is submitted.

June. 6. 1808. John S. Hunn.

Ordered that the same be confirmed and the Ordinance was passed accordingly.

The Street Commissioner reported that the further sum of $500. was required to pay the labourers employed at the Collect.

Warrant Nº 1038 [443] Ordered that a warrant for that amount be issued in favour of Alderman Bingham.

*The Committee to whom was referred the consideration of the award for opening Magazine Street, Report

That for the following reasons it will, in their opinion, be improper for this Board to confirm it.

1[st] The price allowed is considered by your Committee as by far too high.

2[d] The award does not carry the wishes of the Board into effect, as instead of fixing the price which ought to be paid, both for the lot of ground in question and the dwelling house thereon, it only affixes the value to be paid for the lot, leaving the compensation [452] which ought to be paid for the altering and removal of the house to further arbitration.

The business therefore being left in an unfinished State, it is recommended to the Common Council to take measures for having the same settled by a jury, and not to sanction the award.

are confirmed in the favourable opinion they had before entertained of his education, science and military experience; that the letter of the Secretary at war is unsatisfactory, in that it holds out no compensation or gratuity to Mr Dubuc for the disclosure of his plan, though it should be adopted, with success, in any or all the harbours of the United States. That although it rightfully and exclusively belongs to the government of the United States to provide and afford protection to every part thereof, yet, the want of a stipulation [455] or promise on their part to indemnify this Board for any responsibility which it might in the first instance assume, to the amount of $.60.000. for obtaining the disclosure of a plan of defence, which holds out a speedy, economical and complete security to the City, should not in the opinion of the Committee induce an abandonment of that object; but impressed as the Committee are with a conviction of the great importance which the promised defence and security would be *of* to the citizens of New York, could the same be realized, and believing that all the plans and systems which have been heretofore proposed and acted upon would, if completed, afford but an imperfect and problematical security to the city, they think it adviseable again to address the Executive of the United States, for their aid and co-operation on the subject, at least so far, as to stipulate that the plan which Mr Dubuc may communicate to the Common Council, for fortifying the harbour of New York, by means not in use, shall, if adopted for any other port or harbour of the Ud States, be also adopted for the port of New York, which would obviate the principal difficulty now existing between Mr Dubuc and the Committee. In this case they would recommend it to the Common Council to guarantee the payment of ($60.000) Sixty Thousand Dollars to Mr Dubuc, for a disclosure of his plan of fortifying the harbour of New York, by means of defence which are not in use, provided [456] the same shall be adopted by the government of the United States for the port of New York.

They therefore submit the following resolutions.

Resolved that his Honor the Mayor be requested to state to the Secretary at war that the Common Council, anxious to obtain security and protection for the City against the hostile attacks of any maritime power, are disposed to avail themselves of such discoveries and improvements in the art or science of fortifications as may tend to ensure that object.

Resolved that this Board will guarantee to Mr Dubuc the sum demanded by him, vizt $60.000. on condition that he make known to them or such Agent or Committee as shall be appointed for that pur-

pose, the particulars of his proposed plan of defence for the harbour of New York, consisting of means of defence not in use, with liberty to publish the same; and on condition that the same be adopted and put in force by the Government of the United States for this city and harbour, with the assent of the Common Council, within the term of Five Years.

All which is respectfully submitted.

†The Road Committee to whom was referred the petition of Walter Bowne and others praying that Albany Avenue may be opened,

That the petitioners are purchasers of ground above Inclenberg hill and Steuben Street, where the grounds are very uneven and rocky, and it will cost a considerable sum to make it a good road to Steuben Street. The Committee are of opinion that it will be very little to the public convenience to open that road, unless the Board open it, also, through Inclenberg to Old potters field, in which case the accommoda-

That sufficient accomodation might be obtained without incurring much expence, by opening another access to the Police Office, and taking in the entry leading to said office, into the apartment occupied by the S[t] Commissioner & Clerk.

Ordered that the subject be referred to the Committee of repairs with instructions to afford such accommodation as in their opinion may be proper.

The Comptroller presented the following communication.

||The Comptroller has the honour of submitting to the Board a proposition which, if adopted, he thinks will be advantageous to the interests of the Corporation.

The present manner of conducting the department [460] of wells and pumps is attended with embarrassment in the adjustment of accounts for this business. It cannot be presumed that the Alderman

of a Ward, when he gives his signature to an Account has, always, perfect knowledge of the particulars contained therein, whether the number of men employed or the amount of days charged is accurate. He must consequently rely on the integrity of the person, who performs the work, for the regularity of the charge.

There is reason to believe that this mode is susceptible of errors, which the Comptroller finds it difficult to check under the present system. To obviate these, it is respectfully submitted, whether it would not be more eligible, either to contract for regulating the wells and pumps for one year or a longer period, or to place them under the control of the Superintendant of repairs, whose duty it should be, with the direction of Aldermen of the respective wards, to attend personally to the making and repairing of all wells and pumps belonging to the Corporation, and to attest to the accounts by his signature. It would be proper also to have the pumps in each ward numbered in progressive order, whereby much inconvenience would be avoided in ascertaining when the same were, from time to time, repaired.

The Comptroller confidently believes that a regulation of this kind will be advantageous to the public interest, and may be the means of [461] retrenching unnecessary expenditures.

Ordered that the same be referred to Alderman Bingham Mr Slidell & Van Antwerp.

The Comptroller presented the following report.

*By a resolution of the Board of the 6th inst. the Comptroller was directed to lease at Auction for Twenty one Years from the 1st May last, a lot of ground corner of Anthony and Elm Streets. Previous to advertising the same, he viewed the premises and consulted with the Street Commissioner, whose opinion was decidedly for postponing the sale of the Lot at present. It appears that the ground adjacent to the Collect is not yet sufficiently regulated for the purpose of building, and to dispose of a single lot at this time would be injurious to such general regulations as may be adopted in future when a sale may be effected to more advantage. Whenever it is deemed adviseable to lease this property, it is the opinion of the Comptroller that a survey of the whole should be made and arranged in lots of proportionate size, under the direction of the Street Commissioner, and sold at public Auction for a term of years. By this mode, uniformity will be

preserved in the dimensions of the lots, every individual, disposed to purchase, will be on an equal footing and the real value of the property more [462] justly ascertained.

agreeably to a statement certified by the Street Commissioner a ballance of $386.40 appears due to them.

The Street Commissioner presented the following report.

*The Street Commissioner lays before the Board a slight survey of Mr Loss, of a lot of ground belonging to Mr Peirson at the corner of Broad and Front Streets, upon the lines of which he deems it necessary for the Board to decide.

Mr Pierson purchased the lot of Mr Delafield for a certain quantity of ground, but his present object is to gain about a foot more by coming [472] out to what he supposes is the intended line of the Street. Mr Delafield applied to the Street Commissioner for the same privilege previous to selling this ground. But the Street Commissioner has objected to giving such privilege, because he is directed by law to prevent buildings from being put upon the Streets, and this Street has been formed by buildings through the whole block, which will be obstructed by the intended building. Because he believes Mr Pierson has no right to any more ground than such as was covered by the old foundation being the breadth he purchased. Because the Corporation, in no instance, have intentionally permitted an individual to build out a foot in front of his neighbours where the Street was apparently formed; but have in many cases prevented them from so doing. Because the indulgence of such a principle would subject the Board to continued claims for favours of this nature, which are too often granted, perhaps, to the injury of the Streets in cases less important. And more especially, Because the Street Commissioner is not satisfied with the correctness of the survey, inasmuch as Mr Loss has not shown thereon the true dimensions intended for the several lots in that Block, where the water grants were issued, which ought to have been done before a correct judgment upon the subject could be made.

[473] The Street Commissioner therefore submits the whole case to the Board with a hope that they will give such instructions as the importance of the subject demands, important by its becoming probably a data upon which future surveys will be effected.

All which is respectfully submitted

The Committee to whom was referred the *Petition of Ephraim Hart reported, that the injury of which he complains is occasioned, not by any obstruction of the course of the water of the Collect but from the settling of his grounds, and that he be directed immediately to fill up and regulate the same agreeably to the order of the Common Council of the †11th January last; which was confirmed.

The following report was presented

‡The Alderman and Assistant of the 8th Ward and the Street Commissioner to whom was referred the two several petitions for opening Crosby [484] Streets,

Report

That the property of Anthony L. Bleecker runs across the head of Crosby Street and cuts it from an entrance into Bleecker Street for about One hundred feet. That it would be a great accommodation, in their opinion, to the people in the vicinity, *it* [if] it were opened, as they are now hemmed in, with no communication to the Bowery or Broadway, unless they come 7 or 800 feet into Prince Street.

The Committee therefore recommend that the Street Commissioner take order for opening the said Street without delay.

June. 27. 1808

Thurston Wood
Jasper Ward.

Ordered that the same be confirmed.

On receiving the ||report of the Attorney on the Petition of John A. Laird.

Ordered that One half of the penalty incurred by said Laird, be remitted.

§The Street Commissioner presented an Assessment for regulating Provost Street, which was confirmed, and William Dustan was appointed Collector.

The Street Commissioner presented a further report on the propriety of improving [485] the road through Hamilton Square, which was ordered to lie for consideration.

The Street Commissioner presented the following communication

Mr McLean informs the Street Commissioner that he has contracted for part of the materials for the Powder Magazine, which are to be delivered at Governor Clintons Wharf on the Hudson river, and that he finds himself constrained to request the Corporation to open

part of the Street, or road, running from Manhattan Avenue on the South side of the ground sold by them to the State; which will afford him the means of conveying his materials to the site of the intended building. The Street Commissioner is of opinion that it will be only necessary in this case to make a small causeway over the low lands and to remove a small quantity of bushes and obstructions to render the road passable: and he recommends that the road master be directed to attend to it under the Superintendence of the road Committee.

Which is respectfully submitted

June. 27. 1808. John S. Hunn.

Ordered that the same be referred to Messrs Bloodgood Slidell and Ludlam

[486] The Street Commissioner represented that a ballance still remained due to the persons lately employed at the Collect.

Warrt No 1080. Ordered that a warrant be issued in favour of Alderman Bingham for $.500 on account thereof.

The Street Commissioner informed the Board that he had procured the *deeds from Isaac Dodge and Samuel Torbert for the three feet Alley running from Chesnut Street to Roosevelt Street, for the purpose of improving the circumjacent Streets, by letting the water thro' the block, and that the expense of the purchase amounts to †One hundred and Ninety Dollars fifty cents, for which he is to pay cash and solicited a Warrant in his favour for that amount, which will be included in the Assessment and be refunded to the Corporation.

Warrt No 1081. Ordered, that a warrant be issued in favour of the Street Commissioner accordingly.

The Street Commissioner presented a profile of the ‡regulation of Broome Street from the Bowery to the East river calculated to comport with the situation of the several intersecting Streets, which was confirmed.

[487] The City Inspector presented drafts of Ordinances for the purpose of correcting nuisances from No 4333. to No 4342 inclusive.

Ordered that the same do pass

The Superintendant of repairs reported that on examination he judged it would be very imprudent to open and cleanse the Sewer in

Water Street, at this season of the year: especially as the complaints respecting obstructions in the lateral sewers were, for the present, sufficiently removed.

On his further representation, Ordered, that the diameter of all wells hereafter to be made, be not less than six feet; and that said wells shall contain not less than three feet depth of water, to justify his signing the accounts of the contractors for payment of the sum usually allowed by this Board. viz[t] One Dollar, for every foot such wells shall contain in depth from the surface of the Street.

Resolved that the Attorney of this Board forthwith prosecute the owners of Lots on Broadway, between Broome and Spring Streets, who have neglected to fill up the same in compliance with the former ordinance, and that the City Inspector report ordinances at the next meeting for filling the same.

[488] Ordered that the Street Commissioner take measures to prevent the depositing of rubbish in the East river, fronting the Battery.

Ordered that the Committee on the Collect be authorized to employ a Marshal to take charge of the soil removed therefrom.

mation on the subject of defence for our ports and harbors will be received with pleasure, and any improvement on the general known system of defence will be adopted for New York, if, on due investigation, its merits shall render its adoption expedient.

It may be relied on, that Mr Du Buc's proposed system will not in any event be adopted for the defence of any other port or harbor in the United States, than that of New York, without the consent of Mr De Buc, or the Corporation of New York, who may think it advisable to purchase of him the right of applying his system to the defence of that city and harbor.

As the President possesses no power for paying premiums for new discoveries or inventions, he can only recommend to the consideration of Congress, such as he may consider of sufficient importance to claim the attention of the Government.

I herewith inclose a pamphlet lately received, announcing also an invention for the defence of a Country, with an offer from the author to communicate to the President a full description of all the details necessary for carrying the proposed system into complete effect on condition of receiving $.50.000. for the invention. I will thank you to return the [8] pamphlet when convenient,

and have the honor to be
most respectfully, Sir
Your ob. Servt
H. Dearborn.

Hon.
Dewitt Clinton
Mayor of the City of New York.

Ordered that the same be referred to the Committee of Defence.

Reports from the Police Office that Capt. Darling had suspended John Longindale for sleeping on his post, and from

Capt. Anderson, that he had dismissed George Durand for disorderly conduct, and recommending James Weeks, a substitute, to be appointed in his place,
were referred to the Watch Committee.

A Report from the City Treasurer of the State of the Treasury, was presented and ordered to be filed.

*A Report from the Commissioners of the Alms House, on the Petition of the Clerk for an increase of his salary, that in consideration of the augmentation of his duties, he is, in their opinion, justly

entitled to additional compensation, was referred to the Committee of Finance.

[9] The Attorney to whom was referred the Petitions of Edward Connolly Daniel Halsey Abel Smith William J. Furman Moses Hoyt Andrew Jackson Samuel Taylor Zachariah Mole Elizabeth Birdsell James Erwin and Edward Collins for remission of the penalties incurred for selling liquors without licence,

Reported that on examining their several cases he considered them respectively entitled to the indulgence of the Common Council.

Ordered that, as far as this Board is concerned that the fines be remitted, the Petitioners paying the costs of prosecution.

*The Street Commissioner reported that agreeably to the order of the Common Council he had given notice to Messrs Stagg & Anson to fulfil their contract for regulating Ridge Street within one month under penalty of [10] being prosecuted for default. That they had neglected to comply with said notice, and he wished to know whether he should put their Bond into the hands of the Attorney for prosecution.

Ordered that the same be referred to the Alderman and Assistant of the 7th ward with power to institute a prosecution.

The Street Commissioner presented the following communication.

The Street Commissioner has the honor to communicate to the Board, that by a survey effected by Mr Loss and himself along the Hudson river, for the purpose of directing the manner of sinking the blocks for the Pier at Partition Street, he finds that the line portrayed by the survey of Mr Mangin as the west line of West Street is not far enough into the river by nearly forty feet, if the line of West street be continued, as it ought to be, straight from Courtland Street to Harison Street: and that in consequence of this error in the former Survey, the Pier now building, by Mr Woolsey, at Partition Street, will not be above 210 feet into the river, instead of 250. the stipulated distance.

The Street Commissioner is sorry this error was not sooner discovered, but believes [11] it can still be corrected by directing Mr Woolsey either to lengthen the Bridges or to sink an additional small block, which extra work the Board ought not perhaps to object to when they consider that a straight line of 3000 feet along the face of the city will thereby be produced, in lieu of a crooked line laid down by Mr Mangin.

In order however to bring this subject fairly before the Board, the Street Commissioner proposes the following resolutions.

* Marginal note reads *See, Vol. 18 P. 362.*—Ed.

Resolved, that the west line of West Street usually called the permanent line, be continued in a straight line from a point seventy feet westerly of the northwesterly corner of the Brickwork of the brick building lately erected by Jacob Wilkins at the lower end of Courtland Street, to a point six feet westerly of the outermost part of the timber of the present wharf at the foot of Harison street, on a line with the north line of said Street.

Resolved further, that the Alderman and Assistant of the Third ward and the Street Commissioner make such arrangements with Mr Woolsey for the extension of the pier now sinking at Partition Street, as they may think proper.

Which is respectfully submitted.

July. 11, 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the Third Ward.

[12] The Street Commissioner presented the draft of an Ordinance for repaving Catherine Street from Bedlow to Cherry Street, which was passed, and Simeon Skillin Isaac Doty, Eldad Holmes John Drake and James Smith were appointed Assessors.

The Street Commissioner presented the following report.

*The Street Commissioner has the honor to state to the Board, that in the arrangements for settling the charges against the vacant lots on Hester and Rynder Streets for filling and regulating, among other assumptions to prevent a sale of the said lots, Mr William Houston consented to pay all expenses upon Lot No 639, then amounting to $101.39. and for which he gave his note payable in ten days from the 20th of May last. That this money has been long due to the persons who contracted for filling these lots, and that the subscriber transferred Mr Houstouns note to Mr McGown, one of the Contractors, on account of his contract, and which, with a copy of the advertisement for sale is hereunto annexed for the inspection of the Board.

The Street Commissioner further states to the Board, That the note so transferred was this day, [13] and for the first time, presented by Mr McGown to Mr Houstoun for payment, having been due since the 30th June last: and that Mr Houstoun peremptorily refuses to pay said note, alledging that he has made arrangements with the Common Council for paying this, with other expenses at some future day.

The Street Commissioner being unacquainted with any such arrangements, expecting the note would be immediately paid and having re-

ceived Mr McGowens receipts in full for the said contracts, wishes explicit information from the Board, whether any arrangements have been made by them with Mr Houstoun to invalidate the note, or by which the Board have consented to pay the same for him, and if not, whether he ought not to be permitted to take such legal measures for obtaining the amount of the note as may be just and right.

Which is respectfully submitted.

July. 11. 1808. John S. Hunn.

Ordered that the same be referred to the Attorney.

On representation of the Street Commissioner Ordered

Warrant No° 1106. That a Warrant be issued in favour of Samuel Torbert for his contract for raising sunken lots in Harman Street, to operate as lien on said Lots for $30.

1107 [14] In favour of John S. Hunn for expenses for filling Beekman Slip. $116.98.

1108 John Simonds for carting Earth to raise around Duane Market. $31.25

1109 Thomas Anderson, for a pick ax. $9.93.

1105 Ordered that a warrant be issued in favour of Jacob Cholwell on acct of his contract for lighting the public lamps. $.2000.

The City Inspector reported Ordinances for the purpose of correcting nuisances from N° 4349. to N° 4375. inclusive.

Ordered that the same do pass.

*The Fire Department to whom was submitted the Petitions of Fire Engine Companies N° 22 & N° 30.

Reported, that Engine N° 22. be substituted in the place of N° 30, the latter not being fit for service, and that the Petition of Company N° 22 for a larger Engine be granted.

Ordered that the same be confirmed.

The Fire Department on the †petition of Fire Engine Company N° 29. for a new Engine reported against the prayer thereof, as an Engine has been placed at Greenwich Church fully adequate to answer every purpose, which was confirmed.

[15] On motion, Ordered that the Street Commissioner cause prosecutions to be commenced against such owners of lots on and near Beekman Slip, as have incurred penalties by not filling up these lots. And further, that the Street Commissioner prepare ordinances and

Report

That they deem it inexpedient and improper to make any alteration in the grant alluded to for the following reasons.

It is requested in Mr Bruce's Petition that he may be placed on the same footing with John Jacob Astor, who has property in that neighbourhood to a large amount; but it should be recollected that Mr Astor has not yet taken up his grants nor has the precise sum which he is to pay been finally adjusted. Besides Mr Astor's lots continue unimproved, while Mr Bruce has derived advantage from the improved state of his property. It would also be a dangerous precedent to make innovations on grants which are completed and on record. This would open a door for continual applications of the same nature; and would have a tendency to create litigations without end. [25] From a full view of the subject, the Committee are decidedly of opinion that no alteration should be made, and the request of Mr Bruce ought not to be complied with.

intended any encroachment. That he early applied to the Street Commissioner to fix the line for his building; That Mr Loss accordingly made a survey of the ground, and hearing nothing further for a considerable interim, Mr Pierson concluded the line, as laid down by the surveyor, was correct and conformed his building thereto.

Your Committee however, with a view to ascertain as nearly as practicable the true line, extracted from the records the dimensions of the several grants, and on measuring the block on the North side of Water Street, from the House on the corner of Water and Broad Streets built by Mr Milliner in 1764, They found the building comprehended all the ground granted, except six inches which A. & F. Cortland's lots is entitled to in Coenties Slip, but on measuring the buildings on South Street, beginning at the Store tenanted by Isaac Seabring, they found fifteen inches of ground occupied more than the grants specify. The corner house built in 1764 above mentioned, and the corner store of Mr Delafield on South Street appear from every information your Committee could derive to have been marks from which the proprietors on both streets, in regulating their buildings, have measured; and Mr Piersons building on the corner of Front and [27] Broad Streets appears to range with a line drawn from these two points.

Your Committee are therefore of opinion that, as it is not apparent any encroachment has been made, as the Street in this quarter is very wide, and as Mr Pierson's building is already finished three stories with brick and slate, it should be permitted to remain.

The Street Commissioner represented that William Tabele, Assessor for Cross and other Streets, was prevented, by an accident, from serving.

Whereupon Stephen Burdett was appointed Assessor in his place.

[34] The Street Commissioner presented the following communication.

The Street Commissioner is impressed with the necessity of appealing to the Common Council against several growing evils now in full practice in the city, in opposition to the direct orders of the Corporation, and which have already extended to such lengths as to baffle the exertions of the Street Commissioner to correct the past or prevent the evil consequences in future.

The laws of the Corporation are explicit that no post shall be put up in any part of the city, and yet we cannot extend the eye in any direction, within the view of the Shops, but we find that posts, mostly of rough scantling are stuck up in the walks to support an awning: and along Chatham Street although they are made smooth, yet they have so far counterballanced this act of neatness, as to cap them with rails and absolutely produce a fence along the Street. In other parts of the city they are continually erecting, and they are so done, in defiance of the orders of the Street Commissioner to the contrary. It would seem extremely partial to prosecute any one person for this infringement of the law, while hundreds of others have put up and still put up Posts unknown to the Street Commissioner, until [35] months after and others have been permitted to retain theirs for years. The Street Commissioner believes it is by no means necessary to use posts for the purpose of supporting awnings, for the method by rails and hooks from the houses answers all the purposes and looks much neater, and when the awning is removed the street is freed of an incumbrance, but the posts stand winter and Summer to annoy the eye and obstruct the passage.

The idea however has occurred to the subscriber that it would be an inconvenience to individuals to remove and alter the awnings they have now in use, and that if the Board are of opinion they ought to be permitted to remain during the present hot weather, that they direct them to be removed at some future day. The following resolution upon this subject is therefore proposed.

Resolved that no post for supporting an Awning or for any other purpose be erected in any part of the city, except scaffolding for building, after this day, and that the Street Commissioner is hereby

required to order the same to be removed or without partiality to prosecute for the fines in such case stipulated to be paid.

And Resolved further that the Street Commissioner be and he is hereby directed publicly to notify all persons to remove any post or posts they may have erected or left in the streets of this [36] city on or before the first day of October next under the penalties of the fines by law established: And that the said Street Commissioner without delay cause this resolution to be carried into effect.

It is acknowledged that the health of the city is endangered by stagnant water and it is certain that the substances which collect in the broken gutters are among the most offensive of these waters. It is therefore necessary to the health of the city that the gutters should be particularly attended to and kept, not only free from filth, but of a smooth and even surface, and particularly in streets where the descent is small. Notwithstanding the importance of this subject, a practice for some time prevailed of taking up the gutters, raising them above their intended regulation and thereby stop the course of the water, greatly to the annoyance of the passenger. In addition to this several individuals have raised the Streets opposite their lots several inches above other parts of them, which destroy the uniformity of the curve or arch and throw the water upon their neighbours. These evils have been noticed by many members of the Board and require remedy. The incompetency of persons frequently employed to pave the streets and gutters and their disposition to oblige their employers, at any rate, are among the causes of this complaint: [37] and it appears to the subscriber that this evil cannot be corrected, unless the Street Commissioner or some other person be delegated with the power to adjust the whole of the gutters in all streets of a descent not more than one and half inches on ten feet.

If this idea should prevail it will perhaps be adviseable to pass the following resolution.

Resolved that the Street Commissioner be and he is hereby empowered, whenever a gutter in any street of this city with a descent of not more than one and half inches on ten feet shall require to be repaired, to employ a fit and competent person so to repair it at the expense of the owner or owners of the respective lots fronting thereon; and if in his opinion it is necessary to lay the same with flat stone, to preserve a uniform descent and even surface.

In addition to the above the Street Commissioner has to state that the practice of carrying out the steps farther into the street than the law allows, prevails so generally that scarcely a building is now

put up, which he is not obliged to notice in this respect: And that the general answer is, that when other Stoops are removed, which project into the Street, they will remove theirs. The Board will therefore see the propriety of some specific instructions on this subject also.

Which is respectfully submitted.

July. 18. 1808. John S. Hunn.

The Street Commissioner presented the following communication.

The Street Commissioner has been informed by Mr Barrow that Mr Anthony Bowrowson is still proceeding with his building and has now carried the chimney nearly to the roof, and that he refuses to stop, stating that he has nothing to do with the Corporation. That this circumstance has been communicated to the Vestry of Trinity Church and that they requested him to solicit the Corporation to proceed to open the Street without delay.

Mr Bowrowson has never executed the *paper agreed upon by his agent to remove the buildings at his expense, nor will he do it, after his house is finished. The Street Commissioner therefore recommends that the Attorney be directed immediately to issue precepts to open the Street, as †formerly agreed upon by the Board, as no dependance can be placed upon the word, integrity or honesty of Mr Bowrowson, for he has taken in part of the adjoining lots, as well as part of the street, in his late enclosure [39] which are conspicuously portrayed upon the accompanying Map.

A Petition of the inhabitants in Columbia Street, for additional Lamps, was referred to the Lamp Committee.

*The Committee to whom was referred the Petition of Robert Tierney and associates reported, that the delay of which the petitioners complain is occasioned by an omission in [45] *in* payment on the part of Oliver Jacques Collector, except as to compensation for the extra expense occasioned by widening Magazine Street, which will be provided for by an Assessment agreeably to a †report of a Committee on the award of M^rs Lynch's property, the Committee therefore recommended that M^r Jacques be requested by the Street Commissioner to settle his accounts with the Corporation as Collector on the aforesaid streets, which was confirmed.

The Street Commissioner represented that he duly served a notice on M^r John M^cKie to fill up and make the half of North Moore Street agreeably to the Order of the Board. That the time in which he was directed to perform the work has long since expired and that he had not in any particular complied with the order. That in consequence the passage to the wharf is not only obstructed by his timber but that his neglect to fill in his half of the street has caused almost the whole of the Street opposite his waters to wash away and the earth to run upon his ground.

The Street Commissioner submitted whether he should direct a prosecution to inforce compliance with the order and at the same time remarked that, in his opinion, no other method would produce the effect desired.

Ordered that the Street Committee institute a suit accordingly.

Streets and roads, presented the same, together with their report thereon, as follows.

The Communication from Gouverneur Morris in behalf of the Commissioners respecting the situation and bounds of such Streets and roads as are within the meaning of the act to be understood as "opened and accepted" by the Common Council, having been referred to the Street Commissioner he has the honor thereon to make the following report:

The draft of the Bill for the [53] appointment of Commissioners to lay out the north part of the island, originated in a special Committee of the Common Council to which the Street Commissioner was attached. As the Bill was passed into a law nearly verbatim and with immaterial alterations, it may not be improper to state some of the reasons which induced the Committee to add the prohibitory clause alluded to in the communication from Mr Morris.

The Corporation were proprietors of a large tract of land called the Commons, which they had many years before laid out at a great expense in straight and spacious streets, at suitable distances from and at right angles from each other. The squares formed by the intersection of those streets they had alternately sold and leased, with an express condition that the Streets by which the Square were bounded should remain as Public Streets. It was hardly to be expected therefore that the Board would relinquish the power they possessed of retaining these streets of their intended position and width; for any deviation would seriously affect the public interest and the Committee were of opinion, that no alterations could materially improve that district of the island.

The Common Council had but a very short time previous to the preparing of the Bill, also laid out their grounds at Inclenberg into half acre lots forming squares bounded by straight and spacious streets, and had sold the said squares with the express [54] condition that the Streets should forever be kept open as public Streets. The Committee thought it adviseable to retain these streets in the position, without any alteration; and the same reasons were considered conclusive with respect to the lots sold by the Corporation upon Hamilton square.

The Committee were well persuaded that the Common Council had taken great pains to survey and lay out, to widen and straighten sundry other great and leading roads upon the island, and had spent considerable sums of money to effect these important objects, which after mature consideration they had adopted: That they had directed the proper officers to procure cession and take legal measures for open-

ing the said roads and that their operations were then progressing. They were therefore of opinion that the Streets and roads so surveyed, adopted and confirmed by the Common Council, ought not to be rejected or altered nor the opportunity of obtaining a gratuitous cession of any part of them prevented.

The Commissioners of forfeitures laid out into Streets and Squares all the grounds along the East river which became the property of the State by the attainder of James Delancey Esq^{r} and sold the squares bounded by such streets. Some of these Streets run over the South boundary mentioned in the act, but as the State had conveyed all their right to the Streets in the City of [55] New York to the Corporation, the Committee conceived that it might be fairly inferred that these streets, as far as the North line of M^{r} Delanceys farm, ought of right to remain undisturbed in their direction and perhaps in their breadth.

In addition to the above it may be observed that the adoption of these surveys by the Common Council and the working of the roads by their directions were circumstances well known to many persons who possessed property on the island which became affected by them, and the Committee were well convinced, that relying upon the good faith of the Corporation, considerable purchases had been made, bounded by the Streets and roads so laid out and adopted, which would be materially injured by any alteration of them.

Influenced by these reasons, and anxious to prevent as much as possible any measure of the Corporation, by which they might be charged with inconsistency, the Committee thought it adviseable to make the reserve mentioned, and however ambiguous it may have been expressed in the Bill, the Street Commissioner believes it was the intention of every member of the Committee, thereby to include "all the Streets "and Roads surveyed, laid out, adopted and confirmed" by the Common Council previous to the passage of the Act: And when it is considered that the Board revised [56] the Bill with great attention, and admitted this clause without any alteration, it may reasonably be concluded that they were unanimously of the same opinion. For if it were otherwise they would be recommending a measure that would injure their purse, hazard their integrity, and embarrass their operations.

The Streets and roads comprised within the views of the Committee and running in a northerly and Southerly direction may be enumerated as follows.

1st The Streets between the Bowery to the East river on Delaneeys ground.

2d The Bowery road from North Street to the fork of the Bloomingdale and old post roads.

3d Broadway from Art Street to the Bowery road.

4th The Bloomingdale road from the termination of the Bowery road to Steuben Street.

5th The Old post road from the fork of the Bloomingdale road to the South line of the ground sold by the Corporation to Thomas Buchannan.

6th Albany Avenue, formerly called West road, from the old Post road to the Harlem line.

7th Boston Avenue, formerly called the East road, from the North line of the aforesaid ground sold to Mr Buchannan to Harlem line.

[57] 8th Manhattan Avenue, formerly called the Middle road, from the old Post road through Harlem town to Coles' bridge.

9th Hamilton Avenue, from the Street South of the lots on Hamilton square to Harsin's Cross road hereafter mentioned.

10th Orchard Street, intended to be called Harlem Avenue, from North Street 70 feet wide to Mr Winthrops gate, and from the South of Hamilton Square to the Harlem line. and

11th Hudson Avenue, from Governor Clintons place near Greenwich to the intersection of Harsin's Cross road and Bloomingdale road near the seat of Lieut Governor Broome.

The Streets and roads running in an easterly and westerly direction are as follows.

1st The Streets running from the Bowery to the East river on Delanceys ground.

2d The Streets laid out by the Corporation from the Bloomingdale road to Manhattan Avenue for the sale of the lots at Inclenberg.

3d Steuben Street, formerly called Bridgens Cross road, from the old post road to Hudson river.

4th Harsins Cross road, from the old post road, now called Harlem Avenue to the Hudson river.

[58] 5th All the Streets on the Commons laid out by Mr Goerck for the sale of that property.

6th. Hamilton Square, 250 feet wide from Harlem to Boston avenues, and

7th *Manhattan Street, as laid out by Mr Loss from Hudson river to Manhattan Avenue in Harlem town.

* Marginal note reads *A cession for part of this ground has been actually made from Bloomingdale to Mollinen on the Kingsbridge road.*—ED.

The Street Commissioner has here to remark, that none of the above enumerated Streets and roads, within the district of the Commissioners, are to be less than Sixty feet in breadth, and that the probability exists that they will not materially interfere with any general plan which the Commissioners may offer *may offer* for the public good.

It will be easily conceived by the Gentlemen of the Board that a precise description of the bounds and landmarks required by the Commissioners would be too voluminous to become part of this report, and that even a fair description of them on paper would not answer the purpose.

The Street Commissioner therefore believes it only necessary upon this subject to observe, that the Surveys made by M^r^ Goerck upon the Commons were effected through thickets and swamps, and over rocks and hills where it was almost impossible to produce accuracy in the mensuration. That the lines, as portrayed on M^r^ Goercks map, were intended to be straight [59] and the Streets of uniform widths: that the Cross Streets were intended to be Sixty feet in width and Two hundred feet from each other, and that there are no other methods left to ascertain the true position of these Cross Streets, than to measure the ground from Bridgens road, now called Steuben Street, where the surveys on the Commons first began. The Street Commissioner is of opinion that the fences on the Commons are not in any instance to be considered as a boundary of the road, as they have all been set up by individuals without consulting the Common Council, and are in many instances known to be incorrect.

With respect to the other roads mentioned in this report, it may be sufficient to say that such surveys have been made of them as to leave no difficulty in pointing out the land marks upon the ground. This circumstance being mentioned to M^r^ Dewitt, he has requested the Subscriber to accompany him for that purpose, which will be cheerfully complied with if it should meet the approbation of the Common Council.

All which is respectfully submitted.

Report

That the circumstances [60] and facts related by the Street Commissioner are in substance true, and they agree that the roads and Streets enumerated by him are within the meaning of the Act, except

Orchard Street, Hudson Avenue and Manhattan Street from the old Kingsbridge road to Harlem. The operations by the Common Council have not in the opinion of the Committee been such as actually to include these Streets among those intended by the clause in the Act.

The Committee therefore recommend that the above report of the Street Commissioner be confirmed, with the exception of the Streets abovementioned, and that they be left at the discretion of the Commissioners.

The following Report was presented.

The Committee to whom was referred the *application of the Trustees of the Free School Society of the City of New York on the subject of preventing obstructions to the light of the windows [74] of the Building that is to be appropriated to the use of said Society for a School house, represent that on a deliberate investigation of the subject and considering the importance of the institution connected with the benefits that will in all probability result from the improvements in the morals and education of a large portion of the poor children of our city, in which the Corporation are materially interested, in consideration of which the Committee are of opinion that all reasonable encouragement ought to be afforded to the said Society to induce them to improve and repair the said building so that it may be both useful and ornamental to the city and likewise afford the most ample accommodations for the education of those who are so unfortunate as to be dependant on the public for their learning: And at the same time being desirous to preserve unimpaired, as far as may be practicable, to the city, every source of revenue that may be affected by the subject.

Under these considerations, it is the opinion of the Committee that it will be adviseable to guaranty to the said Society that no building or other article shall be erected or put up during the time the said building shall be occupied for the purposes of education, that shall be more than twelve feet in height on so much [75] of the ground adjacent to the ground lately ceded to the said Society and lying on the westerly side thereof as is contained between a line drawn thirty three feet from the present arsenal and parallel therewith, extending from Chatham Street to the contemplated line of Cross Street, and the line of the ground lately ceded to the said Society on the eastwardly and westwardly sides and the line of Chatham Street and the contemplated line of Cross Street, on the southwardly and northwardly sides. Except reserving to the Corporation and their assigns the right and privilege to erect a building or buildings on that part of said ground which fronts on Chatham Street and extending thirty feet in depth along the ground lately ceded to the said Free School Society provided such building or buildings shall not exceed twelve feet in height to the foot of the rafters nor more than twenty feet to the top thereof nor extend more than thirty feet back from the Street.

And whereas it is probable that, at some period not far distant, Chamber Street will be extended to Chatham Street, by which means the Street called Tryon row will become nearly useless and will likely be

shut up, in which case buildings may probably be erected so as to obstruct the light on that side of the said school house. To prevent which the Committee further recommend that the Corporation secure [76] similar privileges to the said Society on that side of the present Arsenal as they have recommended on the other side thereof which privileges to take effect in case the said street shall be shut up.

All which is submitted.

Whereupon Resolved that a *deed be made out to the Free School Society of New York conformably to the †draft heretofore reported by the counsel of the Board and containing the ‡Boundaries lately agreed to and also containing covenants and stipulations as mentioned in the preceding report, and that the Mayor be authorized to affix the Seal of this Corporation thereto.

The Alderman and Assistant of the Fifth Ward, to whom was referred the ||Petition of George W. Chapman for the regulation of Thomas Street,

Reported in favour of the same and that the Street Commissioner be directed to prepare an §Ordinance for repaving Thomas Street from Chapel to Hudson Street, in conformity with the plan proposed by him.

The following communication was presented.

[77] The Alderman and Assistant of the Fifth Ward represent to the Board, that in their opinion Reed Street from Washington Street to the line of West Street and Jay Street from Greenwich Street to the west side of Washington Street are real nuisances and that as large floods of water pass through these Streets, it will not in their opinion be adviseable to wait for a petition to pave them, and that the nuisance cannot be corrected by sand only. They therefore recommend that the Street Commissioner be directed to present Ordinances for paving the Carriage way of the above mentioned Streets without delay.

They further represent that the Canal in Chapel Street is continually filled and obstructed by the earth washing therein and that it is adviseable that an Ordinance also be passed to regulate that Street

The Treasurer presented his monthly report, which was ordered to be filed.

The Comptroller presented the following report.

The Collection of debts due to the Corporation is of material importance at all times, but more especially at this juncture when appropriations are great, and the means of discharging them depend cheifly on prompt and efficacious measures for enforcing the collection of the revenue. Having had the honor of *reporting on this business the 9th of May last, the Comptroller would once [79] more take the liberty of renewing the subject, and respectfully submits the following resolution for the approbation of the Board.

Resolved, that all accounts against persons indebted to the Corporation, which remain unsettled, after the Collector has demanded payment three several times, and where there appears no prospect of effecting a settlement without recourse to prosecution, be delivered by the Collector to the Attorney of the Board, whose duty it shall be to take prompt measures for the recovery of the same.

Ordered that the same be confirmed.

The Comptroller further reported

That the establishment of a general and uniform rule, authorized by the Board, appears desireable at this time, in order to insure a punctual discharge of rents, either annually, or at the termination of each quarter

Connected with this subject the Comptroller would also take the

liberty of bringing forward the state of the Inclenbergh lots. It appears that but a very small proportion of the purchasers have paid in full; several have not made any payments and some of those who have partially complied with the terms of sale, are anxious to effect a settlement, provided the Corporation will comply [80] with a condition on their part, which was to open a Street called Albany Avenue. As more than two years have elapsed since the sale of those Lots and a settlement cannot be effected without the interference of the Board, it is respectfully. presented for consideration.

Ordered that the subject be referred to the same Committee.

The Street Commissioner presented the following Communication.

The Street Commissioner represents that William Lawrence is fencing in part of Dover Street, between Water and Front Streets, to half the width of the Street.

* Marginal note reads *See Report P. 92.*—ED.

The Board may recollect that Mr Lawrence, some time since, presented a *communication requesting to be compensated for this ground, stating that it was his property and that this communication was referred to and †reported against by a Committee of the Common Council, and that the Board confirmed that report.

[82] As such report was not conclusive against the rights of Mr Lawrence, if he has any there, he has taken this summary method of obtaining them. And as it is an Act of great apparent infringement on the right of the citizens, having been open as a public street for years, and involving very serious questions of the Corporation in the premises. The Board may think, with the undersigned, that it claims their serious and prompt attention

Which is respectfy submitted.

Augt 8. 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the 4th. Ward.

The Street Commissioner presented the following communication.

‡The Street Commissioner presents for the Inspection of the Common Council the new Assessment for opening Cross Street, made in conformity with the last ||ordinance of the Board upon that subject. And he is requested by the Assessors to inform the Common Council, that in addition to the documents put in their hands, and the information obtained from the Committee appointed to confer with them upon the subject, they have viewed the premises and collected other facts which have [83] influenced their opinions respecting the true principles upon which an Assessment of the complex nature of Cross Street ought to be founded. And that after the maturest consideration they present the assessment in as perfect a state as their judgment will admit.

This assessment being one of those directed to be advertised and covering a large district of property, the Street Commissioner conceiving it expedient has directed one hundred Bills to be posted in the vicinity, in addition to the usual methods of advertising in the papers, especially as few of those interested are in the habit of reading them.

The Finance Committee to whom was referred the *Petition of Lois Keefe respecting the Flagstaff Reported,

That several applications were made offering a rent of $250 and upwards ꝑ annum, but in consequence of Mrs Keefes being a widow, the Committee recommended to the Common Council to let her have it for $225. in preference to those who offered more. The Committee were informed, at the time they agreed to rent it to Mrs Keefe, that any person that would pay particular attention, could make [105] from $.800 to $.1000. per annum. The Committee are therefore of opinion that the Common Council may with as much propriety relinquish the annual rents of the Hay Scales &c as that of the Flag Staff, and therefore recommended that the prayer of the petitioner ought not to be granted, which was confirmed.

The Treasurer presented his Account of Intestate estates administered by him to March 6. 1806. which was ordered to be filed.

[106] The Report of the Attorney in favour of remitting the fine incurred by *Christian Small for selling liquor without licence, was confirmed, as far as this Board is concerned, on his paying costs of suit.

The Comptroller presented the following Report.

The Comptroller has the honor to report on the †petition of Robert Carter, George Carter, and Elizabeth Carter and Ann Carter by Thomas Burling their guardian, praying for grants of the lots on the southwest corner of Front Street and Burling Slip, on which their Stores are erected.

On examining the Books it appears that in the Years 1773. 74. 75. Grants were made to several proprietors of water lots between Burling Slip and Fletcher Street, extending from Front Street in depth 200 feet, at the rate of 3/ per foot on Front Street. The 30th May 1786 a Grant was issued to Wynant Van Zandt for the lot adjoining the petitioners, on the same terms as abovementioned.

On the Northeast side of Burling Slip, George Codwise Jun^{r} obtained a grant on the 11th July 1803 from Front to South Street 247. feet at the rate of One dollar per foot of 200 feet in length. George Bownes grant for the adjoining lot on the 16th. January 1804 and Peter Schermerhorns on the 6th February the same year, for [107] the remaining lot in this block, and bounded by Beekman Slip, were fixed at the like sum.

*Marginal note reads *See. P. 17.*—ED.
†Marginal note reads *See P. 90.*—ED.

As there appears to have been no grants made in the vicinity of the property now under consideration from May 1786 to July 1803. and as those between Burling and Beekman Slips extend from Front to South Streets and are of a date approaching nearer to the time when the petitioners filled in and built on their lots; it is considered reasonable and proper to make the same scale of rents applicable in the present instance.

By a division of the property from Front to South Streets, between Robert Carter deceased and Peter P. Van Zandt, the former came in possession of the upper part, extending from Front Street about 120 feet on Burling Slip, and the latter fronting on South Street including the remainder. M^{r} Van Zandt has also signified his intention of applying for a grant of his part and the decision of the Board is respectfully solicited on the following proposition.

That the petitioners obtain a grant from Front Street 120 feet 2¼ inches in depth, calculating the average width of the Lot which is 23 feet 2 inches, at Sixty cents p^{r} foot, amounting to Thirteen Dollars 90/100. per. an. the rent to commence from the 1st May 1800. in which year they mention the lots were filled in and Stores erected, and that the like covenants be inserted as respects maintain- [108] ing and upholding in good order and repair the Wharf or Streets adjoining the premises, as are stipulated in the grants on the opposite side of Burling Slip.

*The grant to M^{r} Peter P. Van Zandt to comprehend the remainder of the Lot adjoining the above, extending 122 feet 9¾ inches to South Street, the average width being 22 feet 3 inches at Sixty one and a half cents per foot amount Thirteen Dollars 68/100 p^{r} annum. the rent to commence from the 1st day of May the year in which the Lots were filled and the Stores erected: the covenants to be similar to the foregoing.

respectfully submitted.

Aug^{t} 29. 1808. G. N. Bleecker, Comp^{r}

Ordered that the same be confirmed.

The Comptroller on the †petition of Lawrence Heyer, reported

That in the Year 1785 Jacob Sebring had a lease from the Corporation of two lots N^{o} 102 and N^{o} 103 Chatham Street for 21 Years at the rent of Fifteen Dollars each per annum, without any provision for a renewal. On the 1st of May 1806. the petitioner executed a lease for 21. years for the said Lots at the annual rent of $.450. and on

* Marginal note reads *See P. 433. Vol. 20. P. 39.*—ED.
† Marginal note reads *See P. 91.*—ED.

the 21st December 1807. made a payment of $235 on account, leaving a ballance due on the [109] 1st of May last of $.665.

The petitioner asserts that his case is precisely the same as that of Abraham Brevoort who holds Lot No 2 in the same street at $20 per year for 21 years from 1st May 1806.

It appears from the Books that Mr Brevoort had his lease renewed on the terms as stated, but what reasons operated at the time to fix his rent at this price, are not at present satisfactorily known.

The Board, it is presumed, are best competent to determine, from this statement of facts, which are presented, whether any alteration should be made in Mr Heyer's lease.

Ordered that the same lie for consideration.

The Comptroller presented the Bond of Jacob Cholwell, with Burnwell Brown surety, for the due performance of his contract for lighting the public Lamps, which was approved.

The Comptroller presented a *Deed, executed by the Mayor under the Seal of this Board of the Arsenal and certain grounds thereunto attached, to the Free School Society of New York, which was approved.

The Street Commissioner presented the †Assessment for opening Cross Street, ratified after reconsideration by the Assessors, which was confirmed, and William Dustan was appointed Collector.

[110] The Street Commissioner presented two Leases for vacant lots sold to Hector Scott and Samuel William Johnson sold agreeably to the Assessment and advertisements for the regulating and filling vacant lots in Hester Street, which were approved.

The Street Commissioner presented a return of delinquents on the Assessment for opening Varick Street between Brannon & Budd Streets;

Ordered that a warrant to enforce payment be issued in favour of Oliver Jacques:

The Street Commissioner informed the Board that Abraham Brinckerhoof Junr, Jacob Sherrerd, and Henry J. Wyckoff, declined serving as Assessors on the several Ordinances wherein they were named,

Whereupon Benjamin Stevens Andrew Morrell and Arthur Smith were appointed in their places.

The Street Commissioner presented an Ordinance for paving the Carriage way and laying the Curbstone in Provost Street from Hud-

son Street to the House of John Charters which was passed and Lewis Ford Arthur Smith Benjamin Romaine John Sharp and Joseph Watkins were appointed Assessors.

[111] A Communication from the Street Commissioner representing that it will be necessary, in order to make good work at the piers near the Exchange & Coenties Slips, that part of the old Wharf, which is much out of repair, be taken down and connected with the new piers, the expense of which will not probably exceed $200. and suggesting that Mr Allen the contractor be directed to repair the same at the charge of this Board, was referred to the Committee on Wharves, Slips and Piers.

The Street Commissioner reported that he had been requested by the Governor to define the line between John Jay and the Corporation on the North side of the New Arsenal as it is intended to lay a strong foundation on that line to support the weight of Artillery. That in order to ascertain this line in such manner as to make it a permanent survey, it will be necessary to have the concurrence of Mr Jay and Mr Munro. He recommended the Board to appoint some person to unite with a person to be appointed by Mr Jay to superintend the survey of the line and to sign agreements of its establishment in behalf of this Corporation.

Ordered that the subject be referred to Alderman Bingham Drake and Mr Ludlam.

[112] The City Inspector reported drafts of Ordinances for the purpose of correcting nuisances from No 4429 to No 4443. inclusive:

Ordered that the same do pass.

The following communication was presented by the Street Commissioner.

The Street Commissioner has the honor to represent, that the necessity and importance of more correct surveys have become conspicuous to every Builder and person possessing property in this city. That the frequent mistakes which arise are a source of continual perplexity to the Common Council, as well as a considerable and unavoidable expense. That the errors of surveying happen either from the want of landmarks, the inattention of the [125] operator or the inaccuracy of the instrument with which the work is performed. That the last of these is the most frequent and the most serious for it is impossible to perform well with the best data and the best intentions, when the Instrument is incorrect; and that this circumstance is to be the more regretted, as the errors are not discovered until it is generally too late to correct them, and the character of the operator is painfully implicated in the consequences.

Similar remarks have been so repeatedly offered to the Board and the facts are so well known to them, that it would, in some measure, be inexpedient to advance them here, if there had not been a considerable change of members since this subject was first mentioned.

The Street Comm^r therefore respectfully reminds the old members, and takes the liberty to inform the new, that the Common Council, powerfully impressed with the propriety of attaching to his Office a complete set of surveying Instruments, *Ordered that he should pro-

*Marginal note reads *See, Vol. 15. P. 306.*—ED.

cure them at the expence of the Board, and that they should belong to the Corporation, but be under his care for the public use.

In compliance with this order the Street Commissioner procured a common circumferenter, a common Graphometer and a small levelling Tellescope, the best that could at that time be found in the city, which are now in his possession and together did not cost $100. [126] These instruments are serviceable in common cases where great accuracy is not required, but are entirely unfit for precise and extensive operations, such as ascertaining by angles the directions and inclinations of the old Streets and the laying out of new ones, where great precision is necessary: neither is there an instrument in possession of any of the Surveyors of this city that can be depended upon for such purposes, and this is one of the causes which has delayed the surveys directed by the Board along the shores of the East and Hudson rivers, as the expense would be useless if the operations were incorrect.

The Street Commissioner, consequently, felt the want of a good Theodolite, as well as a long and accurate levelling Tellescope, and had been for some time looking for these instruments in this city and in Philadelphia, in vain, when Colonel Williams mentioned that he had permission from the government to send to Europe for an extensive and complete set of Mathematical and Optical instruments at their expense for his use. The Street Commr embracing the advantage of this circumstance, requested the Colonel to include an additional Theodolite in his order, for the use of this city, which has now arrived from the Shop of W. & S. [127] Jones, the best mathematical instrument makers in the city of London; And is acknowledged to be one of the most perfect instruments for taking of angles, ever invented.

As this Theodolite is as valuable to an Engineer as a Surveyor, it is important in a Statistical point of view, that a public body be possessed of it. And as it is the only one of the kind in this country, except one belonging to Major McComb at Charleston, So Carolina, and another that came with it for Colonel Williams, it would be improper, at this time, that it should fall into the hands of an individual.

The Street Commissioner therefore, solicits the Board to direct the Comptroller to audit the account of Campbell & Mitchell, the importers, for the abovementioned instrument, as well as such other account as may be presented for a levelling Tellescope for the use of and to belong to the Corporation.

All which is respectfully submitted
John S. Hunn.

Warr[t] N° 1234. Ordered that the same be confirmed and that a Warrant be issued in favour of Campbell & Mitchill, accordingly.

The Street Commissioner represented that the second instalment was due for making the Piers at Vesey and Jay Streets.

Warr[ts] N° 1235. [128] Whereupon Ordered that a Warrant be issued in favour of Daniel Woolsey, on acc[t] of the Pier at Vesey Street for $.631.50.

N° 1236. And in favour of Halsey & Westervelt on account of the Pier at Jay Street for $.687.50.

Agreeably to *order, the Street Commissioner presented the draft of an Ordinance for paving round Catherine Market which was passed, and Simeon Skillen Isaac Doty Eldad Holmes John Drake and James Smith were appointed Assessors.

The Street Commissioner presented Assessments for repaving the carriage way in Water Street between Wall and Pine Streets, and for regulating parts of Bayard Pump and Hester Streets which were confirmed and William Dustan was appointed Collector.

The City Inspector reported drafts of Ordinances for the purpose of correcting nuisances, from N° 4444. to N° 4453. inclusive.

Ordered that the same do pass.

Ordered that the Superintendant of repairs cause the high ground in Pottersfield [129] to be drawn into the valley and levelled in such manner as to render the same more suitable for the purposes of a Cemetery.

A Motion of M[r] Mulligan seconded by Alderman Hopkins for a reconsideration of the grant of Stand N° 2 in Oswego Market to Jacob Tier, was lost.

The Committee to whom was referred the *Memorial for widening Frankfort Street presented a Communication from Walter Bowne relating to the ground contemplated to be taken from him for widening said Street, demanding $6500. for the same.

Whereupon Ordered that the Attorney of this Board be directed to issue precepts to the Sheriff to summon a Jury at the next Mayors Court to value the ground required of Walter Bowne for widening Frankfort Street.

The following Report was presented

The Committee to whom was referred the †Memorial of John V. Brevoort respecting a fine that has been recovered against him in consequence of the Chimnies of the Debtors prison having taken fire

Report

That it appears by the 11th Section of the law for the prevention and extinguishing of Fires in the City of New York, that any Chimney within the city taking fire through neglect of being properly swept [134] and cleansed the occupant of the house shall forfeit and pay the sum of Five Dollars; and as the Chimnies in the Debtors prison and likewise in the Bridewell and State Prison, by their peculiar construction are rendered impassable for sweeps, being barred and grated in several places, which obstructions are necessary to prevent the escape of the prisoners, and as it is impossible for the several keepers of the said prisons to comply with said law in that particular, the Committee recommend the following alteration or additional clause to said law:

Be it ordained &c[a] that the respective keepers of the different prisons and Bridewell in this City and County shall cause the several Chimnies in the Buildings under their charge to be carefully swept and cleansed from the tops thereof down to the upper bars or gratings and from the Fire places up to the lower bars or gratings, at least once in every fourteen days, under the penalty of Five Dollars for every chimney that shall take Fire in consequence of such neglect and that the proof of such chimney having been so swept or cleansed shall be made by the said keepers thereof to discharge him from said penalty.

[135] Ordered that the same be confirmed and the additional clause was passed accordingly.

The Committee to whom was referred the *petition of James and Richard Loines complaining against John Marschalck one of the City Weighers,

Reported that from all the facts disclosed, after due investigation, there appeared no reason for the further interference of this Board, and that the Petitioners be allowed to withdraw their petition, which was confirmed.

The Committee further recommended that in lieu of the penalty of forfeiture of office in the second section of the Ordinance to regulate the fees of Weighmasters and Measurers the following be substituted,

Be it ordained &c[a] That the second Section of the Ordinance entitled "a Law to regulate the fees of Weighmasters and Measurers" be amended by striking out the words "his appointment under this Corporation" and inserting in lieu thereof the words "the sum of Fifty Dollars for every Offence."

Ordered that the same do pass.

The following report was presented.

The Alderman and Assistant of the Seventh Ward, to whom was referred the [136] Communication of the Street Commissioner respecting Stanton Street

Report

That they have visited Stanton Street and the adjoining lots and viewed the injury occasioned by the late violent rains. That Stanton Street is broken through, so that it is wholly impassible, and the houses situated upon it and adjacent, are much endangered. That should the equinoctial or other rains, that may be daily expected, sit in, before the injury is repaired and the street secured, the property in that neighbourhood will be greatly injured and in all probability some houses ruined. The Committee further state, that Ordinances have heretofore passed this Board directing the proprietors of the adjoining lots to fill up the same, which have been duly served and the time expired, but have not been obeyed. Your Committee therefore advise that the Attorney of the Board be directed to prosecute the defaulters; and in the mean time, they feel it their duty, under the extreme urgency and pressing nature of the case and with a view to the convenience and safety of the inhabitants, to recommend that the Ordinance herewith

The Attorney to whom was referred the Petitions of Chenellette Dessaussoir Andrew McBride Patrick Thomas and Hezekiah Lord, for remission of penalties incurred for selling liquors without licence, reported in favour of the Petitioners, which was confirmed as far [138] as the Board is concerned on their paying costs of suit.

The Comptroller presented the following report.

The Comptroller has the honor to report on the *petition of Henry Remmey

On the 25th May 1807. the petitioner applied to the Board to be exonerated from paying the amount due by him to the Corporation, while Supt of Scavengers, and stated the unfortunate circumstances which obliged him to make this appeal to their humanity, vizt "that on the 1st Janry 1806 he was robbed of a large double drawer with all its contents, among other things his public papers, a number of public vouchers for monies which he had actually expended on account of the Corporation." This statement is confirmed by his Affidavit of 1st June. 1807

In his former petition he also states "that he has a large and helpless family for whom he cannot make provision, unless he gets the benefit of the act of Insolvency."

Accompanying the present report, is a letter from James Votey, the Surety of Mr Remmey, proposing to pay the sum of $.400. in six

months, provided the Board will discharge him from all further responsibility.

Considering the peculiarly unfortunate situation of the petitioner and the proposition of [139] his surety, the Board will determine on the expediency of accepting the terms proposed and of relieving Mr Remmey from his present embarrassment.

respectfully submitted.

Septr 12th 1808. G. N. Bleecker.

Ordered that the same be referred to Alderman Drake Mr Ward and Aldn Bingham with power to discharge if correct.

*The Comptroller presented the following report.

The Comptroller had the honor to report on the 9th of May last †"that a tract of land containing about three fourths of an Acre, nearly opposite the Dove lots,‡ belongs to the Corporation, and has been in possession of Mr Peter P. Van Zandt for a number of years, and that the time is nearly expired when the legal claim of the Corporation may become forfeited, by the actual possession of the present occupant."

By referring to the ||Minutes of the Common Council of June 20. 1796, is found the following.

"Messrs Jones, Leary, Hardenbrook, Peter P. Van Zandt, Dickson, "Stockholm & Co and Doctor Baker, having by their respective peti-"tions prayed that this Board would sell to them the Common lands "which lay between their respective lands and the post road, at private "sale, at such average price as the Board should judge reasonable; "which [140] the Board agreed to."

"The Board proceeded to consider of the subject and determined "that the price be as follows vizt Those to Leary and Jones at the "price of £160. pr acre, with a quit rent reserved of One Bushel "of Wheat per acre per an. forever."

"Those to John Hardenbrook @ £200. pr acre with the like quit "rent reserved"

"Those to Peter P. Van Zandt £200. pr acre with the like quit rent "reserved."

"Those to Dickson Stockholm & Co @ £145 per acre with the like "quit rent reserved."

"And those to Doctor Baker @ £160. pr acre with the like quit "rent reserved."

*Marginal note reads *See Report P. 188. 225.*—Ed. †Marginal note reads *See Vol. 18 P. 360.*—Ed. ‡Marginal note reads *Hamilton Square.*—Ed. ||Marginal note reads *See Vol. 12. P. 4. 5.*—Ed.

It appears therefore that Mr Van Zandt petitioned for the land, and that the price was accordingly fixed by the Board.

The Comptroller cannot find any documents which might lead to a further elucidation of the subject, but from the statement related by Mr Strong former Comptroller, the business still remains unsettled with Mr Van Zandt.

In order to make a formal demand for payment, agreeably to the terms above stipulated, and bring the business to a termination with all possible dispatch; It is respectfully recommended that an order of the Board should pass for obtaining an exact survey of the land in question under the direction of the Street Commissioner.

Septr 12. 1808. G. N. Bleecker. Compr

[141] Ordered that the same be referred to Messrs Ward Ludlam and Mulligan.

*The Street Commissioner presented the following report.

The Street Commissioner has the honor to represent that the Alderman and Assistant of First ward, who with the undersigned were appointed to superintend the piers at Coenties and Exchange Slips, according to their powers, appointed Mr Isaac Sebring to inspect the work and to report from time to time thereon, that Mr Sebring has now stated that the work performing by Mr Allen is not according to his contracts and declines any further attention to the business.

By a clause in the contract it is provided, that in case any dispute should arise respecting the sufficiency of the work or materials, that the same should be decided by three persons reciprocally chosen by Mr Allen and the Committee.

The Street Commissioner conceives that the opposition of Mr Allen has brought the business to such issue as to require the Committee to have recourse to the aforesaid clause: but the Alderman and Assistant are both absent, and the Street Commr has not sufficient power to appoint an arbitrator: and as Mr Allen is still going on with his work, in a manner which, in the opinion of good judges, may be improper, under its present situation. [142] The Street Commissioner solicits the Board to take some order in the premises.

Sept. 12. 1808. John. S. Hunn.

Ordered that the same be referred to the Committee on Wharves, Slips and Piers with power to act as circumstances may require.

The Street Commissioner presented an Assessment for a lateral

* Marginal note reads *See Report P. 152.*—Ed.

drain in Broad Street amounting to $.58.67. which was confirmed and William Dustan was appointed Collector.

The Street Commissioner presented the following report.

*The Street Commissioner being directed by the Board to enquire of the proprietors of ground required for opening Canal Street, whether they would wait Five years for such sum as might be awarded to them by a Jury to be impannelled for that purpose, has the honor to

Report that Mr Lynch, Messrs Jay & Munro and the Corporation of Trinity Church have already consented and repeated their consent to cede the street, on condition they are not taxed for opening any other part of it, and that the Board have long since agreed to that stipulation.

That Walter Bowne, Thomas Duggan, John McCamman, James Neilson and the Heirs of Anthony Lispenard are the only persons having [143] claims against said Street which remain to be adjusted; the former awards taking in all the other proprietors.

That Walter Bowne consents to wait five years, if Interest is allowed him upon the award, Provided he is satisfied with the price allowed to him by the Jury; of which he is to be Judge.

That Mr Duggan and Mr McCamman will wait five years, or until the Assessment is made out, provided they are allowed interest and that the Heirs of Anthony Lispenard will give no decided answer, and state that the answers already given by them to the Street Commissioner and submitted by him to the Board ought to satisfy that Honorable body of the propriety of their silence.

The Street Commissioner further represents that he has not seen Mr Neilson, or Mr Bull a tenant of Lispenards, but as their interest is very small it ought not to militate against any measure the Board may think proper to pursue to quiet the present claims upon them respecting Canal Street, And it may not be improper to state again his opinion that bold and energetic measures ought to be adopted in proportion to the difficulties that are presented to view, in obtaining a cession of this necessary Street.

Which is respectfully submitted

A Petition of Frederick Shonnard, respecting the west line of Bowery lane between Spring and Prince Streets, was referred to Aldermen Wood Fish Mott Messr Bloodgood and Ludlam.

*An Application of David Godwin that Hoboken Ferry Stairs may be repaired and rendered more secure was referred to the Ferry Committee.

†The Petition of Samuel Thompson and others praying for water grants in Hudson river in front of their property between Morton and Leroy Streets which was referred to the Comptroller, was referred to the Committee on Wharves, Slips and Piers.

A Petition of Hugh O'Hare President of *of* a Society stiled the Bedlow Street Society, was received, praying the countenance of this [149] Board in their favour towards the preservation of the public peace and the suppression of vice and immorality in the said Street and its vicinity.

The Committee to whom was referred the ‡Petition of Isaac L. Kip, reported in favour of granting the prayer thereof, which was confirmed.

The Committee to whom was referred the ||Report of the Comptroller on the Petition of Henry Remmey, reported that the Comptroller be directed to settle with James Votey and receive from him Four Hundred Dollars in cash in full on account of his suretyship for said Remmey: and that the Comptroller also take such legal measures as may be right, in behalf of this Board, as far as relates to their claim to any ballance due them by said Remmey, as may enable him to take the benefit of the Insolvent Act of this State; which was confirmed.

The following report was presented.

The Committee to whom was referred the §Petition of Jacob McKeag, respecting the road at or near Horn's Hook Ferry

quest an estimate to be made therefor which estimate for completing the said improvement was Seven hundred Dollars. The Committee being of opinion that it would be improper for the Board to go into that expense for a situation productive of so little revenue to the Corporation as said Ferry, but being impressed with the necessity of affording better accommodations to the public, made the following proposition to Mr McKeag, Viz[t] To dig down or reduce the road at the upper edge of the rock or crown of the hill, which is about one hundred and fifteen feet from the Northeasterly corner of the new house, three feet, extending thence both ways, that is to say, Northerly on an elevation so as to meet the present surface One hundred and thirty feet from the place of beginning and Southwardly on a depression so as to meet the present surface one hundred and twenty feet from the said place of beginning and to raise the dock two feet: the front part thereof with stone and capped with a piece of timber to secure the same, the remainder part to be filled in with the materials taken from the said road, the front of said dock being seventy seven feet in length and extending back from the river, so as to form a smooth and even surface with and at the junction of the road near the easterly end of the house; the whole to be done in a good workmanlike manner, and to give him as a compen- [151] sation therefor the use of the said Ferry with the buildings and privileges thereunto belonging, free of rent for the term of two years, to commence from the first day of May next subject to the regulations of the Corporation respecting ferries: to which proposition Mr McKeag agreed to comply: and to which the Committee recommend the assent of the Corporation.

And the Committee further recommend that all improvements at the expense of this Board to the Buildings attached to said ferry, except the finishing the house lately erected, be for the present suspended.

of the above case and find that the said Votey and Montgomery agreed to pay, in consideration of the wharf being repaired in front of their yard, but it was only so partially done that it was of no consequence and caused them to move considerable of their lumber and Stone which was attended with great expense to them; [152] In addition to the above difficulty the building of Duane Basin Wharf kept their dock so lumbered, that they could not have the use of it, therefore Your Committee think the said Votey and Montgomery ought to be released from the above payment.

The Committee on Wharves Slips and Piers to whom was referred the *Report of the Street Commissioner respecting the Piers at Coenties & Exchange Slips,

Reported that Peter Dob and John Anderson had been appointed Referrees to settle the differences that had arisen between Walter Allen Contractor for building said Piers and this Corporation as to the sufficiency of the work; whose award was presented, whereby it is determined that certain alterations are to be made to the work already done and that the sum of $714.49. be deducted from the amount agreed to be paid by this Board to the said Allen who is also to pay the costs incurred in submitting the subject in dispute to arbitration. Which was confirmed,

Warr[t] N° 1258. And a Warrant ordered to be issued in favour of Peter Dob and John Anderson for $.11.50 the amount of said Costs.

[153] Ordered that the same Committee be authorized to appoint a suitable person to superintend the work remaining to be performed by Walter Allen to the aforesaid piers.

The Committee on Laws and Ordinances to whom the †subject was referred, reported the draft of an Ordinance for regulating Pawnbrokers, which was ordered to lie for consideration, and Copies were ordered to be printed for the use of the Members.

‡The draft of the Ordinance for regulating the keeping Swine, was called up, and ordered to lie over for further consideration.

Reported that on exam[in]ing their respective cases he considered them entitled to the indulgence of the Board.

Ordered, that as far as this Corporation is concerned, that the fines incurred be remitted, the Petitioners paying the costs of suits.

The Comptroller presented the following Communication.

[154] *The Comptroller respectfully represents that Benjamin S. Judah has lately renewed his application for a grant of the soil under the water in front of his land at Harlem. He presented a †Petition to the Board the 2d of September 1790. which was referred to a Committee who ‡reported the 22d October following, that it would be proper to grant the same to him on reasonable terms. But they recommend "that previous to any grant thereof, an accurate survey thereof be made by one of the City Surveyors and laid before the Board." On the 12th of November the same Year it was ‖"ordered that grants be prepared to Benjamin S. Judah & Lawrence Benson for the soil from high to low water mark in Harlem river in front of their land on a quit rent of Ten shillings for every hundred feet, and a condition that they leave a Street of 40 feet on the outward part of the soil to be granted."

The 29th March 1791. it was §"Ordered that the quit rents reserved on the soil under water to be granted to Messrs Judah and Benson do not commence until the expiration of ten years."

From the length of time which has elapsed since the rent was established, the Comptroller wishes the sanction of the Board, if they think proper, to confirm the former order, or if they are of opinion that any alteration should be made that a Committee may be appointed to determine the quit rent previous to issuing a grant.

[155] As other applications for the like purpose may be expected, to adopt an uniform rate of water lot rents in the vicinity of Harlem would be expedient.

The Committee to whom was referred the *Communication from the Commissioners for laying out Streets &c[a] reported the following resolutions, which were severally passed.

Resolved that whenever the Commissioners for laying out Streets &c. find that in making any survey they shall be obliged to cut trees or to do any other damage more than which is the mere necessary consequence of entering and surveying on the lands, [156] they be requested to confer with the owners of such lands and to have the lines run by amicable arrangements in the presence of such owner or of some persons appointed to assess the damage if any, or otherwise to have such damages amicably assessed the said Commissioners, in their discretion, first reporting the case to this Board where they shall apprehend the damages will be considerable, and in all cases reporting the assessments of damages as soon as made.

Resolved that in all such cases of damages amicably assessed this Board will provide for the payment thereof till further order be taken thereon

Resolved that in all cases where the owners shall refuse at all to suffer the necessary obstructions to be cleared away the Commissioners be requested to report the nature and circumstances of the case with the probable amount of the damage to this Board.

Ordered that the same Committee be requested to report on the suit mentioned in the Commissioners communication.

The following resolution was submitted by M[r] Torbert.

Resolved that in all suits brought hereafter for the breach of any law, ordinance or regulation of the Corporation of this city, for any sum or penalty not exceeding Twenty five Dollars, [157] the Attorney of this Board be directed to prosecute the same before the Assistant Justice of the Ward, wherein the party offending resides.

The Subscriber respectfully reports on the ‡Communications from Messrs John Murray and John Thompson.

That he is of opinion the respective lessees ought not to object to the payment of the rents stipulated in their Leases, by reason of ejectment suits having been commenced against them by persons claiming adverse to the Corporation, under whom the petitioners hold: for that they have an ample remedy in case of eviction; but as it is probable a decision at law upon the merits will be had speedily, and the applicants fully competent to pay what may be now due and also that to become due in future. I am of opinion that it would be adviseable for the present to delay the exaction of the rent.

If however the applicants have used the ground in such manner as to have yielded profit to them, I think they ought not to wait a decision at law, relying upon the covenants in their lease for indemnity.

All which is respectfully submitted

The following report was presented.

The Ferry Committee to whom was referred the †subject of David Godwin

Report

That they have examined Hobocken Ferry Stairs and are fully convinced of the impropriety of continuing and repairing it in its present situation, as there ever will [171] be a continual interruption and contention in getting the Ferry Boats out of the mouth of the Basin in consequence of the numerous river Vessels which frequent this place. Therefore to prevent all future difficulties and obstructions to the Ferry we recommend that a Block of Thirty 30 feet square with an L of Thirty 30 feet long and Fifteen 15. feet Broad at the Top, be sunk forty five feet from the north side of the end of the Pier at the lower end of

Ordered that the same be confirmed and that the Street Commissioner *advertise for proposals and report the same to this Board.

A Report of the Market Committee in favour of granting †Joseph Page an exclusive priviledge for 12. months from the 1st day of November next, to sell Fish in Duane Market, subject however to the directions and controul of the Board and the Market Committee for the time being, was ordered to lie for consideration.

The following Report was presented by the Counsel

The Subscriber respectfully reports upon the annexed ‡petitions, that he has carefully examined the same, as also the Minutes and proceedings of the Corporation in relation to the matters complained of, [172] by all which it appears the Petitioners are desirous to set aside an Assessment regularly reported to and ||confirmed by the Board sometime past.

That it further appears Assessors had been appointed in the first instance and upon their report coming in and objections made thereto it was referred to a select Committee of the Corporation to enquire as to the propriety of its being adopted, and they being of opinion that a further examination ought to be had in the premises, Five other and indifferent persons were accordingly appointed, whose Assessment was reported in August last and regularly confirmed by the Board. To set aside that Assessment the present applications have been made and the question referred to the subscriber, as he supposes, is, Whether in judgment of Law it would be correct to rescind the order of confirmation heretofore made, and again open the subject for investigation? I think not. Nothing appears from the proceedings or the adjudication of the Assessors to show that they were biassed or had not sufficient information to decide upon the matters referred to them, And they being impartial persons having acted in good faith and fully competent to the discharge of the trust reposed in them.

* Marginal note reads *See P. 189.*—Ed. † Marginal note reads *See P. 160.*—Ed. ‡ Marginal note reads *See P. 148.*—Ed. || Marginal note reads *See P. 109.*—Ed.

I am of Opinion that the Assessment last made, ought to be conclusive, and all parties interested therein respectively bound by it. If however it should be found upon examination or from any documents to be produced or in any other manner that the Assessors have acted corruptly or partially, neither of which is shewn to the Subscriber, then as [173] well upon principles of Law as equity the subject ought to be reviewed.

Oct. 10th 1808. Ja. Woods.

Ordered that the same be confirmed.

The Report of the Attorney of the Verdict of the Jury for damages awarded in favour of Walter Bowne amounting to $.4000. for ground taken from him for widening Frankfort Street, was referred to Alderman Mott Messrs Ludlam and Slidell.

The Attorneys to whom was referred the Petitions of Nathan Jennings Rowland Savage Jacob Morrells Joseph Cheeseman Isaac Frazer, and Samuel E. Martin for remission of penalties incurred for selling liquors without licences,

Reported that on examination he considered them severally intitled to the indulgence of the Common Council.

Ordered that as far as this Board is concerned that their fines be respectively remitted the Petitioners paying costs of suits.

The Comptroller presented the following report.

It being the duty of the Comptroller to report any encroachments made on the real estate of the Corporation, he has the honor to present the [174] following communication.

Information from a respectable source having been given that some person or persons unknown were in the practice of clandestinely taking stone from a place at Hellgate, called Millrock, for the purpose of filling in Docks in the vicinity, whereby the property of the Corporation not only sustained injury, but the benefit of this spot as a mark for Navigators was seriously affected.

The Comptroller immediately took measures to obtain more particular information on this subject, and finds, from the acknowledgment of Jacob McKeag, who rents the Ferry at Horns Hook, that he has obtained about Twenty Cart loads of Stone from the abovementioned rock for the purpose of filling a Dock belonging to Nathaniel Prime near that place. He mentioned that it was only loose stone which he thought it would not be objectionable to remove, and

that he did not intend to break the rock. Having been forbidden to renew the trespass, he promised compliance.

The facts are stated to the Board for their order.

respectfully submitted

Oct. 10th 1808. G. N. Bleecker. Comptr

Ordered that the Comptroller adopt the necessary measures to prevent a repetition of the like trespass.

[175] and that Capt. Snow had reported Adzel Simmons, for disobedience of orders,

were severally referred to the Watch Committee.

The Street Commissioner presented an Assessment for paving at the Flymarket and South Street from Wall Street to Burling Slip, which was confirmed, and William Dustan was appointed Collector.

The Street Commissioner presented an Assessment for repaving Catherine Street from Bedlow to Cherry Street, which was confirmed and Henry Van pelt was appointed Collector.

The Street Commissioner presented an Assessment for repaving and repairing Rynder Street and the intersection of Hester Street, which was confirmed and William P. Roome was appointed Collector.

The Street Commissioner presented the following Communication.

The Street Commissioner has the honor to represent to the Board that most of the walks in Greenwich Street between Rector and Beaver Streets where the carriage way has been repaved, will require to be adjusted to the line of the Curbstone, and others are so bad as to require to be made new. It was expected that the individuals would repair their walks, but many of them are desirous that it may be done uniformly by contract, and others, if it is left to them, will patch them up, uneven as they are, as has been already attempted by some of them. The walks are already very flat, and unless care is taken, in many places will not carry off the water. The Street Commissioner is therefore of opinion that they ought to be [176] done by contract, and included in the assessment for repaving the Street which has not

yet been made out, and presents the draft of an Ordinance for that purpose which in his opinion ought to be passed.

Which is respectfully submitted.

Oct[r] 10. 1808. John S. Hunn.

Ordered that the same be confirmed and the Ordinance was passed accordingly.

Andrew Morris Isaac Sebring John Nitchie Jun[r] John H. Sickles & Thomas Bolton were app[d] Assessors.

The Street Commissioner presented the following report.

The Street Commissioner to whom was referred several applications from Isaac Clason, Marinus Willett and others requesting the Common Council to take measures for removing the extra earth in Broome Street provided the same could be done without expense to the proprietors, having as they state already paid an Assessment for that purpose: has the honor to report

That previous to his being under the Board a profile and regulation of Broome Street from the Bowery to the river was made by M[r] Loss and the Street dug and filled as he is informed and believes nearly to it, but that the said profile was at the time considered only a temporary regulation.

That the Common Council have since that period extended the permanent line of Water grants into the East river which makes it necessary to raise the grounds east of Lewis Street, higher than was contemplated by M[r] Loss, who did not, and in fact could not, at that time, take such a circumstance into his [177] consideration.

That within the last two years, M[r] Stillwell by direction of the Board has made a permanent profile of Broome Street and for which the Common Council have advanced to him Fifty Dollars, fairly chargeable upon an Assessment for the regulation of that Street when such Assessment is effected.

That by this profile it appears that Broome Street is to be reduced between Norfolk and Lewis Streets and filled from Lewis to the river, and that there is not more earth in the Street than would be required to fill the part easterly of Lewis Street.

The Street Commissioner under these circumstances, and governed by an existing resolution of the Common Council directing no earth to be carried from a Street to fill Lots, without their express approbation, did not feel himself justified in reporting in favour of removing the extra earth in Broome Street, unless the proprietors, where filling

is required, should give their consent to such removal; and he has now the satisfaction to cover letters from the majority of the proprietors, wherein they express a wish that Mr Lovett and Mr Halsey the applicants for the earth, should have liberty to carry it to Sheriff Street, without expence to them.

The Street Commissioner does not now conceive that there would be any impropriety in permitting him to contract with Mr Lovett and Mr Halsey to remove the earth, which they have consented to do, free of expence; provided the Fifty Dollars advanced by the Corporation was secured to be refunded to them by the proprietors [178] as that is a real expense upon the Street which cannot be recovered in any other way short of an Assessment. The Board will perhaps take this particular in their consideration and with their usual liberallity agree to remit the expences of the said Survey, in which case no further difficulty will occur to retard the completion of the wishes of the applicants.

All which is respectfully submitted

Octr 10. 1808 John S. Hunn.

Ordered that the same be confirmed and that the expense of the Survey be remitted.

The Street Commissioner represented that the pavement at Brooklyne, wherein the Common Council is interested was nearly completed, and the expense would probably exceed Two hundred Dollars, and requested that a warrant might be issued in favour of William Burk for $150. on account.

Warrt No 1288. Ordered that a warrant be issued accordingly.

The Street Commissioner presented an Ordinance for laying the Curb and paving the Carriage way of Jay Street from Greenwich Street to Washington Street which was passed, and Benjamin Romaine Lewis Ford Arthur Smith Joseph Watkins, and Amos Corning were appointed Assessors.

The Street Commissioner represented that the easterly corner of the Bulkhead at Charlotte Slip [179] had given way, and that the earth at every rain was washing into the Slip, and that it required to be immediately repaired:

Ordered that the subject be referred to the Committee on Wharves, Slips and Piers.

The Street Commissioner represented that there is now due to Halsey & Westervelt $625. for the 2d instalment on the L at Jay Street, and recommended that a Warrant be issued in their favour.

Warrt
No 1289 Which was ordered accordingly.

He also represented that Walter Allen is entitled to his second installment upon his contract for building the piers between Coenties & Exchange Slips, and recommended that a warrant be issued in his favour for $.2125. And that the Mayor sign a Bond to Mr Sebring, or any other person the proprietors may appoint, for that amount; and that the money arising therefrom be deposited in the Treasury to meet the said warrant.

Warrt Ordered that a warrant be issued in conformity and that a
No 1290. Bond be issued as proposed.

The Clerk reported that agreeably to the *order of Common Council, he has provided Dewitts large Map of the State of New York, with the boundaries of the new Counties delineated thereon, which cost Ten Dollars and is deposited in his Office.

The City Inspector presented the following communication.

The City Inspector has the honour to represent that agreeably to law the names of the members of the several Fire Engine Companies in this city are to be reported to the Common Council in the beginning [180] of November.

To obtain uniformity in the returns of the several companies, the City Inspector proposes that Blanks be printed and furnished to the Foreman of each respective Company, agreeably to Form No 1. herewith presented.

It would be also desireable that the reports of new members elected and to be approved by the Common Council should be made with more correctness and uniformity. For this purpose the City Inspector proposes that blanks be printed and furnished as aforesaid agreeably to Form No 2.

The City Inspector has made a rough Register of the whole Fire department. He respectfully proposes that a Book be provided to record the same, whereto ready access can at all times be had as well to ascertain the members of the respective Companies, as to furnish certificates in evidence that such persons are exempted, agreeably to Law from serving in the Militia or on Juries. The expense attending

these objects can not be much and the benefit as to forms of Office and the despatch of business will be all important.

All which is respectfully submitted.

Oct. 10th 1808 John Pintard.

Ordered that the same be confirmed.

The City Inspector reported drafts of Ordinances from N° 4475 to N° 4485 inclusive, for the purpose of correcting nuisances.

Ordered that the same do pass.

[181] The following Resolution was referred to the Street Commissioner.

Resolved that a Committee be appointed to confer with the Commissioners for laying out Streets &c[a] on laying out the bounds of the lots on the Middle road.

Resolved that John Pintard be directed to provide Indexes for such of the Minutes of the Common Council as have not heretofore been indexed.

[194] The Mayor presented the following Communication to him from His Excellency the Governor.

New York. 22[d] October. 1808.

Dear Sir:

In consequence of the cession of ground near the Battery to the United States for an Arsenal and to the Corporation for the extension of Bridge Street, two small gores of public ground have been entirely seperated from the residue of the State property. One of them is bounded by Pearl Street on the East, Bridge Street on the North,

State Street on the west and Mr Gracie's land on the South, containing Nineteen feet in width on Pearl Street and a few feet more in width on Bridge Street. The second is a triangular Strip fronting Whitehall Street and running to a point in the South side of Bridge Street.

As the above mentioned strips of ground are in their present State of little or no use to the public, and as the appropriation for the State Arsenal proves inadequate to complete the Arsenal, Workshops, Fences &c^{a} and to regulate the ground, I am disposed to recommend to the Legislature, and hope they will acquiesce in the recommendation, to sell the two abovementioned gores of ground to raise a fund to complete the Arsenal, Workshop, Gunhouses &c^{a} But in consequence of an Act of the Legislature, declaring the title and the uses to be made of the ground on the Battery [195] and appurtenant to the Government House it may be necessary to obtain the assent of the Corporation to a sale for private purposes. I shall therefore be greatly obliged if you will submit this subject to their consideration at the next meeting and ascertain whether they will yield their assent.

The liberality of the Corporation, in granting gratuitously the ground for an Arsenal, Magazine and other public uses, induces me to believe that they will not hesitate in acceeding to a sale of the abovementioned gores for the purpose above specified; especially when they reflect that they are useless to the State without such disposition and that the proceeds are contemplated to be applied for the ornament of the city and the convenience and safety of its inhabitants.

Permit me to improve this opportunity to communicate to the Corporation my sincere thanks for the liberality and patriotism they have displayed in relation to all the subjects upon which I have had occasion to trouble them during the summer, and to convey to you personally my acknowledgements for your politeness in accommodating me with an Office and for numerous other instances of attention and kindness.

I am Dear Sir
With great respect & esteem
Your ob^{d} Ser^{t}
Daniel D. Tomkins.

The Honorable
DeWitt Clinton.

Whereupon Resolved, That this Board assent to the sale of the said two gores of ground, for the [196] purposes aforesaid, should the Legislature judge the same to be expedient.

A Report from the Police Office that Cap^{t} Snow had suspended Henry Sise, for sleeping on his post was referred to the Watch Committee.

§The Committee to whom was referred the several applications of Thomas Buckley, Jacob Schiefflin, Joseph Bird & John B. Lawrence for grants from high to low water in front of their property at Manhattan Ville;

Report,

That having viewed the premises, the Committee recommend to the Corporation to direct grants to be made to said [197] applicants on the following terms Vizt

To Thomas Buckley and Jacob Scheifflin in front of their ground at Harlem Cove from high to low water, on their agreeing to pay to the use of the Corporation the annual quit rent of one shilling per foot for the first twenty five years and two shillings per foot for ever after;

And to John B. Lawrence in front of his ground on the northwardly side of said cove Three hundred and eighty feet along the margin of the river making at right angles (and on which a quit rent ought to be paid) about two hundred and thirty feet on his paying to the use of the Corporation annually six cents per foot for the first twenty five years and one shilling per foot forever after; Reserving to the Corporation for a public basin in front of the block between Manhattan Street and Lawrence Street, including half the breadth of each of said Streets and containing two hundred and Sixty six feet with all the Streets that may be or hereafter may become necessary. And as some doubts may exist, from the irregular course of the Shore, respecting the true line of high water in said Cove, the Committee recommend that a line drawn from a point where high water intersects the line

between the ground of Michael Hogan and Thomas Buckley running thence northwardly until it intersects the northwardly side of Schiefflin Street, Fifty feet westwardly of the house of Thomas McGrath be considered the line of high water and that one hundred feet be the estimated distance between high and low water in said grants.

[198] And the Committee further recommend that said grants be made out to said applicants agreeably to the terms aforesaid on they or either of them ceding to the Corporation (by a good and sufficient title) a lot of ground, near the line of high water, fronting on Lawrence Street for the use and accommodation of a Ferry, and that the lines bounding or dividing said grants be run or laid parallel with Manhattan Street.

And further the Committee recommend that Ordinances be served on Thomas Buckley Jacob Schiefflin and Joseph Bird, directing them to fill up and regulate their ground, lying in said Cove, that is situate above the said line of high water mark within the space of two years from this date.

The following Report was presented.

The Committee to whom was referred the †Communication of Doctor Hunting Sherril resigning his situation in the Alms House

Report

That taking into consideration the concerns of the Alms House in respect of the care of the sick and infirm belonging to the institution, they find on examination that they have not had that care and attention paid them that their various and complicated disorders require, and from information to your Committee understand that the expense of Medicine has [199] increased in the term of a few years, from two to three hundred Dollars per an. to between Six and Seven hundred Dollars a year.

Your Committee likewise represent that in their applications to a number of respectable Physicians to ascertain on what terms they would take charge of the sick belonging [to] the house as well as to attend the sick children at nurse out of doors and any special call to the poor when necessary, find the proposals of Doctor John Huyler to be the most favourable, who will undertake all the above duties and visit

The following report was presented by the Counsellor of the Board.

From an examination of the Act of the Legislature of this State by virtue of which the *proceedings stated in the annexed representation were had, I am of opinion that the verdict of the Jury and the judgment of the Court thereupon as referred to in the Statute are in no case obligatory upon the Common Council, but they are at liberty to approve or not conform to the same, as in their discretion they shall see fit and proper under all circumstances.

My reasons for this opinion are, that by construction of that statute the intention of the Legislature appears to me generally to have been to adopt the common maxim "that private interest ought to yield to public good," upon a suitable "recompense being made"—and that where express power or right is given to the one alone of two parties

* Marginal note reads *See P. 187. 325.*—Ed.

by statute after payment of the money awarded by the Jury or a tender thereof the Common Council had a right to cause the ground so valued to be used for public purposes: But no provision is made in case the persons interested in the premises should be dissatisfied with the verdict [201] of the Jury or the judgment of the Court thereon, leaving them thereby, as I suppose, to their remedy if aggrieved by the Corporation or otherwise in the premises to their suit at law.

I do not pretend to give any opinion as to the course to be pursued by the Common Council in the present case of Mr Bowne, not viewing it as a special reference to me by the order of the Board; but think it my duty nevertheless to state that I acted with Mr Cowdrey upon the argument for a New Trial on the ground of misbehaviour in the Jury, who assessed the damages, that there was a contrariety of opinion amongst them as to the value of the property, and that the Court after having heard the allegations and evidence, as well on the part of the Common Council as of Mr Bowne thought proper to render a judgment approbatory of the verdict, that this induced me to suggest to the Committee that it would be a strong tho' not a conclusive reason with Your Honorable Body to affirm the judgment of the Court and act in conformity therewith.

The following Report was presented.

The Committee to whom was referred the †Petition of Philip Milledoler of the 8th of February last, praying for a grant of a Water lot at Harlem near the Bridge,

Report

That from a view of a map of the premises deposited in the Comptrollers Office, they are of opinion that a grant should be [211] made to the Petitioner on the following conditions:

For One hundred feet in length, along the shore at high water mark, and extending to low water mark which is Two hundred & ten feet on the westerly side and Two hundred and Twenty five feet on the easterly side, at the rate of Six cents and a quarter per foot, for the first Fifty years and Twenty five cents per foot forever after.

As there have been no grants issued on which the Quit rent has been fixed for a considerable number of years past in the vicinity of Harlem, the Committee was guided in the present instance by grants made to Jacob Schieffelin in December 1804. for Water lots at Bloom-

On representation of the Comptroller

Ordered that the Law "for the establishment of signal Poles on Staten Island," also the 9th Section of "a Law concerning Ferries," be published for the information of all concerned.

The Street Commissioner presented an Assessment for flagging the walks in Catherine Street which was confirmed and Henry Van Pelt was appointed Collector.

[212] The Street Commissioner presented an Assessment for filling sunken lots in Broadway between Broome & Spring Streets, which was confirmed and William Dustan was appointed Collector.

The Street Commissioner presented an Assessment for opening and cleansing the Drain on the West side of Broad Street, which was ordered to be published in the News papers employed by this Board.

Agreeably to order the Street Commissioner reported the draft of an Ordinance for filling water lots at Manhattan Ville, including the intended Streets.

Ordered that the same be referred to the Ferry Committee.

The Street Commissioner presented the following Report.

*The Street Commissr has been requested by Mr Thomas Barrow, in behalf of the Corporation of Trinity Church to state to the Board, that there are at present no impediments to the opening of Greenwich Street, in the direction ceded by that Corporation, and that it would be adviseable to direct it to be done this fall, otherwise it will be late in the Spring before the Street will be fit for use.

The Street Commissioner agrees with Mr Barrow in this particular and suggests the propriety of taking this opportunity of placing Stone at the corners of the respective intersecting Streets, that no difficulty may hereafter prevent an accurate survey of the Lots in this section of the City. Under this idea, He takes the liberty of proposing the following order.

[213] Ordered that Greenwich Street, from Charlton to Christopher Street, be opened agreeably to the cession thereof made by the

Corporation of Trinity Church, and that the Street Commissioner take order for opening the same, and that he cause Stones to be placed at the several corners of the intersecting Streets and report the same to this Board which when confirmed by them shall be and are hereby declared to be the established corners of the said Streets.

Which is submitted.

Oct^{r} 31st 1808 John S. Hunn.

Ordered that the same be referred to Mess^{rs} Bloodgood Mulligan and Ald^{n} Drake.

*The Street Commissioner informed the Board that the proprietors of Lots on West Street, between Leroy and Morton Streets, are removing the earth from the Street and therewith filling the vacant and sunken ground opposite the bulkhead lately erected by them, contrary to the established rules of the Board, and as is stated, much to the injury of the adjoining Lots.

Ordered that the subject be referred to the preceding Committee.

Agreeably to notice, the Board proceeded to reconsider the Report of the Committee on the subject of appointing a Physician for the Alms House.

†When a Memorial from Doctor William James M^{c}Neven one of the Physicians of the Alms House offering himself as a Candidate for the appointment of sole Physician of that establishment, the duties [214] of which he will discharge for a compensation of $300 per. an. was read and referred to Aldermen Drake Bingham Mess^{rs} Ludlam, and Torbert.

Resolved that Aldermen Mesier, Drake and M^{r} Ludlam be a Committee to enquire whether any and What amendment is proper to be made to the Law regulating the entrance and lying of Coasting Vessels in the public Slips.

Resolved that the Chamberlain report the Assize of Bread and price of Flour, as often as he shall regulate the same, and that it be the duty of the Clerk to cause said Assize to be published weekly in the Newspapers employed by this Board and to record the same in the Minutes of the Common Council.

James Teller, was appointed One of the Commissioners of the Alms House and Bridewell.

Samuel M. Thompson was appointed Fire Warden of the Fourth Ward, in the place of Andrew Morrell deceased.

The Minutes of the last meeting were read and approved.

A Petition of Paul Vidal claiming compensation for damage done to his house by the regulation of Bancker Street, was referred to the Street Commissioner.

A Communication from the Commissioners of the Alms House and Bridewell, representing that great impositions are practised in the sale of Potatoes for the want of an established standard rule and measure for selling the same was referred to Aldermen Drake, Hopkins and M^{r} Ludlam.

[219] An application of Jacob Wilkins, for permission to build a Pier in the center of his property on Hudson river West side of Cortland Street, was granted, under the direction of the Street Commissioner.

*A representation of Thomas Thornton, complaining that he sustains considerable injury by the delay attending the completion of the regulation of Mulberry Street, was referred to Aldermen Bingham Wood, and M^{r} Bloodgood.

A Petition of Leonard Lispenard and Alexander L. Stewart for himself and as Guardian of Sarah B. Bache, for a water grant of 70 feet in Hudson river in front of their property on the northerly side of Canal Street, and which has hitherto been reserved on the presumption that it might be required for the improvement of said Street, was referred to Alderman Drake Mess^{rs} Slidell and Ludlam.

A Further Petition of John V. Brevoort keeper of the City Prison, to be reimbursed the Fine incurred and recovered from him, for one of the Chimnies of said Prison taking Fire, was referred to Alderman Drake Mess^{rs} Ludlam, and Van Antwerp.

A Petition of the inhabitants for two Lamps in Elm Street, between Hester & Grand Streets, was referred to the Lamp Committee.

[220] A Petition of the Proprietors of the Pier on the East side of Peck Slip, which had been †presented last year and referred to the late Comptroller but was not reported on, Praying that additional fenders may be provided, at the joint expense of s^{d} Proprietors and this Board, to secure the extremity of said Pier against injury from floating ice: and further praying a grant in their favour for an exclusive right to the wharfage at the outer end of said Pier, was referred to Aldermen Mesier Bingham and Fish.

morial presented in June 1805. which had been referred to the then Comptroller and Street Commissioner who never reported thereon; remonstrating against the payment of any quit rent on a Water lot situate in South Street between the Coffee House & Old Slips, parcel of a grant made March 16th 1799 to James Homer Maxwell, alledging that in consequence of filling up and levelling said Lot, he believes himself, by virtue of the 4th Section of the "Act for regulating the "buildings, streets, Wharves and Slips in the City of New York," passed 3d April 1801. entitled to said Lot in Fee simple: without any right in this Board to demand rent for the same, was referred to the Comptroller and the Street Commissioner.

A Memorial of Anne, widow of James Walker deceased, requesting payment of the sum of $.12.821. damages awarded to her late husband [221] for ground taken for laying out Canal Street, together with the interest accruing thereon, was referred to the Finance Committee.

On application of the Committee of repairs,

Warrt No. 1346. Ordered that a warrant be issued in favour of Alderman Bingham Chairman for $.100.

A Report from the Police Office that Capt. Snow had suspended Jacob Lyman for intoxication while on duty, and Capt Darling had suspended S. Sutherland for sleeping on his post & being capped, were referred to the Watch Committee.

The following Report was presented.

The Committee of Defence having, since their last report, had some further Communication with Mr Dubuc de Marintille respecting his plan for securing the city from Naval attack,

Report

That Mr Dubuc has offered to modify his terms in such manner that if the Board shall for the present decline adopting it, but afterwards think fit to act on it, he will allow the term of one year for the purpose of ascertaining its efficacy by experiment, and if within that time, or at any subsequent period, his plan shall be adopted for the Port of New York, he shall receive the sum of One hundred and Twenty Thousand Dollars.

Should the plan be adopted at any time for any other Port, Mr Dubuc is to receive [222] the sum of Sixty thousand Dollars, Provided it shall not be also adopted for that of New York.

The Committee have to confirm the opinion expressed of Mr

Dubuc's information and talents in the former report, and respectfully submit this further communication.

The following report was presented.

The Committee to whom was referred the *Communication of the Street Commissioner respecting the opening of Greenwich Street

Report

That they have viewed the premises and are of opinion that the Street mentioned in the said Communication ought to be opened and the corner stones placed in the manner recommended by the Street Commissioner; but they are of opinion that it is at present inexpedient to enter into any expense towards working the same. Leaving that part of the subject to the future discretion of the Board, they recommend that the order expressed in the preceding communication be passed. The Committee further report that it is not improper that the present road should be kept open until the new street is in a situation to be used.

Ab[m] Bloodgood
Nov[r] 7. 1808 John W. Mulligan
Ja[s] Drake.

Ordered that the same be confirmed.

[223] The Committee to whom was referred the †Communication of the Street Commissioner on the removal of the earth from West Street between Leroy and Morton Streets reported, that they had examined the place and found that the proprietors of the lots on Washington between Leroy and Morton Streets are removing the earth as stated, and have contracted to furnish that earth to their contractor. As the work has progressed considerably and it may prove very injurious should it be suspended, the Committee recommended that the proprietors, under the direction of the Street Commissioner, have licence to take the earth to half of Morton, Washington and Leroy Streets, but that this licence shall not affect the rights of this Board, in consequence of the said proprietors proceeding in the work without a grant of the soil under water: Which was confirmed.

The question for confirming the report was then put and carried, and

Doctor John Huyler was appointed Physician of the Alms House.

A Communication was received from James Woods Esq^r Counsel of the Board informing that the suit against M^r Kip and that of M^r Kip against persons holding †under this Corporation will, in all probability be tried at the approaching sittings the 28th. instant. That Judge Benson and M^r Harison have been retained on the part of this Board, the latter of whom being at the time of the commencement of the prosecution Counsel to the Common Council has not received a fee. He therefore suggested the propriety of presenting M^r Harison with a similar fee given to M^r Benson.

Warr^t N^o 1347. Whereupon Ordered that a warrant be issued in favour of M^r Harison for $.100.

that the Map, which accompanies this, is the one alluded to in the preceding report; and they further state, that in the Minutes of the Common Council of June 20. 1796. they find the following *entry.

(As inserted in the report of the Comptroller.)

See. P. 139.

The undersigned further report, that they do not know, but that they have been informed and verily believe it to be true, that all the persons abovementioned, except Mr Van Zandt, have complied with the above conditions and settled the same with the Corporation, and that the land mentioned in the foregoing report as [227] being in the possession of Mr Van Zandt is still used and occupied by him, and that he has never paid the Corporation any consideration therefor.

The undersigned further report, that no other Map or Survey of the premises will, in their opinion, be necessary to establish the claims of the Corporation, And they recommend that the Comptroller be directed to make out the account due by Mr Van Zandt to the Corporation for the said land and present the same to him for payment: and in case of refusing to pay the same, that recourse be had, without delay, to coercive measures, for the purpose of obtaining the ground.

All which is respectfully submitted.

Novr 7th 1808. S. Cowdrey.
John S. Hunn.

Ordered that the same lie over for consideration at the next meeting.

The Street Commissioner presented the Assessment for opening the drain on the West side of Broad street, having advertised the same agreeably to order, and no objections had been made thereto.

Ordered that the same be confirmed and that William Dustan be appointed Collector.

The Street Commissioner presented an Account against the Corporation for their proportion of the paving at Brooklyn, the Ballance of which was $68.15.

Warrt No 1348. Ordered that a warrant be issued in favour of William Burk for that amount.

[228] On representation of the Street Commissioner that the L at the end of Jay Street Pier was completed.

Warrt No 1349. Ordered that a warrant be issued in favour of Messrs Halsey & Westervelt for $.625. the amount of the 3d instalment for said L.

The following report was presented.

The Ferry Committee to whom was referred the proposals for leasing Weehawk and Fort Lee Ferries,

Report

That Three Dollars per an. for one and Five Dollars for the other are offered for the term of Three Years, about one half the sum their annual Wharfage would amount to. These Ferries during the last term were leased One for Fifty, the other for Seventy Dollars. The fine for contravening the 9th section of the Law for establishing Ferries is Twenty five Dollars, which we are of opinion ought to be enforced by the Comptroller or [234] Attorney of this Board, where infringements may be discovered.

Your Committee are of opinion that neither of those Ferries ought to be let for less than Fifty Dollars, per annum.

The following report was also presented by the Ferry Committee.

The Committee to whom was referred the several applications of Thomas Buckley, Jacob Schiefflin, Joseph Bird and John B. Lawrence, for grants from high to low water in front of their property at Manhattan Ville,

Report

That having viewed the premises the Committee recommend to the Corporation to direct grants to be made to said applicants on the following terms, viz^{t}

To Thomas Buckley and Jacob Schiefflin in front of their ground at Harlem Cove from high to low water, on their agreeing to pay to the use of the Corporation the annual quit rent of one shilling per foot, for the first twenty five years and two Shillings per foot for ever after.

And to John B. Lawrence in front of his ground on the northwardly side of said cove, Three hundred and eighty feet along the margin of the river, making at right angles and on which a quit rent ought to be paid about two hundred and thirty feet on his [235] agreeing to pay annually to the use of the Corporation, Six cents per foot for the first twenty five years and one shilling per foot for ever after, reserving to the Corporation a space for the public Basin in front of the Block between Manhattan Street and Lawrence Street, including

half the breadth of each of said Streets and containing two hundred and Sixty six feet, with all the Streets that may be or hereafter become necessary.

And as some doubts may exist from the irregular course of the shore, respecting the true line of high water in said Cove, the Committee recommend that a line drawn from a point where high water intersects the line between the grounds of Michael Hogan and Thomas Buckley, running thence northwardly until it intersects the Northwardly side of Schiefflin Street Fifty Feet westwardly of the house of Thomas McGrath be considered the line of high water and that One hundred feet be the estimated distance between high and low water in said grants.

And the Committee further recommend that said grants be made out to said applicants, agreeably to the terms aforesaid on they or either of them ceding to the Corporation, by a good and Sufficient title, a lot of ground, near the line of high water mark, fronting on Lawrence Street for the use and accommodation of a Ferry and that the lines bounding or dividing said grants be run or laid parallel with Manhattan Street.

And further the Committee recommend that Ordinances be served on Thomas Buckley, Jacob Schiefflin and Joseph Bird, directing them to fill up and regulate their ground and the adjoining Streets, laying in said Cove, that is situate or above the said line of high water [236] mark, within the space of two years from this date, except the present Canal, which the Committee recommend to remain subject to the further order of the Board.

And the Committee further recommend that the former *report on this Subject be rescinded.

"Be it further ordained That in case of sickness or inability to attend, any weighmaster appointed by the Corporation may employ a sober discreet man to attend to the duties of said office, to be approved by the Mayor and to take an Oath for the faithful performance of such trust, during such inability, he being accountable for the conduct of such person so employed, but that no weighmaster shall use more than one scale at the same time under the penalty of Fifty Dollars.

terference of the Board in relation to an application made by him in June 1805. to be released from a quit rent of Seven Dollars and eighty seven cents per an. reserved on a grant to James H. Maxwell on the 16th March 1799, for a water Lot adjoining South Street on the Southwardly side of the Coffee House Slip,

Report

That on the 12th August 1768 The Mayor, Aldermen and Commonalty granted to Jacob Sarly his heirs and Assigns, a certain Water Lot to be made land and gained out of the East river situate in the East Ward, from the extent or southerly side of Hunters Key or Street of 45 feet broad, which Lot is distinguished in a plan made by Francis Marschalck then City Surveyor by N° 2. and contains in length on parrallel lines running Southeasterly from the extent or Southerly side of the aforesaid Street of 45 feet broad, into the said river, 208 feet and in breadth upon the East river at each end 42 feet English measure, at the annual rent of Ten Pounds ten Shillings forever thereafter; which property afterwards came to the possession of Jacobus Van Zandt.

On the 21st March 1775. a grant was made to the said Jacobus Van Zandt, the counterpart of which was never executed by him, of all that certain Water lot to be made land and gained out of the East river from the Southerly side of the Wharf or Street then called Water Street, into the East river 192 feet, and in breadth 42 feet, at the annual rent of Six pounds six shillings forever thereafter.

[239] And on the 16th March 1799. a grant was made to James Homer Maxwell as the rightful heir of Jacobus Van Zandt of the abovementioned Water lot on the like terms, And also the Soil under the water and lying between the Southerly bounds of the said Water lot and the Street of 70 feet in breadth called South Street, the whole breadth of the said Water Lot, at the annual rent of Seven Dollars and Eighty seven cents forever there after.

The Subscribers are of opinion that the relinquishment of a grant regularly executed and which involves questions of great importance to the rights and interests of the Corporation, and by which decision the validity of other titles may be seriously affected, is a measure of that consequence as to require very mature reflection, and an investigation into points more peculiarly applicable to expounders of the Law. They are not desirous of being relieved from the faithful discharge of the functions appertaining to their respective offices, when, on the one hand Justice is due to the legal claims of applicants for redress, and on the other, while the privileges and revenue of the Corporation are

deeply implicated. Neither can they repose that confidence in their own opinions on so important a subject where legal investigation may probably be the result.

They would therefore take the liberty of suggesting the propriety of handing over the papers accompanying this report to the Counsel of the Board.

respectfully submitted.

Ordered that the same be referred to the Counsel of this Board.

[240] The following report was presented.

The Counsel and Street Commissioner to whom was referred the *Memorial of the Trustees of the First Presbyterian Church in the City of New York relative to ground claimed by them on the westerly side of the City Hall and said to be in part covered by the westerly wing of that building; Conceiving a subject of this nature to be of primary importance to the rights of the Corporation as well as of the Citizens, have endeavoured to give it such a fair investigation, as to induce them to make the following Report thereon.

The Memorialists have principally founded their claim upon certain deeds which have been exhibited to the Counsel & S^{t} Comm^{r} and from which the following copious extracts have been taken in order to lay before the Board as much matter of fact, in relation to the subject, as it is in the power of the reporters to procure.

1st On the 27th February 1762. Philip Van Cortland of the city of New York, gentleman, for the consideration of £100. conveys to William Smith Junior of the same city Attorney at Law "that one full and undivided sixth part and any greater share or interest of the said Philip Van Cortland of [and] in *and* all those three certain lots and parcels of ground which on a Map annexed to the deeds of partition of certain lots and parcels of ground made and executed between the said Abraham Depeyster and Samuel Bayard on the 3^{d} day of Jan^{y} 1718. are marked with the letters and figures N^{o} 20 & N^{o} 22. and AP which said lots and parcels of ground N^{o} 20 is in breadth in the front to a street in the City of [241] New York behind the City Hall, on the said Map called Kip Street, 25 feet and in the rear adjoining the ground used by the Presbyterians as their burying ground, 25 feet, and on both sides on the N. E. and S. W. 71 feet, be the same more or less bounded on the East by the said Kip Street on the W. by the

* Marginal note reads *See P. 67.*—Ed.

P. burial ground on the N. E. side by a lot or parcel of ground in the said Map called Lot N° 19. by the said deeds of partition released to and declared to belong to Samuel Bayard, on the South westerly partly by the lot on the s[d] map marked with the letters AP. hereby granted and partly by a lot on the said Map called Lot N° 21. and by the said deeds of partition released to and declared to belong to the said Samuel Bayard and now possessed by Samuel Bell and partly by the said Lot N° 22. hereby granted and which said Lot or parcel of ground marked on the said Map with the letters AP. in breadth in the front to the said Kip Street 25 feet and extends with that breadth westerly to said lot N° 21. and is on the South westerly side bounded by the Street, running from Wall Street and on a Northeasterly course between the West end of the said City Hall and the Easterly side of said lot N° 21. and which said Lot N° 22. is in breadth in the Front and rear 25 feet, and in length on both sides 75 feet and upwards, bounded in front by Wall Street, in the rear by the said Lot N° 20, on the Easterly side by the said Lot N° 21. on the Westerly ground used by the Presbyterians as their Burial ground.

Which said premises are stated in the said deed to be conveyed by the said Philip Van Cortlandt as eldest son of his father Stephen Van Cortlandt [242] who was the eldest son of Catharine Van Cortlandt one of the daughters and Devisees of Abraham DePeyster.

2[d] On the 15th. February 1765. Isaac Depeyster of the City of New York Gentleman and Ann his Wife, for the consideration of £150. by virtue of the right of the said Ann, who was one of the daughters and Devisees of Abraham Depeyster convey to William Smith Junior of the same city Esquire, all that one full and equal undivided fourth part of the said Isaac and Ann or either of them of and in all those three certain lots or parcels of ground &c[a]" as herein before mentioned verbatim.

3[d] On the 6[th] September 1765. William Smith Jun[r] of the City of New York Esq[r], and Jannet his wife, in consideration of £278.1.10 convey to John Lasher of the same city Cordwainer, Thomas Smith of the said City Esq[r] John Dunlap of the same City Merchant, Peter Riker of the same City Blacksmith and Jos. Hallet of the same city Merchant, by virtue of a release from Isaac and Ann Depeyster dated the 16[th] February 1765. All that one full and equal and undivided moiety or half part of those three several lots or parcels of ground," herein above mentioned and described. And

4[th] On the 21[st] July 1773. John Crugar, Philip Livingston, Leonard Lispenard, Hen. Holland & William Bayard of the City of New

York Esquires, Trustees of the real and personal estate of Abraham Depeyster late Treasurer of the Colony of New York deceased, Robert Mercer and John Ramsay of the city of New York Merchants Assignees of the said estate [243] of James Depeyster of the same City Merchant, Cornelia Depeyster of the same City Widow and Executrix of Pierre Depeyster deceased, Isaac Depeyster of the same city Esq^{r} and Ann his wife; Pierre Van Cortlandt of Cortlandt Manor Esq^{r} (the said Abraham Depeyster, Pierre Depeyster, Ann Depeyster and Pierre Van Cortlandt being the devisees of Elizabeth Hammond late of the same city) convey to John Lasher of the said city of New York Cordwainer, Thomas Smith of the same city Attorney at law, Peter Riker of the same city Blacksmith and Jos. Hallet also of the same place merchant, for the consideration of £250. "All that the said one full undivided moiety or equal half part of them the said parties of the first part of and in all those three certain lots or parcels of ground" herein above mentioned and described as aforesaid: Which said Moiety or half part is stated in the aforesaid deed to be conveyed by virtue of the last will and Testament of Abraham Depeyster, by force and virtue of a certain act of the Governor, the Council and General Assembly of the Colony of New York, entitled, "An Act for the more effectual vesting the real and personal estate whereof Abraham Depeyster late Treasurer of this Colony died seized and possessed in Trustees for the payment of his debts," and by virtue of sundry other Wills, Testaments, Deeds and conveyances therein particularly and at large expressed.

In addition to the above titles, all of which precisely describe the same ground, the Memorialists have exhibited a Map made by Adolphus Loss, one of our present City Surveyors, wherein the Lot designated by AP. in the said deeds, is made to run along the East side of the Lot N^{o} 21. (now the property of Charles Gardner) and so to Wall Street; which Map, in the opinion of the Council and Street Comm^{rs} [244] is erroneous, inasmuch as by the same titles the lot AP. is said to be "in breadth in front to Kip Street 25. feet, and extends "with that breadth westerly to the said lot N^{o} 21. and is on the South-"westerly side bounded by the Street running from Wall Street on a "Northeasterly course between the West end of the City Hall and the "Easterly side of the said lot N^{o} 21." and not upon Wall Street as it is therein portrayed.

The undersigned, in consequence of this erroneous representation of the ground included in the titles exhibited by the memorialists, have thought it expedient to present the annexed plan, which, in their

opinion, is a correct delineation of the ground described in the said Titles, and, as it was intended to be occupied: for in a Plan of this City, from actual survey, made by James Lyne, during the Mayoralty of Colonel Robert Lurting, about 1730, and dedicated by William Bradford to Governor Montgomery, the situation of the Hall is distinctly laid down, and Nassau Street has a large communication on the West side of the Hall with Wall Street, and in another plan of the city made by Francis Marschalk, City Surveyor in 1755. during the Mayoralty of Edward Holland, and dedicated by Gerardus Duyckinck to Lieut Governor Delancey, the situation of the Hall is also distinctly traced, and Nassau Street communicates with Wall and Broad Streets as portrayed upon the annexed Map.

It may not be improper further to state, that in a map of the city made by Bernard Ratzen in 1767. and dedicated by him to Sir Henry Moore then Governor of the Colony of New York (and supposed to be the most correct plan ever published) Nassau Street and the City Hall are laid down agreeably [245] to Marschalcks Plan, and the ground claimed by the Memorialists clearly marked out and distinguished from the existing Streets.

The undersigned further report, that they find by the papers exhibited to them, that in the division of the ground in question between Abraham Depeyster and Samuel Bayard as herein before mentioned and described, the lots designated in the annexed Map by the numbers 19 & 21 were set off to Samuel Bayard and that the said Lot N° 21 was, by its position to become a corner lot, and it appears reasonable to conclude that the enhanced value of Lot N° 21. so becoming a corner lot, above the value of the lot N° 22, adjoining thereto and divided to M^r^ Depeyster, induced the parties (who were equally interested) to set off the small lot AP to M^r^ Depeyster as an equivalent. The correctness of this remark will evidently appear if recourse be had to a deed for the said Lot N° 21. now in possession of Charles Gardner, made the first day of March 1746. by Stephen Bayard, Nicholas Bayard and Samuel Bayard executors of the last Will and Testament of the aforesaid Samuel Bayard to Samuel Bell of the same city Blacksmith, which among other recitals contains the one of which the following is a copy.

"Whereas Colonel Abraham Depeyster now deceased and Nich-
"olas Bayard also deceased, which said Nicholas Bayard was father
"to the said Samuel Bayard the testator, in their life time were and
"stood jointly seized, to them their heirs and Assigns forever, of and
"in a certain parcel of ground with its appurtenances, situate and

" being in the city of New York, in the North and West Wards of " the said city, [246] being bounded and contained as in and by a " certain Indenture or Deed of feoffment, made and entered into " after the death of the said Nicholas Bayard for the more easy par- " tition and division of the said parcel of ground and bearing date the " third of January, in the Year of our Lord One thousand Seven " hundred & eighteen & made between the said Colonel Abraham " Depeyster in his life time and the said Samuel Bayard the Testator " in his life time as the only son and heir at law to his said father " Nicholas Bayard then deceased and reciting as therein is recited " it was thereby unanimously agreed and concluded on between the " said parties to the same, to have the said parcel of ground or the " greatest part thereof, then remaining unsold laid out into lots and " the said lots to be equally divided between them, so that each of " them should have and enjoy a share thereof in certainty, respect " being had to quantity and quality as his and their own part and " partition and to do and dispose thereof as to themselves should " seem meet, and to that end the said parties, with an unanimous as- " sent and consent by the advice and assistance of William Bond then " Surveyor of the city of New York, the said land lying convenient " for the building of houses did project and lay out the greatest part " of the remainder part of the said ground into twenty two lots, leaving " some part therein common between them, as may more fully and " amply appear by the Map or Chart thereof and to the said recited " Indenture or Deed of partition annexed and signed by the parties to " the same, and the said Surveyor [247] and the said parties have also " by the advice and assistance aforesaid made a perfect divided sepa- " ration and partition of the said Twenty two lots, and among the lots; " which were so divided, and which fell to the part and share of the " said Samuel Bayard, and by the said Colonel Abraham Depeyster by " the said Indenture or Deed of partition granted to him the said " Samuel Bayard the testator, his heirs and assigns forever was all " that certain lot or parcel of ground N° 21. fronting Southerly on the " Wall Street, Westerly and Northerly to ground of the said Abraham " Depeyster and Easterly on the forepart by vacant ground then left " undivided between the parties on the West side of the City Hall " (over which vacant ground the Street now runs called Kipp Street, " by means whereof the said lot hereby granted has become a corner " lot) and on the back part (to the eastward) by a Slip of ground of " the said *of the said* Abraham Depeyster containing in length on " both sides from the said Wall Street to the Lot N° 20, of the said

"Abraham Depeyster 74 feet more or less and in breadth front and "rear 25. feet."

So that there can be no doubt of the existence of Nassau Street through to Wall Street, (under the former name of Kip Street) at least as far back as the year 1718. when the division of those lots took place.

The Counsel and Street Commissioner further Report, that in order to ascertain the time when the present City Hall was founded, they have had recourse to the Charter and the Minutes of the Common Council. (wherein they have been abundantly [248] aided by the attentive researches of the Clerk)* and from which it appears, that the first Building occupied as a City Hall was situate in Pearl Street, at the corner of Coenties (Countess) lane opposite Coenties Slip, at present in part owned by Mr Abraham Brinckerhoof, the premises being divided after it was sold into two dwellings.

This Building, as appears by the Charter was erected for a City Hall or Stat House by the Dutch whilst the City of New Amsterdam was under the Government of a Schout, Burgomasters and Schepens.

In 1608 according to English writers, but more probably in 1609 according to Charlevoix, Hudson discovered this part of America and the river which still bears his name, and in 1615 a Fort was erected on the Southwest point of Manhattan Island by the Dutch.

In the papers relating to the repealing of the Bolting Act styled "The case of New York" (Vol. 2d of the Com. Coun. Min. P. 300.) The City is said to be founded in the year 1619. and in 1621. the States General granted this country to the West India Company. Between this period (1621) and the surrender to the English the 27th August O. S. 1664. the aforesaid Stat House was built.

About the year 1695, the said City Hall began to want repairs and on the 19th Novr (Vol. 2d of Com Coun. Min. P. 195) an order of the Common Council was passed, directing the Overseers of the public works to examine what repairs were wanting to secure the City Hall that Winter.

It is probable that the Building was so much decayed, or had become too small for the growing [249] Population of the City, as to have induced the contemplation of erecting another Edifice, for we find that on the 12th May 1696 (Vol. 2. P. 217) a Committee was appointed to draft a plan for a New City Hall and estimate the Cost. On the 26th June following (P. 225) by a majority of votes it was agreed that a City Hall should be built. On the 2d July the same

* Marginal note reads *John Pintard.*—ED.

year (P. 226) Another Committee was appointed to estimate the cost of building a New City Hall, to fix on a Site, to devise a proper mode for raising a fund to defray the expense and to prepare a draft of a Plan and to call in the Assistance of the City Surveyors; and on the 11th November following (P. 249) another Committee was appointed for similar purposes.

On the 2d October 1697 (P. 275) the Mayor (William Merritt) informed the Common Council that the Supreme Court was to sit the next week, when Several Criminals were to be tried, and that it was feared that the City Hall would not be of sufficient Strength to support the resort of the people. On which the Building was directed to be surveyed, and the mechanics employed reported that they considered the Walls sufficient and that six Studds and a plank properly placed would uphold (the floor of) said Hall, which were ordered to be fixed. In page 276, on the 4th of October it is stated that "the Mayor "produced a letter from the Judges, that the Supreme Court was to be "held tomorrow, at the Public Hall, and that they being informed, that "the present Town House (meaning the old Hall) is so much decayed, "that no considerable number of people can there appear with safety, "and therefore require the Magistrates of the City to appoint and "prepare some other place for holding [250] the Court. It was "ordered that an Answer be returned informing the Judges that meas-"ures had been adopted to render the Hall safe."

On the 13th November following (P. 278) a resolution was passed for the Common Council to sit in the house of George Kescarrick, adjoining the City Hall (probably that owned by the late Widow Lawrence deceased) in consequence of the defective state of the said Hall.

On the 23d November same year (P. 281) the Mayor having acquainted the Board of the insufficiency of the City Hall, it was the opinion of the whole Board, one only dissenting, that there was a necessity of Building a New City Hall for the public Service.

On the 9th November 1698 (P. 340) a Committee was appointed to view the condition of the present City Hall, and where it will be most convenient for the building of a new one, and what materials will be necessary for the same together with an estimate of the cost thereof and to make report with all convenient speed: and we find the following report entered on the 11th January 1699 (P. 343.)

"The Committee appointed to view the City Hall &c. Report, That "they have viewed the present City Hall and find it unsufficient and "do think the upper end of the Broad Street a proper place for the "Building a New City Hall and believe that the sum of Three Thou-

" sand Pounds may be sufficient for the building the same, according " to the former draft drawn by M^r James Evetts, which report is ap- " proved."

And on the 25^th of May the same Year the following resolution is entered; (Vol. 2. P. 354)

[251] " The Board taking into consideration the necessity of build- " ing a New City Hall, do unanimously resolve, Alderman Cortlandt " only dissenting, that a New City Hall be built with all convenient " expedition and that the same be erected and built at the upper end of " the Broad Street within the said City, it being approved the most " convenient and proper place for the building the same, and that the " Mayor taking to his assistance such of the Aldermen, Assistants and " Surveyors of the said City as he shall think convenient, do lay out " the ground for building the same." And on the same day it was resolved that the Materials of the Old City Hall should be sold and the ground let to farm and a Committee was appointed for the purpose.

On the 9^th of August, same year (P. 356) the Committee appointed for farming the City Hall reported, that they could not farm the Old Hall and recommended that it be sold, and it was ordered to be sold, " forever " by public outcry and a Committee appointed, of which the Mayor Joannes Depeyster was one, to dispose of the same. On the same day it was

" Ordered that the Mayor, and three Aldermen and three Common " Council men, or any five of them do call the Surveyors of this City " to their assistance and order them to lay out the ground for the " building a New City Hall at the upper end of the Broad Street, and " also to employ workmen to lay the foundation of the same."

At a meeting of the Committee appointed to sell the City Hall on the 17th August same year, (P. 358) said Hall was exposed to sale, and sold to [252] John Rodman of the city of New York Merchant for £.920.

On the 18^th August, same year, (P. 359). the following Petition was ordered to be engrossed and presented.

(Richard Earl of Bellemont Governor being absent)

" To the Honourable Lieutenant Governor John *Hanfan* [Nanfan] " Esq^r Commander in Chief of the Province of New York and to the " Honourable the Council."

" The Petition of the Mayor &c^a sheweth "

" That the former line of fortifications that did range along the " Wall Street from the East to the North river are fallen to decay and

"the encroachment of Buildings which have been made adjacent there-
"unto will render the same useless for the time to come; and the City
"proposing with all speed to build a New City Hall at the end of one
"of the principal Streets within the said City, fronting to the line of
"the said Fortifications, therefore humbly pray that Your Honours
"would be pleased to intercede with His Excellency the Captain
"General that the same Fortification may be demolished, according
"to the powers and authorities vested with him, and that the stones
"of the said Bastion, with the consent of the owners thereof, may
"be appropriated to the Building of the said City Hall" & Your
"Petitioners."

On the 16th Octr 1699 (P. 371) a Committee was appointed to provide materials and Workmen to build the New City Hall the ensuing Summer, and the Committee reported on the 1st November of the same Year (P. 373) that they had employed workmen and made an estimate amounting to £1151.18.3. which [253] was read and approved, and we find (P 375) that the Board resolved to raise £1600. for the ensuing year, £1165. whereof was for providing materials and building of the New City Hall and £435. residue thereof, for building a house at the Ferry.

On the 16th January $^{1699}/_{1700}$. (P. 376.) Another Committee was appointed, of which the Mayor (David Provost) was one, to treat for building the Hall, either by the great or by the day; And the Mayor was empowered to draw warrants on the Treasurer from time to time for the current expences, and a distinct account of materials and payments were directed to be kept by the said Committee.

On the 2d Novr 1700. "Ordered that for the future the Court of "Common Council do sit at the City Hall, the last Saturday in every "month, in order to hear any publick business."

On the 29th December 1700—1. (same Vol. P. 481) "Ordered that "the Mayor do take care to have the Court room in this City Hall "made convenient for the Court to sit in this winter and that he issue "his warrant to the Treasurer for the payment of the charge thereof." If this means the New City Hall it would appear that the Common Council held their sittings therein in 1701. But we find that on February 20th $^{170}/_{8}$ (Vol. 3. P. 2) a Warrant was ordered in favour of William Davis for payment of £3. "for accommodating the Common "Council for assembling at his house all the winter past; the City Hall not being yet completely finished.

The undersigned reporters further represent that no other entries appear in the Minutes respecting the building the New City Hall of

any material consequence to the present subject. No formality of laying the foundation or in taking possession occurs. No doubt seems to have existed of the right to build it [254] where it stands, neither do any applications to any individuals for ground for that purpose appear to have been made.

From the above dates it may be inferred that the foundation was probably laid in the Spring of 1700. And that the Common Council held their meetings in it in the Summer of 1703.

The Site of the Hall as originally built evidently comprehended the extent of its present Front in Wall Street, and the addition for the accommodation of Congress in 1789. was made in the rear, as is plainly visible and easily distinguished from the East and West walls of the old work.

The Counsel and Street Commissioner cannot conclude their report upon this subject without making the following remarks.

The whole of the ground in Nassau Street between the house built on Lot N° 19 (now occupied by Everardus Warner) and Wall Street, has been uninterruptedly left open as a Street for above a century, without the least claim to compensation therefor by any person or persons whomsoever.

By the titles exhibited, from which the foregoing extracts are taken, no part of Nassau Street, under any reasonable pretence whatever, can be claimed by the Memorialists to the South of the Southerly line of the lot AP. delineated upon the annexed Map; and it is probable that the Memorialists would not now have preferred their claim to the small plot of ground AP. if they had not been, erroneously led into the opinion, that it extended through to Wall Street and was therefore of great value.

[255] It is a question yet undecided by the Board whether compensation ought to be made in any case for Streets voluntarily laid out by the Proprietors of ground, after they had sold lots and bounded them upon such streets, And if the Corporation, under these circumstances, should admit the right to compensation in the present case, although part of the present Street is covered by the exhibited title, it would undoubtedly subject the Board to numerous and perplexing applications of a similar nature, many of which would probably be founded on fairer claims, in point of possession, than those of the present Memorialists; nor would the circumstance of this application, coming as it does, from a respectable religious Association, be

considered as a barrier to its becoming a troublesome and dangerous precedent.

All which is respectfully submitted.

Novem[r] 14[th] 1808. Ja. Woods
John S. Hunn.

Ordered that the same be referred to Aldermen Mott [&] Mesier Mess[rs] Mulligan Ludlam and Bloodgood. [256 blank]

[257] The Street Commissioner reported the following Assessments, viz[t]

For paving Bayard Street from Mulberry to Orange Streets, and for

Repaving Greenwich Street from Beaver to Rector Streets. Which were severally confirmed and William Dustan was appointed Collector.

The Street Commissioner presented Assessments for repaving Oak, Bancker, Chesnut & Pearl Streets including the advances of the Corporation for the drain between Chesnut & Roosevelt Streets; which was ordered to be advertised;

And for filling sunken Lots on the North side of Stanton Street between Attorney and Ridge Streets,

Whereupon,

Resolved that the Assessment laid upon Lots in Stanton Street for filling the same and repairing Stanton Street, this day presented to the Board by the Assessors be confirmed, And that the Street Commissioner cause the same to be published in the Newspapers agreeably to law.

The Street Commissioner represented that the Contractors for sinking the Block and Bridge at the foot of Vesey Street, have sunk the Blocks and are entitled to the payment of their first installment, amounting to $740.

Warr[t] N[o] 1371. Ordered that a warrant be issued in favour of Mess[rs] Halsey & Westervelt, Contractors, for that amount.

The Street Commissioner represented, that as it is contemplated to build a Ferry stairs adjoining the Block & Bridge now erecting at the foot of [258] Vesey Street, it would be a considerable saving to the Corporation, if the Contractors for said Block and Bridges were directed to introduce sufficient pieces of timber through their work to run out where the Stairs are to be placed to support the Sleepers, which would make firm and save the necessity of driving Piles. He recommended that the Alderman and Assistant be empowered to make such arrangement with the Contractors, which was confirmed.

The Street Commissioner understanding that the Corporation has agreed to provide a new Engine for Company N° 4. in place of their present Engine too small for useful service, renewed his former application that said small Engine may be appropriated for the purpose of watering new paved Streets, a process of infinite importance to the stability of the work.

Ordered that the subject be referred to the Chief Engineer.

The Street Commissioner presented the following report.

The Street Commissioner to whom the application of Jacob Wilkins was referred, praying for liberty to sink a Pier opposite his Water grant on the south side of Cortland Slip, has the honor to

Report

That he has had several conferences with the parties interested, and proposed to them that the Pier should be erected by M^r Wilkins in such manner as that the North side thereof should be on a line in continuation of the South line of Cortland Street, and that the said Wilkins [259] should have the right of wharfage round the Pier for a reasonable time as an equivalent for the relinquishing the right of wharfage on the side next the Slip to the Corporation forever thereafter.

The Street Commissioner further represents, that he has this day received two propositions from M^r Wilkins to the following effect; Viz^t

1^st That he will, at his own expense, in the course of one Year, build a Pier two hundred and fifty feet into the Hudson river from the West line of West Street and in such manner as portrayed on the map hereunto annexed, On Condition, that he enjoy the whole of the wharfage round the said Pier to the present line of Cortland Slip for the period of twelve years from this time, after which he will relinquish the wharfage on the North side to the Corporation.

2^d And he further proposes, that he will, at the expiration of the said Twelve Years, or any time thereafter when required by the Corporation, or at any sooner period which may suit his own convenience, with the approbation of the Board, sink and complete an L to the said pier, to run northerly from the end thereof, agreeably to the delineation on the annexed Map, And release to the Corporation after the expiration of the said twelve Years, all the wharfage on the inner or Northeasterly side thereof, upon Condition that the Corporation secure to him the immediate and continual right of wharfage on the outer or westerly side of the said Pier and L.

The Street Commissioner has seriously reflected on the subject and

believes it would be conducive to the interest of the Corporation at least [260] to accede to the term and conditions of the first proposal of Mr Wilkins and recommends that it be agreed to, and that the Comptroller be directed to prepare reciprocal agreements with him in conformity thereto, leaving the second to the consideration of the Board.

All which is respectfully submitted.

The Board will, upon the slightest inspection of the Map perceive that the Corporation of Trinity Church have made a considerable surface of ground by this proposition, which Mr Barrow assures the undersigned they would not have done but from the desire of being released from any further trouble in respect to the Assessment.

The Street Commissioner believes the proposed Street will be a greater benefit to the public than a continuation of Dominick Street, as heretofore proposed and ordered to be opened: And as this arrangement will subject the Corporation to no expense, and will relieve them from an Assessment for removing Mr Bowrowsons house which is now finished: he recommends the following resolutions in conformity with the request of Mr Barrow.

Resolved that this Corporation do consent to accept a Cession from the Corporation of Trinity Church, for a Street of Fifty feet in breadth, to run from the bend of Broome Street, between Sullivan and Varick Street, to Spring Street, as laid down upon a Map thereof made and this day presented by the Street Commissioner, and

[266] Resolved further that the Resolution passed by this Board on the 23d of May last, directing a Street to be opened through the property of Trinity Church, and the property of Anthony Bowrowson on the West side of Sullivan Street between Broome and Spring Streets be and the same is hereby rescinded.

All which is respectfully submitted

Novr 21st 1808. John S. Hunn.

Ordered that the same be referred to the Alderman and Assistant of the Eighth Ward.

The City Inspector reported drafts of Ordinances for the purpose of correcting Nuisances from No 4516 to No 4524. inclusive.

Ordered that the same do pass.

A Protest of William L Rose, and a Memorial of Isaac S. Douglas and others, Electors of the Sixth Ward, against the legallity of the Return of the Inspectors of Election for Charter Officers for said Ward, were read: Whereupon

Ordered that this Board will meet on Friday next at 3 o'clock P. M. for the purpose of hearing the parties interested by counsel, and that the Clerk give them notice accordingly.

A Report from the Police Office, that Captain Snow had suspended Alexander M^cCready for fighting, and John Woodruff, for sleeping on his post, was referred. to the Watch Committee.

The Committee to whom was referred the application of Abner Conklin, Administrator of the Estate of Joseph Kelly dec^d

Reported that it would be proper, in their opinion, to direct the Street Commissioner to *settle the accounts of said Kelly with this Board [273] and on such settlement, that a warrant be issued, in favour of the Administrator, for the ballance, which was confirmed.

The Committee to whom was referred the Petition of Ephraim Hart, recommended that the Street Commissioner be directed to take immediate †measures for opening Collect Street from Magazine to Anthony Street and for conveying the water of Magazine Street through said Collect Street to the Collect, and likewise to open a ditch from little Water Street so as to prevent any stagnant water lying in the vicinity; which was confirmed.

The Committee on Wharves, Slips and Piers to whom was referred the Report of the Street Commissioner on the application of Jacob Wilkins for liberty to sink a pier on the South side of Cortland Slip, recommended that the Board accept the first proposition contained in said Report, and that the Second lie over for further consideration, which was confirmed.

The following report was presented.

The Committee to whom was referred a ‡Resolution of this Board for them to enquire and report whether by cleansing the Streets under the direction of a Superintendant of Streets or by farming the same out, be the most advantageous to the public interest:

Report

That they have had recourse to the Comptrollers books and to the return of the Superintendant of Streets beginning March 28th 1807. and end February 29. 1808. making nearly one Year. That the

Superintendant paid in cash [274] the sum of £311.8.11. in which was included the fines and £18.0.0. old and outstanding debts for 1803-4. He also returns outstanding debts for £.492.1.8. making in the whole £803.10.7.

The Committee further state that according to the Comptrollers books it appears that the Streets were farmed out for $.3410. that the difference would be £.760. allowing all the outstanding debts to be good.

The Committee finding that the greatest revenue to the public is from farming the said Street, are fully of opinion that the Streets ought to be farmed out; They therefore recommend that a Committee of this Board and the Comptroller be authorized to farm out said Streets without delay in Districts as in 1806. And that the now Superintendant be dismissed from that office as soon as the Committee can carry the farming system into effect.

Ab^{m} Bloodgood.

A motion for postponing the consideration of said report was lost.

Whereupon ordered that the subject be referred to the Same Committee to report an Ordinance in conformity

M^{r} Mulligan was added to the Committee.

The Ferry Committee to whom the subject was referred, reported

*An Ordinance to amend a law entitled "a law concerning Ferries," passed Jan^{y} 11th 1808. Which was passed and ordered to be published.

The Committee to whom was referred the resignation of Doctor Hunting Sherril [275] recommended that William D. Creed be appointed Apothecary of the Alms House to serve at least One Year, and to give at least one Months notice in case of resignation; which was confirmed.

The Committee on applications for Offices to whom was referred the Petition of William Lawrence, reported in favour of his being appointed Measurer of Grain, Salt and Coal, which was confirmed.

The Comptroller reported that he had examined the Books, & Vouchers† of William Mooney Sup^{t} of the Alms House for the quarter ending the 31st Oct^{r} last, and found that there is due to the Superintendant a ballance of $.2225.18. agreeably to the Acc^{t} Curr^{t} presented to the Board. That included in this Account was a ballance of $.1368.81 charged to the Bridewell for expenditures for that estab-

The Board met agreeably to adjournment for the purpose of taking into consideration the Protest of William L. Rose and the Memorial

of Isaac S. Douglas & others Electors of the 6th Ward against the legallity of the Return of the Inspectors of the late Election for Charter Officers for said Ward.

When Thomas Addis Emmett Esqr appeared as Counsel for the Memorialists, and Tunis Wortman, Esqr as Counsel in favour of the Officers returned.

The following Documents were produced & read.

[279] To the Mayor, Recorder, Aldermen and Commonalty of the City of New York, in Common Council convened:

The Subscriber, one of the Electors of the Sixth Ward of the City of New York, dwelling in the said Ward, humbly protests against the proceedings of the Inspectors appointed for the said Ward at and during the Election lately held therein for Charter Officers, for this to Wit, that the Act entitled "An Act relative to the Election of Charter Officers in the City of New York passed April 5th 1801. requires that the Inspectors to be appointed under the said Act should at the time and place of opening such Election publicly administer to each other and severally take the Oath prescribed by such Act. That the said Inspectors for the said Ward did not administer publicly to each other and severally take in the manner directed and intended by the said Act the Oath therein prescribed. The Subscriber doth further protest against the said proceedings, for this to wit, that by the said Act the said Inspectors are commanded and enjoined by their oath, which Oath they are severally directed to take, to canvass and estimate the ballots taken at such election and certify a true and just statement of the same and by the 9th Section of the said Act the said Inspectors are directed to certify and declare the Majority of votes for each respective Office; That the said Inspectors of the said Ward took jointly the said Oath and not severally and from a misconstruction of the same and of the true meaning thereof did not each for himself canvass and estimate the ballots taken at the said Election, but each canvassed and estimated a part only of the said ballots and not one of them [280] canvassed and estimated the whole of the said ballots without such actual and several canvassing of all the ballots as by the said Act is meant and required. The Subscriber doth farther protest, against the said proceedings, for this to wit, that persons not sworn and irresponsible for their conduct were permitted to interfere in the canvassing of the said ballots & did assist in the opening and canvassing of the same. The Subscriber doth farther protest, against the said Election for this to wit, that the Certificate filed by the said Inspectors in the Clerks Office relative to the said Election does not correspond in amount with

the ballots canvassed & estimated by them in manner aforesaid, but exceeds the same by twelve ballots, as will appear to Your Hon^bl Body by the number of Votes certified to have been given for the respective Collectors. The Subscriber doth farther protest against the said Election, for this to wit, that by the 3^d Section of the Act aforesaid it is made the bounden duty of the Inspectors to give Three, hours notice by proclamation of the final closing of the Poll, which notice was not given by proclamation nor in any other way. by the said Inspectors at the said Election, Altho' the said Act in this respect is imperative & binding upon the said Inspectors. The Subscriber doth therefore for the reasons aforesaid in his capacity of Elector, and in defence of his rights as an inhabitant & Freeholder of the said Ward protest against all and singular the proceedings aforesaid and begs leave to refer your Hon. Body to the Affidavits hereunto annexed, for a statement of facts and prays to be heard in support of them by Counsel and that Your Hon. body would make such order [281] and grant such relief in the premises as Your powers and usages and the Laws of the land would justify.

W^m L. Rose.

Affidavits accompanying the Foregoing Protest.

N^o 1.

City of New York. ss.

Theophilus W. Smith of the City of New York, Attorney at law, being duly sworn doth depose and say that he was present at the canvassing of the votes given for Charter Officers in the Sixth Ward of the said City of New York at the late Election, that Robert Dillon one of the Inspectors commenced reading aloud the names written on the ballots after the same had been counted and proceeded under the direction and inspection of the other two Inspectors to examine the said ballots to about the number of forty as this deponent believes. That while the Inspectors were engaged in the manner above stated they were interrupted by a person of the name of John A. Crolius who proposed to them a different mode of canvassing. That there upon M^r Dillon requested him not to incommode them with any of his plans as the Inspectors were the persons who ought to know what manner of canvassing was proper and right, or words to that effect; and this Deponent further says that while the said Dillon was again proceeding to examine the said ballots in the manner already mentioned and after such interruption as aforesaid, M^r Leonard Seaman one of the said Inspectors made the following proposition to his fellow

Inspectors, to wit, that the said Inspectors should take each for himself a separate parcel of ballots and examine it and estimate the number of votes contained in such parcel, and that such [282] Inspector should report such number to their Clerk who should thereupon set down the same: that the said Robert Dillon after having manifested much reluctance, finally agreed to such proposition. Thereupon the said Inspectors did proceed to canvass and estimate the said ballots in the way proposed by Mr Seaman and this Deponent saw nearly the whole of the remaining ballots canvassed and estimated in such manner. And this Deponent further saith that before the commencement of the canvass first stated he saw a person whose name this deponent believes is Oliver Drake open a large number of ballots and that he continued during the whole time this deponent was present (which was until the Inspectors had canvassed the whole of the said ballots except about fifty or sixty split ballots) to handle and examine the said ballots. And this deponent further says that a person who sat along side of Mr Steenback, one of the Inspectors aforesaid, during that part of the canvass made according to the proposition of Mr Seaman, did take down on paper the number of votes given for the different persons named on the ballots examined by Mr Steenback and that Mr Steenback did, as this deponent verily believes, report such number to the official Clerk without comparing the said number so set down, with the number of ballots by him examined; and this deponent further saith that the said John A. Crolius did open a large number of the ballots examined by Robert Dillon one of the Inspectors aforesaid.

T. W. Smith.

[283] No 2.

City of New York. ss.

Robert Finn of the Sixth Ward in the said City being duly Sworn maketh Oath and saith that he was appointed & sworn Clerk of the Poll at the late Election for Charter Officers for the said Sixth Ward and was present as such during the whole time of the said Election That he was present when the Oath of Office was taken by the three Inspectors of the said Poll at the said Election and that the said Oath was not administered by any one of them to the other or others of them, but that all three of them at the same time laying their hands upon the Bible repeated the Oath together in the first person without its

being administered by any one. That no Proclamation whatsoever was made at the said Election three hours before the final closing of the Poll on the last day of the said Election as is required by Law, nor any proclamation on that day save the one by which the Poll was opened and that by which it was finally closed. That after the said Poll was closed, the Inspectors began to canvass the ballots by jointly examining each ballot by itself and reading out aloud the names it contained. and this Deponent at the same time took down in his check list the names as they were so read out by the said Inspectors or one of them. That after about forty five ballots had been thus examined it was proposed to the said Inspectors that they should each take a parcel of the said ballots and that they should examine them at the same time each Inspector the parcel he had taken apart from the other Inspectors, which mode was adopted, altho' Robert Dillon one of the said Inspectors objected to the same. That the remainder of the votes were [284] in consequence canvassed in this manner, Each Inspector took a handful of ballots out of the balloting box and separate from the other Inspectors, (who were at the same time engaged in the same way with their respective parcels) silently examined it and without the check or controul of the other Inspectors and reported in gross the number of votes in his parcel for the several persons named or alledged by the said Inspector to be named in the ballots composing the said handfull which gross numbers as they were so reported to this deponent he was required to enter on his check list and did so accordingly but that it was perfectly impossible for any of the said Inspectors or for this deponent to say who had the majority of Votes for any of the Charter Officers of the said Ward each of the said Inspectors as well [as] this deponent being obliged to take for granted and true what was reported by the other Inspectors without examination on his part. That other persons besides the said Inspectors and who were appointed to no Office at the said Election interfered in the canvassing and examination of the said ballots. In particular this Deponent saw Mr Oliver Drake open and examine the said ballots by the side of Mr Anthony Steenback one of the said Inspectors. That the persons so interfering with the said ballots in many instances took down what they alledged to be the contents thereof and reported the gross amount (as they stated) of what they had so examined to the Inspector whom they were so assisting who immediately reported the same to this Deponent in consequence of which they were by him entered on his check list and taken into calculation in estimating the votes given at the said Election. That this [285] Deponent well

recollects the number of votes entered on his Poll List at the said Election was Eight hundred and Sixty one. That when the ballots were counted after the final closing of the Poll and compared with the said Poll list there were only Eight hundred and Fifty nine ballots. This deponent well recollects to have seen Four ballots destroyed and verily believes there were more destroyed during the said canvass, and further this Deponent saith not.

[286] To the Honorable the Mayor, Aldermen and Commonalty of the City of New York.

The Subscribers, Electors of the Sixth Ward of the City and County of New York, respectfully request leave to state the following facts which occurred at the late Election for Charter Officers held in said Ward, on the Fifteenth, Sixteenth and Seventeenth days of November instant, and which they believe they are able to substantiate before Your Honorable Board, by the most unequivocal testimony.

That at and immediately after the closing of the Poll of the said Election, held in and for said Ward, on the day aforesaid, it was found and appeared, from the Poll list kept by the Clerk of the said Election for that purpose appointed by the Inspectors of the said Election, that the whole number of Votes given and polled at the said Election was Eight hundred and Sixty One—That upon counting the

Ballots, previously to the canvass thereof, the whole number of ballots was found to be only Eight hundred and fifty nine—That upon the canvas of the said ballots, taken at the said Election, Nine of the said ballots, for various reasons, were destroyed and not estimated by the Inspectors, but that nevertheless the Inspectors of the said Election, in the certificate by them delivered to the Clerk of the City and County, as by Law required, did certify and declare, that Jacob Peterson, who was a Candidate at the said Election, for the office of Collector of said Ward, had Three hundred and Twenty One votes at said Election, for the said Office of Collector of said Ward. That Lewis Angevine, who also was a Candidate for the said Office of Collector of said Ward, at the said Election, had Three hundred and Eighteen Votes [287] at said Election, for the said Office of Collector of said Ward—And that John O'Neale, who also was a candidate for the said Office of Collector of said Ward, at the said Election, had Two hundred and twenty Eight Votes at the said Election, for the said Office of Collector of said Ward, making the whole number of Votes given at the said Election, for the respective Candidates for Collector of said Ward, to amount, according to the said certificate of the Inspectors of said Election to Eight hundred and Sixty Seven Votes, being Six more votes than the whole number of Votes polled at said Election, and Fifteen more Votes than actually were, or ought to have been canvassed.

Wherefore Your Petitioners pray that said Election may be set aside, at least so far as it respects the Collector of said Sixth Ward, and that Your Honorable Body will be pleased to order a new Election in said Ward. And Your Petitioners as in duty bound will ever pray.

Benjamin M. Mumford of the City, County and State of New York, Merchant, being duly sworn upon the Holy Evangelists of Almighty God doth depose and declare in manner following, that is to say.

That he the said Benjamin M. Mumford was present at and during the whole period of the canvass of the ballots lately given for Charter Officers of the Sixth Ward of the City, County and State of New York, at an Election for said Charter Officers held in said Sixth Ward, on the fifteenth, sixteenth and seventeenth days of November 1808.

[288] That the whole number of votes polled at the said Election,

as declared publicly by the Clerk of said Election, duly appointed by the Inspectors of the said Election, amounted to the number of Eight hundred and Sixty One; That the whole number of ballots, counted out of the ballot box kept by the Inspectors of the said Election, as publickly declared by one of the Inspectors of the said Election, amounted to Eight hundred and Fifty nine. That One Ballot, included in the number above specified, given for the Candidates for Charter Officers of the Fourth Ward, was set aside and he believes destroyed, by the Inspectors of the said Election. That One Ballot, included in the number above specified, given for the Candidates for Charter Officers of the Fifth Ward, was set aside and he believes destroyed by the Inspectors of the said Election. That One ballot included in the number above specified, given for Candidates for Charter Officers of the Sixth Ward, without any specification of Office attached to their respective names, was destroyed by the Inspectors of the said Election. And this Deponent doth further make Oath and declare, to the best of his knowledge and belief, that he thinks and believes he saw six other ballots (but he is positive and certain as to four) destroyed by the Inspectors of the said Election, which was publickly declared to be double ballots or two ballots closely rolled up together.

And this Deponent doth further make oath and declare that a few days after the said Election he called upon the Clerk of the City and County of New York, at his Office in Pine Street, to examine [289] the official return of votes given at the said Election, as returned to the office of the said Clerk by the Inspectors of the said Election. That upon the Inspection of the said return it appeared, that Three hundred and Twenty one votes were returned as given to Jacob Peterson one of the candidates for the office of Collector of said Sixth Ward—That Three hundred and Eighteen were returned as given to Lewis Angevine, one of the Candidates for the office of Collector of said Sixth Ward. And that Two hundred and Twenty Eight votes were returned as given to John O'Neale one of the Candidates for the Office of Collector of said Sixth Ward. making the whole number of votes returned as given to the respective Candidates for the Office of Collector of said Sixth Ward. to amount to Eight hundred and Sixty seven.

To the Mayor Alderman and Commonalty of the City of New York: The representation of the Subscribers Inspectors of the late Election for Charter Officers of the Sixth Ward, respectfully

Sheweth

That in consequence of a Notice from the Clerk of the Common Council to us stating that Protest has been laid before the Corporation against the proceedings of the said Election. And that on receiving said Notice we proceeded to examine said protest with the affidavits attached thereto. And on the examination thereof find erroneous statements therein contained which we beg leave to correct and likewise to state the impressions on our minds relative to the mode of the Inspectors qualifying and relative to making proclamation three hours before adjournment.

First We believe and consider ourselves as solemnly sworn and strictly bound in law by the [292] Oath that we severally took as Inspectors of said Election as we could have been if the said Oaths had been administered in the most formal manner that could be prescribed by the invention of man.

Secondly. The Law of the 27th. February. 1807. declares that the Poll of the Election shall be closed at Sunset which in the opinion of the Inspectors is a Proclamation in itself and supercedes the necessity of all other proclamations.

And as to the Statements contained in the said affidavits, we make the following declaration.

First, it was agreed by the Inspectors that they should examine and count the ballots (that is such of them as contained what was tickets) and that they should report the same to the Clerk and that he should set down the same as reported to him: but not that each of the Inspectors should take a separate number to himself and that they

should each make their report separately as Mr Smith has stated in his affidavit.

Secondly. Mr Finn states in his affidavit that the Inspectors agreed to each take a parcel of votes and examine them apart and that the said Inspectors did examine the said parcels of votes apart silently and report in gross the number of votes so canvassed. He likewise states that other persons besides the Inspectors interfered in canvassing and examining the said ballots and that said persons took down in many instances what they alledged to be the contents thereof and that they reported the gross amount (as they stated) of what they had so examined to the Inspectors who immediately reported the same to the Clerk, and that the Clerk entered the same on his check list. Which said statement we declare to be absolutely and positively erroneous and incorrect and that no persons [293] did examine and report to the Inspectors nor did we report the result of any persons examining to the Clerk nor was any such report entered by our directions.

Thirdly Doctor Walker states that he observed an illegal interference by one or more persons not Inspectors opening and counting the ballots and that he did protest against such proceedings and that he informed the Inspectors that it would invalidate the Election.

In reply to which we state that we know of no such person that counted any votes, and as to a person's assisting in opening the ballots, it is no more than what has frequently been done before at other Elections, and to the knowledge of some of us has been admitted by Dr Walker himself when he was an Inspector.

And it has been stated that a greater number of Votes. was returned for Collectors than was polled; We beg leave to make the following observations which we believe will principally point out the error (if an error has taken place) Vizt

If the aggregate number of votes for the Collectors amounted to more than the list polled as is stated, the aggregate for the Assistants was less, and by adding the whole number of votes for Assistants and the whole number for Collectors together the amount exactly doubles the number said to be on the poll list, consequently if any error has taken place, it could only (in our opinion) have arisen from the Clerks placing some of the votes to the Collectors when he should have placed them to the Assistants, which possibly may have been the case, as at the Charter Election there are not two Clerks to check each other as at the Election for members of Assembly. There was [294] however several ballots destroyed in consequence of two of them being rolled together, which (if the Poll list as it is now estimated is correct) will

leave a small deficiency which we know not how to account for unless as above.

We therefore conscientiously believe that we have acted as impartially as we possibly could and have only to add that we regret that any one has considered that he has cause to complain.

Leonard Seaman
Anthony Steenback.

The Common Council being ready to proceed in the investigation:

It was objected by Mr Wortman, Counsel in favour of the Officers returned, that the Common Council had no right to determine upon the legality of this Election and that the return of the Inspectors is conclusive.

Whereupon, after having heard Counsel on this point, it was

Resolved that the Common Council proceed to hear the merits of the contested Election, reserving the preliminary question for subsequent determination

Mr Mulligan gave notice that he should move for a reconsideration of the preceding resolution.

The Board, at 7 o'clock. P. M. adjourned to meet tomorrow at half past 2. P. M. for the further hearing of this subject.

The Minutes of the last meeting were read and approved.

A Petition of Robert Black, boatman, plying between Flymarket and Brooklyn representing that he is materially injured in the means of providing for the support of his family, by the late Ordinance respecting Ferries, was referred to the Ferry Committee.

*A Petition of John Schuyler for stand N° 13. Flymarket, formerly occupied by N. Boyce was referred to the Market Committee.

[299] An application from the Society for the relief of Poor Widows respecting the lien on their Lots in Stanton Street, for filling the same, was referred to Aldermen Mesier & Drake with power to suspend the Sale.

The Committee to whom was referred the †Memorial of Doctor Pascalis, reported that on duly considering the same, they were of opinion that it would be for the interest of the Corporation to retain his services. and that he would besides attending on the Gaol & Bridewell assist Doctor Huyler in consultation when required at the Alms House, and that Doctor Huyler would in return consult in difficult cases at the Gaol & Bridewell. That as this arrangement will essentially benefit those institutions, they recommended that Doctor Pascalis be allowed a Salary of Two hundred Dollars p^{r} annum, as Surgeon and physician of the Gaol and Bridewell, which was confirmed.

The following Report was presented by the Building Committee.

The powers vested in the Building Committee of the New City Hall being about to expire, they deem it their duty to report to the Board that their Treasurer, having closed all the accounts up to the 26th inst. they have been carefully examined by the Committee, the Vouchers compared with the general Account and all found perfectly correct; the

When the extent of the Building is considered the great quantity of materials required, and the necessary workmen employed, it will be admitted that according to the Sum expended it has progressed as far this season as could be expected.

The Mason work being suspended for this season and the Walks carefully covered to resist the weather, all such persons have been discharged as could be dispensed with, retaining only those who are to be employed during the winter, in order to expedite the work, so that nothing may prevent the Building being completely roofed in the course of the following Year.

The Committee have been furnished by Mr McComb with an Account of the quantity of work now finished and nearly ready to lay on the walls. [301] also the value of Marble and other Materials on hand amounting to $.24.113.

The Committee beg leave to remark that this Building has been in hand for a considerable length of time and has cost $.247.163.$^{88}/_{100}$ including the Materials on hand, that about two thirds of the Walls, are carried up to the under side of the entablature, or within about 3 feet 6. inches of the height to receive the roof on the wings: and a large quantity of materials prepared for the upper work. That it will be

prudent and economical to have the Edifice put completely under cover in the course of the ensuing season, which may be easily accomplished, and they place a firm reliance in the wisdom of the Board to adopt such measures as may give energy to the Committee who may hereafter direct the affairs of this Building, so as to enable them to accomplish this desireable object.

The Board proceeded to the determination of the legality of the return of the Inspectors of the Election for Charter Officers for the Sixth Ward.

When Mr Recorder offered the following resolution

Resolved that the canvassing of the votes at the last Election for Charter Officers of the Sixth Ward is illegal and void; inasmuch as the Inspectors proceeded to canvass the greater part of the said votes seperately and not jointly as by law required: That they permitted the interference of persons not Inspectors: And that the Estimate of the Votes was, in point of fact, incorrect.

[303] Whereupon the Recorder moved the following resolution, which was passed.

Resolved that an Election for Charter Officers in the Sixth Ward be held on Wednesday the fourteenth day of this month, and that the same be conducted, in all respects, conformably to the directions prescribed by the Act entitled "an Act relative to the Election of Charter Officers in the City of New York;" and the Act entitled "An Act for dividing the Seventh Ward of the City of New York and for extending the time of Charter Elections in the said City."

Leonard Warner Henry Eagle and John Crolius. Junr were appointed Inspectors for said Election, to be held at Lyons tavern in Mott Street.

On an assertion of Mr Bloodgood that the proceedings of the Inspectors of the Election for Charter Officers in the Second Ward, were irregular.

Mr Ludlam moved

That a Committee be appointed to enquire into the legality of the proceedings for the Election of Charter Officers in the Second Ward.

[304] Alderman Hopkins and Mr Mulligan declined voting

Aldermen Mott Mesier and Bingham were appointed a Committee for the purpose specified in said resolution.

The Mayor proceeded to qualify the Charter Officers, returned for the ensuing Year, excepting the Sixth Ward, by virtue of the power vested in him by Charter.

When on the Charter Officers returned for the Second Ward, presenting themselves to be qualified,

An objection was made by Mr Torbert against qualifying them, until the Committee, on the subject of the Election for said Ward, report.

A motion for postponing their qualification was carried.

The following Charter Officers were, then, respectively qualified. Viz[t]

An application from the Commissioners of the Alms House, representing that the pressure of the times, added to the approaching inclemency of the season, occasions such numerous applications for relief as to put it out of the power of the Commissioners to afford it without aid: And suggesting the propriety of opening a house to issue donations, and that a Committee may be appointed [308] to confer with them on the subject was referred to Alderman Drake Bingham Mott Mess^{rs} Slidell and Ludlam

A Communication from the Superintendant of the Alms House, setting forth his urgent want of money, not having received the amount of the last Warrant in his favour, was referred to the same Committee.

A Memorial of the Proprietors of the Pier on the West side of Flymarket Slip on the subject of the period when Interest is to commence on the Bond to be given by this Board for the value agreed upon for the Eastern part of said pier, was [referred] to the Committee of which Ald. Drake is chairman.

were severally referred to the Market Com- [309] mittee, who forthwith reported in favour of the Petitioners, which was confirmed.

A Petition of John Van Winkle for a licence to ply on the East river between this City and Long Island was referred to the Ferry Committee.

A Memorial of John Jay Esq^{r} and numerous other proprietors of lots fronting upon Canal Street and in the vicinity thereof, was read setting forth that there are upwards of three thousand lots fronting upon said Street and in the vicinity thereof which cannot now be improved or used owing to the present State of said Street. That the cellars round the Collect have water in them, some of which have been filled with earth, And that some of the cellars of houses in Chapel Street are also rendered useless in consequence of being overflown with water. That the various plans for regulating Canal Street have proved very prejudicial to the petitioners: and that any one plan however imperfect would prove less prejudicial than the frequent fluctuations that have hitherto taken place in relation to this and the adjacent Streets. The Petitioners therefore prayed that the Common Council would apply to the Legislature to appoint Commissioners to lay out, regulate and open Canal Street and that the plan and regulation of such Commissioners may be declared conclusive and permanent. Which Memorial together with an application of Thomas Duggan that the remainder of Canal Street may be opened, was referred to the Canal Committee.

[310] *A Petition of John P. Waldron for permission to erect a Hay Scales at Harlem, was referred to Mess^{rs} Ward Hooghland and John Drake.

A Petition of Isaac W. Hadley to be appointed Superintendant of Streets was referred to the Committee on applications for Offices.

Applications of Walter Bowne for permission to make vaults before his premises corner of Pearl and Frankfort Streets, and of

James Dobbin to make a vault before his lot N° 3. Division Street, were granted under the inspection of the Aldermen & Assistants of the respective Wards and the Street Commissioner.

†An Account of the expenses of the Inspectors of Election for the First Ward, was, together with other similar Bills, referred to Aldermen Mesier Minthorne, and M^{r} Ward.

On enquiring of the City Treasurer relative to this claim, he is of opinion that the statement is accurate, having some years past paid to the State a considerable sum then due for the like quit rents.

As the Commutation now proposed will (if paid) be a discharge from future demands, agreeably to the letter of Mr McIntyre; it is respectfully recommended that the proposition should be accepted, and the amount $.155.35. transmitted to the Comptroller of the State previous to the 25th of March next.

†The Street Commissioner has the honor to inclose the report of the Attorney of the Board stating the award of the Jury for opening and improving Magazine Street, the amount of which is considerably less than that of the referrees heretofore appointed upon that subject.

As this business has been long procrastinated and Mrs Lynch, who is the most interested, has been very pressing for a settlement and has several times threatened to sue for damages in consequence of the delay, it would perhaps be improper to postpone the settlement of this business any longer.

The Street Commissioner therefore proposes the following resolution.

Resolved that the Street Commissioner be directed to present at the next meeting of this Board the draft of an Ordinance for assessing the amount awarded by the Jury for opening and improving Magazine Street, between Elm and Cross Streets.

cipal and interest of the Bond due the estate of Cornelius Clopper deceased was referred to the Comptroller.

[324] The Mayor presented the following correspondence with the Secretary at War.

New York. 9th December. 1808.

Sir

I take the liberty of calling your attention to the works erecting for the defence of this port and to suggest the expediency of continuing the laborers in employ, who have been engaged in that business. The rate of wages may be reduced in proportion to the shortness of the days; and I am assured by Col. Williams that work may be beneficially carried on to a considerable extent.

Independently of other considerations I would just observe that an arrangement of this kind would relieve from distress a great number of indigent families who must otherwise suffer.

I have the honor to be &c:

Honble.
De Witt Clinton.

The Street Commissioner presented the following report.

*The Street Commissioner is again under the painful necessity of representing to the Board that the Assessors appointed and qualified two years ago to assess the amount of the award for widening Jay Street, have neglected to attend to that duty, altho' they have been repeatedly solicited to complete the Assessment.

The Board some twelve months ago at the suggestion of the undersigned, passed a resolution directing them to make out the assessment by a certain time or to advance their reasons in writing for not doing so. This was complied with on their parts, and it now becomes the more serious as M^{r} Rhinelander talks of demanding interest on the award which he will undoubtedly be entitled to receive.

As these gentlemen have all qualified, it is enjoined on them by their Oath, as well as by the duty they owe to their fellow citizens to persevere in making out the Assessment and it is with the Street Commissioner a matter of doubt, whether the Corporation can or ought, under such circumstances, [328] to exonerate them from this duty. At the same time there ought to rest with the Board some compulsory power, that the public service ought not to suffer by their delay.

The Street Commissioner submits the subject to the Common Council, in hopes they will take such measures as are in their power to correct the evil.

Which is respectfully submitted.
Dec^{r} 19th 1808. John S. Hunn.

Ordered that the same be referred to the Counsel of the Board.

* Marginal note reads *See Report P. 359.*—Ed.

The Street Commissioner presented the following report.

The Street Commissioner avails himself of the earliest opportunity of representing to the Board that the Corporation of Trinity Church are proprietors of a plot of ground, on the west side of Greenwich Street and running about 80 or 90 feet westerly to high water mark, and that they have advertised this ground for sale at public auction on Friday next, holding out an idea, that the purchaser may obtain a water grant from this Corporation for the whole of the lands in front to West Street, which, if suffered to prevail will be the means of the lots selling for five times as much as they would otherwise be worth.

Ever since it was discovered that the Corporation had inadvertently granted to Corning Skidmore & Romaine the waters between North Moore and Provost Streets, which were previously reserved for a public basin, it has been in contemplation to reserve this ground and the waters in front for public purposes, being the only place left on the Hudson for a public basin between the basin at Duane Street and that reserved at the mouth of Canal Street.

[329] Independent of this circumstance, it will be conducive to the public interest for the Corporation to retain the whole of this ground. There are not above 12 feet water opposite to it on West Street, it is considerably filled up by accident, being a deposit for the rubbish of the vicinity, and as Mr Newton has filled up on the one side and Mr Rhinelander on the other, the whole of the plot to West Street might be raised with a comparative small expence.

In making this reserve the Corporation, most assuredly would not be deviating from the strict rules of Justice they have laid down with respect to issuing Water grants: for the Corporation of Trinity Church does not wish to take out the grants, and no individual, at this moment, has any pretensions to such a claim. But if this Board should permit the lots to be sold, coupled with the idea that the purchaser may obtain the grants, it will place them in a situation with the new purchaser, similar to that in which they are placed with other individuals, who own ground bounded by the waters of the river.

The Street Commissioner has carefully viewed the premises and most seriously reflected upon the advantages which the Corporation may derive from filling up this ground themselves and disposing of the lots, and he is of opinion that, if the Corporation will adopt this plan they will find independent of all expense, a clear saving in the public Treasury of at least Ten Thousand Dollars. This is a serious sum, but the calculation upon the most liberal terms will afford it; for there are 12 or 14 building lots made by it, as more fully appears by

a plan of the premises accompanying [330] this communication, to which the undersigned begs leave to refer. If then this sum can be saved to the public by a small exertion on the part of the Corporation, why let it pass off unimproved? Why suffer it to go into the hands of individuals who will claim the whole by paying to the Corporation an annual stipend scarcely worth receiving? Why give up these public advantages that the profit may supply the coffers of an adventitious bidder.

The Street Commissioner concludes by seriously recommending to the Board to direct the Comptroller to attend the aforesaid sales, and there publicly to declare that the Corporation will not give grants to any person whomsoever for the lands under water bounding upon the premises so offered for sale; that they intend to fill up the lots themselves and dispose of them in such manner as they may conceive most conducive to the public interest; and that they intend to reserve the water in front of the premises, commencing at West Street, for a public basin.

All which is respectfully submitted

Dec^{r} 19th 1808. John S. Hunn.

Whereupon Resolved that the waters in front of the Lots proposed for sale by the Corporation of Trinity Church, situate at the corner of Beach & Greenwich Streets, be reserved for a public basin, and that the Street Commissioner inform M^{r} Barrow, Agent of the said Corporation, accordingly.

The Street Commissioner represented that the Wharf below Burling Slip and the Coffee house Slip has, agreeably to order, been completely repaired and the ground filled in to receive the pavement as soon as the season shall permit. That the Assessors for paving South Street omitted including the [331] expenses of these repairs in their assessment as it was impossible to ascertain the amount until the whole was completed. That it is necessary that an Ordinance be passed to make an assessment of these expenses amongst the persons benefitted, before it will, by them, be considered binding.

He presented the draft of an Ordinance for the purpose which was passed accordingly, and Samuel Tooker John Ellis Charles Marsh Thomas Bolton and John Taylor were appointed Assessors.

The Street Commissioner represented that Daniel Woolsey is entitled to his 3^{d} installment for the Pier at Partition Street, amounting to $631.50.

Warr^{t} N^{o} 52. Ordered that a warrant be issued in his favour for the same.

Mr Mulligan offered the following resolution which was passed.

Resolved that the Lamp Committee report at the next meeting of this Board the deficiencies reported by the Captains of the different watches of this City, in the lighting the lamps of this city since the expiration of the last contract, and also the amount of the penalties incurred by virtue of the last contract, by reason of the said deficiencies.

Ordered that the *complaint made by Doctor Onderdonk, on the 26th of Septemr last, of the negligent state of the public Lamps, be referred to the same Committee.

[332] Alderman Drake offered the following resolution which was passed.

†Resolved that a Committee of this Board be appointed to examine the Situation of the lots of ground situate and fronting on Magazine Street belonging to this Board and if in their opinion it would be proper for this Board to sell them in fee or otherwise, to direct the Street Commissioner to have them surveyed and a Map presented, together with the opinion of the Committee on the best plan for disposing of the same.

Alderman Drake
Messrs Douglass and Campbell were appointed said Committee.

Alderman Wood offered the following resolution which was passed.

Resolved that the Street Commissioner take immediate steps to obtain a cession of all the Streets in the Village of Greenwich of the persons whose right it is to grant the same, Provided such cession can be obtained without expense to this Board.

Alderman Hopkins offered the following resolution which was passed.

Resolved that the Physician of the Alms House use all diligence to have the children and other paupers in the Alms House vaccinated, who have not heretofore had the small pox and that in future no children be admitted, unless upon condition of submitting to vaccination.

Ordered that the Fire Wardens forthwith examine the several buildings within their respective wards in conformity with the "Law for preventing and extinguishing Fires and to regulate the keeping and transporting of Gunpowder in this City.

[333] Mr Hegeman was appointed on the Committee, on the subject of farming out the Manure in the Streets of this city, in the place of Mr Bloodgood.

pended William Tice, for improper conduct, was referred to the Watch Committee.

Reports from the Captains of the Watch on the state of the Lamps in their respective districts, were referred to the Lamp Committee.

[338] The following Report was presented

The Committee to whom was referred the reports of the several Captains of the Watch

Report

That they have had a conference with Mr Cholwell and he assigns several reasons for the lamps going out frequently and on those nights in particular.

First, there are a number of Lamps out of repair, and which will cost more to repair than they are worth.

Secondly, the pipes or tubes to support the wicks, are badly constructed.

Thirdly, in one of the districts complained against, on that night there was a new lighter.

Mr Cholwell thinks the defects may be remedied, Provided he is permitted to procure new Lamps where they are defective, and also to procure Tubes of a different construction.

The Committee has requested Mr Cholwell to report the number of Lamps defective, and the number of Tubes wanted, and recommend that they be provided immediately.

"and paid for by this Corporation, at the expiration of the term, "unless the lease should be renewed by agreement:" which was confirmed.

The Comptroller presented the following report.

*The Comptroller has had under consideration the communication from Charles Smith lessee of wharves and Slips, wishing to know how to proceed in the collection of wharfage on both sides the new pier at south side of Corporation Bason, as Mr Richard Varick has given instructions to his Collector to receive the same.

From a review of documents in this office it appears that a †proposal was made by Mr Varick 25th July 1806. to sell his right at the Corporation Dock to the Board "for such fair price or consideration "as may be agreed upon between himself and the Common Council, "payable on the 1st May 1812. with interest at the rate of 6 ℔r Ct. per "an. &c." This was referred to a Committee who reported on the 4th August following that the sum which Mr Varick will take for property belonging to him and now offered to the [340] Board is Thirty five thousand Dollars upon the terms and conditions contained in his proposal, and are of opinion that it is for the interest and advantage of the Corporation to purchase the same. This Report appears to have lain over.

On the 1st September in the same Year Mr Romaine then Comptroller made a lengthy circumstantial ‡statement of the various points in controversy between Mr Varick and the Corporation. The business however has remained in an unsettled state till this time, and from the importance of the subject and the length of time which has elapsed since it first engaged the attention of the Common Council, the Comptroller would respectfully solicit the aid of a Committee together with the Counsel of the Board, in order that a decision may be had in the premises

quit rent of four bushels of wheat with which five acres of Common land belonging to him are chargeable, to any one half acre lot contained in the above, which may be chosen by the Corporation for the purpose, whereby the remaining four Acres and an half may be not only exempted, but the trouble and expence of collecting the said quit rent in subdividing portions may be saved; as he is desirous to dispose [341] of part of said premises.

The Comptroller is of opinion that it would be improper to make a transfer in the manner proposed, as the security which the Corporation possess for the amount of quit rent would thereby be lessened, and a precedent established which might in future operate injuriously to the public interest. At the same time an arrangement can be made to accommodate the Memorialist, without impairing the rights of the Corporation, and for this purpose the following is respectfully proposed.

That when Mr Smith sells his land, he may assign the four bushels of wheat to any one half acre lot he pleases, and dispose of the rest free of rent. A map of the premises designating the particular Lot subject to quit rent, and the name of the purchaser can be annexed to the deed in the Comptrollers Office. It is presumed that any division of the land comprising half an Acre, will always be sufficient to indemnify the Corporation for whatever rent may accrue within a reasonable term of years, and to the proprietor of this portion they will naturally apply for payment; altho' the whole of *the whole of* the five Acres will continue to be liable, agreeably to the Deed originally granted.

The mode now suggested, it is conceived, will satisfy the wishes of the Memorialist, without impairing the security of the Corporation.

respectfully submitted.

A further Petition of Leonard Baley for permission to sell small meats in Hudson market was referred to the Market Committee, who forthwith reported against the same, which was confirmed.

The following report was presented.

The Committee appointed on the *Memorial of Mr Thomas Barrow, one of the Committee of Leases [358] for the Corporation of Trinity Church, respecting the Resolution of this Board, passed Decr 19th last, in consequence of an Advertisement for the Sale of certain Lots belonging to said Church, beg leave to report,

That after a careful and deliberate investigation of the subject, they are of Opinion no reservation of water between West Street and the Lots advertised for sale by Trinity Church can possibly answer any public purpose; for from Beach Street, which is nearly filled up by Mr Rhinelander, to West Street, the distance across to Mr Newtons grant, which is also filled up to West Street, is only One hundred feet. That the water, considerably below Washington Street, is already too Shoal for any boats, except small craft; and that should a Slip be here laid out, it will be inaccessible, except by Beach Street, unless the Corporation still further narrow the Sheet of water by building a wharf adjoining Mr Newton's ground. It further appears to Your Committee that the trade of the City will require somewhere in this neighbourhood a respectable accommodation, and as the above place is evidently too shoal, and contracted, they take the liberty of suggesting the propriety of building, when convenient, a large and commodious Basin, at the foot of Beach Street, below West Street.

The Committee therefore recommend that it be signified to the Vestry of Trinity Church, who have always so readily co-operated with this Board in every plan for public improvement, that a grant on the usual conditions, will on proper application, be made either to

The Question referred to the Counsel of the Board, as he supposes, upon the annexed †representation of the Street Commissioner, is whether the persons appointed to make the estimate [360] and assessment of Jay Street as therein stated, having taken the Oath prescribed by the act of the Legislature in that respect, and commenced proceedings by virtue thereof, but thereafter declining or refusing to act further in the premises can be compelled by an order of the Common Council to perfect the object of their appointment.

There being no authority given by the Statute to compel the Assessors to make a report, I am of opinion the Board cannot enforce it, but considering the particular circumstances of the case, it would

To the Honourable the Representatives of the people of the State of New York, in Senate and Assembly convened

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York [362] respectfully showeth;

That they have estimated the Sums necessary to be raised by Tax for the expenses of said City and county for the current year, founded on the actual expenses thereof for the last year, which estimate detailing the particular objects of expense and the sums requisite to defray the same, they have the honour to transmit with this Memorial. From this it appears that for the purpose of defraying the various charges of this City and County for the present Year the sum of $.70.000, will be required; and the further sum of $.60.000 for the maintenance of the poor and for defraying the other contingent charges of said City & County.

Your Memorialists therefore respectfully solicit, that an Act may be passed, authorizing the Mayor, Aldermen & Commonalty of the City of New York, to raise the aforesaid Sums upon the estates, real and personal, of the Freeholders and Inhabitants of the said City.

The Board met agreeably to adjournment.

The Committee on Laws and Ordinances reported the †draft of a Bill for appointing Commissioners to lay out Canal Street, and for amending the Acts relative to improvements &c^{a} And for regulating Buildings &c^{a} in this city; Which, together with the following Memorial was approved, ordered to be engrossed and to be forwarded to the Mayor, at Albany, to be presented to the Legislature.

To the Honourable the Representatives of the People of the State of New York, in Senate and Assembly convened:

The Memorial of the Mayor, Aldermen and Commonalty of the City of New York respect- [366] fully showeth:

That the regulation of Canal Street is an object of the highest importance to a very large proportion of proprietors of Lots in said city and is attended with greater intricacy and difficulty than are incidental to the improvement of Streets in general.

Your Memorialists therefore respectfully pray that Commissioners may be appointed for the purpose of laying out and regulating said Street at the expense of the parties benefitted, with such powers and subject to such limitations as to the Honourable Legislature may appear expedient.

And Your Memorialists further pray that the Act entitled "An "Act relative to improvements, touching the laying out of Streets and "roads in the City of New York, and for other purposes" passed April 3^{d} 1807. may be so amended as to allow the Commissioners therein mentioned to cut Trees and do damage, where necessary in the execution of their duties and to be protected from action therefor, upon tender of sufficient amends for such damage.

And also that the Act entitled "An Act for regulating the Build- "ings, Streets, Wharves and Slips in the city of New York," passed April 3. 1801. may be so amended, as that no previous payment or

tender of money shall be necessary in any leases where any land shall be required for Streets, but that, on complying in other respects with said Act, such land shall vest in Your Memorialists, who will be made liable for the [367] payment of the monies assessed therefor.

And Your Memorialists &c[a]

The Street Commissioner presented a Deed to Benjamin F Haskin for three lots of ground, sold to him the 5th inst. situate in Stanton Street.

Ordered that the same be executed under the Seal of this Corporation and signed by the Deputy Mayor.

The Minutes of the last meetings were read and approved.

his water right, extending from N° 52. Greenwich Street in Hudson river; was referred to the Comptroller.

An application of George Janeway for payment of the amount of the Award for ground taken for opening Cross Street—with the interest accruing thereon; was referred to the Comptroller and the Street Commissioner.

The Committee on Laws and Ordinances reported the draft of a Bill to be presented to the Legislature, authorising the employment of certain convicts in this city and county; which was approved, ordered to be engrossed and sent to the Mayor at Albany.

*The Comptroller to whom was referred the Petition of the heirs of Dorothy Riker, reported that the subject falls within the jurisdiction of the Street Commissioner; to whom it was accordingly referred, with directions to report at the next meeting.

The Comptroller presented the following Report.

In compliance with the directions of the Committee appointed to examine into the State of [370] the Finances, the Comptroller has the honor of presenting, with the accounts of the last year, a summary statement of such expenses as he thinks will admit of retrenchment.

The City & County of N York is debited on the 31st Decr 1808. with a balle of.....	$53.510.76
The City of N. York is credited, d° d°.....	12.765.21¼
Leaving a Balle due the Treasr.....	$40.745.54

Since closing the above accounts a return has been received from the City Treasurer of sundry payments on account of Taxes, Excise, Sales at Auction, Water lot rent, Ground rent, Streets, Ferries, Signal Poles, Docks & Slips and Dove Lots; which will necessarily be carried to a new Account for 1809. altho' paid in the former year.

These sums will reduce the amount of appropriations exceeding receipts of Cash during the Year 1808 to.....	$.8240. 8
Amount of Bonds given d°	31215.
	39.455. 8
exclusive of annual payments which will become due for new piers, by Contract about.....	5100.25
	$.44.555.33

*Marginal note reads *See P. 356. 391.*—Ed.

The Annual revenue of the Corporation is $.50.830.65½. agreeably to the annexed Statement, exclusive of Market fees and Tavern licences, a return of which may be expected in February next. It will be observed that a much larger sum has been received in the course of the last year for Water lot rent, Ground rent, Common lands and Ferries, than the annual income from those sources. This arises in a great measure from the vigilance and activity of the Collector, in effecting a settlement of sundry accounts of many years standing. From a review of the resources of the Corporation which accrue from their permanent revenue; the receipt of [371] a less sum must therefore be calculated upon for the present year than from the past. Perhaps the diminution will be about one half. The amount of Excise, Duties on Sale at Auction and the Taxes already collected are nearly similar to those of last year. The urgent necessity which exists for a rigid attention to economy in the application of the funds of the Corporation and the propriety of curtailing many expenses which may be dispensed with, compatible with the public welfare, has induced the Comptroller to submit, with all respect, the subjoined statement. Previous however to entering into the various particulars, he would take the liberty of pointing out a mode of procedure, at present established, which requires attention.

At almost every meeting of the Board, applications are made, either in writing or through a member, for Warrants to be passed in favour of one or more of the Departments under the control of the Corporation, without an accurate knowledge of the sums payable, or the amount of cash in the Treasury. It therefore not unfrequently happens, that larger appropriations are made, than the actual state of the funds will justify, and embarrassments arise to the holders of warrants for want of payment.

To remedy this defect, it is respectfully suggested, Whether all applications for money should not be made through the Comptrollers office, by a fixed [sum] previous to the meeting of the Board. It could then be ascertained from the Books, what proportion might with propriety, be paid to each application, having a reference also to the State of the Treasury. By this means there would not be so many warrants afloat unsatisfied, as there have been [372] frequently, to the injury of the credit of the Corporation.

The following retrenchments that are thought necessary at this time, are arranged under the following heads. Under the charge of County Contingencies are comprised many particulars too numerous to bring forward. Those included in City Contingencies embrace dis-

bursements for Engines, Watch houses, Engine houses and lost Fire-buckets.

Watch. From the Year 1803. to 1808 the annual amount of this Department has increased.....	$22.937.72
During the last year the increase has been.....	$8364.20
In December 1807. the number of Watchmen on duty, besides the Captain & Assistant were, 121. at present there are 155. increase 34. The reduction to the former number, will diminish the expense for a year, should the Committee think proper to lessen the number....	$8687.
Roads. This department might lessen.....	7000.
Lamps. As the Contractor is bound to make all repairs, there will probably be a reduction since last year of.....	2000.
New Engines. It is understood that no more will be wanted at present	1840.
Collect. Appropriations for the Collect having nearly ceased, the sum last year expended was $7597. but a small amount will probably be laid out this year.....	7597.
Constables & Marshals. An order having been passed for suspending payment for Sunday Service, this charge will diminish about..	700.
The number employed at Elections, agreeably to the contemplated reduction, will retrench about.....	500.
[373] Powder for Military. If a specific sum should be appropriated for this purpose as proposed, the calculation may be.....	500.
Workmen employed by Superintendant of repairs, and the purchase of Paints and Glass for public purposes, may take off.....	1600.
New City Hall. The contemplated plan of proceeding with this Building till under cover, will necessarily incur an expense which cannot with precision be defined.	
Alms House and Bridewell. These establishments cannot with propriety be restricted to any specific sum, but must depend on judicious management.	
Streets. This department being under the control of the Street Commissioner, any regulation therewith connected will more peculiarly come under his observation: but as pavements around the Markets have been thoroughly repaired, probably a very considerable reduction in expense will take place.	
Docks and Slips. As it is supposed that no more Piers will be built the present year the expenses under this head will decrease.....	21.193.75
Total reduction	$51.617.75

It may in general be remarked, that the fiscal concerns of the Corporation, could by a prudential arrangement and proper attention in incurring expenses, be so regulated, as to create an income derived

from various sources, amply sufficient to meet the ordinary demands, without the necessity of recurring to Loans

papers for the Sale of the Vacant Lots in Stanton Street, Mr John R. Murray advanced the sum assessed upon the two Lots designated in the enclosed Map, by the letters D & E. upon the presumption they belonged to the Widows Society to whom they were assessed, as the reputed owners.

It has however been lately, and upon a more particular investigation, discovered that the said lots do not belong to that Society. That they own but two lots of ground, and they are situate in Pitt Street some distance north of Stanton.

Mr Murray very naturally applies for a correction of the mistake, and as he advanced the money from pure motives of humanity towards the Society and upon the presumption the information contained in the Assessment was correct; he considers himself justly entitled to a reimbursement of the money.

The Street Commissioner stated to Mr Murray that arrangements had been made with Mr Livingston, in a case not very dissimilar to his, for the sale of Lots in the same Assessment, upon which he has also advanced money. That this Sale was to take place on the 20th Feby and that advertisements would soon be prepared for that purpose. That if the [377] Corporation would consent, the lots upon which he had advanced, might be included in the same advertisement, with which delay and arrangement he is perfectly content.

The Street Commissioner considers this the best method of correcting the error and of doing justice to Mr Murray, particularly as the owners of the said Lots, are unknown, and recommends the following Order.

"Ordered that the Street Commr include in the advertisement for the sale of Janet Montgomerys lots in Stanton Street, the two lots assessed to the Widows Society, as it appears that the said Lots do not belong to the said Society; but to some person or persons unknown to this Corporation."

[387] The Comptroller presented the following Report.

*The Comptroller has the honor to report on the Petition of M. Cashman and others, lessees of lots of ground fronting on Chatham Street, stating sundry hardships attending the renewing and taking out their leases, and annexing a statement of the loss which will accrue during the term.

The Committee to whom was referred the several petitions praying for a reduction of ground rent in Chatham Street, reported on the 14th September 1807. as their opinion "that the present ground "rent of Two hundred and fifty Dollars on lots of Thirty feet on the "South side of Chatham Street, ought to remain and that it be a fixed "rule for the Comptroller to lease, till otherwise directed by the "Board, all such Lots as the Leases thereof shall expire on the South "east side of Chatham Street, at the yearly rent of Two hundred and "Fifty Dollars generally And on the Northwest side of said Street "from the Arsenal to Barley Street at the yearly rent of Two Hun-"dred Dollars."

This Report was confirmed by the Board.

Previous to the above report, leases were given to the following persons.

John Hibberd 1. May. 1806. Lot N° 105. Chatham Street, 21. Years at $.250. transferred by permission of the Board 7th March 1808. to Michael Cashman.

John Delamater, Lot 116. same terms, now Edward Dartnells.

Leonard Goetz. Lot 114. d°

John Brinckley, half of Lot 118. d° for $125.

[388] In the Spring of 1808, the following petitioners executed leases from the 1st May 1808 for 21. Years at the rate of $.250. per annum.

Mary Hazen Lot 114 & part of 115

Patience Bonnett. " 113

Court Went " 112

James Langley, part of 101.

Agreeably to an Order of Common Council passed 18th April last, directing the Comptroller to advertise Lots N° 11 & 12. on the North west side of Chatham Street to be leased at Auction from the 1st May following for the term of twenty one years he accordingly leased the same in the manner prescribed, one at Two hundred and Thirty Dollrs the other at Two hundred and Forty Dollars per an. which was

* Marginal note reads *See P. 368 409. 416.*—Ed.

Seventy Dollars more than the rent stipulated by the report of the Committee in September.

Having stated these facts for the information of the Board, it rests with them to determine whether any and what relief ought to be granted to the petitioners.

respectfully submitted.

Feb. 6th 1809. G. N. Bleecker.
Comptr

Ordered that the same be referred to Alderman Bingham Messrs Douglass and Torbert.

The Comptroller has the honor to report, that the Leases of the following Lots of ground will expire on the First of May next.

No 32. Barrack Street (now Tryon Row) 24 feet by 100. leased to Christopher Feigenheim. The guardians of the Orphan Children will give $50. per. an. for Ten Years. Fifty Dollars.

[389] No 34. Augustus Street, 30 feet wide 88½ feet in length on the Northeast and 67½ feet on the South west side, under lease to John Striker. The guardian to the heirs of this Estate offers to renew the Lease for Ten Years at Fifty Dollars per annum.

No 24. Augustus Street, 25 feet by 96. formerly leased to William Smith, and now occupied by John Downing.

No 25 adjoining the above, of the same dimensions, occupied by the Widow of Francis Spicer.

The two last mentioned leases expired in 1806. and were not renewed under the supposition that they would be wanted for extending Chamber Street through to Chatham Street. But as this plan will not be accomplished in all probability till the expiration of the Leases of other Lots some of which have 17. Years to come, it would be adviseable to lease them for about ten years.

The occupants of these premises will give Thirty Dollars each per ann. if the Common Council thinks proper to let them have them.

The Board will be pleased to make an order as to the mode of disposing of the above described Lots of ground, whether at public or private Sale, and if the latter, the price and term of years.

Respectfully submitted

Feb. 6th 1809. G. N. Bleecker, Comptr

Ordered that the same be referred to the preceding Committee.

*The Comptroller reported that the term for which the Ferry at Horns Hook was taken will expire on the First of May next.

* Marginal note reads *See Report P. 449.*—Ed.

That the lot of ground occupied by John Moore near the Arsenal in Chatham Street has been [390] rented annually for $137.50. He submitted to the discretion of the Board whether it would be proper to continue the rent at this sum, until the adjacent ground belonging to the Corporation shall be disposed of.

Ordered that the same be referred to the Ferry Committee.

*The Comptroller to whom was referred the Petition of Thomas Tom and Benjamin Ferris soliciting a grant of a Water lot on the Southerly side of Front Street near the Crane Wharf;

Reported that he has had the same under consideration and finding from the tenor of the application, some circumstances which require a Solution previous to issuing a grant, he recommended that the subject be referred to the Counsel of the Board for his explanation in writing, in order that the objections which occur may be satisfactorily explained before a grant is made out; which was confirmed.

†The following Communication was presented by the Street Commissioner.

The Street Commissioner has the honor to lay before the Board his Account Current with the Corporation accompanied with such statements and Vouchers as were deemed proper to elucidate the debits and credits of the said Account.

As there are a number of items in the account with which the present Comptroller is unacquainted, it is his desire as well as the particular wish of the undersigned, that a Committee be appointed to unite with the Comptroller to examine the vouchers and statements and to sanction the account if found right

which is respectfully submitted

Feb. 6. 1809. John S. Hunn.

[391] Ordered that the same be referred to Alderman Bingham Messrs Slidell, and Campbell.

The Street Commissioner presented again the ‡Assessment for repaving Thomas Street and part of Hudson Street, having advertised it agreeably to the directions of the Board, and had received no objections against it.

Whereupon said Assessment was confirmed and Henry Van Pelt was appointed Collector.

||The Street Commissioner presented the Assessment for repairing the Wharf along South Street from Wall Street to Burling Slip.

Ordered that the same be advertised for the information of the parties interested.

*The Street Commissioner represented that it will be necessary, previous to a final settlement with Walter Allen, respecting the Piers at Coenties and Exchange Slips, that the amount for his extra work should be ascertained and as this cannot be better done than by a reference, he recommends that the Board appoint on their part John Anderson, who has superintended the work, to unite with any other person Mr Allen may appoint for that purpose. This plan meets with the approbation of Mr Allen who is anxious to close the account.

Ordered that the subject be referred to the Committee on Wharves Slips and Piers.

The Street Commissioner presented the following report.

†The Street Commissioner to whom was referred the Communication from the Heirs of Dorothy [392] Riker and the report of the Comptroller thereon has the honor to report:

That the Common Council for the purpose of opening a free passage to the head of Burling Slip, required the ground of John Riker and Simeon & Rem Remsen, upon some part of which stood a Black Smiths Shop, supposed to belong to the said Riker; and not being able to treat with the proprietors for the said ground, caused a Jury to be impannelled, agreeably to law, who after viewing the premises awarded to

John Riker for ground	$3000
" for Shop	75
Simeon & Rem Remsen for ground	3000
Making a sum of	$.6075.

in part represented in the communication.

The Street Commissioner further reports that the Corporation by an arrangement made with Mr George Codwise Junr who purchased of them the rights and interests they possessed along the said Burling Slip, obtained of the said Codwise his Bond for $.3000. which was understood to be part of the award of the Jury and intended to be deducted from the sum to be assessed upon the people to raise the money to pay off the said award; and that afterwards the Corporation caused an assessment to be made, directing the Assessors to consider the Bond of Codwise as so much paid thereon.

The Assessment was accordingly made and the credits thereon,

* Marginal note reads *See Report Vol. 20. P. 5.*—Ed.
† Marginal note reads *See P. 356. 369. 419.*—Ed.

besides the small contingent expenses of Surveying, assessing and Collecting stand thus.

To John Riker for ground	$3000.
do for shop	75.
S. & R. Remsen for ground	3000.
Corporation for Costs	190.34
Amounting to	$6265.34
[393] Of the above Sum, the Corporation was charged with Codwise's Bond, since received	$3000.
Assessed to them	1127.40
	4127.40.
Leaving the sum of	2137.94
to be collected on the Assessment	$6265.34
The Street Commissioner further reports, that Simon Ackerman, who was the original Collector, paid in Cash and settled with the Corporation, the sum of	$967.76
And that William Dustan, who collected upon the return of Ackerman paid and settled the residue of the Assessment	1170.18
Making as above stated	$2137.94

So that all the money due to Remsen and Riker upon the awards has been paid to the Corporation. The Street Commissioner has never heard that any part of their demands have been discharged, he believes the whole is still due; but of this the Comptroller is of course the proper judge.

It belongs more particularly to the Counsel of the Board to inform, whether the claimants are entitled to interest on their demand from the date of the award.

Which is respectfully submitted

Feby 6. 1809. John. S. Hunn.

Ordered that the same be referred to the Counsel and Comptroller.

The Street Commissioner presented the following report.

The Street Commissioner in compliance with a *resolution of the Board of the 23d Ulto directing him with all possible despatch to lay before the Board such information, as he has. respecting the situation [394] of high water mark on the Hudson river from the Battery to the State prison, has the honor to

Report that not being informed as to the particular views of the Corporation *is* [in] requesting this information, it is difficult for him

*Marginal note reads *See P. 379.*—Ed.

to frame it in such manner as to meet any contingent circumstance that may occur. No part of the Resolution States whether the information shall be general whether it shall be confined to particular points, or whether it shall include all the corners of the intersecting Streets.

To give a particular statement of the former line of High Water mark, from the Battery to Partition Street, would be a work of considerable magnitude and uncertainty as reference therefor must be had to all the grants first issued within that distance, that could be found recorded in the Comptrollers Office; from Partition Street to Lispenards meadows, would be much easier; and from thence to the State prison embraces no difficulty as recent Surveys upon which the grants have been founded are in possession of the public offices.

A general description of original high water may be found more correctly delineated on Ratzers Map of the City of New York, a copy of which is in the Office of the S^{t} Comm^{r}, as far as Partition Street, than from any other document ever presented to the view of the Subscriber, or in possession of the Corporation. This Map was made in 1767. when that portion of the City was but little built upon, and distinctly portrays the line of low water and in many places high water, where the shore has been left in a State of nature.

A Map in the possession of Trinity Church made in or about the year 1783, Copy of which is filed in the Office of the Subscriber, pretty distinctly delineates [395] the line of high water along the property of Trinity Church from Partition Street to the extremity of Anthony Lispenards possessions, and is the best evidence we have of the original position of high water within that distance: And the recent surveys of M^{r} Loss to ascertain high water mark along the Hudson fronting the property purchased by M^{r} Astor of the Corporation of Trinity Church, have established the line of high water mark within that district.

If the Board be desirous of more particular information they will be pleased to signify it by more particular instructions.

All which is respectfully submitted

Ordered that the same be referred to M^{r} Mulligan Alderman Drake and M^{r} Hegeman.

The Grand Inquest of the City and County of New York Present

That the great number of Pawnbrokers and the unrestrained manner in which they conduct themselves, have become a source of serious and alarming mischief.

By this means a strong temptation is held out to servants to steal the property of their masters, and what is still more to be regretted, Apprentices and Young persons are induced to commit embezzlements and thefts from the facility with which they may dispose of the fruits of their crimes.

The Grand Inquest particularly present that Benjamin Gomez, by providing separate passages, whereby that business may be carried on with the greatest secrecy, and by giving notice thereof in the public papers, deserves their pointed censure, because, in the opinion of the Grand Inquest, it extends security to knaves and openly encourages the most dishonest practices.

The Grand Inquest further present as a source of great and incalculable depravity the Insurance of Lottery Tickets, inasmuch as it introduces a system of the most pernicious and extensive gambling: the more demoralizing, because it accommodates itself to the circumstances of all and invites thereby every class of citizens to engage in it: the more ruinous, because it tempts the unthinking and unwary to become the dupes of its seduction: the more abandoned and profligate because the [404] iniquitous advantage of the Insurer is reduced to certainty by Arithmetical calculation.

The Grand inquest submit to the wisdom of the Court whether some legislative regulations could not be made to restrain those increasing evils, and whether it does not demand the serious attention of the public functionaries.

Alderman Drake represented that with a view to accommodate the Superintendant of the Alms House he had advanced, on the 15th Decr last, $5000—for a warrant issued by this Board to said Superintendant, which the Treasurer had not been enabled, as yet, to discharge: and that he was willing to accept a Bond from the Corporation, for the amount, payable in one year from the 1st Jany last, with interest at six per cent.

*Ordered that said offer be accepted and that a Bond, under the Seal of this Corporation, be given accordingly.

Warrts No 164 @ 169 On application Ordered, that six several Warrants of One thousand Dollars each, be issued in favour of the Superintendant of the Alms House.

Warrt No 171. Ordered that a Warrant be issued in favour of Alderman Bingham, for $200. on account of the Committee of repairs.

The following Report was presented

The Committee on the subject of farming out the Street manure, to whom was referred the Comptrollers †report of a comparative Statement between the present establishment and that of farming out as aforesaid

Report

That after a full consi- [405] deration of the subject they are of opinion, from the information they have received, that considerable more may be obtained for the manure by farming it out, than is received by the present establishment. They therefore recommend that the Comptroller be directed to give public notice, to receive proposals for farming out the manure by districts as prescribed in the Ordinance, heretofore reported, in such manner however as that the Board may have the option to reject the proposals, if they should be dissatisfied with the sums offered, or the persons offering them.

The following report was presented.

The Ferry Committee to whom was referred the †Memorial of sundry proprietors of Wharves and Warehouses at Brooklyn

Report,

That they have taken every pains to inform themselves on the subject [406] of which they complain, and after mature consideration are of opinion, that if the Corporation should confine the Ferry boats to the Ferry stairs only, on each side, the advantages the public receive from the Ferries would be considerably lessened: for instead of Two Ferries as at present, it is likely there would be Twenty very shortly, and the public not so well accommodated as now. In all their enquiries the Committee can find no person that is put to any inconvenience in having his goods transported by the Ferry boats. The law permits owners of goods to transport them in their own boats, if they think proper; and some of them, not having business enough of their own, for their Boats, want to transport for others, which, if the Board consent to, would in the opinion of the Committee, contribute to the inconvenience of the great body of those persons who use said Ferry. From enquiry Your Committee are of opinion that the lessees of Brooklyn ferry conduct themselves with as much care and attention as has been done for some time.

The Committee of Finance on a ‡Petition of a number of the inhabitants of the City

Report

That after maturely considering, with all the attention becoming a representation from so large and respectable a number of our Fellow Citizens, it is their opinion it would be inexpedient to raise a special tax on the Citizens for the purpose contemplated in said petition: for the Committee fully believes, the public distress at [407] the present

moment is greatly mitigated by the formation of a number of Associations for benevolent purposes, and which has evidently caused the pressure at the Alms House to be less than last year. The Board will recollect that the rations on several days last year were upwards of 6000. Whereas on Friday the 3d inst. the rations were 4220. On Tuesday last 4016. and on Friday last 4036. The Commissioners have likewise issued 630 Loads of Wood from the 22d of January to this date. And further that the "appointment of a number of impartial citizens to distribute the public bounty" is superseded by the praiseworthy attention of the Commissioners of the Alms House, whose exertions at this period merit the highest thanks of this Board, and of the Citizens at large.

The Committee are further strengthened in the opinion that it would be improper to raise an additional tax, because a late review of the Finances of the Corporation presented to this Board in the Comptrollers report a Sum sufficiently large may be appropriated with propriety towards the alleviation of the labouring poor.

A Report of the Superintendant of the Alms House together with his Account Current for the last quarter, was referred to the Comptroller.

The Alderman and Assistant of the 8th Ward to whom was referred the consideration of the *subject respecting the sunken lots in Spring Street, reported that, in their opinion, it would be adviseable that new Ordinances should be passed, directing the owners of said Lots to be filled up on or before the 10th day of March next, that the said ordinances be served forthwith, upon as many of the owners as can be found, and that such of the lots [409] as shall not be filled up within the time limited be regulated at the public expense and afterwards sold for a term of years to defray the same, in the manner proscribed by the Statute; Which was confirmed.

†The Committee to whom was referred the Report of the Comptroller on the petition of M. Cashman and others Lessees of Lots in Chatham Street, reported that it is inexpedient to grant the prayer of the petitioners; which was confirmed.

The Committee to whom was referred the ‡Petition of John Butler, reported that the prayer thereof is unreasonable and ought not to be granted, which was confirmed.

The Committee to whom was referred the ||accounts of the Street Commissioner, reported, that in conjunction with the Comptroller, they had carefully examined said Accounts with the Vouchers, and find them perfectly correct; and that there remains a ballance due to the Street Commissioner of $537.62. for which they recommended that a warrant should be issued in his favour, being a complete settlement of his account Current, with his Salary included, up to the 14th Jan^{y} last: which was confirmed

The Attorney to whom was referred the *Petition of Lawrence Heyer, reported, that as the controversy between the Common Council and the Petitioner will ultimately rest and consequently be decided upon principles of law, there could in his opinion be no objection against [410] submitting it to the arbitrament of three reputable Lawyers, in which arrangement it is understood that the petitioner will acquiesce.

Ordered that the subject be referred to Alderman Mott Messrs Hegeman and Torbert.

A report from the Police Office that Captain Darling had returned William Simmons John L. Ayres, & Burnet Tims for neglect of duty and leaving their posts, was referred to the Watch Committee.

The Street Commissioner having advertised the †Assessment for repairing the Wharf in South Street, from Wall Street to Burling, reported that he had received no objections thereto.

Ordered that said assessment be confirmed and that Charles Marsh be appointed Collector.

‡The Street Commissioner presented the following Communication.

The Street Commissioner has the honor to cover a copy of ||one of his communications to the Board of the 14th of March last, on the necessity of effecting more sure and permanent Surveys in this City, which was read and referred to a Committee of seven members; but the great distress of the poor at that time requiring the daily presence of many of the Members at the Alms House, and the press of other concerns claiming the immediate attention of others, prevented the Committee from meeting upon the business until it was too late to bring it forward for the consideration of the Legislature.

[411] The Street Commr respectfully refers the Board to the said Communication for his ideas upon the subject generally, to which he does not think it necessary further to add, than that every survey, since that presentation, has more and more convinced him of the propriety of his remarks, and the necessity of the measures therein recommended.

It has been suggested that such a law would subject the Corporation to great expense. But it may be observed that these surveys would only be made, as they now are, at the request of persons about to build, that the charges would be borne by the persons requiring

it. That the Corporation would be at no expense except where they directed a Special Survey, and in that case it would be reassessed upon the proprietors. That they are subject to such expense now, and that in fact, the principal object of the law is, to prevent the accumulation of expenses, unavoidable at present, and to lessen those which accrue by the present practice.

The draft of a bill to be sent to the Legislature was drawn up with some attention for the purpose of submitting it to the Committee when they met. It has been examined by several gentlemen of the Law, in and out of the Board, but although generally approved, was objectionable in some parts.

To avoid these objections several alterations have been made, and the Original draft, with the amendments, is now presented for the consideration of the Board. It may scarcely be necessary to remark, that no more power is asked by this Bill, than is delegated by Law to the Mayor and City Commissioners of Baltimore, and to the Select & Com. Council of the City of Philadelphia.

The Mayor presented the following letter addressed to him by James Fairlie Esq[r]

New York. Feb[y] 20[th] 1809

Sir.

Being a member of a Committee of the Assembly, now sitting in Albany, on the [415] subject of a Standard long measure; and understanding that the Corporation of this City is possessed of a standard Yard, procured for them from England, I take the liberty through you to suggest to the Common Council, that they would present their Standard to the State, as the Standard to receive the Sanction of Law: and in return the City will not only have a compared and authenticated one, but also an additional one, for that presented by the City.

If this proposition be assented, to I would also request that such a written account accompany the Standard, as shall exhibit to the Legislature how the same was obtained.

pediency of widening Maiden lane, where the late Fire had left vacant lots

Report

That they have visited and examined the situation of said Lots and from a careful investigation of the subject deem it not expedient to widen the Street on the side contemplated by the resolution: on which side many of the Houses are new and valuable, and form a proper range with Liberty Street.

Your Committee are of opinion that the proper, and under the existing circumstances, the only practicable manner of widening Maiden lane, is from the foot of Gold Street to the corner [419] of Pearl Street. Those buildings, with the single exception of a house built by the late Nicholas Carmer, are old, and will of necessity be rebuilt in a few years, or be destroyed. Such an event will afford an opportunity of widening the Street from Twelve to Twenty feet; and as the Lots are very deep, with little inconvenience or expense.

his Wife, to this Board, for Lot N° 10. on Schieffelin Street at Manhattan Ville, for the purpose of a Ferry House, which was accepted and ordered to be recorded.

M^r Torbert moved that the Committee on the subject of the Mayor's Salary, be called upon to report.

Alderman Bingham, in behalf of said Committee, remarked, that, from the multiplicity of other business, the Committee had not been called together to consider the subject and was not ready to report.

Whereupon M^r Torbert moved that said Committee be discharged, which was carried.

M^r Torbert then moved that the blank fixing the Mayor's Salary be filled with Five thousand Dollars, And that the Memorial on the subject be engrossed and forwarded to the Legislature.

Alderman Mesier moved, as an amendment, that a new Committee be appointed to consider the subject and report thereon, which motion prevailed, and Aldermen Bingham Mesier and Wood were appointed said Committee.

[424] M^r Ward offered the following resolution which was passed, an

*Resolved that a Committee be appointed to examine and direct the payments to the persons who have had ground taken from them for widening Cross Street.

Alderman Minthorne Mess^rs Douglass and Hegeman were appointed said Committee.

The Minutes of the last meeting were read and approved.

Jacob Mott Esquire, Alderman of the 7th Ward of this city, produced his commission of Deputy Mayor, with the approbation of His

Excellency the Governor thereunto annexed, and having previously affirmed to and subscribed the Oaths of Office prescribed by law, in the presence of Pierre C. Van Wyck Esq[r] Recorder, named in the Commission of Dedimus potestatem to tender and administer the Oaths required by law, to all Officers Civil and military appointed or elected for this City and County in the absence of the Mayor, at Albany, took his seat and presided.

*A Communication from Joseph Burjeau the Mayor's Marshal, representing that he is deputed by the Mayor to collect the Market fees at Harlem [427] and that he had called on Thomas Durning butcher at said place, to account for the market fees due by him for the space of two or three years, which he refused to do; And further stating that His Honour the Mayor requested that said Durning should be suspended until a settlement was effected, and that the Attorney of this Board be directed to institute a suit against him for recovery of said Fees; which was confirmed.

A further Petition of Zophar R. Jarvis to be permitted to erect a Hay Scales at the intersection of Broadway and Bowery, and to be appointed Weighmaster, was referred to Alderman Minthorne Mess[rs] John Drake, and Ward.

An application of John Lawrence to be permitted to make an Area and Vault before his premises N[o] 356. Broadway was granted, under the inspection of the Street Commissioner.

A Petition of John Dikeman and Burdett Stryker for a grant of the Soil between high and low water mark at Brooklyn, northward of the old Ferry, commonly called the rocks, was referred to the Ferry Committee and Comptroller.

A Petition of John Barckoff, for a grant of the Stand N[o] 28. Flymarket, occupied by Richard Ford, who is willing to relinquish the same in his favour, was referred to the Market Committee, who forthwith reported in favour of the Petitioner, which was confirmed.

Alderman Mesier presented a letter from Mr. Robert Fulton, to M[r] John R. Livingston proposing as a mean of defence for this harbour, that this Corporation should provide 20. Torpedoes, for the [428] purpose of blowing up Ships of War, together with 2 Boats and crews for exercising them, the expense of which is estimated as follows:

20. Torpedo,locks @ $50. each	$1000.

Ordered that the same be referred to the Committee of Defence.

*The Recorder presented the Copy of a Bill, which he had received from Albany, now before the Legislature, to the following purpose;

"That all goods, Wares and Merchandize brought on board of "any Ship, boat or vessel, and landed in the town of Brooklyn in "Kings County may be again reladen, on board of any Ship, Boat or "Vessel, and transported to the City of N. York in such manner as "the owner, agent or consignee shall deem proper or convenient; any "law, custom or usage to the contrary notwithstanding."

"And that the inhabitants of the town of Bushwick in the county "aforesaid owning lands on the East river, within the limits of said "town, are hereby authorised and permitted to build and erect Docks, "wharves and other buildings to the distance of two hundred feet "from low water mark in the [429] East river. Provided always that "by this grant the navigation of Marsh Platt Kill, commonly called "Bushwick Creek, shall in no way be obstructed or impeded."

Ordered that the same be referred to The Recorder Messrs Mulligan, and Hegeman to consider how far said Bill may interfere with the rights of this Corporation, and to report thereon at a special meeting of this Board, to be held for the purpose, on Wednesday next, 4 o'clock. P. M.

The following communication was received from the Treasurer of the New York Hospital.

Thomas Eddy Treasurer of the New York Hospital exhibited an Account to the Superintendant of the Alms House, for the maintenance and support of Maniacs to the 1st of the 1st Month, January; In said Account is included the charge for the Maniacs received at the Hospital by order of the Superintendant of the Alms House, and for those who were removed from the Hospital to the Assylum last Summer. The Superintd of the Alms House, as the Treasurer of the Hospital was informed by the Clerk of the Alms House, was of opinion that application should be made to the Corporation for payment of

Sir

The bills relative to Streets & Boundaries have passed the Senate and are now before the Assembly.

The remonstrance against the Ferry arrangement has also been submitted to the Assembly and nothing has as yet been done with the bill against which it was intended to operate.

There appears to be a determination in the Legislature not to grant any more Lotteries. The Memorial of the Common Council praying for one has been committed in the Assembly and a bill has been introduced but there is no hope of its passing.

The objections to the Canal Street Bill have not yet been taken up. I am anxious to hear from the Common Council on this subject. My opinion is adverse to the solidity of the objections.

I wish I wants you to communicate this to the Corporation for their information

I am Your most obed.t Serv.t

De Witt Clinton

Isaac Ricketts Esq.r

This letter of De Witt Clinton, previously unpublished, was discovered by the editor among the loose papers in the custody of the city clerk. Clinton was Mayor of the City and at the same time State Senator. He writes from Albany to the Clerk of the Common Council concerning bills pending before the legislature that affect the city. The minutes to which reference is made are found on pages 402, 434, 445, 455.

the said account and the Treasurer of the Hospital now respectfully requests payment.

New York. 2d Mo (Feby) 27. 1809. Thomas Eddy.

Ordered that the same be referred to Aldermen Bingham Drake, and Mr Slidell.

[430] *The Committee on Laws and Ordinances presented the following draft of a Memorial to the Legislature on the subject of regulating Pawn brokers, together with the draft of a Bill which were read, approved, and ordered to be engrossed, with the usual formalities, and sent to the Mayor at Albany, to be presented to the Legislature.

To the Honourable the Legislature &ca

The Memorial of the Mayor, Aldermen and Commonalty &ca respectfully sheweth

That doubts having arisen whether Your Memorialists, under the Act of the 2d April 1803. by which they are authorized to make laws for regulating Pawn brokers, can provide for the payment a greater interest than at the rate of Seven per cent per annum.

That the compensation for small loans such as are usually made by pawnbrokers ought, in the opinion, of Your Memorialists, to exceed that rate. Your Memorialists therefore pray Your Honourable Body will authorize them to make such regulations on the subject as they may deem expedient. And as in duty bound &ca

Mr Hegeman, on the part of the †Committee, appointed for the purpose, reported the following Memorial to the Legislature, together with the draft of a Bill, for the purpose of raising $100.000, by Lottery towards completing the New City Hall, which were read, approved and ordered to be engrossed, and sent to the Mayor, as aforesaid.

To the Honourable the Legislature &ca

The Memorial &ca respectfully sheweth

[431] That Your Memorialists are desirous of prosecuting the building of the New City Hall, so far as to have the same covered and inclosed in the ensuing Season, but owing to the pressure of the times and the embarrassed State of their finances as *will* [well as] from the great expense of the said building and other causes, they are seriously apprehensive that they will find themselves under the necessity of stopping the progress of the said Building for the present, and of leaving it in its exposed state, without your aid in the premises. They

* Cf. accompanying plate. Marginal note reads *See P. 413.*—Ed.
† Cf. accompanying plate. Marginal note reads *See P. 422.*—Ed.

therefore earnestly beseech Your Honourable body to authorize them to raise the sum of One Hundred Thousand Dollars by Lotteries in such manner and under such prudent regulations as Your Wisdom may direct, to enable them the better to pursue and complete the building of the New City Hall aforesaid.

And Your Memorialists &c[a]

The *Committee to whom was referred the Petition of M. Cashman and others, reported that it has not been customary for the Board to hear Counsel, and in the present instance, that it is not expedient to comply with the prayer of the Petitioners; which was confirmed.

The Committee to whom was referred the †Application of Stephen Gould reported; that they consider the terms offered to him, in their former report, as favourable as this Board ought to grant, and are of opinion that his petition ought not to be granted, excepting as to allow him the old materials. The Committee further recommended that M[r] Gould be informed that unless he shall take out his lease by the first day of May next, the Board will not consider themselves bound to abide by the terms aforesaid: which was confirmed.

[432] The following report was presented.

‡The Committee appointed to examine and direct the payments to be made to the persons who have had ground taken for the widening Cross Street

Report.

That as this subject has remained in an unsettled State for a considerable length of time, the Committee are of opinion that it should be brought to a final settlement with all convenient speed. They therefore recommend that the Comptroller be directed to have deeds prepared for the several peices of ground taken for said Street, and that payment be made to the Several proprietors, on the execution of their respective deeds.

Mangle Minthorne
Isaac S. Douglass
Adrian Hegeman.

Ordered that the same be confirmed.

On the suggestion of the Street Commissioner, it was further Ordered, that the money now due and assessed upon the said proprietors be deducted from the several Awards, and that the respective balances only be paid by this Board.

The Comptroller presented the following report.

The Comptroller has the honor to report on the *petition of Frederick Depeyster, requesting that a grant may be made in his favour for the soil between high and low water mark on the Hudson river, commencing at the boundary line between him and James Striker, and running Southerly along said river in front of his premises, the distance of 100. feet.

That it does not appear improper to issue a grant to the petitioner on the same terms with grants [433] made to Jacob Harsen and Jacob Schieffelin in the Year 1804. Viz^{t} from high to low water mark being about 150 feet, at the rate of Six and a quarter cents per foot along the Shore or Strand, for the first Fifty years, and Twenty five cents per foot forever after. Should the Board think proper to sanction this report, a Grant will be prepared accordingly.

respectfully submitted.

Feb. 27th 1809. G. N. Bleecker. Compt^{r}

Ordered that the Same be confirmed.

The Comptroller reported, that from a review of a †report made to the Board the 29th August last, relative to water grants to Robert Carter and others, and ‡Peter P. Van Zandt: That the sum fixed to the latter is more than ought to be charged, considering that after deducting 120 feet 2¼ inches in depth from Front Street, which is the length of M^{r} Carter's lot, there will remain but 79 feet 9¾ inches to be granted to M^{r} Van Zandt. Taking into view the rate of grants formerly issued to the adjoining proprietors, and the Situation of the lot now under consideration, the Comptroller proposed to place M^{r} Van Zandt's annual rent at Five Dollars thirty Eight cents at which Sum he will take out his grant:

Ordered that the same be confirmed.

||The Report of the Comptroller on the Communication of Charles Smith, lessee of the public Wharves and Slips, respecting the wharfage claimed by Richard Varick Esq^{r} at Dey Street pier, was referred to the Counsel and Street Commissioner.

The Comptroller presented a Bond to James Drake Esq^{r} agreeably to the §order of the Board, for $.5000. payable in twelve months from the 1st Jan^{y} last with Interest at 6. P^{r} C^{t} P^{r} an. which was approved and ordered to be delivered.

*The Committee appointed in relation to a Bill depending before the Honourable the Legislature, supposed to interfere with the rights of this Corporation,

Report

That they have given the subject their serious attention and are of opinion that the provisions of the said Bill, if enacted into a law, will violate the rights of the City of New York, as granted by their charter, in many respects and particularly in those detailed in the Memorial accompanying this report, which they respectfully recommend to the adoption of the board, and that the same under the Seal of the City, may be forwarded without delay to his Honor the Mayor for the purpose of being presented to the Honourable the Legislature.

ourable Body for consideration entitled "An Act granting relief in "certain cases to the inhabitants of New York, and to the inhabitants "of the town of Brooklyn and Bushwick in Kings County," they have carefully examined the contents thereof as appear in a copy transmitted to this Board, and on comparing it with the charter of this city, are of opinion that the said bill in many respects not herein enumerated, contravenes and is at variance with the said charter, but particularly with those parts which "grant and appoint the compass precincts, "circuits, bounds, liberties and jurisdictions of the said city:" and "the "right, benefit and advantage of all docks, wharves, cranes, Slips or "small docks within the said city, with the wharfage cranage and "dockage, and all issues, rents, profits and advantages, arising or to "arise and accruing or to accrue, by or from all or any of them;" and "from the ferry and ferries on both sides of the east river and "all other ferries then and thereafter to be erected and established, "all around the island Manhattan, and the management and rule of "and all fees and perquisites to the same or any part thereof belong-"ing;" as will fully appear from the said charter and a copy thereof published by order of the Common Council of the said City the 18th Feb. 1805. under the Pages 45. 46. 102. 103. &c.

The said Mayor Aldermen and Commonalty also beg leave to suggest to Your Honourable Body [443] that it would be impolitic and inexpedient to pass such an Act, while the Controversy between this State and the State of New Jersey respecting the Charter rights of this city remains unsettled. That claim and the act before the Honourable the Legislature embrace similar points and are subject to the same objections; and the passing of the bill against the remonstrance of the Corporation, would give a new colour and pretext to the Jersey claim and probably defeat all hope of an amicable adjustment. They also submit to the Honourable the Legislature the consideration, whether it is not novel and unprecedented for them to interfere with the rights of a Corporate body in any point touching their pecuniary emoluments, unless upon petition or with the assent of the Corporation.

Your Memorialists beg leave to submit to Your Honourable Body that they are at all times willing to attend to such applications as may be made to them for the accommodation of the public with respect to the transporting of goods, merchandize and other articles, and to make such regulations respecting the same as are just and convenient and have in a recent case referred such an application to a Committee of

their body, whose report upon the subject they respectfully also submit for the information of Your Honourable Body.

Your Memorialists further represent, that the rights and privileges granted by Charter and which the said Bill is calculated to destroy have been acquiesced in and are now become a source of considerable emolument: and that all the advantages which are to be derived by individuals from the passing of the said Bill may be obtained from the Corporation, at all times, upon fair and equitable terms, consistent with the interests of the city.

[444] Your Memorialists therefore beg leave respectfully to submit this their *remonstrance against the passing of the said Bill into a law to the consideration of Your Honourable Body.

Ordered that the same be engrossed, and the Seal of this Board thereunto affixed, and together with the a copy of the †Report therein mentioned, forwarded to His Honour the Mayor to be presented to the Legislature.

The Clerk presented an Authenticated Copy received from the Secretary's Office, of the "Act authorizing the employment of certain "convicts in the City and County of New York." passed February 10th 1809. Which was ordered to be filed.

Aldermen Mesier Hopkins M^r Mulligan and the Street Commissioner were appointed a Committee to confer with Captain John M^c-Lean, Commissary of Military Stores, to postpone the Sale of the ground belonging to the State at the corner of Pearl and State Streets until a letter can be sent to His Excellency the Governor and his answer received on the subject of ceding to this Board so much of said ground at the aforesaid corner as may correspond with the line of the front of M^r Archibald Gracie's House in Pearl Street, who has thrown out a part of his Lot to widen said Street, and, on the representation of Alderman Mesier, promises to make a cession thereof to this Corporation; Provided the State can be prevailed on to make the cession aforesaid.

The following Report was presented;

The Ferry Committee to whom was [449] referred a *Communication from the Comptroller relative to the Ferry at Horns Hook

Report

That agreeably to the report of a Committee on the 18^th September last and which was confirmed by the Board; Jacob M^cKeag, the present Occupant of said Ferry, in consideration of certain improvements to be made by him, is to have it for two Years from the 1^st of May next, free of rent, subject to the regulations of the Corporation respecting ferries. They also recommended that all improvements at the expense of this Board, to the buildings attached to said Ferry, except the finishing the house lately erected, be for the present suspended.

†The Committee further report that the lot of ground occupied by John Moore near the Arsenal in Chatham Street, at the Annual rent of $.137.50. be continued to him on the same terms until otherwise directed by the Board.

in case of default that the Attorney be directed to prosecute therefor: which was confirmed.

[451] The following report was received from the Counsel.

*Having examined the report of the Street Commissioner upon the Petition of Edward Magin, as also the said Petition and the several powers of Attorney accompanying the Same. I am of opinion that as it appears a Mr James Hogan of this City solely made the contract with the Corporation for the paving of the Streets and he on the 24th January last gave a full power of Attorney to John McCosker of this city Cordwainer, who on the 31st of the same month gave a power of substitution to Patrick McCarthy of the same place Grocer, which power of Attorney and of substitution were respectively delivered to and accepted of by the Street Commissioner previous to any pretence of Magin being a partner with Hogan and long previous to the power from Hogan to Mead. The Money due ought to be paid to Mr McCarthy, but as there may be a question of partnership arising from the allegation of Mr Ginn, the Corporation ought to be indemnified against such claim.

March. 6. 1809. Ja: Woods.

Ordered that the same be referred to Alderman Drake, Mesier and Mr Hegeman.

The following Report was also received from the Counsel.

†The Subscriber to whom the Petition of Thomas Tom of the city of N. York Merchant, and Benjamin Ferris of the County of Westchester, Esqr together with the Comptrollers report thereon, respectfully submits for the consideration of the Common Council:

That he has examined the Deed from William Depeyster, Moses Rogers and Daniel Dunscomb Junr Commissioners appointed by the Mayor's Court of the City of New York, to make partition of certain property in the City of N. York which Abraham Van Ranst held as tenant in Common, in fee simple, with Peter Van Ranst and others, to Gould Hoyt Junior and [452] John Tom named in the said Petition, that it appears to have been executed in due form of law acknowledged and recorded in the office of the Clerk of this City and bears date the 10th May 1796. as will more particularly appear from the deed herewith transmitted.

He has also examined the deed in the said petition mentioned from Hoyt & Tom to Cornal Ferris and Sands Ferris; the Mortgage from them to the Petitioner Thomas Tom, the other Mortgage from

them to the other Petitioner Benjamin Ferris, as also the release from the said Sands Ferris to the said Benjamin Ferris, all of which appear to have been regularly and bona fide made and delivered.

He has also searched the Minutes of the Common Council in order to ascertain whether the grant in the said petition mentioned to the representatives of Mr Van Ranst was directed to be made out as therein alleged and from examination finds an entry to that effect: And it does not appear that such grant has as yet been delivered, if it has ever been made out.

The Subscriber further respectfully reports He has been informed and believes that the premises so mortgaged are but a scanty security for the payment of the aforesaid two several mortgages: That the aforenamed Gould Hoyt, survivor of Hoyt & Tom is willing for a grant to be made out as prayed for by the petitioners.

Whereupon as the Deed from the Commissioners to Messrs Hoyt & Tom, was predicated upon an Ordinance of Your Honourable Body passed several Years antecedently, and which has not been rescinded, so far as the Subscriber can learn, and a recital thereof made in each of the said Mortgages, he is of opinion, the prayer of the petitioners ought to be granted.

All which is respectfully submitted.

March. 6. 1809. Ja: Woods.

Ordered that the same be confirmed.

[453] The Comptroller presented the following Communication.

The Comptroller has the honor to suggest to the Board the propriety of establishing a Ferry at Whitehall Slip for Boats plying between that place and Staten Island and Elizabeth Town point. Conformable to charter, the Corporation has this power, and by the 9th Section of a law concerning Ferries, passed Jany 11. 1808. No person or persons shall erect or keep a ferry between the City and the opposite shores, except they are authorized for that purpose by the Board. As the revenue of the Corporation would be encreased either by the establishment of a Ferry at the abovementioned place on a plan similar to ferries on the East & North rivers, or by obligating the owners of boats, usually employed in that business, to pay a certain Sum annually for the privilege; the subject may properly be investigated by the Ferry Committee, to whom it is respectfully recommended that it may be referred.

March. 6. 1809. G. N. Bleecker. Compt[r]

Ordered that the same be referred to the Ferry Committee.

*The Comptroller reported that from an examination of the Books in his Office, he does not find that any payments have been made to *to* the Heirs of Dorothy Riker and Simeon and Rem Remsen on account of property taken for opening a free passage to the head of Burling Slip.

Ordered that the Street Commissioner report the amount of the Award to said Heirs &c[a]

The Comptroller presented the following Statement of Proposals for the privilege of collecting and selling the manure of the City for One Year from the 16[th] March. 1809, presented and read at the Board at the last †meeting.

rangement be made with Mr Hitchcock for the collection of the outstanding debts during his superintendence.

And further that it would perhaps be expedient to refer the subject, together with the proposed draft of a law on the farming out the Streets, to a Select Committee in order that the whole business may be well matured [455] and understood by the contracting parties.

Ordered that the subject be referred to the Committee on farming out the Streets.

The Street Commissioner presented a return of Delinquents on the Assessment for paving Washington Street, between Murray & Barclay Streets.

Ordered that a Warrant to enforce payment be issued in favour of Oliver Jaques.

The Street Commissioner presented the following report.

*The Street Commissioner represents that endeavouring to obtain the names of the owners of ground proposed to be taken to extend Walker Street to Beach Street, he finds that several of the reputed owners live out of this city and that one of them is unknown.

That by the Act authorising the Corporation to take lands for opening Streets, it is stated, that when they have determined to open any Street, "Notice shall be given to the owners or persons interested "therein, or to his or their Agent or legal representative, and the said "Common Council shall treat with the said persons for the same."

The Street Commissioner in this case, not being able to comply with the precise letter of the Act, respectfully suggests the propriety of submitting the subject generally to Counsel, that such proceedings may be had in the premises, as will effect the ends proposed.

Which is respectfully submitted.

March 6. 1809. John S. Hunn.

Ordered that the subject be referred to the Counsel.

The Street Commissioner represented that on Wednesday last he set up for Sale the vacant & sunken †lots on Stanton Street, supposed to belong to the Widows Society when the Assessment was made [456] and that both of them was struck off to Benjamin F. Haskins, one for 95 and the other for 76 years, and that he also set up for sale agreeably to the advertisement a ‡Lot on Broadway assessed to Brockholst Livingston, which he did not own, and that the same was struck off to John S. Hunn for Seventeen Years; all from the 1st day of March

instant, being the day of Sale. He also presented certificates for these lots.

Ordered that the Seal of this Corporation be thereunto affixed.

The following Report was presented.

The Comptroller and Street Commissioner to whom was referred the Communication from the Proprietors of Hamilton Square, requesting that the ground reserved for public purposes be appropriated for the use of an Episcopal Church have the honor to

Report

That they do not find that the Corporation by the conditions of sale have alienated their right of appropriating the aforesaid ground to the use of any religious persuasion they may think proper, and as all the proprietors of Hamilton Square with one or two exceptions, have signed the request in favour of an Episcopal Church, there appears no reason against a compliance with their request, under such restrictions and regulations as the parties intended may deem expedient.

It would however, in the opinion of the undersigned, be improper to vest the whole of the ground, so reserved, in any person or persons for a church only, as it is expressly stated in the Conditions of Sale, that it shall be forever reserved for a Church and Academy. It would perhaps be adviseable to set off such parts as may be necessary for these respective objects, and that suitable persons be appointed for that purpose.

[457] In order to stimulate the Inhabitants of that vicinity to build a Church without delay it is suggested that a grant of the Soil so sett off for a Church, be vested in such Trustees as may be appointed by the said inhabitants upon the express condition that the said Church be erected and completed fit for public service within two years. To bring the subject fairly before the Board the Comptroller and Street Commissioner propose the following Resolutions.

Resolved that Aldermen Mesier, Drake and Bingham, members of this Board, be and they are hereby appointed to associate with three persons to be appointed by the proprietors of Hamilton Square to confer and agree with the inhabitants in that vicinity disposed to build an Episcopal Church upon the Ground there reserved for a Church and Academy, or with a Committee of them touching the Area necessary for said Church; having due respect to the quantity of ground necessary to be reserved for an Academy.

Resolved further, that so much of the ground aforesaid as may be agreed upon by the above mentioned persons, shall be appropriated to

the use of an Episcopal Church, upon Condition that a Church shall be erected thereon fit for public worship in Two Years from the first day of May next: And that this Corporation will convey the ground aforesaid to Joshua Jones, Peter Schermerhorn and William Rhinelander in trust, with power to convey the same to the Church Wardens & Vestrymen of such Episcopal Church, when elected and incorporated according to the "Act to provide for the incorporation of religious Societies," passed the 27th March. 1801.

All which is respectfully submitted.

John S. Hunn. St Comr

Ordered that the same be confirmed.

[458] The City Inspector reported drafts of Ordinances for the purpose of correcting Nuisances, from No 4726 to No 4749. inclusive.

Ordered that the same do pass.

Alderman Drake offered the following resolutions, which were passed.

Whereas the Ringing the Bells in this city, as soon after the breaking out of any Fire, is of the utmost importance to the safety and interests of the inhabitants; wherefore

Resolved that the Committee on the Fire Department use all diligence in making the necessary enquiries and report whether some means cannot be devised to have the Bells of this city rung, in cases of Fire, in a more systematic manner.

Resolved that the Committee on Laws and Ordinances present to this Board at the next meeting a Law to compel the Owners of Hogs running at large to fix rings in their noses; under a penalty for neglect.

Ordered that the Dep. Mayor issue his warrants to pay.

Messrs Peter Mesier, Samuel M. Hopkins, James Drake, John Bingham, Thurston Wood — Esquires Aldermen.

Messrs John W. Mulligan, Benjamin Haight, Adrian Hegeman, Thomas J. Campbell, Isaac S. Douglass, John Drake. — Assistants.

The Deputy Mayor informed the Board that he had called a Special Meeting for the purpose of laying before them a letter received from His Honour the Mayor, inclosing certain objections of the Council of Revision to the "Act for laying out Canal Street in "the City of New York, and for amending the Acts relating to Streets "and Roads thereinmentioned."

Which objections being considered, Amendments to obviate the same were adopted, which the Clerk was ordered to forward to His Honour, and to intimate, as the sense of this Board, that he should make such further alterations as in to his judgment may appear essential, to ensure if possible the passing of this important Act.

†An application was received from Charles Smith, lessee of the public Wharves and Slips for an extension of his lease for the term of two Years from the 1st day of May next, on the same conditions as his present lease.

‡An Account of Messrs Hardenbrook & Nichols for new Lamps, certified by Jacob Cholwell, contractor for lighting the public Lamps, was referred to the Superintendant of repairs.

[3] ||A Memorial of Colonel Aaron Ogden of Elizabeth town New Jersey, for the privilege of extending the wharf erected by him at Marketfield Street 65 feet further South, for the purpose of accommodating the Steam Boat that is to ply between this city Elizabeth town point, Amboy and New Brunswic; and also to be permitted to erect a small building for a Ferry house, at the foot of Marketfield Street, on such conditions as the Corporation *made* [may] deem equitable, was referred to, the Ferry Committee the Commte on Wharves Slips & Piers Comptroller and the Street Commissioner.

§A Memorial of Peter P. Van Zandt, objecting against the Assessment for repairing the Wharf in South Street, between Burling Slip and Flymarket, was referred to Messrs Ward Aldn Bingham and Mr Mulligan.

A Petition of sundry proprietors of Lots in the Bowery, praying that the foot walks between Grand and North Streets may be paved, was referred ¶to the Aldermen and Assistants of the 8th & 10th Wards and the Street Commissioner.

On a representation that the purchasers of Lots in Hamilton Square object to paying for the deeds of conveyance of their Lots.

**Ordered that it be referred to the Counsel to examine the conditions of Sale and report whether this Board or the purchasers are, in law, bound to pay for the deeds.

On the suggestion of Mr Ward that there is reason to apprehend that the Fire on Wednesday night the 1st inst. in Cheapside Street, was the effect of design.

Resolved that the Deputy Mayor be authorized to offer, in behalf of this Board, a reward of Five Hundred Dollars, to be paid on the discovery and conviction of the incendiary or incendiaries.

[4] Certified Copies were received from Tunis Wortman Esq^{r} Clerk of this City and County of the returns of the Elections for Collectors in the 8th & 1st Wards whereby it appears that

Andrew Hegeman, is duly elected Collector for the 8th Ward, and Samuel Cooper, Collector for the 1st Ward.

The Committee of Finance, to whom was referred the *petition of James Ketchum, reported, as their opinion, that he is a suitable person to take charge of the Flag Staff until the further orders of this Board; which was confirmed.

The Committee of Finance presented the following reports.

The Committee of Finance on the †application of the Superintendant of the Alms House referred to them

Report

From the said application and a number of others, it appearing not probable that there will be, for some time to come, a sufficiency of money in the Treasury to meet the demands. It is agreed to recommend to the Board to borrow the Sum of Ten Thousand Dollars for Sixty days.

John Bingham
Chairman.

Whereupon Ordered that the Deputy Mayor be authorized, in behalf of this Board, to borrow from the Manhattan Company, Ten Thousand Dollars, payable in Sixty days, with interest at the rate of Six per cent per annum: and that a Bond be given for the same with the Seal of this Corporation thereunto affixed.

The Committee of Finance to whom was referred the different ‡reports of the Captains of the Watch and the Lamp Committee;

That Your Committee considering the length and darkness of the nights and no plan being digested to light the public Lamps, have thought it most prudent to continue Mr Cholwell until the further pleasure of the Board: and conceive that a *warrant can be safely granted him for the $1200 which he requires.

The Committee on Wharves, Slips and Piers presented the following reports

The Committee of Wharves, Slips and Piers having in charge to settle with †Walter Allen for extra work to the new piers between Coenties & Exchange Slips and to ascertain the value of the repairs he has done to the end of the old wharves, have to report to the Board:

That they have had several meetings with Mr Allen and attempted to make a settlement [6] with him, in which they have found great difficulty owing to some misunderstanding that took place at the time the award was brought in and while the work was progressing in conformity with the said award. That they have obtained a measurement of the extra work done and endeavoured to obtain the best information as to the value of it, from all which they are of opinion that if the Board release Mr Allen from the amount of the award, it will be an equivalent to the extra work at the new piers, and that if $.200. be paid to him it will be a full compensation for the repairs to the old wharf, which they recommend to be done, and which may be settled by issuing a warrant to said Allen for $1625. which together with a warrant granted him the 6th inst. for $.500. will make the sum of $2125. and by directing a Bond to be issued to the proprietors, who

Warrants N° 220 221

Ordered that the same be confirmed, and that Warrants be issued in favour of Walter Allen accordingly; and a Bond prepared and executed under the Seal of this Corporation, in conformity.

The Committee on Wharves, Slips and Piers Report

That they have had under their serious consideration the subject of the revenue derived from farming the public Wharves and Piers and the probability of increasing the same by holding up the priviledge for contract, at the expiration of the lease of the present lessee, Charles Smith, on the 1st of May next.

The Committee consider the present rate of M^{r} Smiths contract to be, under all circumstances, as high as ought to be expected or demanded by this Corporation, and as he has great expe- [7] rience in this department, and has given great relief to the Magistrates in the discharge of a very irksome duty, that of regulating the lying of vessels in the public Slips, and by his good management has prevented numberless disputes among the masters of coasting vessels and market boats, by his attention and judgment in carrying into effect the regulations of the Common Council on this head: And moreover, as he is extremely punctual [in] the payments arising on his Contract: The Committee under these impressions recommend that the public Wharves and Slips be let to the said Charles Smith for the term of Two Years from and after the 1st day of May next for the Sum of Seventeen Thousand Two hundred and Fifty Dollars, per annum, (being at the same rate at which he farms the same for the current year,) and on the same conditions as to the Bond and Sureties.

Jacob Mott.

Ordered that the same be confirmed.

The Committee on Wharves Slips and Piers recommended that a Committee be appointed to take measures that one or more of the Machines for cleansing the public Slips be prepared to commence their operations as soon as the season will permit.

Ordered that the subject be referred to the same Committee.

*A Report of the Committee of repairs on certain Streets in this City bearing similar names and of certain other Streets continued under different names was recommitted for the purpose of reporting more fully thereon.

A report of the Attorney on the petition of Joseph D. Hoyt to be relieved from a fine incurred for selling liquors without licence, that under all circumstances he did not regard him as an object for the [8] favourable interposition of this Board, was confirmed.

The Comptroller and Street Commissioner to whom was referred the †petition of John Ashfield for payment of the Interest due on a Bond given by the Corporation, reported that said Bond was given to Mr Duggan for land required of him for opening Canal Street, that Mr Duggan assigned the same to Paul B. Lloyd and on the 11th Feb. 1807. redeemed it; and on the 7th May following assigned it to sd Ashfield, as appears from the indorsements thereon. That it does not appear from any evidences in the public Offices that any payments have been made thereon; and as the Corporation have uniformly paid the interest on these Bonds, when applied for, there is no reason against paying the interest on this Bond, which on the 26th Feb. last, being two years & 6. months amounts to $.131.25. for which they recommended that a Warrant be issued; which was confirmed;

Warrt. Ordered that a warrant be issued in favour of John Ashfield

The Street Commissioner to whom was referred the ‡Report of a Committee on widening Maiden lane reported that he concurs in the opinion of said Committee that it would be improper to make any alterations on the South side of Maiden lane, as it cannot be improved on that side: and that it might be widened on the North side much to the improvement of the Street: but that, under existing circumstances, it would be injudicious to make such alterations at present: and that it would be more consistent to enter upon such an operation when either of the Old buildings mentioned by the Committee are removed, or attempted to be considerably repaired.

Warrt No 223. Ordered that the same be confirmity—and that Warrants be issued in favour of George Riker and Simeon and Rem Remsen in conformity.

Warrt No 224. The Street Commissioner represented that Messrs Halsey & Westervelt have nearly completed their contract for the Block & Bridges forming an L at Vesey Street, and that a ballance of $779 remains due on said contract amounting to $2967. And recommended that a Warrant be issued in their favour for $.500. which was confirmed: and a Warrant ordered to be issued Accordingly.

[10] The Street Commissioner presented a Communication from Messrs Gosman & McComb respecting the ballance due them on a contract for laying curb Stone and making the foot walks in the Bowery. He further represented that this transaction is one of the unsettled affairs of Mr Bussing, and from the length of time elapsed since the work was done and the real difficulties which have always presented themselves to prevent a settlement of this account,

The Minutes of the last meeting were read and approved.

A Letter was presented from His Honour the Mayor, dated Albany the 12th inst. informing the Board that the Bills relative to Streets and Pawn brokers have passed the Senate and are now before the Assembly. That the remonstrance against the Ferry arrangement has also been submitted to the Assembly and that nothing had as yet been done with the Bill against which it was intended to operate. That there appears to be a determination in the Legislature not to grant any more Lotteries: that the Memorial of the Common Council, praying for one, has been committed in the Assembly and that a Bill has been introduced but that there is no hopes of its passing. And that the Objections to the Canal Street Bill have not yet been taken up.

*A Proposal of Joshua Jones to erect a Lamp Iron before his house N° 72. Broadway, provided the Corporation will fix a Lamp therein and light [14] the same, was referred to the Lamp Committee.

A Petition of the inhabitants in the vicinity for a Well and pump at the corner of Water and Walnut Streets, was referred to the Alderman and Assistant of the 7th. Ward, with power to grant on the usual terms.

A Petition of Nathaniel Dobbs for compensation for the injury he sets forth he has sustained in consequence of an error committed by

Charles Loss, City Surveyor, in the Survey of his Lot in Sullivan Street, whereby he has placed his house Five feet back from the line of the Street, was referred* to the Alderman and Assistant of the 8th Ward and the Street Commissioner.

A Memorial of Thomas S. Clarkson, Richard J. Tucker Roswell L. Colt and Samuel M. Thompson representing that they have nearly completed the whole of West Street in front of their Lots, between Leroy and Morton Streets, the entire front of which they understand was, without their knowledge, appropriated for a public basin; and praying remuneration of one half of the expense incurred for making said Street, and that the Corporation will relinquish the quit reserved on said Lots: was referred to the Comptroller and S^{t} Commis^{r}

A Memorial of Henry Waring in behalf of Sundry Merchants of this City and Freeholders in Brooklyn, requesting that they may have liberty to transport goods from this city to Brooklyn for storage and to transport the same from Brooklyn, except from the established Ferries in any vessels or boats they may think proper; and that an Ordinance may be forthwith passed to that effect, or otherwise he is authorized to write to Albany to have the "Bill granting relief in [15] "certain cases to the inhabitants of New York and of the "Town of Brooklyn" called up in the Senate, it having passed the lower House: was referred to the Ferry Committee.

An application of Philip Arnold to be appointed Inspector of Streets, was referred to the Committee on applications.

†The Committee of repairs, to whom was referred the subject of altering the names of certain Streets, reported

That the Street at present called Duane, Barley and Colden Streets, be denominated Duane Street throughout, from Rose Street to Hudson river.

And that the Streets distinguished at present as Bayard and Fisher Streets, be called Bayard from Division Street westward.

Which was confirmed, and the Superintendant of repairs directed to designate and number the Houses in said Streets accordingly.

The following report was presented.

are satisfied that a partnership did exist between Hogan and Maginn: and as Patrick McCarthy holds both the power of Attorney from Maginn and the power of substitution from Hogan, and inasmuch also as Hogan in his original power of Attorney directed a particular appropriation of the money to be made when collected: The Committee are of opinion that the money ought to be paid to said McCarthy, as the Counsel thinks there would be safety in so doing; and Hogan being absent, Maginn from the circumstances of his [16] partnership, appears to be liable to pay the labourers employed, on McCarthy's leaving the said power with the Street Commissioner.

Jas Drake
Peter Mesier
Adrian Hegeman.

Ordered that the same be confirmed.

The following Reports were made by the Counsel.

The Subscriber to whom was referred the *communication of the Street Commissioner on the subject of †opening Streets, respectfully reports

That from a consideration of the Act of the Legislature, referred to in said communication, he is of opinion, That as the Statute does not prescribe, what should be considered a legal Notice "where the "owner or parties interested or their Agents or legal representatives, "are not to be met with;" so as such treaty intended by the said Act can be had, no proceedings ought to take place in cases of that kind.

In giving this opinion the Subscriber is not aware of any adjudged case in our Courts upon the subject; but is induced to the same, from the general principle of Law, that Statutes affecting the rights or property of individuals are to be strictly construed.

All which is respectfully submitted.
Ja. Woods.

The Subscriber to whom was referred a ‡resolution of the Board, respecting Deeds for Hamilton Square respectfully reports

That he has examined "the Conditions of Sale" under which the the purchases were made, and nothing therein being expressed, as to which of the parties should pay for the deeds of conveyance, and there having been no [17] understanding between them respecting the same, is of opinion, that it would be adviseable and consistent with legal principle, to adopt the practice hitherto observed in similar cases by

the Corporation, and which the Subscriber understands to be, that the Comptroller prepares the Deeds and the purchasers pay for them. on delivery.

Ja. Woods.

Ordered that the same be referred to Aldermen Bingham Mesier, and Mr Ward.

The following report was presented by the Attorney.

The undersigned has the honor to communicate to the Common Council for their consideration the draft of a Warrant of distress for the rent due the Corporation from the estate of the late Doctor Samuel Nicoll: he has taken the liberty to insert the name of Samuel Montgomery upon the recommendation and at the request of Mr Waldron Collector of the revenue.

The undersigned has the honor to inform the Board that this is the only method by which the amount of rent due, being $.370.50. can be expected to be recovered. The Administratrix of Doctor Nicoll resides in Albany, and there is no information with regard to the personal Estate that has ever come to her hands, and beyond that She is not liable for the debts of the deceased: And Mr Cornelius C. Roosevelt, the guardian of his children, has declined paying any sort of attention to the repeated applications of the undersigned to him for a settlement.

The undersigned therefore respectfully recommends that the Warrant of distress may be authenticated and issued.

S. Cowdrey.

Ordered that the same be confirmed; and that a *warrant of distress be issued accordingly.

[18] The Comptroller presented the following report.

The Comptroller has the honor to report that agreeably to an †order of the Board, passed the 13th inst. he has negotiated a Loan at the Manhattan Bank for Ten thousand Dollars, payable by a Bond at two months with interest at 6 Pr ct per an. which amount is charged to the City Treasurer.

There was due to the Manhattan Company for one years interest on Stock, the first of January last, Six thousand Dollars, and at the same time six months dividend became due to the Corporation, amount Four thousand five hundred dollars. As it will be regular in the order of business for the Manhattan Company to retain the balance of Fifteen hundred Dollars as above stated out of the Loan now effected; it

will be necessary for the Board to direct that the usual certificates be made out for the Treasurer to receive the dividend and pay the Interest aforesaid.

Respectfully submitted.

G. N. Bleecker, Compt[r]

Warr[t] N° 236. Ordered that the same be confirmed, that a Warrant be issued for the payment of the Interest, and that the Treasurer be authorized to receive in behalf of this Board the dividend arising on its shares in the Manhattan Company.

The Street Commissioner presented the following communication.

The Street Commissioner has the honor to represent to the Board, that he has found from experience that the inhabitants fronting upon Streets requiring repairs, do not make their applications for that purpose until the period when the work ought to be commenced.

The Reports upon references preparing the Surveys concerning the Assessors and receiving proposals generally occupy from five to six weeks, and the consequence is that the mass of paving which [19] ought to commence early in the Spring, is begun so late as that most of the work is overtaken by the frosts before it can be completed.

In Philadelphia where the best paving is done and where it is reduced to a System, no paving is attempted after the month of Octtober, as the sand cannot dry under the Stones before the November frosts. Our work, on the contrary, from the delay of the applications is hardly commenced before that time. Other evils attend this delay. The pavers are unemployed all the Spring when the days are long: it is moreover impossible to know the quantity of Curbstone necessary for the demands of the city, and the work is hurried through in the fall to prevent a delay by cold.

To obviate in some measure these difficulties, the Street Commissioner requests permission of the Board to advertise in the papers employed by the Corporation, and by 1000. hand bills, the propriety of making early applications for paving and repaving Streets, and that the applications will be attended to according to their respective dates. This measure will induce the inhabitants to apply soon and prevent the necessity of noticing them to repair in those Streets requiring to be repaved.

Which is respectfully submitted

John S. Hunn.

Ordered that the same be confirmed.

*The Street Commissioner represented that Greenwich Street by the Bridge over Bastaver's Killetje, has washed into a ravine which has become dangerous to passengers, and is daily growing worse. That it is expedient to repair the same without loss of time: and as the Bridge has become useless by filling up the Street, he suggested the propriety of directing the Supt of repairs to view the premises and give his opinion whether it will not be to the advantage of the Board to remove the Stones from the Bridge and use them [20] for public purposes, and to fill in the Arch now left open: And if the Supt shall consider the expense more than the Stones are worth, it becomes a question whether the Street adjoining the Bridge is to be regulated by the Corporation or the people.

Ordered that the Superintendant of repairs view said Bridge and report his opinion on the subject.

The Street Commissioner presented an Assessment for improving Magazine Street.

Ordered that the same be †published in the papers employed by this Board, and in Hand bills to be posted in the vicinity of the property assessed.

‡A Report from Jacob Cholwell of the number of Lamps in this city, amounting to 1670. was referred to the Lamp Committee.

Agreeably to ‡order the Superintendant of Streets presented a Statement of the Ballances due by sundry persons for Manure, and that he knew of no better mode for collecting the same than by leaving them in his hands for that purpose, which was ordered to lie for consideration.

||The Superintendant of repairs to whom was referred the account of Messrs Hardenbrook and Nichols for new Lamps, reported that the same is correct.

The Minutes of the last Meeting were read and approved.

A Memorial of Cornelius C. Roosevelt, guardian of the children of Doctor Samuel Nicoll. decd praying that the *warrant of distress issued for the recovery of the quit rents due from the estate of said Nicoll, may be staid, and that his Bond payable in 6. months may be accepted in discharge thereof; was read.

Whereupon. Ordered that said warrant be Suspended on Mr Roosevelt's giving his Bond for the amount of quit rent due, payable at 6. months with interest, and also paying any charges which have accrued.

[24] Petitions of Gilbert Angevine Abraham Brinckerhoof Cornelius Cooper Epenetus Cornwell Joseph George Robert Giles James Greaton Roswell Graves Peter Paulding, and William Robb. for the appointment of Superintendant of Streets and Assistants were referred to the Committee on applications.

Petitions of Henry Wicker for stand No 9. in Exchange Market Adam Ten Broeck, for stand No 10 in same Market. and of John Valentine, for stand No 32. in Hudson Market, were severally referred to the Market Committee who reported in favour of the Petitioners, which was confirmed.

A Petition of Joseph Myers. for a stand in Duane Market, was referred to the same Committee.

†A Petition of Jacob Wilkins for permission to build a Pier in Hudson river, in front of his property on West Street, South of Cortland Slip, for the accommodation of Messrs Livingston & Fulton's North river Steam Boat, was referred to the Comptroller and Street Commissioner.

Memorials of Mary Lynch, and Matthew Bolmer and others remonstrating against the *Assessment for improving Magazine Street, were referred to the Street Commissioner.

[25] A Memorial of Matthew Bolmer and Tobias Hoffman, representing that Mr George Janeway has in possession several feet of Magazine Street, between the corner of Pearl and Augustus Streets, was referred to the Street Commissioner.

Petitions of Jacob Lewis & Isaac Bell, for remission of the Forfeiture incurred, unintentionally, as set forth, of 465 Barrels of Virginia Flour, shipped for exportation without being inspected: were referred to Aldermen Mesier Drake and Mr Ward, with power to remit, if on investigation the same shall appear proper.

A Similar Petition of John Jephson, for remitting the like forfeiture of 50. Barrels of Virginia Flour, was referred to the same Committee with the same power.

†A Petition of David T. Fisher, to be appointed Weighmaster, was referred to the Committee on applications.

A Petition of Sundry inhabitants and proprietors of Lots in Greenwich Village, for the opening of Greenwich & Hudson Streets, and the widening and regulating Charles Street, conformably to the width by which the Buildings already erected thereon have been regulated, was referred to the Street Commissioner.

On application of the Superintendant of the Alms House

Warrts
No 240
@ 243 Ordered that 4. Several Warrants, be issued *is* in his favour, for $.1000. each.

[26] The Committee appointed to agree with the Proprietors of the Pier on the West side of the Flymarket reported, that a Bond be given for the same payable at two years from the expiration of two months from the time when the ‡Report of the Committee was made, with lawful interest, and that the wharfage from that date should be paid by the proprietors of the pier to the Contractor of Wharves and Slips; which was confirmed and a Bond ordered to be given to said Proprietors under the Seal of this Board, on their delivery of a Deed in conformity with the Report of the Committee.

‖The Committee to whom was referred the Petition of John Remmey, reported, that taking the whole of his case into consideration, they are of opinion that as the Corporation have confirmed the

assessment which has gone into operation, it would be his interest to comply therewith, as from the documents before the Committee, they are of opinion that he may by law recover the Sum he is assessed; which was confirmed.

The following Report was presented.

The Building Committee for the New City Hall

Report That they have maturely considered the subject of the progress that ought to be made by this Board the present Season, and are [of] opinion that it will be proper to carry up the Walls to their intended height this Summer, and to make arrangements for putting on the roof next year. And that the expense this Season is calculated between $30 and $40,000. Which is submitted for consideration.

Jacob Mott
Jas Drake
Jno Slidell.

Ordered that the same be confirmed.

[27] The Finance Committee to whom was referred the documents and *report of the Lamp Committee, reported, That after a full investigation of the different returns from the Captains of the Watch, the representations of the Watch Committee, the Affidavit of the Foreman of the Lamplighters and the honest confession of the Contractor, it is the opinion of the Committee that the Board have a right to consider the Contract as no longer binding: and recommended that the Lamp Committee take the Superintendance of the department until a suitable system for conducting the same be adopted by the Common Council: which was confirmed.

The Lamp Committee was also directed to treat with Mr Cholwell respecting the Oil he has on hand, and to employ a suitable person to act as Superintendant of the Lamp department until the further orders of the Board.

Ordered that the several documents alluded to in the foregoing Report together with the Bond and Contract of Jacob Cholwell for lighting the Lamps of this city, be referred to the Counsel for his opinion, how far he may be liable to damages for not fulfilling the same.

The Comptroller presented a Lease for the Lot No 32: Tryon row to George Feigenheim for 10. years from 1st May next, which was approved.

The Street Commissioner presented the following reports.

The Street Commissioner, agreeably to the †resolution of the Board

directing measures to be pursued for filling sunken lots in Spring Street Thompson and Sullivan Streets, has the honour to present the draft of an Ordinance for filling the [28] sunken lots in Spring Street which he recommends to be passed.

With respect to the sunken lots in Thompson and Sullivan Streets, it is expedient to observe, that until a regulation of those Streets is adopted by the Common Council, and probably until the Street is actually regulated, all ordinances of the Board for filling the Lots would be nugatory as premature proceedings, by which the proprietors would not be bound to forfeit the penalty stipulated by law, and therefore Ordinances to fill in and sell such Lots, grounded upon such premature Ordinance would be illegal and incorrect.

Thompson and Sullivan Streets remain without an adopted regulation within the meaning of the Act of the Legislature and consequently the Lots thereon, cannot be legally directed to be filled. Profiles of these Streets are in great forwardness and will be presented to the Board as soon as the regulating line can be prepared.

All which is respectfully submitted

John S. Hunn.

Whereupon an Ordinance for filling the Sunken lots in Spring Street was passed, and Gilbert Coutant Garrit Gilbert Jonath[n] Pinkney Ebenezer Clark and George Cliland were appointed Assessors.

The Street Commissioner presented an Account of Isaac Van Deursen, for delivering Tickets to the Carmen employed to fill in part of the Street opposite Duane Market, which he did not consider himself justified to pass.

Ordered that the same be referred to the Alderman & Assistant of the 5[th] Ward and the Comptroller.

[29] *The Street Commissioner represented that being called upon by William Stone to give him a Survey of a Lot he wished to build upon on the South side of Jay Street near West Street, he found that the lot would occupy about Six feet, now used as a Stoop and as there appeared no impropriety in permitting M[r] Stone to use the same ground for his building he directed the line to be laid out accordingly. Nothing is yet done to prevent any alteration the Board may think necessary with respect to the line of the Building.

Ordered that the subject be referred to Mess[rs] Hegeman Douglass, and Mulligan.

*Marginal note reads *See P. 49.*—ED.

The Street Commissioner represents, that he has this day received a note from M^r^ Barrow, soliciting a regulation of the New Street laid out by the Corporation of Trinity Church, called Clark Street and requesting that Hudson Street may be surveyed and marked out.

The regulation of Clark Street depends entirely upon the regulations to be adopted for the Streets running into Canal Street from the North, profiles of which have been made, but the lines of regulating are not yet put thereon, owing to the loss of time occasioned by the S^t^ Comm^rs^ late indisposition. They are however in great forwardness and will be presented to the Board with all possible despatch.

Surveying and marking out Hudson Street is a desireable object and the Subscriber believes there is no reason for delaying it, and presents the following resolution on that subject.

Resolved that the Street Commissioner be and he is hereby directed to cause the line of Hudson Street to be surveyed and ascertained from Canal Street to Christopher Street, and that sufficient mark Stones be placed at the corners of the intersecting [30] Streets.

Which is respectfully submitted.
John S. Hunn.

Ordered that the same be confirmed.

The Street Commissioner covers the Assessment for the improvement of Magazine Street having advertised it in the several papers employed by the Corporation and by Bills as he was directed.*

No written objections have been handed to the Street Commissioner against the Assessment but several verbal remarks have been made to him against the confirmation of it, among which the following are the most prominent:

1^st^ That Lots on Magazine Street near and at the corner of Broadway are assessed as much in proportion the number of feet in Magazine Street, where there is no additional view by the improvement, as others nearer the site of improvement and from which a view down the Street has been opened.

2^d^ That proximity to the improvement has not been attended to, for that the Assessments upon Lots fronting the improvement and where the Street has been made wider, are very little more than upon other lots remote from the object of improvement and where nothing but an abstract benefit can be charged.

3^d^ That Anthony Steenbach and John Crolius Jun^r^ two of the Assessors own property within the bounds of the premises so assessed,

* Marginal note reads *See P. 20.*—ED.

and are therefore interested and consequently improper persons to act as assessors. and

4th That admitting the principles upon which the Assessors appear to have made out their Assessment to be correct, they have not accurately calculated the amounts due on the several lots.

[31] The Street Commissioner is therefore of opinion that this Assessment ought to be rejected; and recommend that a new Ordinance be passed for the purpose of assessing the sums expended by the Corporation and chargeable upon them for this improvement, and takes the liberty of presenting the draft of such Ordinance for the consideration of the Board.

All which is respectfully submitted.
John S. Hunn.

Ordered that the same be confirmed; and the Ordinance therein mentioned was passed accordingly, and John Marschalk John Robinson Abraham O. Bogert Leonard Seaman and Alexander Clark were appointed Assessors.

The Superintendant of repairs to whom was referred the *report of the Street Commissioner respecting the Stone Drain in Greenwich Street at the outlet of Bestaver's Killetie, reported that it would not be worth the cost to remove the Stone and recommended that the Drain remain as at present until the Street is regulated, and that in the mean time the Road Committee be instructed to repair the road which is very dangerous for carriages; Which was confirmed.

†The Superintendant of repairs further reported that a new Well and pump had been placed at the intersection of George, Lombard & Cheapside Streets.

The City Inspector reported drafts of Ordinances for the purpose of correcting Nuisances, from N° 4769. to 4798. inclusive.

Ordered that the same do pass.

[32] Resolved that the Street Commissioner confer with Mr Charles Larue owner of the Lot of ground situate at the corner of Bancker & Pearl Streets and report the ‡terms he may ask for so much of said Lot as may be required to extend Bancker Street on a straight line to Pearl Street, with a map thereof.

Resolved that the Street Commissioner take immediate measures for opening Hudson Street, from the ground of Mr John Jacob Astor to Christopher Street.

Water in front of his property along the East river, was referred to the Comptroller.

A Petition of Patrick Eniver for Stand N° 9. Flymarket, was referred to the Market Committee, who forthwith reported in favour of the Petitioner, which was confirmed.

A recommendation from sundry inhabitants in Harlem in favour of appointing William Perkins to keep a Butchers Stand at that place, was referred *to the Same Committee.

A Petition of Henry D. Tripp, to be appointed keeper of the Park, was referred to the Committee on applications, who forthwith reported in favour of the Petitioner; which was confirmed.

A Petition of Assel Palmer to be appointed Bell Carman, was referred to the same Committee.

An application of John Griscom, requesting that an Ordinance may be passed for repaving Green Street, was referred to Aldermen Hopkins Drake, and M^r Haight.

A Memorial of Joseph Conklin, on the subject of a ballance due him for paving Rynder Street was referred to the Street Commissioner.

[36] A Memorial of Jacob Cholwell on the subject of his contract for lighting the public Lamps, requesting that he may be continued until the expiration of his first Year, the 10^th of August, offering to render every Service in his power to the Superintendant who may be appointed, and to pay his Salary till that period, was referred to the Finance Committee.

A Petition of George Feigenheim, for permission to transfer the Lease of Lot N° 32 Tryon row to Peter Lorrillard, was granted.

Col. Ogden applied for leave to withdraw his †Petition, which was granted.

A Communication from Alderman Drake, offering the resignation of his seat in this Board on account of his intended removal out of the 4^th Ward: was referred to the Counsel for his opinion, whether, agreeably to Charter, the same can be accepted.

M^r Hooghland also gave Notice of his intention to remove from this city.

Warr^ts N° 262. 263 264. On application, ordered that 3. Several Warrants be issued in favour of John H. Sickles, on account of the Building Committee for $1000. each.

Warrt N° 265. Ordered that a warrant be issued in favour of Alderman Bingham, on account of the Committee of repairs, for $.300.

Aldermen Drake, Mesier and Mr Campbell were appointed a Standing Committee on Streets.

The Market Committee, to whom was referred the Petition of Joseph Myers, reported in favour thereof; which was confirmed.

Ordered that the Deputy Clerk of the Market assign said Myers a Stand in Duane Market.

[37] The Committee of repairs to whom was referred the subject of altering the names of Lombard and Little Water Streets

Reported that the Street now called Lombard Street be named Lombardy Street, and that the Street called Little Water Street be named Anthony Street, and regarded as a continuation of said Anthony Street.

Ordered that the same be confirmed and that the Superintendant of repairs designate said Streets accordingly.

The following report was received from the Commissioners of the Alms House and Bridewell.

The Commissioners of the Alms House and Bridewell respectfully report.

That having closed the business of issuing provisions to the Out door poor they beg leave to lay before the Board a statement of their proceedings from the commencement to the present time.

That from January 6th 1809 to the 31st March, they have issued

76.019. Rations, each ration consisting of One lb of Bread, half lb. of Pork and one quart of Bean Porridge valued at 10. Cents pr ration	$7.601.90
1799½ Loads of Wood amounting to	4.366. 3
Paid persons employed in assisting	215.25
Cash expended by Chs A. W. McPherson for the relief of sick and outdoor poor	602.77
Dollars.	12.785.95

In submitting this Report, the Commissioners cannot omit the opportunity it affords of calling the attention of the Board and their Fellow Citizens to an imposition daily practised and which reflects disgrace on our city: It is Street begging. [38] The numerous benevolent Societies and their exertions for the relief of the poor this winter, are too well known to need recapitulation: Yet it is a lament-

able fact that our Streets swarm with beggars, and would lead to the conclusion, especially with Strangers, that the poor are but illy provided for; whereas it is a truth, within our knowledge, that many who have been regularly supplied at the Alms House with Food, Fuel and other necessaries, have applied and obtained supplies from other humane institutions. Not content with practising these impositions they have been found in the act of Street begging; we therefore humbly conceive that for the credit of the city, these paupers should be discountenanced, especially when it is considered, that all the indigent can, by application, be relieved through the public channel.

All which is respectfully submitted

Jn° J. Westervelt
John H. Sickels
James Teller
John McKesson.

Ordered that the same be published.

A report from the Police Office, that Captain Snow had suspended Jacob Lyman, for sleeping on his post, was referred to the Watch Committee.

A report from the Counsel, to whom was referred the Bond of Jacob Cholwell and Burnell Brown, conditioned for the said Jacob's faithful complying with a certain contract therein specified, together with documents tending to show his non compliance therewith: That he is of opinion that the said Jacob has broken his contract with this Corporation, and that an action at law can be maintained against him for such breach; was referred to the Finance Committee.

The Counsel to whom it was referred for his opinion, whether the Corporation has the power of erecting and keeping more than One Pound [39] in this city, reported,

That as there is no limitation in the Act to the number of Pounds to be kept in the several Cities and towns of Counties in this State, and decisions of the common law recognize not only as a pound "the "Close of the party making the distress, but the common Pound "erected for that immediate purpose": He is [of] opinion that the Corporation have the power to designate and keep as many Pounds in this City, as in their judgment shall be for the public good.

Whereupon Resolved that a Public pound be erected in the Town of Harlem.

The Board proceeded to the appointment of a Keeper and George C. Duryee, was duly appointed.

The Comptroller and Street Commissioner to whom was referred the *Petition of William Ogden and John R. Murray, soliciting a grant of a Water Lot from high Watermark to West Street, at the North corner of Beach Street, One hundred feet in width, reported that it would be proper to issue a grant on the customary terms subject to the usual restrictions for regulating Streets: Which was confirmed.

†The Comptroller presented an engrossed Deed to Peter P. Van Zandt for a Water Lot at the corner of South Street on the west side of Burling Slip, approved by the Counsel, which was ordered to be sealed and delivered.

‡The Comptroller also presented an engrossed Deed to Benjamin Ferris for a Water Lot on the South side of Front Street near the Crane Wharf, approved as aforesaid, which was ordered to be sealed and delivered.

||The Comptroller presented a Lease to Stephen Gould, for the Lot corner of Broad & Wall Streets, which was referred to the Counsel for examination.

[40] A report of the Street Commissioner on the subject of appointing some active discreet persons for two or three months for the special purpose of notifying every part of the City, where the walks or pavements may require to be repaved, was referred to the Committee on Streets.

The Street Commissioner, in conformity with the §resolution of the Common Council, reported that he had called upon Mr Charles LaRue respecting the value of his ground at the corner of Bancker and Pearl Streets, required for the purpose of widening Bancker Street, and that he demands $5500. for the same.

Whereupon Ordered that the Street Commissioner take the usual legal measures to have the same appraized by a Jury.

The following Report was presented.

The Comptroller and Street Commissioner to whom was referred the ¶application from Jacob Wilkins for leave to carry out a new pier on his waters from West Street to the Southward of the pier he has lately agreed with the Corporation to carry out on the South side of Cortland Street have the honor to report.

That the principle inducement for Mr Wilkins to make this application at this time arises from the solicitation of Messrs Livingston & Fulton who are desirous of obtaining an insulated situation for their Steam boat which is to ply from this City to Albany.

That from the construction of the Steam Boat the undersigned are persuaded she would suffer considerable injury and frequently be rendered unfit for service if she was obliged in common with other vessels to be interfered with in coming in or going out: and that therefore [41] it is of the utmost importance to the success of the proprietors of that invention, to prepare a special place for her moorings.

The undersigned are informed that Mr Edward Bardin who owns the water right adjoining Mr Wilkins on the South, has consented that the pier petitioned for by Mr Wilkins shall be erected in such manner, as that the centre line of the pier shall be along their division line and consequently that the Basin to be formed by these two Piers, will be of sufficient extent, being about 80 feet, to accommodate other vessels in case the Steam Boat should cease to use it.

The undersigned further report that they are informed that by the present practice of the Harbour Master, any Wharf or pier being unoccupied, is liable to be filled by vessels desirous of mooring thereto: in which case it would be defeating the object of the proprietors of the Steam boat, who wish an exclusive right to use the waters between the two aforesaid piers. How far the Board are authorized to grant such priviledge, is for themselves to judge: But the undersigned are of opinion that if any arrangement can be made with the Harbour Master to prevent an incroachment of the priviledge in this particular case, and the Board should permit Mr Wilkins and Mr Bardin to carry out the pier, that it will tend much to the advantage of the Corporation, inasmuch as it will increase the trade near their ferry at Cortland Street, and render a facility of communication from thence to the seat of the government of this State, never before equalled, and thereby also perform a real service to the community.

The Comptroller and Street Commissioner are therefore of opinion that the Board ought to grant the petition of Mr Wilkins, upon the condition [42] however that the said pier be carried out 30 feet wide and upon the line as aforesaid, and upon the further condition that Mr Wilkins forthwith enter into a written agreement with the Street Commissioners and Comptroller for the completion of the previous

pier, within one Year, as heretofore directed by the Board and which he confesses his willingness to do.

All which is respectfully submitted.

John S. Hunn. S[t] Comm[r]

Ordered that the same be confirmed.

A report of the Street Commissioner representing that considerable depredations were committed on the manure at the Collect, and submitting whether it would be proper to appoint some person, at the expense of this Board, to protect the same, was referred to Aldermen Bingham Wood, and Mesier with power to appoint such person if in their judgement it should be expedient.

The report of the Street Commissioner with returns of delinquents on the Assessments for paving Oak, Chesnut and Pearl Streets was called up and Warrants to compel payment were issued in favour of Henry Van Pelt.

The City Inspector reported drafts of Ordinances for the purpose of correcting nuisances, from N° 4799 to N° 4824. inclusive.

Ordered that the same do pass.

The City Inspector presented a general return of the Deaths in this City for the Year 1808: which owing to the pressure of public business in his department, had been hitherto delayed: Which [43] return is accompanied with a comparative statement of Deaths and Diseases in this city, during the Years 1802. 4. 5. 6. and 1807.

Ordered that the same be published.

[47] Total Amount of Deaths in this City for 6. Years.

	Deaths.

Remarks.

Casualties. This head comprehends accidental Deaths, as persons killed in consequence of falls. &c. &c.

Consumption. The amount of Deaths under this head must be accepted with considerable allowance, as there is just reason to apprehend that many are returned having died of Consumption, from the difficulty of ascertaining the precise Malady. With every abatement, however, it is a very alarming Disease, incidental in some degree to our Latitude, but undoubtedly aggravated by the imprudent adoption of Fashions in Dress adapted to more genial climes.

Drowned. With the increase of our population and navigation this head progressively increases

Infanticide. In a country where so little pretext is afforded for the commission of this horrid and unnatural crime, it is to be lamented that any instances should occur.

Small Pox. The extension of Vaccination, will, it is confidently hoped, finally exterminate this once afflicting scourge. The number of instances have however increased the last Year, which ought to attract the attention of the Faculty.

Suicide. Instances still occur of this most awful crime.

"Mr. Moore," according to the Encyclopædia Britannica, "who "lately published a full enquiry [48] into the subject of Suicide, was "at great pains to obtain accurate information concerning the perpe- "tration of this crime in different countries."

Of which the following are the results.

	Population.	Su[i]cides
"Paris. Mercier who wrote in 1782 says that the annual number of Suicides was then about		150.
"The population of Paris at that period was probably about	700.000.	
"Geneva	25.000.	8
"London	800.000.	32
"Edinburgh	80.000.	4
"Kent (a county in England)	200.000.	32

	Population.	Su[i]cides
"Average number of suicides in England.....		1000.
Population, presumed	8.000.000.	
The average number of Suicides in this City for 5 Years.....		15.
Average population during same period.....	78.000.	

It is to be observed that the Returns of Deaths in this City and County are perfectly accurate. Stricter attention ought to be paid by Physicians in giving their certificates of the diseases of which their patients died.

Should the Corporation persevere in enforcing accurate returns of Deaths and Diseases, the Bills of Mortality will, in a series of years, become incalculably useful, not only to Medical professors, but for various other important purposes.

All which is respectfully submitted.

John Pintard.

City Inspecr

*Ordered that the Report of the Committee upon the contest between the Attornies of James Hogan, relative to the money due him for repaving Thomas and other Streets, with the accompanying papers, be again referred to the Council of this [49] Board for a more particular report thereon, and to prepare the draft of such Bond of indemnity as he may deem expedient to be taken by this Corporation, from the person the said Counsel may consider best entitled to receive the money.

The Committee on Wharves, Slips and Piers were instructed to take measures for the security and protection of the Mud Machines belonging to this Corporation.

The same Committee was also charged with the subject of appropriating suitable births for Hay Boats at Duane Basin.

The Alderman and Assistant of the 5th Ward were added to the †Committee relating to William Stone's Lot; and empowered to give such directions in the premises, as may appear expedient.

‡Ordered that the Street Commissioner take immediate measures to ascertain the west line of West Street.

Ordered that the Street Commissioner prepare a Survey, profile & Ordinance for filling in & regulating Pitt Street from Stanton Street to North Street, & that the City Inspecr prepare Ordinances directing the several proprietors to fill in the adjoining lots & the sunken lots on Stanton between Pitt and Willett Streets.

The Minutes of the last meeting were read and approved.

The Mayor presented a letter addressed to him, signed "A Well Wisher to the Community at large," representing N° 5 Murray Street, a place of public entertainment, as most infamously conducted and tending, by means of its abandoned allurements, to seduce and ruin the

Youth of this city; which was read and ordered to be presented to the Grand Jury now sitting.

*An application of John E. West and others requesting that the Streets around Hudson square may be regulated, was referred to the Alderman and Assistant of the 5th Ward and the Street Commr

An application of Anderson & Pilcaithly on the subject of a Balle of $.92. due them for curbstone delivered for paving Mulberry Street, was referred to the Alderman & Assistant of the 6th Ward and the Street Commissioner.

[53] A Memorial of James Hogan on the subject of the monies due him on Assessments for paving certain Streets, proposing that the Street Commissioner should receive and pay the same to sundry persons to whom he is indebted, was read and ordered to lie for consideration.

An application of John Murray Junr in behalf of himself and other proprietors of the Pier on the West Side of Flymarket Slip, reviving their claim for compensation for the occupation of said pier by the Fishermen, piling their Fish Cars; was referred to the Comptroller and Street Commissioner.

A Petition of Charles Weatherspoon and William Gibson, for permission to interchange Stands No 28 & 34. Hudson market, was referred to the Market Committee, who forthwith reported in favour thereof, which was confirmed.

A certificate of Robert Brown and others representing that Mary Slater is in such indigent circumstances as render her incapable of paying the sum assessed to her for repaving Bancker Street, was referred† to the Alderman and Assistant of the 4th Ward, with power to extend relief if proper.

A Petition of William Robb for permission to occupy, for the purpose of selling liquors, the small wooden Shed at the North west entrance of the Battery, which was erected last Summer for the accommodation of the workmen employed on the public fortifications, was referred to the Committee relating to the Battery, who forthwith reported against the Same, and that the Superintendant of repairs be directed to cause said Shed to be removed forthwith, which was confirmed.

‡A Petition of William Bridges to be reappointed City Surveyor, was referred to the Committee on applications.

The Same Committee informed the Board that they have agreed with Mʳ Everitt at the corner of Anthony & Elm Streets, a respectable citizen, to take charge of all the manure on the Collect and to dispose of the same, on as good terms as possible, for which they have promised him a reasonable compensation: Which was confirmed.

The following Report was presented by the Counsel.

The Subscriber to whom was referred the *Communication from Alderman Drake, one of the members of this Honorable Board, respectfully reports.

That upon consideration of the facts and reasons stated therein, as also of the Charter and Law upon the case presented, is of opinion that the request of the Honorable Member for a resignation of his seat cannot be complied with by the Corporation

The Charter as originally formed and the amendments or alterations subsequently made by the Legislature provide for the time of election, the [58] qualification of the Electors and of the Elected, and also for those instances where any one of the Aldermen, Assistants, Assessors, Collectors or Constables duly elected and Sworn should happen to die, or remove out of the City; but no provision is made for

The Counsel to whom was referred *the report of the Committee on the contest between the Attornies of James Hogan, reported; That having reviewed his former opinion and reexamined the documents upon which the same was given, and having duly considered the opinion expressed by the Committee, together with the testimony exhibited to them, he concurred with them, and presented the draft of a bond of indemnity to be executed by Mr McCarthy and his security: Which was approved.

The Comptroller presented the †Lease to Stephen Gould, approved by the Counsel, which was confirmed and ordered to be executed under the Seal of this Board.

The Street Commissioner presented the following report.

‡The Street Commissioner has the honour to report: That he has caused the soundings in Hudson river to be taken opposite Marketfield Street, with a view to determine upon the distance the West line of West Street, called the permanent line, ought to be extended into the river: That there is but Twenty nine and a half feet water, at low tide, Two hundred and fifty feet from the East side of Washington Street, and that at Two hundred & sixty feet the water is no deeper.

[59] If the Street is carried out to the distance of Two hundred and Fifty feet, it will afford a block of One hundred and twenty feet between Washington Street and West Street, on the line of Marketfield Street, which is as great breadth as appears to have been intended by the Common Council when they directed Mr Mangin to make the Map of that Shore which accompanys this report.

When it is considered that a greater extension into the river will interfere with the range of the Guns of the intended Crown Battery opposite the Flagstaff, it is presumed the Board will agree that the aforesaid distance of Two hundred and Fifty feet from the east side of Washington Street, is as far as it will be prudent to establish the permanent line at that point.

As it is expedient that the Board should fix upon the precise point from which this line is to run previous to the Commencement of the

Survey directed at their last meeting, the Street Commissioner proposes the following resolution which in his opinion ought to be passed.

Resolved, That the West side of West Street, commonly called the permanent line, between Courtlandt Street and Marketfield Street be, and the same is hereby established to run in one continued Straight line from a point Seventy feet westerly from the brick work of the Northwesterly corner of the large Brick house lately built by Jacob Wilkins at the S. W. Corner of Courtlandt and West Streets to a point which in a continuation of the North line of Marketfield Street; will be Two hundred and fifty feet westerly from the Brick work of the Southwesterly corner of the Brick Store lately built by John Kearney at the corner of Marketfield and Washington Streets: and that the Street Commissioner be and he is hereby directed to survey and mark out the said West Street accordingly.

Ordered that the same be confirmed.

[60] The Street Commissioner presented the following report.

The Street Commissioner having been repeatedly solicited by a Committee of the proprietors of Lots fronting on Hudson Square, to give them a regulation of the Street for the purpose of fixing their fences and buildings as near as possible to the height of the walks when the Streets will be paved, has caused correct profiles to be made of such parts of Hudson, Laight, Varick and Beach Streets as front the Square and with the Assistance of Mʳ Charles Loss, City Surveyor, and the approbation of Mʳ Thomas Barrow, Agent for the Corporation of Trinity Church, fixed regulating lines upon them, which he is of opinion will produce the best regulation of the ground for beauty and convenience, as will appear from an inspection of the profiles thereof made by Charles Loss and herewith presented.

The Street Commissioner therefore proposes that the following resolutions be passed.

Resolved, That Hudson Street between Beach and Laight Streets, be regulated from the top of a mark Stone situate at the kennel of the northwesterly corner of the intersection of Hudson and Beach Streets, which is the height of the intended kennel there, with a descent of nine tenths of an inch on every ten feet for the distance of Two hundred and twenty nine and a half feet, to the Southerly kennel of Hubert Street: Thence with an ascent of one inch upon every ten feet for the distance of Two hundred and Thirty eight feet to the Southerly

kennel of Laight Street agreeably to a profile made by Charles Loss, dated the 7th inst.

Resolved further, That Laight Street be regulated from the regulation of the kennel of Hudson Street, [61] at the South Easterly corner of Hudson and Laight Streets with a descent of One and a quarter inches on every ten feet for the distance of Four hundred and Thirty seven and a half feet to the kennel of Varick Street: thence with the same descent of One and a quarter inches on every ten feet to the regulation of the westerly kennel of Chapel Street, which is intended to be six feet above common high water: agreeably to a profile made by Charles Loss dated 7th. instant.

Resolved further, That Beach Street be regulated from the top of a Mark Stone situate at the kennel of the northwesterly corner of the intersection of Beach and Hudson Streets with a descent of One and three tenth inches on every ten feet for the distance of Four hundred and Thirty seven and a half feet to the kennel of Varick Street: thence with the Same descent of one and three tenth inches on every ten feet to the regulation of the westerly kennel of Chapel Street, which is intended to be six feet above common high water mark, agreeably to a profile thereof made by Charles Loss dated the 7th. instant.

And Resolved further that Varick Street, between Beach and Laight Streets be regulated from the regulation of the kennel of Beach Street at the North westerly corner of Beach and Varick Streets with an ascent of One and a half inches on every ten feet for the distance of Two hundred and Thirty four feet to a point opposite the centre of the main door of St Johns Church, which will be two feet eight inches below the lower step of the platform of the said Church: thence with a descent of one and one third Inches on every ten feet for the distance of Two hundred and Thirty four feet to the kennel of Laight Street at the Southwesterly corner of the intersection of Varick and Laight Streets, agreeably to a profile thereof made by [62] Charles Loss, dated the 7th instant.

All which is respectfully submitted.

The Aldermen and Assistants of the Eighth & Tenth Wards and the Street Commissioner to whom were referred the Letters of Messrs Gosman and Macomb to the Street Commissioner and his communication thereon respecting the unfinished situation of a contract made with them for laying Walks in the Bowery, and a claim of damages for removing the Curb Stone* Reported

That they have examined into the circumstances of the case, from which they learn that the Corporation stopped the said work after the Contract was in part complied with by Messrs Gosman and McComb. That the Stone was in part carted away by them, and that they would be considerable loosers if the sum assessed upon that portion of the Inhabitants was deducted from their demand upon the original assessment. But this Committee conceive that this Board ought not to bear any material loss upon account of stopping the assessment and that it is now adviseable to direct Messrs Gosman & McCombs to proceed to complete their Contract, as originally agreed upon, & that the sum remaining due upon the original assessment be forthwith collected and paid to said Gosman & McCombs as they progress in the work. The Committee are further of opinion that Messrs Gosman & McCombs ought to be paid for the extra carting of Stone occasioned by the act of the Corporation preventing their going [69] on with the work when the Stone was upon the ground and that the Comptroller & Street Commissioner adjust the same

The same Committee who were appointed at the last meeting of the Board to report a plan for lighting the Public Lamps presented the followg " Since the Contract with Mr Cholwell has been vacated, the business has continued under the direction of the Lamp Committee, & it is recommended that it so continue, till a new Contract commences. That the Comptroller be directed to advertize for sealed proposals to be received at his office till 2 o'Clock on Monday the 8th day of May next, for lighting the Public Lamps of this City for one year from the 15th of May on the following conditions; 1st The Contractor to have all the Public lamps which now are, or may be, erected during the above term, regularly lighted every night at or before sunset & that each of the said Lamps shall be kept clean & provided with a sufficiency of good oil, to be kept clearly burning till sunrise next morning excepting the nights of the full moon, and three nights next & immediately preceding from the 1st of November to the 1st April with the addition of one night after the full moon [76] from the first of April to the first of November.

2d The Signal Lamps to be lighted every night from Sunset to daylight, and the price to be the same as for the others.

3d The Contractor to furnish the best Spermaceti Oil, and Winter pressed Oil, from the 15th October to the 15th April; he may have the use of the public buildings, Cisterns, and implements connected with the Lamp department to be returned in good order.

4th To specify the lowest price for cleaning lighting and furnishing with necessary materials each Lamp during the above mentioned time.

5. All public Lamps to be kept in good repair at the expence of the Contractor.

6. The Stock of Oil remaining on hand at the termination of the year contracted for, not exceeding the quantity of 3000 Gallons, shall be fairly valued by arbitrators chosen by each party, and be paid for.

7. The Contractor to furnish the necessary quantity of Lamp Oil for the use of the Alms House Bridewell, Jail, public Watch Houses, & the public Lamps at Brooklyn ferry; at a fair average price and shall produce satisfactory vouchers for the delivery of the same, previous to a settlement.

8. The lighting of Private lamps to be adjusted by the Proprietors and Contractor, who shall not charge for each lamp more than twelve dollars & fifty cents per annum.

9. The Contractor to give a Bond with two sureties to be approved of by the Common Council, in the penal sum of Three Thousand Dollars, for the due and faithful compliance with the Contract; and if default shall in any manner be made therein for the space of five nights either in succession or otherwise, the Corporation may declare the same void and the Contractor shall be liable to have deducted [77] from his account, the amount which shall be found deficient in consequence of such default.

10th Once in each month the Contractor shall present his account for settlement, and if found correct payment will be made in the usual manner, Should any difference arise in the settlement the same to be referred to the Lamp Committee for adjustment, and their report to the Board of the amount of damages to be deducted from the account of the Contractor shall be decisive, if approved of by the Board.

The Committee also recommend that the following regulations be adopted.

1st The Superintendant of Repairs shall be directed to have without delay all the Public Lamps numbered in progressive order, each ward to be kept distinct; and a regular account of the same filed in the Clerks office

2d No new Lamps shall be procured unless by the order of the Lamp Committee, and shall be placed under the care of the Superintendant of repairs, and whenever a new lamp is ordered to be put up, the said Superintendant shall have it done, and keep an account of the

number, time, and place, and make a return once a month at the Clerks office there to be registered.

3d It shall be the special duty and it is hereby enjoined on the respective Captains of the Watch to keep an exact account of whatever Lamps in their District, may not continue burning during each night; to note the number of the Lamp, the ward in which it is situated, the hour when it ceases to give light, and any other circumstances tending to information on this subject, & to report the same at the Comptrollers office every fortnight [78] in order that the Contractor may be responsible for delinquencies, and redress obtained.

4th It is recommended that the Corporation take the Lamp Oil which Mr Cholwell may have on hand (if he agrees thereto) not exceeding Five thousand Gallons, at a fair valuation to be approved of by the Lamp Committee, payable at sixty days from the day of such approval, which Oil the Contractor shall be bound to take at the same price payable as aforesaid

Alderman Fish from the " Road Committee " presented the following Report, That they took an excursion on the Island on Wednesday last for the purpose of viewing the situation of the Roads, and to point out to the Roadmasters such repairs as the roads will want during the present season. They feel great satisfaction in representing to the Board, that the Roads will require but little repair this Spring, and that they have directed the Road Masters to employ but six persons each until further orders, being in the opinion of the committee a sufficient number for the present: and they have also pointed out to them the quantity of work and the particular places demanding their first attention.

The Committee further report that during the past Summer, the Road, as well as another, Committee, viewed the ground between Hamilton Square and the Manhattan Avenue, and determined to recommend to the Board to open a road thro' it sufficient for the passage of carriages of burthen, that proposals were issued, and that the work could be done for about one hundred dollars; but that owing to some unaccountable delay they did not report thereon—the Committee now recommend that this work be directed to be done, under the direction of the Street Commissioner and the Road Masters; as it will be

important to the [79] Corporation to cause such road to be made previous to the sale of those lots as already directed by the Board.

The Market Committee to whom were referred the several *Petitions of John Hutton W[m] Gibson and Henry Spicer reported that a butchers licence be granted to Henry Spicer and that the stand N° 34 in Hudson Market be assigned him, which report was confirmed

A Memorial was read from sundry inhabitants of the 7[th] Ward remonstrating against the erection of a Brew House, at the intersection of George & Lombard Streets, which they understood was in contemplation praying the interference of the Board to prevent the evil apprehended, by purchasing the said ground for Public use, or otherwise, and offering on the part of the said Memorialists to enclose the said ground with a pale fence at their own expence

With said Memorial the Street Commissioner presented the following Report

The Street Commissioner being informed that some persons were preparing under the authority of Colonel Henry Rutgers to erect a building in the triangular space formed by the intersection of George, Cheapside, and Lombard Streets, wrote the Colonel upon the subject and not only advised him that it was necessary for the Street Commissioner to be consulted in all cases of the survey of Corner lots, but that it was probable the inhabitants in the neighborhood as well as the Corporation would be willing to pay him for any ground he might have there, to prevent a building there.

The Street Commissioner has since been informed that a Petition from the Inhabitants is about to be presented touching the premises; & if the Board should be of opinion, that it would be desirable [80] to retain the present open space and the petition in their opinion shall be signed by a respectable number of the persons who will probably be assessed therefor it will perhaps be expedient for them to pass a Resolution in effect similar to the following.

"Resolved that the open space or Gore formed by the intersection of George Cheapside and Lombard Streets be left open and reserved forever as a Park for the use of the Public, and that the Street Com-

On motion the proposed Resolution was adopted and the Street Commissioner was directed to carry the same into effect.

The Committee to whom was referred the *petition of Nathaniel Dobbs praying compensation for injuries sustained by a new regulation of Sullivan Street Reported that in their opinion the sum of one hundred Dollars should be granted to Mr Dobbs, which would compensate him for the injury he had sustained by the new regulation. On motion the same was confirmed, and a Warrant was directed to issue for that sum,

The Alderman and assistant of the fifth ward and the Street Commissioner to whom was referred the petition of William Stone relative to a Building he is desirous to put up opposite to Duane Slip, reported as follows

†The Alderman and assistant of the fifth ward and the Street Commissioner to whom was referred the application of William Stone, relative to a building he is desirous of putting up opposite Duane Slip projecting six feet in front of the other dwelling, and the remonstrance of William Harrison and others against it, with directions to present a statement of facts in [81] *in* relation thereto, respectfully Report that they have examined the Minutes of the Common Council and find the following Entries therein "1st April 1794" "26th May"—"14th July"—"21st July"—"4th August 1794"

From mature reflection and a strict examination of the facts therein contained your Committee are of opinion, that it would be improper to permit Mr Stone to build at present, in the manner he has requested; but they consider it reasonable that the Corporation grant to the Proprietors the ground in front of their present dwellings to the line of West street, whenever it may be deemed expedient to fill up the Basin, and in order to place this matter upon a permanent basis, and to equalize the claims of the said proprietors, the Committee recommend that the following Resolution be passed.

"Resolved that the Street Commissioner direct Wm Stone to place his intended building, at the Corner formed by Jay Street, and a line

along the front of the house of William Harrison opposite Duane basin; and that no person be hereafter permitted to erect any building to the West of said line between Duane and Jay Streets, until it shall be the pleasure of the Common Council to fill up the Basin and form West Street, as lately surveyed and agreed to by this board"

"Resolved further that this Board will grant to the several proprietors of Lots fronting on said basin, the ground in front thereof to the East line of West street under the usual quits, upon condition they unite and sink a bulk head on the West side of West street and fill up the said basin, whenever this Board may direct the same to be done"

Which Report was confirmed.

[82] The Street Commissioner communicated to the Board the following statement respecting the regulation of Hudson Square.

"The Street Commissioner has the honor to state to the Board that from the representation of the principal proprietors of lots round Hudson Square he finds they will be involved in considerable difficulties if the regulations of the Streets round the Square remain as adopted by the Board on the 10th instant; as the said proprietors have entered into Special agreements with the Corporation of Trinity Church, under severe penalties to build in such a manner as that the under part of their water tables shall form a horizontal line four & half feet above the streets when they become paved.

By the adopted regulations the whole square will form an inclined plane towards Varick Street, and render a compliance with the above mentioned conditions impracticable; as may be easily perceived by an inspection of the several profiles of those streets.

The Street Commissioner further States that the alterations required by the proprietors will also involve the surveyors in some difficulty to discharge the Water from the corner of Hudson and Beach Streets, & which cannot be done without lifting the pavement of Beach or at least a considerable part of it. By such measure the business can be effected but it belongs to the Board to decide whether this shall be done and who is to pay the expence.

As a variety of other circumstances in this regulation will occur to make it appear more doubtful & difficult to settle, which cannot without great prolixity be embraced in a report the Street Commissioner

solicits a Committee to aid him in the Regulation, & he conceives they ought to possess power to adopt any plan they may deem most for the ornament of the square & convenience of the Public. All which is submitted"

The Minutes of the last Meeting were read & approved.

A Petition was received from Alexander Fink Senior, Butcher, stating that he formerly occupied the Stand No 1, Oswego Market, that having some years since declined business in favor of his Son Augustus Fink, the said stand was assigned to him, but his said son having lately departed this life, the Petitioner was desirous of again entering into business and prayed that the said stand might be assigned to him. The said petition was referred to the Market Committee who immediately reported that in their opinion the prayer of [87] the petition should be granted, which report was confirmed.

A similar petition from John A Baisley praying for a licence and to be assigned to stand No 2 in Grand Street market, was referred to the same Committee who immediately reported in favor of the Petition —Which report was confirmed

*A similar Petition from Blaze Ten Broeck to be appointed to the same stall No 2 Grand Street was referred to the Market Committee.

* Marginal note reads *R. p. 104.*—Ed.

*A Petition was received from Lewis Moore stating that upon taking out a water Grant some years ago, M^r Strong the then Comptroller took from the Petitioner a note of hand, it being, as the Comptroller alledged, the amount of rent in arrear for said Grant, but upon a promise that if the arrears upon the several lots between Beekman & Peck Slip should not be demanded from the proprietors of said lots, that then this Petitioners Note should be cancelled; and the petitioner alleges that no demands have been made upon any of said proprietors.

The said Petition was referred to the Comptroller with authority to deliver up the same if the facts be as stated.

A Petition from Jeremiah Marshall and Thomas Brown to be appointed Measurers of Lumber in this City was read & referred to the Committee on applications with directions also to take into consideration the expediency of rescinding a former resolution of this Board confining the appointment of Measurers of lumber to such persons as should be appointed Inspectors of Lumber by the Council of appointm^t of the State.

An application was received from William [88] Ogden for permission to build a vault in front of his lot in Chamber Street and to erect a Lime house in the Street, which was granted under the direction of the Alderman & Assistant of the (5^th^) Ward and the Street Commissioner

A similar application from Henry Havens for a vault &c^a^ in Vesey Street was granted under like direction of the Alderman & Assistant of the (3^d^) Ward and Street Commissioner.

*A Petition was received from the Trustees of the Presbeterian Brick Church praying permission to build vaults around the Church projecting into the street and was on motion referred to Aldermen Fish [&] Mott & M^r Campbell

A Petition from John R Murray and others praying that Washington Street may be opened between Provost and North Moore Streets and between Jay and Provost Streets was read and referred to the Alderman & Assistant of the (5^th^) Ward & the Street Commissioner

A similar petition was received from William Ross and others praying that Lispenard Street might be opened to Broadway and was referred to the Alderman & Assistant of the 5^th^ Ward and the Street Commissioner

An application was received from the Contractor for Street

manure stating that in consequence of the births at the Whitehall Slip assigned for the manure boats, being occupied by prize vessels and the difficulty of removing them, recommend the following to be assigned in place of the above

Two births on the East side of the West pier of Exchange Slip and one birth at the head of said Slip adjoining said Pier

And in place of two births at Peck Slip, as follows one birth on the west side of the East pier of Beekman Slip & one birth at the head of said slip adjoining said pier, which was agreed to.

[89] A letter from William Mooney Superintendant of the Alms House requesting to be informed whether Charles A. W. M^{c}Pherson was to be considered as an officer of that establishment was read and referred to the Committee on the Alms House

On the application of William Mooney Superintendant of Alms House for an advance of Six Thousand Dollars to defray the expences of said establishment was read.

Ordered that the Mayor issue his Warrants for the said sum in separate ones of $1000 each.

A request from Jacob P. Roome Superintendant of repairs that the sum of 500 D^{rs} might be placed to the credit of the Chairman of the Committee of repairs was read and thereupon ordered that the Mayor issue his Warrant for that sum.

The Market Committee to whom were referred the Petitions of Daniel Tier Jun^{r} & W^{m} Post Butchers praying to be assigned to Stall N^{o} 30 Fly Market reported that in their opinion a Butchers Licence be granted to Daniel Tier J^{r} and that the said Stall N^{o} 30 be granted to said Daniel Tier Jun^{r} which was confirmed.

The same Committee to whom was referred the Petition of James Day praying to be assigned to Stall N^{o} 34 Hudson market reported that the Stall was granted to another person viz H. Spicer.

Alderman Fish from the Committee of Defence reported the following.

The Committee of Defence having received a communication from M. Du Buc de Marcatille relative to his proposed plan of defence for Sea Ports by means not in use beg leave to submit the following statement for the consideration of the Common Council.

[90] That from a Report of the former Committee of defence dated May 16th 1808. it appears that they were impressed with the most favorable opinion of M. Du Buc's talents and military science; that he professed to have discovered means of defence which are not in use, & which if adopted would render this City and Harbor com-

pletely secure against naval attack; that the benefits of his plan might be obtained at small expence, within the short term of a few months; that M. DuBuc required as a compensation for the disclosure of his plan the sum of Drs 60'000 in case of its adoption for any of the Ports of the United States within a term of time to be agreed on for that purpose, and in case it should not be approved or acted upon within the stipulated time, but should be resumed and put in force at any future period then he demanded an additional sum of $60'000; that various conferences took place, and various modifications of his proposals were suggested to obviate the double consideration. That altho' it was clearly understood and so expressed in the Report alluded to that it rightfully and exclusively belongs to the Government of the United States to provide for and direct all the measures relative to public defence yet the Common Council anxious to obtain protection & security for the City adopted certain resolutions expressive of their willingness to enter into arrangements for obtaining from Mr DuBuc a disclosure of his plan on condition that the General Government would authorize the measures and provide for the ultimate payment of the sum which the Corporation might in the first instance agree to pay for the same: that his Honor the Mayor communicated the same to the late Secretary at War from whom an answer was obtained that was not altogether satisfactory; that a second letter from the Mayor to the Secretary at War in conformity with a subsequent report on that subject, produced an assurance on the part of the Government dated 29th June last, that any improvement on the general known principle [91] system of defence should be adopted for New York if on due investigation its merits should render its adoption expedient and further that Mr DuBucs proposed system should not in any event be adopted for any other port or harbor in the United States than that of New York without the consent of the Corporation thus then the principal difficulties appeared to be removed but on farther conference with Mr Dubuc it appeared that he had not relinquished the idea of the double sum, and being tenacious on that point the negotiation was suspended. On the first day of the present month a new modification of Mr DuBucs proposals was received from him which the Committee submit to the Common Council viz. "The ultimate adoption or rejec-
"tion of Mr DuBucs plan resting with the General Government, and
"it being well understood that it would be against the true meaning
"of the agreement that the said plan tho' approved should be refused
"with a view to use it in future whereby Mr DuBuc's stipulated com-
"pensation for the disclosure of a thing so highly important to the

"public welfare might be delayed all his life time the following is "agreed

"In case the general government will not use any of the means "proposed yet the sum of D^rs 60'000 shall be paid by the Corporation "to M^r DuBuc unless they give him the following declaration on the "part of the General Government whose honor M^r DuBuc does "entirely trust to.

At the request of the Corporation of New York [92] and in "order to enable them to give to M^r DuBuc the declaration on the "part of the Government of the United States in their agreement of "the date with M^r DuBuc I declare in the true spirit "of the said agreement which has been communicated that none of "the means proposed by M^r DuBuc in his plan of defence for Sea "Ports in general whether considered as things wholly original and "new, or as new modifications or use of things already known has "obtained the approbation of the government nor shall be used in "case of War."

From a view of the subject it appears to the Committee that M^r DuBuc is willing to make an immediate disclosure to the Common Council of his plan of defence for the harbor of New York consisting of means not in use, that the plan after having been submitted to the consideration of the Executive of the United States is to be approved or disapproved by them. If not approved by them then a declaration to that effect is to be signed by the Secretary at War, which declaration is to exonerate this Board from all further responsibility: if approved by the General Government then the sum of $60'000 is to be paid by the Corporation for *for* the disclosure of the plan, the adoption of which is guaranteed to this City by the Secretary's letter of the 29^th June last, and from an assurance in said letter that M^r DuBuc's system will not in any event be adopted for the defence of any other port or harbor in the United States than New York without the consent of the Corporation of New York who may think it adviseable to purchase of him the right of applying his system to the defence of that City & harbor, it seems to have been understood by the Executive of the United States, that the sum to be paid by this board for obtaining the disclosure of M^r DuBuc's plan should be *re* [93] re-imbursed in case said Plan should be adopted for any other port.

The Committee therefore submit the following Resolutions.

Resolved that his honor the Mayor be requested to communicate to the Executive of the United States the modification of M. DuBuc's proposals for disclosing his plan of defence for Sea Ports by means

not in use as stated in this Report, and to know whether they will agree to make the declaration therein proposed in case the plan should not meet the approbation of the Government; and whether by the letter of the late Secretary at War the faith of the Government is not pledged to repay to the Corporation the sum of Drs 60'000 which they may advance to M. DuBuc for the disclosure of his plan of defence in case said plan should be adopted for any other port or harbor of the United States than that of New York.

[101] In Common Council May 15th 1809

Present DeWitt Clinton Esquire Mayor

Peter Mesier James Drake John Bingham Jacob Mott Mangle Minthorne	Esquires Aldermen	John Slidell John, W. Mulligan Benjamin Haight Adrian Hegerman Thomas J. Campbell Isaac S. Douglass Samuel Torbert Jasper Ward.

Esquires Assistants.

The Minutes of the last meeting were read and approved.

The Common Council having assembled at the Alms House for the purpose of making the usual qua[r]terly examination of that Department and of the Bridewell, proceeded upon that duty: after having visited and examined the same the following business was transacted.

A Petition was received from Joseph Conklin praying payment and compensation for regulating and paving a part of Rynders street, agreably to a Contract heretofore made with the Street Commissioner, the same being read was referred to Aldermen Wood [&] Mesier & Mr Slidell

[102] A Petition was received from John R. Livingston & others, praying that Prevost Street might be paved, which was read and referred to the Street Commissioner.

A Petition was read from George Lorillard stating that at the late fire in Chatham Street, the Buildings upon the Lot in said Street which he holds on lease from this Board, were burnt and destroyed and praying an extension of the Lease, which he now holds upon the premisses. The same on motion was referred to Aldermen Drake [&] Bingham & Mr Douglass.

A Petition from Fire Engine Company No 13 was read, stating that their present Engine House, was old and in a ruinous condition and praying that a new Brick Engine House might be erected at Burling Slip, which was referred to the Fire Department.

A Petition from Lewis Hartman and others for a Well to be sunk in Pearl Street near Rose & Bancker Street was read and referred to the Alderman & Assistant of the (4th) Ward & Superintendant of Repairs with power to authorize the sinking of the same on the usual terms.

On the application of Alderman Wood a well was also authorized to be sunk in Prince Street under the direction of the Alderman & Assistant of the (8th) Ward and the Superintendant of Repairs.

A petition was read from John Horner & others praying that a Hay Scale might be erected at the junction of Harlem & Bloomingdale Roads, & was referred to the Committee heretofore appointed on a similar petition.

[103] An application was received from Nathan Sandford Esqr requesting payment of one years interest (amounting to Ds 140) upon a Bond of the Corporation to Philip Brasher dated May 4th 1808 which he held by assignment—and the Comptroller having certified that that sum was due for interest on said Bond, Ordered that the Mayor issue his warrant to Mr Sandford for that sum.

A communication was received from the Attorney of the Board covering a proposal from A. C. Van Slyck Esqr Attorney for Stephen Colver in a suit of the said Colver against this Corporation, stating that Plaintiff in said suit was deceased & proposing that the suit against this Corporation, may be continued and proceeded on in the name of Benjamin Colver as Administrator of said Stephen without said Benjamin taking out Letters of Administration upon the Estate of the said Stephen

On motion resolved that this Board do not agree to said proposal.

Alderman Drake from the Committee of Applications to whom was referred the Petitions of William Robb, Reuben Wright, & Saml F. Whiting praying for some appointment under this Board reported that they would recommend that they be severally appointed Public

Measurers of Grain which was agreed to and they [were] appointed accordingly.

The Market Committee to whom was referred the *petition of Peter Durr praying [104] to be assigned to Stall N° 30 in Fly market reported, that the Stall N° 16 in said market be granted to him which was agreed to.

The same Committee on the †petition of Blaze Ten Broeck recommended that the Clerk of the Market be directed to assign said Ten Broeck to any vacant Stall in Grand Street Market.

Which was agreed to.

M^r Douglass from the ‡Committee on the communication of M^r Bolmer respecting an alledged encroachment by M^r Janeway on Magazine Street

Reported

That they have examined the Street and recommend that the South line of Magazine St^t between Chatham & Elm Streets be ascertained without delay by actual survey, and that Samuel Stilwell & Stephen Ludlum be directed to make the said survey under the inspection of the Street Commissioner, which Report was agreed to.

The following communication from the Street Commissioner was read at the last meeting of the Board

||The Street Commissioner has the honor to represent to the Board, that he has in the manner of last year, divided the improved parts of the City into nine sections, for the purpose of assigning to each paver hereafter named a certain portion to repair under the existing laws of the Common Council and solicits the confirmation of the Board in the appointment of

The Committee to whom was referred the *Petition of the Trustees of the Brick Presbyterian Church for permission to build vaults in the Street around their Church, Reported, that in their opinion the prayer of the petition should be granted, which was agreed to.

The Comptroller to whom was referred the †Pet^{n} of Lewis Moore reported that the facts stated in said petition were true and that in his opinion, it would be proper to deliver up to him his note, which report was agreed to.

The Comptroller to whom was referred ‡the accounts of M^{r} Hitchcock reported that in his opinion, an order should pass directing M^{r} Hitchcock to pay over to Waters Furman the full amount of monies received by him and likewise any Notes of hand he may have belonging to the Corporation, which report was confirmed.

The Committee to whom was referred the Memorial of William Hunter praying a reconsideration of the Report of the Finance Committee upon his petition for a water grant at Corlaers Hook reported That upon a consideration of all the circumstances attending the situation of M^{r} Hunters ground they are of opinion that the Terms fixed by the Report of the Finance Committee should be so far varied as that M^{r} Hunter should pay as a [106] Quit rent on said Grant one half of the sum mentioned in said Report, but that M^{r} Hunter should in all other things comply with the terms of said Report

Signed James Drake
John Slidell

Alderman Drake from the Committee on the ‖petition of Mary Slater reported, that upon enquiry they find that she is a poor Widow they therefore recommend that a Warrant issue in behalf of Henry Van Pelt Collector for Oak, Pearl, Bancker and Chesnut Streets for the sum of D^{s} 2.^{8}4/100 being the amount of her assessment—Which was agreed to.

The Comptroller and Street Commissioner to whom were referred the several petitions of §John Jackson Gilbert Van Mater John Dikeman and Burdett Striker praying for Water Grants at Brooklyn presented a report which was directed to be referred to The Committee on Wharves Piers & Slips and to The Committee upon Ferries.

The Lamp Committee reported that they had estimated the price of Oil to be taken from M^{r} Cholwell and to be received by M^{r} Auld on the new Contract at ninety Cents per Gallon for Winter Oil and sixty

six Cents for Summer Oil, and that Mr Auld had offered for his Sureties Messs Jonas Minturn and Elias Haviland. Resolved that those sureties be accepted.

The Street Commissioner made a further report on the remonstrance of Mrs Lynch upon widening Magazine Street which was as follows

The Street Commissioner represented to the Board by his report on the April last that the Attorney of the Board had informed him, that the proceedings for widening Magazine Street, were not binding, as far as respected the minor children of Francis Lynch deceased owing to the misplaced confidence he had in a Gentleman of [107] the Law, who was supposed to be the Attorney for Mrs Lynch and who has since disavowed it: and that in his opinion, the objections of Mrs Lynch to the award can be supported by her. And the Street Commissioner in consequence suggested the propriety of the Boards authorizing him to renew the application to Mrs Lynch for the ground in question

This Report was directed to lie for further consideration and has not been acted upon since

The Street Commissioner respectfully sollicits the Board to take up the subject as there are near three hundred dollars which have been three years due to the Contractors for paving that Street, & Mrs Lynch owes above one hundred of it, which she will not pay until this business is adjusted.

It does not appear to the Street Commissioner that there is any necessity to delay this matter, for if the proceedings are illegal (and the Attorney says they are) it will be fruitless to contest the point with Mrs Lynch and dishonorable to attempt it

All which is respectfully submitted

May 15. 1809 Sd John S. Hunn.

Resolved that the said report be agreed to.

The Street Commissioner presented a communication on the subject of opening a Street in continuation of Chamber Street from Augustus Street to Chatham Street which was referred to the same Committee with Mr Lorillards petition Viz Aldermen Drake [&] Bingham & Mr Douglass.

The Committee to whom was referred the Report of the Street Commissioner on the Petition of James Hook, which report was in the words following

The Street Commissioner to whom was referred the petition of

James Hook praying that the Corporation would relieve him from the expences of a suit brought [108] *brought* against him for damages in consequence of a Womans falling into an area belonging to him in Bedlow Street and thereby breaking her leg, has the honor to Report

That he has made diligent enquiry to ascertain the facts connected with the application of Mr Hook, and has taken the affidavitts of Five persons brought forward by Mr Hook; from all which he finds in substance as follows.

That Mr Hook is a poor man and with much difficulty erected a Building in Bedlow Street, that while the building was in an unfinished state, and the area preparing, the Corporation granted the request of the Inhabitants to sink a well in that Street, and that the Alderman of the Ward directed the Well to be sunk opposite to his area and within four feet of it. That in consequence of this arrangement he was obliged to leave the Rails of his area unfinished as the caving of the well prevented a passage along the Street and it became necessary for the diggers to lay plank upon the wall of the area to protect passengers from falling into the well. That this well laid in that situation during the months of January and february with large heaps of frozen earth which in part obstructed the passage. That Mr Hook requested the Carpenter who worked for him to secure the area by putting up the railing previous to the accident, and that the Carpenter advised him that it would be impracticable to cover the Well with Boards if he did so. And that while the Street lay in this situation an old woman, late at night and as some believed much intoxicated fell in and broke her leg. That in consequence of this accident she prosecuted him and recovered an award of One hundred dollars with 34 $^{78}/_{100}$ Dr cost; making the sum of 134 $^{78}/_{100}$ Dollars, and that an Execution has already or is about issuing against him for that sum. The Street Commissioner has [109] not been able to ascertain the ground upon which the Jury gave a Verdict against Mr Hook but he concludes it has been founded upon the proof that the House was his, and that he was answerable for the consequences of the exposure of his area contrary to the Corporation Laws.

It does not appear from any circumstance that has occurred that Mr Hook has been to blame, as he foresaw danger by the exposure of the area and would have secured it from endangering passengers if the Well had been completed in due time or so secured as to have enabled him to put up the railing. The Board will readily perceive that

this is a singular case and such as probably will never again happen. And as Mr Hook will be almost ruined by this suit if he is obliged to pay it, and the persons employed to dig the Well were under the immediate controul of the officers of the Corporation the Street Commissioner is of opinion that Mr Hook ought to be relieved by the Corporation from paying the award against him, or at least a considerable part of it.

All which is respectfully submitted

May 8th 1809 John S Hunn

The Minutes of the last meeting were read & approved.

A Petition was received from David Johnson praying to receive a Butchers licence and to be assigned to stand N° 46 in the Fly market at present occupied by John L. Fink who was willing to relinquish the same. The said petition was referred to the Market Committee who

immediately reported thereon, that the prayer of the Petition be granted, which was confirmed

A Petition from John La Forgue Junr respecting a Bastard child of which he was declared the putative father by an order of the Sessions, and which had been formerly before the Board, was again presented with a request that the Board would reconsider the case

The same having been read was referred to Alderman Bingham Messrs Mulligan & Hegerman.

[115] A Petition was received from Peter Goelet praying to be now permitted to reimburse to the Corporation the sum which should have been paid by him as his proportion for erecting Piers between the Exchange and Whitehall Slips, but which he had formerly from misapprehension, refused to pay, and to receive the proportion of emoluments which had and which should hereafter arise from the said Piers —which was referred to the Committee on Wharves Piers & Slips & Comptroller.

A petition from Everardus Warner was also received offering to purchase an Engine House in Nassau Street in the Presbyterian Church yard & was referred to the Committee of Repairs with authority to dispose of the same as they should judge proper

A petition from Fire Engine Company No 14 praying for the enlargement of their Engine House was read and referred to the Fire Department.

A Petition from Archibald Gracie and others praying that Bridge Street might be opened was read and referred to the Street Commissioner who immediately reported that as the Street had been ceded to the Corporation by the State, it only remained for the Corporation to compensate the owners of some old stables which now stand upon it, which he recommended to be done & the Street to be opened which report was approved, and the Street Commissioner was directed to treat with the said Proprietors and report at the next meeting of the Board.

[116] A Petition from the inhabitants of Broome and sixth Streets praying to have a Well at the Corner of said Streets,

and a similar petition from Henry B. Earle and others for permission to sink a Well in Thompson Streets were severally referred to the Aldermen & Assistants of the respective Wards and the Superintendant of Repairs with authority to comply with the same on the usual terms.

A Petition was read from George Fagenheim praying an extension of the Lease which he holds from this Board, in consequence of the

loss of his buildings by the late fire in Chatham Street, and was referred to Aldermen Drake [&] Bingham & Mr Douglass.

A petition was presented from Wm Thorn & Co praying the remission of a Penalty incurred by them (unintentionally) in having their Flour short of the Weight prescribed by Law, and being read was directed to be referred to the Attorney of the Board.

Petitions, from Margaret Ogden praying that the Ordinance respecting a Privy at No 78 Pearl Street may be revoked, & from Daniel Smith praying that the same may be enforced were severally read. A Report from the City Inspectors department respecting the situation of the Nuisance complained of, was also read, recommending that the ordinance respecting Mrs Ogden be suspended until Mr Smith shall have complied with the ordinance to him directed.

On motion the said recommendation was agreed to.

[117] A Petition was also received from Geo: Smith & others, praying that Pump Street might be opened to Mott Street and Orange St. which was referred to the Alderman & assistant of the (6th) Ward & St. Commissrs A similar petition from the Proprietors of property in White Street praying that the street may be paved & regulated was read and referred to the Alderman & Assistant of the (5th) Ward and Street Commissioner.

A Petition from the inhabitants of Sullivan, Thompson and Spring Streets remonstrating against the regulations of said Street was read & referred to the Alderman & Assistant of the (8th) Ward & St Commissr

A Petition from Peter P. Van Zandt and others praying that Washington Street may be regulated & paved from Warren to Chambers Street, was read and referred* to the Street Commissioner.

A Report from the City Inspectors department was received recommending the immediate removal of a Watch Box from the Corner of Pearl & Pine Streets as it was much complained of by the neighborhood was agreed to and the Superintendant of Repairs was directed to carry the same into execution; and Also to cause the removal of all the Watch Boxes to their usual place of Deposits for the Summer season as soon as convenient.

The Superintendant of Streets reported to the Board that the Public Drains in the City were in such a situation as to require being cleansed

Ordered that the Superintendant of Streets take immediate measures to cause the same to be cleaned.

* Marginal note reads *Rept. 130.*—ED.

A Report was received from the Street Commissioner recommending that an Ordinance should be prepared [118] directing that the walks in Broadway should be laid with Flag Stones which was agreed to.

The Street Commissioner presented a Report stating "that Mr Charles La Rue being informed that the Survey takes in only part of the Ground he owns at the Corner of Bancker Street & Pearl St leaving a lot of 12 feet 2 inches fronting on Pearl Street, is desirous that the Board would decide upon the value of the ground required for the Street by Referees in preference to a Jury, & that he will choose one person & requests the Board to choose another: giving them to appoint an Umpire to judge between them, in case they disagree

The Survey also takes in a strip of two feet broad from the lot at the South East Corner of Bancker and Chesnut Streets. The claim to this Ground is doubtful; as the Block has its full measurement without it; but the right and interest of the present claimant should be extinguished to make the Street straight

The Street Commissioner is of opinion that the Board ought to agree to the arrangement proposed by Mr LaRue, as it will save time and expence; & that it would be adviseable to authorise the same Referees to settle the value of the claims to the Strip of ground abovementioned. All which is respectfully submitted

May 22d 1809. John S Hunn

On motion it was Resolved that the Board disagree to the same.

The Street Commissioner also presented an Ordinance for paving Broadway from Marketfield Street to Beaver Street which was passed, and John Nitchie junr James W. Lent Benjamin Stephens Samuel Tooker & Garrit Storm were appointed Assessors.

Livingston & others respecting the pavement of Provost Street, reported that it would for reasons therein stated be best to suspend for the present the paving of said Street and recommended the further consideration of the subject of his report to a Committee, which was agreed to, and the same was referred to the Alderman & Assistant of the (5th) Ward with said St Commissr

Alderman Drake from the Committee to whom was referred the subject of opening Chamber Street, reported that they recommend that Lots No 6. 7. and 8 fronting on Chatham Street and Lot number 25 fronting on Augustus Street be sold in fee to Peter Bonnett for the

sum of Ten Thousand Dollars upon his giving his Bond payable in one year with sufficient security

James Drake
(Sd) John Bingham
Isaac S. Douglass

On motion resolved that the Board do agree to said Report.

Alderman Drake from the Committee to whom was referred the Petition for building Piers on the West side of Peck Slip reported that it was inexpedient to build at present, but recommended the paving of Front Street from Peck-slip to James' Slip which Report was confirmed, and the Street Commissioner directed to prepare an Ordinance for paving said Street.

The Comptroller on the Petition of Cornelius P. Wyckoff praying to be exonerated from [120] payment of a note given by said Wyckoff to Henry Remmy for Drs 133.5$^{0}/_{00}$ and endorsed by said Remmy Reported, that there was no prospect of obtaining the money and submitted the propriety of cancelling the Note. Whereupon resolved that the Comptroller be directed to cancel said note.

Corporation for the period of five years the sums necessary to complete their proportion of the piers at six per Cent. per annum—And further that the Street Commr be directed to advertize for proposals as soon as he shall be informed that the said Proprietors are ready to comply with the above Condition.

A Petition was read from the Proprietors in Hague Street praying that said street might be paved, the same was referred to the Aldermen and Assistant of the (4th) Ward and the Street Commissioner.

A request was made on behalf of the [126] Congregation of the First Presbyterian Church in this City, that the Corporation would sell to them the Engine House now standing on their burial ground On motion resolved that the said House be given to the said Congregation.

A request was also made on behalf of the said Corporation of the First Presbyterian Church to extend their line of *Vaults under the street in Wall Street from their present Easterly line to the Lot of Charles Gardner. Resolved that the same be granted under the direction of the Alderman & Assistant of the (1st) Ward and the Street Commissioner.

Mrs Bowers was also authorized to build a Vault at the Corner of Second & Rivington Streets under the like direction of the Alderman & Assistant of the ( ) Ward and the Street Commissioner.

An application from John McLean Commissary of Military Stores complaining of Manure being heaped up near the Arsenal & requesting that the North line of the Arsenal lot might be ascertained and that the Collect drain might be opened was read and referred to Aldermen Bingham [&] Wood & Mr Douglass.

Mr J. H. Sickles in behalf of the Building Committee requested an advance of $3000, which was granted.

Alderman Bingham from the Committee to whom was referred the petition of Francis La Forgue Jr praying to be released from the maintenance of a bastard child, presented a report favorable to said Petition, which report together with the accompanying [127] Documents was referred to the Commissioners of the Alms House.

The City Inspector reported that an Ordinance had been passed and served on the 8th inst upon Edward West directing him to dig out & regulate two lots of ground in Church Street near the corner of Duane Street, that said Ordinance had not been complied with, & recommended that a further ordinance be passed which was presented

* Marginal note reads *p. 105.*—Ed.

—Ordered that said ordinance pass, and that the Attorney of the Board be directed to prosecute him for disobedience of the former ordinance.

The City Inspector also reported ordinances for correction of certain Nuisances from N° 4885 to N° 4891 which were passed.

The following persons were appointed firemen, the Cheif Engineer certifying corresponding vacancies.

The Comptroller Reported that he had examined the Books & Vouchers of the Superintendant of the Alms House for the quarter ending the 30th of April last and found that there was due to the Superintendant a Balance of $7766.39 [128] which report was ordered to be filed with the Comptroller.

A communication was also received from the Superintendant of the Alms House requesting payment of said balance Whereupon Ordered that a Warrant issue for $1766.39 being the balance due upon the last quarter, the sum of $6000 having been paid him on the 8th instant.

The Comptroller presented to the Board a Deed from the Mayor Aldermen & Commonalty of this City to Peter Bonnett for Lots N° 6. 7. & 8. fronting on Chatham Street, and for lot N° 25 fronting on Augustus Street which Deed having been examined by the Council of the Board, it was ordered that his Honor the Mayor cause the Common Seal to be affixed thereto. The Comptroller also presented a Bond from John Bingham & Peter Bonnett to said Mayor Aldermen & Commonalty conditioned for the payment of Ten thousand dollars in one year from date with lawful interest in payment for said lots, which Bond was accepted.

The Comptroller also presented the Draft of an Agreement between Jacob Wilkins and the Corporation for a Pier at Courtlandt Street, which upon being examined, & approved of, by the Council of the Board was ordered to be executed.

The Committee to whom was referred the Petition of Joseph Conklin praying payment for regulating and paving Rynder Street Reported that Mr Concklin had performed the work and ought to receive his money—Whereupon the Street Commissioner was directed to take measures forthwith for the collection of the same.

The Committee to whom was referred the [129] *Petition of the Inhabitants of White Street praying that the remainder of the Street may be paved, reported, that in their opinion the prayer of the Petition ought to be granted and they presented an ordinance for that purpose, which report was agreed to & the ordinance passed and Peter Arell, Joseph Demarest, Joseph Dederer, Benjamin Romaine, & Saml Hutchings were appointed Assessors.

The following Report was at the last meeting of this Board referred to a Committee.

†" The Street Commissioner to whom was referred the Petition of John R. Livingston and others praying that Provost Street between the present pavement & Chaple Street be paved, has the honor to Report

That this portion of Provost Street was regulated last fall and is probably sufficiently settled to pave with safety, and that he believes that the Petition contains a majority of the present proprietors: But as it is probable, that a Gore of vacant ground will be taken to continue Sugar Loaf Street into Provost Street, it will perhaps be adviseable to suspend the paving of this Street until the Board have determined upon the propriety of that improvement; as the pavement will in this case be very differently arranged. The Street Commissioner is of opinion that this improvement altho' small deserves the attention of the Board, as the ground is now vacant; and recommends that it be referred to a Committee, who will view the premisses All which is respectfully submitted

(Sd) John S Hunn"

[130] And now Alderman Bingham from the said Committee presented the following Report

"The Committee to whom the Report of the Street Commissioner was referred, respecting the propriety of extending Sugar Loaf Street into Provost Street have the honor to Report

* Marginal note reads *p. 117.*—Ed.
† Marginal note reads *p. 102. 119.*—Ed.

That they have viewed the premises and caused the annexed Survey to be made which in their opinion plainly shews the advantages which will result to the neighborhood & community by making the improvement suggested.

The ground that this arrangement will take into the Street is now vacant and if left, the lots upon it will be askew. If the Street be carried through the ground will be square; and as there is not more than one & three quarters of a town lot, in the plot required to make this improvement, the Committee are of opinion that the Board ought to direct the street Commissioner to treat with the proprietors for it, without delay; for if buildings were put up (& it is a portion of the City rapidly improving) the expence would be considerably encreased, and the Corporation blamed for want of foresight

(Sd) John Bingham
Thos J. Campbell."

which was confirmed.

Alderman Bingham from the Committee to whom was referred the petition of Peter P. Van Zandt & others praying that Washington Street may be paved from Warren to Chamber Street reported

"That Washington Street from Warren Street to Reed Street has never been paved, but that it is paved from Reed to Jay Streets—That it would [131] in the opinion of the Committee be adviseable to pave it & lay the walks from Warren to Chamber Street of the present width of fifty feet as it is built upon agreeably to the wishes of the petitioners; but as the greatest part of the nuisance which exists in that street will remain still, unless the residue is paved, the Committee are of opinion that it would be proper to direct the curb Stone to be laid and the Carriage way paved from Chamber to Reed Street of the intended width of sixty feet. As there are no buildings within the last distance the Committee think it inexpedient to lay the walks there at present.

In Conformity with these ideas they present the draft of an ordinance, which they are of opinion ought to pass

Signed. John Bingham
Thos J. Campbell.

Which Report was agreed to and an Ordinance passed to carry the same into effect and Peter Arell, Joseph Demarest, Joseph Dederer, Benjamin Romaine and Samuel Hutchins were appointed Assessors.

The Street Commissioner to whom was referred to treat with the proprietors of the triangular plot of ground at the intersection of George, Lombard, & Cheapside Streets reported

"That he has called upon the several proprietors and finds that it is an undivided estate belonging to six persons in the following proportions

3/5ths to Coll Henry Rutgers	1/3 of 1/3 to Wm Crosby
1/5 to Mrs Ann Bancker	1/3 of 1/3 to John Beekman &
1/5 to Mrs McCrea	1/3 of 1/3 to Henry Bedlow

[132] and that Robert McKie hired the same at the rate of £14. ℔ annum.

The Street Commissioner further reports, that upon representing to the Proprietors, that it was the intention of the Corporation to keep this ground forever open as a Park, for an ornament to that part of the City, & to enclose it & plant trees around it, (in the manner they have done at Duane Street) all the proprietors except Henry Bedlow, have agreed to cede their estate therein to the Corporation gratis upon the condition it is appropriated to the aforesaid purposes. Mr Bedlow resides at Newark to whom the Commissioner twice wrote and received the following answer, wherein he consents to abide by the opinion of referees as to the value of his right in the premises.

Robert McKie is represented to be a poor man, he hired the premises for the purpose of establishing a Brewery; had dug the Cellar, framed his timber, and prepared the Boards for a small building, when he was requested to stop his work.

He has therefore been put to expence which he ought to be relieved from. And he has consented to leave it to the decision of two persons reciprocally chosen for that purpose, with power to appoint an umpire to judge between them in case they disagree.

The Street Commissioner recommends that this course be pursued, and that the Board appoint George Gosman on their part to unite with another to be appointed by Mr McKie—and that those two persons also decide upon the right of Mr Bedlow: as the interest of these persons is so small, that it would be imprudent to leave it to the decision of [133] a Jury which would add unnecessary expence upon the inhabitants.

As this Ground is now incumbered with the earth from the Cellar & with Carriages &ca the Street Commissioner solicits permission from the Board to direct it to be put in the order required, as no good can result from delay and it is now dangerous to passengers in the night.

All which is respectfully submitted

Signed John S Hunn

which Report was confirmed.

The Street Commissioner reported that in pursuance of the directions of the Board he had endeavored to treat with Messrs Somerydycks the proprietors of the Stable now standing upon the ground ceded by the State for the continuation of Bridge Street, that they had demanded the sum of $888. which in his opinion was much more than their value, and therefore recommended that the Sheriff be directed to impannel a Jury to assess their interests in the usual manner

which was agreed to.

The Street Commissioner in pursuance of the *order of the Board presented the draft of an ordinance for paving Front Street from Peck Slip to James' Slip, which was passed and James Titus John Seaman Willett Hicks. John Targee and James Coles were appointed Assessors.

The Street Commissioner also in pursuance of an †order of the Board presented the draft of an Ordinance for repairing the walks in Broadway which was passed and John Bogert Nathaniel [134] Mc-Vickar James Van Horn Robert Morris Jr and John H. Sickles were appointed Assessors.

The Street Commissioner represented that he was again under the necessity of stating to the Board, that Abraham Stagg still neglected to complete his Contract for regulating Ridge Street; he therefore recommended that the attorney of the Board be directed to institute a suit against Mr Stagg for breach of said Contract—Which report was confirmed.

The Street Commissioner made the following representation respecting the situation of Gouverneurs Alley

"The Street Commissioner has the honor of stating to the Board, that the sewer carried thro.' Gouverneurs lane by Nicholas Gouverneur deceased having been stopped by making South Street, it has become a great nuisance to that neighborhood, & that the southerly half of Gouverneurs lane between front and South Streets has never been paved and is in a shameful condition and requires the immediate interference of the Board.

Since the death of Mr Gouverneur Front Street has been paved, and gratings are made at the intersections to admit the water either in the Sewer or thro' cavities opened by the tide. These gratings are now filled with every kind of the most offensive substances.

Situated as this Street is it will be inexpedient to stop up this sewer, as there is no other way to discharge its waters, but it will be necessary

* Marginal note reads *p. 119.*—Ed.
† Marginal note reads *118.*—Ed.

to clean it out & extend it to the River—This ought to be done before it is paved, & it would [135] be adviseable to alter at the same time the gratings & turn them in the manner done in Broad Street. The Street Commissioner therefore submits the following draft of an Ordinance to correct this evil, which in his opinion ought to be passed"

John S Hunn Stᵗ Cʳ

Whereupon an Ordinance was passed in pursuance of said recommendation & Andrew Morris Isaac Sebring John Nitchie Junʳ Robert Morris Junʳ & Samuel Tooker were appointed Assessors.

Aldermen Mott & Minthorne were placed upon the Committee relative to the Site of a Church in Hamilton Square in place of Aldᵉ Mesier & Drake, one of whom was absent and the other expected soon to leave the City.

[142] A Report was received from the Council of the Board on the subject of the *account of I. A. Van Hook for Costs in the suit of the Corporation against Comfort Sands and daughter, which report was referred to Alderman Hopkins Messˢ Mulligan & Hegeman

The Market Committee to whom were referred the †Petitions of Alexander Jeroleman & John Stamler praying leave to exchange stalls, reported that the prayer of the petition be granted; which was agreed to.

The same Committee on the petition of Jos: Skillman for permission to erect a Butchers stall at Greenwich reported that the prayer of the petition ought not to be granted as he already held a Stall in one of the markets—which was confirmed.

The Comptroller presented a report on the subject of the accounts of the overseers of the Highways, which was directed to be referred to the Road Committee.

The Comptroller also presented a Report on the ‡Petition of B. Ferris praying payment of fees due him for collection of arrea[ra]ges

Resolved that the same be approved of.

The Committee to whom was referred the Report of the Council of the Board & the Street Commissr on the claim of the Trustees of the Presbyterian Church in Wall Street—reported, that it appears from a survey made by Mr Bond 1718 then City Surveyor that the ground claimed by the church, has remained from that to the present time occupied by the Corporation of this City as a Street and your Committee believing themselves not fully qualified to, are unwilling [144] to take the responsibility upon themselves to give an opinion upon the subject. The Committee further report, that they have had a conference with a Committee of the Trustees of the Church, who state that they are willing to have the business left to Referees, one to be appointed by them, & one by this Corporation & they two to choose a

third; the Committee submit the above proposition for the consideration of the Board, that it may take such measures as shall appear most adviseable.

June 5th 1809 Signed. Thurston Wood
Thomas J. Campbell
Samuel Torbert.

Ordered that the same lay over for consideration.

The Committee to whom was referred the resolution to examine into the propriety of opening the Streets between Broadway & the Bowery into Bleecker Street reported

That they have been upon the ground and consulted the maps of the property—That there are four Streets which would let into Bleecker Street at about the distance of 200 feet from each other, but that there are two maps by which the property in that vicinity has been sold, which renders it impossible for the Committee or the Surveyors to determine upon the lines without the assistance of the Board.

That Mr Bleecker has been repeatedly called upon and solicited to cede Bleecker Street, but that he refuses to do it unless the Corporation will work and regulate the Street free of expence to him, which the Committee cannot recommend, as it would be establishing a dangerous and expensive precedent—The [145] Committee believe under all circumstances that the Board ought to adopt the red lines, upon the Map herewith presented, as the line of the Streets as all the Houses are built upon it, and that the Board ought to direct Mulberry Street to be opened & continued to Great Jones Street. And they therefore propose the following resolutions

*Resolved that Elizabeth Street Mott Street & Mulberry Street be run agreably to a Map made by Casimir T. Goerck and designated on a Copy of a map made by Charles Loss, of the property of Edward Livingston Esqr dated in the year 1805 by Red lines and numbers, and that said Map be filed & dated this day.

Resolved further that Mulberry Street be opened in the aforesaid direction to Great Jones Street without delay & that the Street Commissioner apply to the several proprietors for a Deed of Cession

ered in the apportionment of the money upon an Assessment for the paving of Jay Street, he had caused the same to be corrected by the Assessors, which was now presented to the Board for their confirmation Ordered that the same be confirmed.

The Street Comss^{r} recommended that George Gosman be appointed Assessor for laying the Walks in Broadway in place of John Bogert who was interested—Agreed to.

[146] *The Street Commissioner represented, that the improvement contemplated in Broadway opposite the Government House could not be effected under the Ordinance of 22^{d} May last, he therefore presented an Ordinance as a substitute for the former, in which the same Assessors were named excepting Samuel Tooker who is interested, in whose place Daniel Smith was named

Ordered that said Ordinance do pass.

The Street Commissioner presented an Ordinance for assessing the Sum of D^{rs} 154 $^{18}/_{100}$ expences incurred for repairing the †drain in Beaver Street which was passed and the Assessors in the above ordinance were appointed Viz: John Nitchie J^{r} James W. Lent, Benjamin Stephens Garret Storm and Daniel Smith.

The Street Comss^{r} presented a statement of the sums due to the several persons named in the award for opening ‡Cross Street which was ordered to be referred to Alderman Mott Mess^{s} Hegeman & Torbert

The Street Comss^{r} represented to the Board that Cheapside Street was in a very offensive situation and that it required to be immediately repaired he also presented an Ordinance for that purpose Ordered that the same be referred to the Alderman & Assistant of the 7th Ward.

The Minutes of the last meeting were read & approved.

A Petition was received from Isaac Bell praying permission to dig a vault in front of his Lot in Greenwich Street, near the Battery—and

A similar request from Samuel Nosworthy to dig a vault in Hudson Street, were severally read and granted under the direction of the Alderman & Assist^{t} of the respective wards & Street Commissioner.

Petitions were read from William Benjamin & Joel Scribner praying to have remitted to them that part of the penalty for selling liquors without licence which belongs to the Public—which upon being read was agreed to.

Petitions were also received from John Brewster and David J. Craig praying a like remission, which were severally referred to the Attorney of the Board.

A remonstrance was received from Henry Titus & others against the Ordinance for repaving Pearl Street between Rose & Chatham Streets, which was referred to the Alderman & Assistant of the 4th Ward.

A remonstrance was also received from sundry Inhabitants against *repaving Cheapside St which was [149] referred to the Alderman & Assistant of 7th Ward

A Remonstrance was received from Daniel Winship against the granting of a Butchers Licence to Daniel Tier Junr whom he alledges to be a minor—the same was referred to the Market Committee

A Communication was received from Peter Schermerhorn stating that a proposition having been made to him some time since by the Street Commissioner respecting a strip of ground adjoining his property at Beekman Slip, he would now wish that a Committee might be appointed to confer with him upon the subject.

Resolved that the same be referred to the Alderman & Assistant of the (2d) Ward & St Commissioner.

A Petition was received from Dirck Ammerman Ferry Master soliciting the use of the Mud Machine for cleansing the New Slip at Brooklyn. Referred to the Committee on Wharves Slips & Piers, to whom the care of said Machine was committed with authority to permit its use.

A Memorial from sundry inhabitants, complaining of the practice of persons swimming in the Hudson river was read; Ordered that the Law prohibiting that practice, & the Law for the observation of Sunday be published in Hand bills & by the Printers employed by this Board.

A Petition was received from Stephen Hitchcock Contractor for Street manure, stating that in the Law passed respecting sweeping & cleaning the Streets, the Boundaries for deposit of manure had been altered, which was injurious to him Ordered that the same be referred to the Committee [150] on farming out Streets with the exception of Alderman Wood, in whose place Alderman Mott was appointed

* Marginal note reads *146*.—ED.

A Petition from John Gardner was received stating that he was desirous of improving a Water Lot which he owned between Grand & Broome Street, but as he understood that the Corporation intended to establish a Ferry near Grand Street he wished the place of the ferry to be designated—the same was referred to the Alderman & Assistant of the 10th ward, the Comptroller and Street Commissioner

A Communication was received from Monsieur Neuville stating that a number of French persons had arrived from the Havana in a destitute condition & praying the assistance of the Corporation—Resolved that the same be referred to the Commissioners of the Alms House.

An account was presented by Jacob Cholwell for lighting the Public Lamps from 10th of May to the 10th of June amounting to Drs 1334.45 Ordered that a Warrant issue in his favor for Dr 800, & that his a/c be referred to the Lamp Committee for settlemt

The Market Committee to whom was referred the *Petition of sundry inhabitants praying that John Kirk be permitted to erect a Butchers stall at the intersection of Broadway & Bowery road—reported that in their opinion the prayer of the said petition might be granted—Ordered that the same be granted.

The Market Committee also requested permission for a shed to be erected over a Stall at Fly market in Water Street, to be done without expence to the Board and to be taken down whenever required—Ordered that permission be granted.

The Road Committee presented the following Report—That they attended on the Public roads on friday last & took a view of their situation [151] That they have made arrangements with Mr McKoy to take away a Rock opposite Benjamin Bakewells land, another near Mr Shutes, & the flat rock near Mr Semblers, which he is to do without expence to this Board, & to make a stone bridge across the Street near Semblers & level the road so as to make it safe for passengers; and that Mr West is to remove some rocks near Somerendyck's free of expence to this Board The Road Committee further report, that they have directed a portion of the Rock opposite McGowns to be removed by the road master & engaged a rock-blower for that purpose, but that no other extra hands have been engaged, & that only the usual number are now employed.

The Road Committee further report that they have viewed the old Powder House, which is now to be appropriated as a dwelling for the Convicts sentenced to work on the public roads—and that they have

* Marginal note reads *p. 138.*—Ed.

directed the Superintendant of Public repairs to partition it into nine bed rooms so as to render it more safe by separating the criminals, and to form a room for the Keeper—The expence of all which will be trifling as the partitions are to be made with boards.

The Committee recommend that the prisoners be employed in the first instance to complete the bridge near the powder house and to finish*ing* so much of the road in a permanent manner as they will be able to accomplish, south of the gate of John Murray Jun^{r} which will employ them probably during several months.

The Committee further report that [152] the Street Commissioner & Road Masters have represented to them that they cannot get the road opposite Hamilton Square worked wider than 16 feet for the sum of 100 dollars heretofore appropriated for that purpose—and as it is entirely too narrow, & it is important to the Corporation property to open that road soon—the Committee recommend an additional appropriation of forty dollars for the purpose of working the said road of the width of twenty two feet.

June 12. 1809. Signed Nicholas Fish
Jacob Mott

Ordered that the same be confirmed.

The Committee to whom was referred the *petition of Meriam Leggett & others praying that Hague Street might be repaved Reported "that they have viewed the premisses & find the Street much out of order & requiring repair, that it is only twenty feet wide & being paved to descend the water to the center is often very filthy, & that it is without side walks.

The Committee therefore are of opinion that the prayer of the petitioners ought to be granted & that the width of ten feet ought to be left for the Carriage way, appropriating the residue as walks and that the old stoops, ought to be removed from the Street.

The Committee have prepared the draft of an Ordinance in conformity with these regulations, which they recommend to be passed.

June 12. 1809 (s^{d}) Adrian Hegeman
John S Hunn

Whereupon the Ordinance presented by the Committee was passed and John Brown Lewis Hartman, Moses Taylor, Peter Bonnett & Abraham Bloodgood were appointed Assessors.

The Street Commissioner in obedience to the [153] †directions of the Board presented a draft of an Ordinance for laying Curb Stone

*Marginal note reads *p. 125.*—ED.
†Marginal note reads *p. 139.*—ED.

&c in Broadway from the present pavement to Art Street, which ordinance passed and Clarkson Crolius, Richard Berrian, Jonathan Pinckney Gilbert Coutant & Abner Conklin were appointed Assessors.

The Committee to whom was referred the Petition of sundry inhabitants near Coffee House Slip Reported that it will be proper that the Cartmen who frequent the neighborhood of that Slip, be required to take their Stand towards the water below Water Street and not in the Streets adjoining & that the Committee of Laws be instructed to bring in an Ordinance accordingly—which Report was agreed to.

The Committee to whom was referred the *petition of Geo: & P. Lorillard reported

That Leases be given to Peter & Geo: Lorillard for Lots N° 30. 31. & 32. Tryon Row to be dated after the expiration of the present leases at the rate of 125 Dollars per annum per Lot, & also a new Lease for lot N° 4 Chatham Street dated after the expiration of the present lease at the rate of 225 Dollars per annum if the right of preemption is in them, and to calculate the date of the new leases so that they will expire in 21 years from the 1st May last—And that Geo: Feigenheim be put on the same footing—If Mr Lorillard puts thereon Brick buildings of such size as the Board may direct, their Leases be put on the same footing as the [154] lease given to Henry Titus about four years since.

Resolved that the said Report be confirmed.

The Committee to whom was referred the †petition of sundry persons in confinement, respecting the extension of the jail limits reported, That they have considered the subject & are of opinion that the debtors who have by their petition prayed for liberty to go to the water, the market & Church, ought to be gratified in that reasonable request, as it may tend to their health & comfort.

The Committee have caused a sketch of ground in the vicinity to be made & are of opinion that the following lots of ground in addition to the former limits will accommodate the prisoners as well or better than any others & contain less than five acres.

1st Beginning at the walk on the north side of Murray St at Chapel Street thence down that walk to Washington Street & thence the breadth of Murray Street and the Dock South of it called Dennings Wharf to the River.

* Marginal note reads *p. 123.*—ED.
† Marginal note reads *p. 124.*—ED.

2d From the walk aforesaid where it intersects Greenwich Street on the East side, thence along the walk on the East side of Greenwich Street its present width to a point opposite the corner of Greenwich & Vesey Streets near the fish market thence the whole of Greenwich Street including the market to the south side of Partition Street & the whole of Vesey Street including the market from Greenwich St^{t} to Washington Street.

3d From the gate at the Park opposite Murray Street to take in the whole of the walk to the gate opposite Beekman Street thence along the walk to the gate letting towards the jail & thence along the walk from the Jail to the gate near Murray Street including all the ground within this triangle. and

4th From the Gate of the Park opposite Beekman Street a walk eight feet wide across Chatham Row to the walk at the Corner of the Presbyterian Church yard, thence along the walk in front of the Church to a point in a line with the Easterly side thereof & thence the whole of the Church & Church yard within the pales all which contains five acres nearly.

John Bingham.

NB. The Committee being informed that the Church in Warren Street to which the present limits are extended has ceased to be used as a place of Public Worship—And as a Well of Excellent Water in Murray Street would be of real use to the debtors, the Com^{ee} recommend that the said ground be relinquished & that its equivalent in quantity be set off opposite said Well taking the whole breadth of the Street & equally on each side of said Well

The Minutes of the last meeting were read and approved.

A representation was received from Gabriel Havens and others complaining of Cartmen incumbering the street & sidewalks in Front Street between Beekman Slip and Crane wharf—Whereupon Resolved that the Cartmen who frequent Beekman Slip be and they are hereby directed to take their stands between Front Street and the head of the Slip and not in the Streets leading towards it, and that the order be published.

A Letter was received from A. I. McLaughlin resigning his office of Steward of the Alms House Ordered that the same be accepted.

A Petition from James Dobbin & others praying that the two Lamps at the foot of Division Street might be permitted to remain was read, and on motion Resolved that the prayer of the Petition be granted

Petitions were read from Wm McFall, Wm Allen, [161] Wm Spies and John Whitson praying to be relieved from the penalty incurred by them for selling liquors without Licence & were severally referred to the attorney of the Board.

A Petition was also received from Edward West praying to be released from a penalty incurred by him in not complying with an Ordinance of the Board respecting filling in certain Lots & upon being read was referred to the attorney of the Board.

A Petition from Nichs Lozier to be appointed Superintendant of the Convicts to be employed on the Public roads was read & referred to the Road Committee

A Petition of Thomas Duggan stating his losses in consequence of the regulations respecting Canal Street and praying the loan of Do 1000 was received & referred to the Comptroller & Street Commissioner

A Petition of Henry Parmele stating losses which he had sustained in consequence of a Contract he had made respecting the Mud Machine, and that he was now in great distress and praying the grant of D^{rs} 50, was read & referred to the Comptroller

A Remonstrance from Henry Roome & others against repaving Broadway was received & referred to Mess^{s} Slidell Haight & Campbell

A remonstrance from Grove Wright and Robert Morris against issuing a Grant for Water Lots to John Jackson at Brooklyn was read and referred to the Committee on Wharves, [162] Slips & piers, the Ferry Committee & Comptroller.

A Letter was rec'd from Gouverneur Morris Esq^{r} on behalf of the Commissioners for laying out Roads &c^{a} enclosing their account of the Expenditure of the sums heretofore granted, and requesting an advance of D^{s} 1000—Ordered that the account be referred to the Comptroller, & that a Warrant issue in favor of the Commissioners for One thousand Dollars.

A Letter from the Superintendant of Streets requesting an advance of D^{rs} 100. for defraying the expences of his department—Ordered that a Warrant issue for that sum.

A Memorial was received from Thomas Eddy treasurer of the New York Hospital requesting the determination of the Board as to the charge which is to be hereafter made by the Alms House against the Hospital for Interments—Ordered that the same be referred to Alderman Bingham, Drake & M^{r} Slidell.

A request from Nathan M^{c}Vickar to build a Vault in front of his lot in Partition Street was granted under the directions of the Alderman & assistant of the Ward & the Street Commissioner.

A Petition from Margaret Ogden praying that she may be permitted to build a cemented brick vault in her yard instead of filling up the same as Ordered by the Ordinance of the Board, was referred to the Alderman & Assistant of the (1st) Ward and the City Inspector.

[163] A Petition from Oliver Jacques & others for removing a house of W^{m} J. Waldron that stands in Walker Street, was read & referred to the Alderman & Assistant of the 5th Ward.

A complaint of Jacob Lally & others that Greenwich Street was neglected to be properly cleaned was referred to Alderman Mott Mess^{s} Ward & Douglass.

A remonstrance from Charles Dobbs & others against changing the present limits for depositing Manure was referred to the Com-

mittee to whom was referred at the last meeting of the Board the petition of Stephen Hitchcock.

A Memorial was received from Isaac Clason & others praying that Charlotte Slip might be completed, & for that purpose that a Wharf might be run out on the West side of said Slip from a lot now or late the property of John Grant and extending so far as to form a safe & convenient Basin for the reception of vessels—Whereupon Resolved that the prayer of said petition be granted and that the Street Commissioner be directed to present the draft of an Ordinance for carrying the same into effect.

A Petition was received from Thomas Demarest and others praying that Piers [164] may be run out at the foot of Barclay, Robinson, Murray, Warren and Chambers Streets into the Hudson to the permanent line Ordered that the same be referred to the Committee on Wharves Piers & Slips & to the Street Commissioner.

The Committee to whom was referred the Petition of Peter Goelet, reported

"That it appears to the Committee that the Petition of M^{r} Goelet contains a fair statement of the facts relating to his case. Under the particular circumstances thereof the Committee are of opinion that without intending to make this case a precedent for others the request of M^{r} Goelet ought to be granted, but that the same ought to be upon such terms, as will place both the Corporation and M^{r} Goelet in the same situation as they would have been in if he had himself built the piers; for this purpose they are of opinion that M^{r} Goelet should repay the Corporation their Principal with interest and other expences if any such there are.

To prevent misunderstanding with M^{r} Goelet it may be proper that he should expressly relinquish any claim if any such he has to any Wharfage for the offset of twenty feet part of the front of the old Dock which is left within the Slip by the offset of the new pier June 1809

(Signed) Jacob Mott
Sam^{l} M. Hopkins.

On reading the petition of Peter Goelet & the report of the Committee thereon Resolved that on [165] payment to this Board of the Principal interest and expences, if any, therein referred to & on M^{r} Goelets executing a Release of the twenty feet offset mentioned in the report, that this Board will quit claim to M^{r} Goelet in fee the wharf

mentioned in his petition with the income thereof from the time the same was built & that the Comptroller adjust the account accordingly.

Alderman Bingham from the Committee to whom was referred the communication of the Street Commissioner relative to laying the Walks in the Bowery opposite to M. Dela Croix Reported that the original Contractors should proceed with their work agreably to their Contract on Condition of their paying M. dela Croix for what dirt he may have deposited on his walk—which report was confirmed.

The Street Commissioner on the subject of opening Chambers Street made the following Report

"That he has been informed that M^r Lorillard intends immediately building upon a lot in Augustus Street, which the Corporation have in contemplation to appropriate to the Street; and as M^r Weathershine is kept in suspence respecting his lot, & complains of the inconvenience & loss it is to him to remain in that situation; the Street Commissioner suggests the propriety of determining upon the subject finally; & if it should be agreed that the street is to go through he conceives a resolution to the following effect would [166] be proper That the entire lots of ground N^os 25. 26. & 27 situate in Augustus Street, and the entire lots of ground N^os 6. 7 and 8 situate on Chatham Street be taken for the purpose of extending Chamber Street to Chatham Street, and that the Street Commissioner be directed to treat with the proprietors in behalf of this Board agreably to law

all which is respectfully submitted

June 19, 1809. John S. Hunn.

Which was agreed to

The Street Commissioner agreably to the request of the Committee upon Wharves Piers & Slips presented a Map of the ground round Peck Slip with the position of the Piers recommended to be extended into the River and proposed the following Resolutions in conformity therewith

Resolved that the two piers directed to be extended into the East River in front of Peck slip be erected and made in conformity with a plan exhibited by the Street Commissioner, signed by him & dated this day; and that he be and hereby is directed to advertize the most westerly pier in the public News papers (agreably to Law) to be commenced on or before the 10^th of August next, and to be completed on or before the first day of December next.

Resolved further that the Committee on Wharves Piers & Slips be

and they are hereby authorized to unite with the proprietors to carry the objects of the foregoing resolution into effect and that they receive and decide upon Proposals for extending the middle pier. all which is respectfully submitted

June 19th 1809 John S Hunn St. Cr

Which were adopted

[167] The Commissioners of the Alms House to whom the *case of John F. La Forgue junr had been submitted, reported

That they have read the report of the Committee appointed to investigate the case of John Francis La Forgue junr referred to them by your Honble body, & have attentively examined the other documents accompanying it, and very respectfully inform the Board that they are of opinion the matter ought not, and does not come within their province to decide on, and consequently feel bound to return the papers without expressing their opinion officially on the subject; they feel no hesitation however in saying in an inofficial form, as the result of their investigation, that the Report of the Committee bears evident marks of fair conclusions, drawn from good evidence before them.

committed to him praying the remission of that part of the fine, incurred by them in selling liquor without licence, which belonged to the Public, Reported that in his opinion the prayers of the Petitions should be granted—Which report was confirmed.

[175] The Attorney of the Board on the petition of Edward West praying remission of penalty incurred by not complying with an Ordinance of the Corporation respecting filling up a Lot, reported in favor of the Petitioner, Resolved that this Board do not agree with the Attorney in the said report.

The Attorney of the Board presented a Communication informing the Board that the Suit of P. Schermerhorn against them had been tried and that a Verdict had passed in favor of Plaintiff for nine hundred dollars subject however to a Case to be submitted to the Court That Mr Emmett had been employed as additional Council in the cause. That the Attorney of the Plaintiff had offered to accept the amount of the verdict in full satisfaction of Suit, but which offer said Attorney did not think the circumstances of the case would warrant the Board in complying with Whereupon Ordered that the said Report be filed, and that a Warrant issue to Thomas A Emmett Esqr for 100 Dollars as a fee in said suit.

The Attorney also presented a letter from Willm Houston complaining of said Attorneys having commenced a suit against him, without directions of the Board, Resolved that the conduct of the Attorney has been proper & that he proceed to recover the money due by said Wm Houston.

The Committee to whom was referred the Petition of O. Jacques & others for opening Walker [176] Street Reported

That they have viewed the premisses and the situation of the House (petitioned to be removed) and are of opinion, that it would be a desireable addition to the intended improvement if the whole of the Intersection of Beach Walker and Chapel Streets were opened and converted to a Park, in the manner the Board have consented to do in a similar case at the intersection of George, Lombardy, & Cheapside Streets; They are further of opinion that the additional expence of removing the house mentioned would be comparatively small, as a great number of lots will be benefitted by the whole improvement, which would otherwise be exempted from the Charges of this Assessment.

June 26. 1809. Signed John Bingham
Thos J. Campbell.

Resolved that said Report be confirmed

The Committee to whom was referred the *remonstrance of Henry Titus and others against repaving Pearl Street Reported, that as a large portion of the Proprietors were opposed to having the Street taken up & repaved and as the Street was not in such a situation as to require this Board to act contrary to the wishes of the proprietors, they were of opinion that, that part of the Street should not be repaved—Which report was confirmed.

The Committee to whom was referred the †petition of John Gardner, praying that the situation for a Ferry Stairs at Corlaers-Hook might be pointed out, Reported

[177] "That they have viewed the premisses & the Maps thereof which accompany this report, and are of opinion, that the Ferry Stairs ought to be placed in the Water adjoining the present Bulkhead opposite the twenty five feet reserved on the North side of Grand Street Slip for Street

respectfully submitted

The Street Commissioner on the subject of opening Bridge Street and Bancker Street presented the following Report

That the Jury in the case of opening Bridge Street from Whitehall to State Street have delivered a verdict to the Court in favor of Egbert Someryndyck and Walter Colton of two hundred dollars for their interest in the Buildings, with liberty and directions to remove them at their expence and to be converted to their use

The Street Commissioner further reports that the Jury in the case of opening Bancker Street from Pearl to Roosevelt have delivered to the Court the following Verdicts.

To Charles La Rue for Ground		3000.
do for buildings nothing		
To James McMullun for Ground	100	
for Buildings	375	
		475
Making a total Sum of		$3475

with directions that the Buildings be removed [179] at the expence of the Corporation.

The Street Commissioner is of opinion that the above are such verdicts as the Corporation ought to comply with; and as the business will not admit of much delay (particularly the case of Bridge Street) he recommends that the enclosed drafts of Ordinances be passed and that the Board direct a Warrant to be issued in favor of Messs Somerendyck & Co for 200 Dollars to be tendered to them for the amount of the Verdict in their favor agreably to Law. All which is submitted

Whereupon an Ordinance was passed for assessing the said sum of Dol[s] 3475. upon the owners & occupants intended to be benefitted by said regulation in Bancker Street and that Eldad Holmes, John P. Anthony Philip J Arcularius Abraham Bogert & Peter Bonnett were appointed Assessors.

And an Ordinance also passed for assessing the *damages in opening Bridge Street & Freder[k] DePeyster Isaac Heyer Gilbert Aspinwall Peter Dustan & James Stewart were appointed the Assessors; and a Warrant was ordered to issue in favor of Somerendyke & C[o] for $200 in payment of the award aforesaid in their favor

The Comptroller & Street Commissioner presented a Report on the †petition of Tho[s] Duggan which was directed to be referred to the Finance Committee.

The Comptroller & Street Commissioner to [180] whom was referred the petition of Samuel M. Thompson & others for Water Grants on Hudson River reported

That the petitioners having purchased part of the Block of ground bounded by West, Washington, LeRoy & Morton Streets without previous application to the Board (as far as they know & believe) entered into Contract & built a bulk head during the last summer on or nearly on the West line of West Street commonly called the permanent line, and have been at considerable expence in filling in the vacant space upon the presumption, as they state of receiving forever, the Wharfage in front of said Bulkhead.

That some time previous to their commencement of these operations, the Corporation caused a Map of that shore to be made, and suitable places for reservations for public purposes to be marked thereon which Map being completed was presented to them, and the same confirmed as by references to the Minutes of the Board and the Map aforesaid filed in the office of the Street Commissioner will fully appear.

The subscribers further report that the Bulkhead erected by the Petitioners is in part one of the reservations so agreed upon by the Board and in the expence of which they ought to be consulted, as they will have to bear a suitable portion of it, but as the petitioners assert that they did not know that there was any intended reservation in front of their premises when they commenced their work, the subscribers conceive that the Board will take no advantage of this circumstance particularly as they have built it for a fair and reasonable sum.

* Marginal note reads *115.*—Ed.
† Marginal note reads *161.*—Ed.

[181] The Subscribers further report that the Board having adopted a Scale of rates to be paid for Water Grants along Hudson River upon a plan which in their opinion is just and equitable—they know of no reason for rejecting the prayer of the petitioners upon the adopted scale, nor on the Contrary any inducements the Board may have for altering the quit rents in their favor.

It will hardly be necessary for the Subscribers to remark that the holders of ground along the river, who have at their own expence sunk Bulk heads in front of Streets & reservations have been permitted to enjoy the wharfage until the Corporation directed piers to be extended from Slips; the cases of Mr Clason, Coll Rutgers & others may be cited at present. If the Common Council place the petitioners in the same situation they will, in the opinion of the undersigned, have no reason to complain especially as the improvements they have made can be of no possible use to the Corporation at this time, and which probably would not have been consented to by them if application had been made.

The Subscribers are therefore of opinion that the Corporation ought to direct grants to issue to the petitioners for the ground covered with water to the East line of West Street, & that they consent to pay the Petitioners whenever they carry out piers or at any specific time to be agreed on, half the expence they have now been put to for making the Bulkhead & filling West Street in front of the aforesaid reservation. All which &c

The Minutes of the last meeting were read and approved.

A Petition was received from Margaret Crawbuck widow of Godfrey Crawbuck Butcher stating that she was obliged to remove from the place where she had been permitted to have a Stall for the Sale of Meat & praying permission to erect a Stall on a lot in Broadway above the Arch Bridge, which was referred to the Market Committee.

A Petition was received from J. R. Wheaton stating that he had received a quantity of Virginia Flour, which had been inspected in that state and not imagining that our Laws required a re-inspection had laden it on board a Vessel for exportation where it had been seized by the Inspector of Flour The Petitioner further stated that M^r Jones the [194] Inspector of Flour was willing to relinquish his proportion of the flour forfeited by this unintentional breach of the Inspection Laws, and he therefore prayed the Board to relinquish the part forfeited to the Public—Whereupon it was Resolved to refer the same to a Committee consisting of the following persons with authority to remit the forfeiture if in their opinion proper The Committee were Alderman Mesier M^r Mulligan & Campbell.

A Petition was received from Tho^s Phillips praying to be appointed a Measurer which was referred to the Committee on applications

Petitions were received from Robert Sickles and Jacob Altemus praying severally to be appointed Steward to the Alms House, which were directed to be referred to the Commissioners of the Alms House.

Petitions were received from John M. Baker Wm McFall, Oliver Land & Wm Gee stating that they had been prosecuted for selling liquor without licence and praying to be released from the Judgements obtained severally against them Whereupon Resolved that the prayer of the former be granted and that the latter be also discharged upon the payment of the Costs which have accrued in their several suits.

Petitions were also received from Frederick Myers, John Hutchings, John S. Taylor, Thomas Williams, Catharine Mills, John Twiney Ann Regan Moses Hill & Joshua Doan praying [195] remission of fines for selling liquors without license, which were severally referred to the attorney of the Board.

A Petition was received from Thomas Darling Captain of the 3d Watch District stating that in July or August last he had been informed that the Magistrates had passed an order for taking up on a certain night and conveying to the Alms House all loose and disorderly women and that the Watchmen were to be aiding the Peace officers in that duty; that he had accordingly gone out with his men on that service; that he was afterwards Indicted for an Assault in entering on that evening the house of a Woman of ill fame in Church Street, altho' he had not entered the House, that having been advised to submit to the Court, he, relying upon the well known infamous character of the prosecutrix accordingly submitted [&] from some misapprehension in a conversation between him and the Attorney General he produced no testimony in mitigation and he was fined by the Court ten Dolls

That a prosecution has been commenced against him for the same and costs amounting to D$ 12.50—and he prayed indemnification therefor. Whereupon the same was referred to Aldermen Bingham, Minthorne & Mr Douglass who immediately reported in favor of the Petitioner. It was moved that the Report of said Committee be referred back to them for further examination and for a statement of facts—On the question to agree to the same it was carried in the affirmative

A Petition was received from the owners & occupants of Lots in Duane Street praying that said Street might be paved from Washington Street to the Hudson River

[196] Ordered that the same be referred to the Alderman and Assistant of the 5th Ward

A representation from Gurdon S. Mumford was received stating that he had at the Sales of the Inclenbergh Lots purchased several lots for which he had made payment but that the Corporation had not performed their Contract on that occasion, and praying that the monies

which he had paid might be returned to him—Ordered that the same be referred to Aldermen Hopkins Mott Mesier & The Comptroller.

A Letter was received from John Kortright stating that upon a proposition for running a road from the North River to Kingsbridge road, he had deposited with the Clerk of the Board a Deed from John P. Waldron to him the said Kortright & requesting the return of said Deed—Ordered that the same be referred to the Clerk of the Common Council

A Petition was received from Nicholas W. Stuyvesant praying for a Water Grant opposite his property in the 10th Ward on the East River—which was referred to the Comptroller.

A Petition from Fire Engine Company N° 7 stating that the Engine was no longer serviceable and praying that a new one might be given them was read and referred to the Fire Department.

A Communication from the Superintendant of Repairs was received stating that a Boat for the repairing of the Docks was necessary, and that the one formerly belonging [197] to the Board was destroyed by the Ice last winter, was read and referred to the Committee of Repairs.

A Petition was received from Jacob Schieffelin and others stating that a Lamp had been removed from N° 189 Street & praying that it might be replaced which was referred to the Lamp Committee.

A Petition was received from John P. Ritter and others praying that Greenwich Street might be regulated from the present pavement to Hammersley Street, which was referred to the Alderman & Assistant of the 8th Ward

A Petition was received from John Jackson and Wm Vallon praying that a Ferry might be established from the foot of Walnut Street to Jackson Street at Brooklyn—which was referred to the Ferry Committee

A Petition from Thomas S. Townsend & others praying that James' Slip might be enlarged was read and referred to the Committee on Wharves Piers & Slips.

Reports were received from the Trustees of the Methodist Episcopal Church, and from the German Reformed Church, of the appropriations by them of the monies received under the Act entitled an Act directing certain monies to be applied to the use of Free Schools in the City of New York passed 8th April 1801. which said Reports were ordered to be filed.

The Attorney of the Board to whom had been committed the several *Petitions of Seaman and Concklin, Matthias Wall, David Reynolds John Petrin Abraham Van Ranst Zach. Sickles and [198] Daniel Boyle praying remission of the several fines incurred by them, Reported that in his opinion the said several fines should be remitted,

Which Report was confirmed.

The Market Committee to whom was committed the †prayer of Benjamin Benson praying to be assigned to Stall N° 4 Oswego Market Reported that in their opinion the prayer of the Petitioner should be granted—which was confirmed.

Alderman Mesier upon the ‡Petition of J. W. Kearney for the paving of Marketfield Street made the following report—The Undersigned in the absence of the Assistant Alderman & the Street Commissioner after having viewed the situation of the withinmentioned premises is of opinion that the application ought to be granted and the District forthwith paved as it is in its present state a great nuisance Which report was confirmed and the St[t] Commissioner directed to prepare an Ordinance accordingly.

||The Committee to whom had been referred the remonstrance of the Inhabitants of Pearl Street against filling up a Well in said Street Reported that in their opinion the filling up of the same should be suspended, as it appeared to be the wish of the inhabitants that the present Well should remain. Which Report was confirmed.

Alderman Mesier in the absence of the Assistant of the 1[st] Ward & the Street Commissioner to whom with him the §Petition of Joshua Jones and others for paving South Street had been referred Reported that in his opinion the [199] District should be regulated and paved and that the Street Commissioner should prepare an Ordinance for carrying the same into effect—Which Report was confirmed.

The Committee to whom had been referred the ¶Petition of the Inhabitants in the vicinity of Varick Street praying that the same might be regulated, Reported that in their opinion the Street ought to be so regulated as to be passable for Horses and Carts which report was confirmed and the Street Commissioner directed to prepare an Ordinance accordingly.

The Committee to whom was referred the ¶Petition of the Inhabitants of Broome Street Reported that in their opinion the Street

Commissioner should take immediate measures for having the said Street paved which Report was agreed to and the St[t] Commissioner directed to prepare an Ordinance accordingly.

The Alderman & Assistant of the 2[d] Ward & Street Commissioner to whom was referred the communication of Peter Schermerhorn respecting the sale of a lot to him adjoining his store at the Corner of Front Street & Beekman Slip, and which lies to the South of Front Street being a Gore of twenty four feet upon Front Street and running to a point along Beekman Slip to South Street—Reported

That in the year 1803 or 1804 while M[r] Strong was Comptroller the Corporation desirous of opening Beekman Slip opposite the property of M[rs] Lawrence and including the above described premises agreed with M[rs] Lawrence to pay her 1000 Dollars for her right in the premises—And as it was a considerable advantage to M[r] Schermerhorn to keep the Slip open and establish his lot a Corner (which would not have been so if M[rs] Lawrence had had a Grant) he consented and actually paid M[rs] Lawrence the said 1000 Dollars for [200] said benefit. A few years ago to wit in 1807 the Common Council passed an order for having the whole of Beekman Slip to the South line of South Street filled in; which has been done & M[r] Schermerhorn charged a large proportion of the expense of that work which he has paid to the person employed to collect that assessment

The Undersigned have endeavored to obtain the real value of property in the vicinity, in order to determine upon such fair sum as M[r] Schermerhorn ought to pay for the premises having in view whatever advances he may have made, but they have failed in agreeing with him upon the sum he ought, under such circumstances to pay to the Corporation. The Committee have therefore agreed with M[r] Schermerhorn to recommend to the Board to leave the subject to the determination of Isaac Burr and Joshua Jones two respectable citizens and from whose collective judgments Justice may be expected and in case they disagree to call in a third appraiser.

The Committee are fully persuaded that the Street will be improved by the Sale of this gore to M[r] Schermerhorn and of sufficient width, being left 84 feet. and they therefore recommend that the subject be referred the abovenamed persons Respectfully submitted

Which said Report was confirmed.

[201] The Street Commissioner presented a return of delinquents upon the assessment for paving Jay Street from Greenwich to Washington Street on which the Corporation were charged D^{s} 71.$^{75}/_{100}$ for their portion of the intersection and recommended that a Warrant issue in favor of Samuel Montgomery the Collector upon the Treasurer for that sum and that a Warrant also issue to him to enforce the payment of the residue—Which was agreed to.

The Street Commissioner also presented a return of Delinquents upon an assessment for repaving and erecting a Bulkhead on Rynder Street and recommended that a Warrant issue to Samuel Montgomery to enforce payment of the same, which was ordered accordingly.

The Street Commissioner in conformity with the Report of a Committee upon the Petition for paving Walker Street presented an Ordinance for paving the same which was passed and Lewis Ford, Benj^{a} Romaine, Sam^{l} Hutchings, Thomas Stagg jun^{r} and Ludovick Hackstaff were appointed Assessors

*The Street Commissioner also agreably to the Report on the petition of Jameson Cox and others presented an Ordinance for paving Second Street which was passed and Samuel Delaplaine, Abraham Van Gelder Napthali Philips & Richard Berrian were appointed Assessors.

An Ordinance was also presented on behalf of the Street Commissioner agreably to the †order of the Board for paving Marketfield Street from Greenwich Street to the Slip which was passed and Garrit Storm, David Cargil, James Bailey, John S. Schermerhorn and Isaac Heyer were appointed Assessors.

The Street Commissioner agreably to the order [202] of the Board on the subject of opening ‡Walker Street reported

That the lot designated on the Map by the letter A belongs to Miller Son & Miller one corner of which containing 250 square feet will be required and that they ask £400 for the said piece of ground subject to the future assessment

That lot B. belongs to Peter Bogert of Princeton New Jersey; about 520 feet of which is required and that he asks £200 for the same, or £600 in Cash for the whole lot

That lot C. belongs to George Wragg of which 800 square feet is required, and that he asks £800 for the lot together and £400 for the piece required

That lot D belongs to James Barkley of which 1000 square feet

* Marginal note reads *140. 158. 177. 201.*—ED.
† Marginal note reads *198.*—ED.
‡ Marginal note reads *175.*—ED.

will be required for which he asks £1000, stating at the same time that he will take £1000 for the whole lot, being of opinion that the half that will be left subject to the Assessment will not be worth possessing.

That lot E belongs to Abraham Child about one half of which will be required for the Street, for which piece of ground he refuses to treat; declaring that he has no wish to dispose of it, but that if the Corporation are determined to deprive him of his property, he must submit to the decision of a Jury but that he is willing to take £1000 for the whole lot and nothing less

The lots F & G belong to William J Waldron which together contain about 3500 square feet of ground; upon lot F there is a two story frame house, for which house and lot he asks £800 and the same price for the vacant lot G making £1600.

[203] That lot H belongs to Peter Hoffmire and contains 1200 square feet of ground upon which is a small two story frame house with a brick front; for the whole of which premises he asks £1200.

Considering the situation of this property, the great expence which will ultimately be assessed upon it, for paving and regulating the Streets, and the probable heavy assessment for Canal Street & Chapel Street, the Street Commissioner is persuaded that the sums demanded are too high, and that all of them are unreasonable except the sum asked by M^r^ Bogert, which is perhaps under all circumstances also beyond the value, and he therefore recommends that precepts be directed to the sheriff to value the ground agreably to law.

All which is respectfully submitted

July 3^d^ 1809 Signed John S Hunn

Whereupon Resolved that, the said Report be confirmed, & the Attorney of the Board cause Precepts to be issued to the Sheriff agreably to Law.

The Street Commissioner on the subject of opening *Chamber Street Reported

That the lot in Augustus Street designated by the N° 27 belongs to Peter Lorillard: the lot N° 26 in same Street to John Nicholas Weathershine, and the lot N° 25 in Augustus Street and the lots number 6. 7. 8. in Chatham Street to Peter Bonnett; that all these lots are vacant except the lot belonging to M^r^ Weathershine upon which is the remains of a wooden Building much damaged by the late fire and almost untenantable. The Street [204] Commissioner further reports that M^r^ Lorillard refuses to fix a price upon his lot, stating that it is

* Marginal note reads *186. 165. 119. 107.*—ED.

not for sale; and that it is of greater value to him than to any other person, being connected with a lot belonging to his Brother, with whom he is concerned in trade & upon the rear of which they contemplate rebuilding their Tobacco manufactory: He however proposes if the Corporation insist upon taking his lot, to exchange it equally with them for a lot adjoining his Brothers on the other side to be taken from the rear of the lots belonging to the Corporation fronting upon Tryon Row —or that he will give them £2000 for said Lot if they allow him that price for his.

Mr Weathershine also refuses to treat or to fix a price upon his lot also stating that it is not for sale—but has no objection to exchange it for a lot in the same street, if the Corporation will in addition build him a good house thereon

Mr Bonnett demands 3000 dollars for his lot in Augustus Street, and 4000 dollars for each of his lots in Chatham Street, and that he would rather risk their value to the decision of a Jury than to take less, for that being together they are more valuable as he can erect upon the three lots four tenements of nineteen feet in front.

The Street Commissioner further reports that in his opinion it would be inexpedient to make the exchanges suggested by Mr Lorillard & Weathershine and that the demands of Mr Bonnett are unreasonable and beyond the real value of the lots & he recommends that the Sheriff be directed to impannel a Jury to fix their value agreably to Law.

July 3d 1809 Signed John S Hunn

[205] Which Report was confirmed and the attorney of the Board directed to cause precepts to the Sheriff to be issued.

The Street Commissioner agreably to the directions of the Board presented the following report on the subject of reducing the Lots fronting on Grand Street between Elizabeth & Rynder Streets

"Considering the great heighth of the Hills to be reduced, the time necessary to perform the work and the difficulty of obtaining the names of all the owners promptly the undersigned believes the period for the completion of the work ought to be extended to the first day of January next, as stated in the enclosed draft of an Ordinance. But in order to correct a *nuisance which at present exists at the intersection of Elizabeth & Grand Streets, it is adviseable to direct a part of the work to be done sooner if provision is made in the draft accordingly

All which is submitted

July 3d 1809. (Sd) John S Hunn

*Marginal note reads *184*.—Ed.

Whereupon the said report was confirmed and the Ordinance be presented passed.

The Street Commissioner made the following Communication

The S[t] Commissioner represents to the Board that the Jury having directed that the old house standing upon Bancker Street, and lately belonging to Charles LaRue should be removed at the expence of the Corporation, it becomes necessary previous to making up the assessment, to ascertain its value, or the expense it will cost to remove it, in case no person will do it without compensation

[206] The Street Commissioner therefore suggests the propriety of passing the following order in the premises

Ordered that the St, Commissioner cause the House lately belonging to M[r] LaRue situate at the Corner of Pearl and Bancker Streets & which has been valued and taken to widen Bancker Street to be sold at auction, or otherwise disposed of, in such manner as may in his opinion be most conducive to the public benefit

The Street Commissioner further reports that the same Jury directed that the building upon a small strip of ground in the same Street taken from M[r] Mullen should be also removed at the expense of the Board—and suggests the propriety of the following order as the removing of this portion of M[r] M[c]Mullens building will not be done without compensation.

Ordered also that the Street Commiss[r] cause the portion of the House of James M[c]Mullen which stands on the ground taken from him to widen Bancker Street to be removed for the lowest sum for which the same will be done at Public Auction or in any other way most conducive to the public interest

All which is respectfully submitted

A Petition was rec'd from *Enos Tompkins an Inspector of Wood praying an extension of his District—refd

[220] A recommendation was rec'd for the appointment of Abraham A Hart as Deputy Superintdt of Convicts which was referred to the Road Committee.

Petitions were rec'd from Alexr J. Stewart respecting a Complaint which had been entered against him for encumbering the Streets, & from James Mitchell & John Crenery praying for a remission of fines incurred for selling liquor without license, which were severally read & referred to the Attorney of the Board

A Petition was rec'd from Henry A Coster and others, stating that agreably to the order of the Board, they had contracted for & were proceeding to run out a Pier on the East side of the Old slip to the distance of 250 feet, but that they were stopped by order of the St Comissr who directed the Pier to be shortened, & praying that they may be permitted to run out the Pier agreably to the original order of the Board Whereupon Resolved that the prayer of the said Petition be granted.

* Marginal note reads *66*.—Ed.

A Letter was rec'd from I. Auld Contractor for lighting the Public Lamps stating that he is ready to give a note for the amount of the Oil received from the former Contractor, but as there is a considerable quantity of the same that cannot be used immediately, he wished an extension of 30 or 60 days on the Balance and for which he was willing to pay Interest

Resolved that his request be complied with.

[221] A Communication was rec'd from the Comptroller stating that Mrs Beekman who was the Assignee of a Bond given by the Corporation to Robert Gilmore wished the Interest due on said Bond amounting to Seventy seven Dollars might be paid—Ordered that a Warrant issue for the payment of the same.

An application from Walter Bowne for payment of the Assessment for ground taken to open Frankfort was received and referred to the former Committee on his application Viz. Alderman & Assistant of 4th Ward and Street Commissioner.

An application from the Superintendant of Repairs for an advance of Drs 300. to defray expences of his department was received—Ordered that a Warrant issue for that sum

An Application from Jos: Burjeau requesting that the Attorney of the Board might be authorized to pay over to him a part of fines collected for delinquencies by Cartmen as a Compensation to him for his trouble in prosecuting them—was referred to the Attorney of the Board

The Street Commissioner agreably to the report of a Committee on the subject of paving* Duane Street from Washington Street to the Hudson river reported an Ordinance for that purpose which was passed and Lewis Ford Benjamin Romaine John Morss Gideon Tucker and Arthur Smith were appointed Assessors

The Street Commissioner also remarked that as probably it might be necessary to raise the Wharf in part of the Basin between Duane & Jay Streets he thought it would be proper to direct the Superintendant of Repairs to cause it to be done, if necessary. Which was agreed to.

[222] The Street Commissioner also agreably to the report of the Committee on the †Petition of John J. Astor and others for making Goerck Street from Grand to North Street reported an Ordinance for that purpose which was passed and which on the suggestion of the St Commissioner was directed to be published in the Newspapers employed by the Corporation

The Attorney of the Board on the several Petitions of Michael Byrn, Reuben Brooks, Jonathan Looker & W^m Marrenner for remission of fines for selling liquor without licenses reported in favor of the Petitioners, which was confirmed.

The Comptroller on the Memorial of John R. Livingston praying y^e discontinuance of a Suit brought by the Attorney of the Board for Water Lot rent reported that

M^r Livingston by his Petition of the 16^th of March 1807 solicited a Grant for a Water Lot between Stanton & Rivington Streets on the East river "upon such terms as have been granted to others." A Grant was accordingly made out by M^r Morton the former Comptroller dated the 14^th Dec^r 1807. the first payment to be made on the first day of May following, agreably to the usual custom

[223] At the time M^r Livingston signed the Counterpart which was in the Spring of 1808 he made some objections to paying at the time stipulated in the Grant, but at length executed the same. From a review of a number of Grants bearing the same date with the Memorialist's and several still later, all of which expressly covenant that the first payment shall be on the succeeding May, and the practice having been long established; the subscriber is of opinion that it would be improper for the Board to interfere in the premises and that the Attorney should be at liberty to pursue such measures as may be necessary for effecting a settlement.

Which Report was confirmed.

The Committee upon the Petition of J. Carpenter & Wm Gibson praying License as Butchers and to have a Stand in Fly Market reported that in their opinion no new permits should be granted until the Deputy Clerk of the Market ascertain the number already granted as they were of opinion that if all the persons who now have permits, were to attend, the Market would not be sufficiently large to contain them

Which report was agreed to.

The Street Commissioner recommended that Jacob Peters be appointed Assessor for Walker [229] Street in place of Saml Hutchings who is interested that John Stewart be appointed Assessor for Bridge Street in place of James A. Stewart who is indisposed & that

James Hall be appointed Assessor in the several Assessments wherein Richd Berrian has been appointed, who is out of town

Which several recommendations were confirmed.

The Street Commissioner presented the following report

"The Street Commissioner deems it expedient to advise the Board that Mr Weathershire in opposition to the injunctions of the Committee and the order of the Corporation is proceeding with great rapidity to build a large slight framehouse over the old house damaged by the late fire, & ordered to be removed to open Chamber Street; evidently with a view either to prevent the Street from going thro' or to injure his neighbours who will be assessed for it, as well as the Corporation.

And as he has ten or twelve hands daily at work at it & has already enclosed and roofed the house & is putting up Chimnies, it is probable he will run the vicinity to a considerable expence before the time allowed by law to take it by valuation

The Board are the best judges whether they have any power or can devise any means to prevent or check such a great abuse of their orders & such a palpable injury to the inhabitants of that vicinity

John S. Hunn."

Resolved that the same be referred to the Council & Attorney of the Board & Street Commissioner.

[230] The Street Commissioner agreably to the report of a Committee upon an *application from the Proprietors of lots in Broome Street presented an Ordinance for paving said Street from the West side of Broadway to the East side of the Bowery which was passed & Ebenezer Clark James Hall Geo: Cleland, Jonathan Pinkney & John Stevens were appointed the Assessors.

"The Committee to whom was referred the letter from Daniel Phœnix Esqr City Treasurer resigning the office he holds under the Corporation, & requesting that an order may be made to transfer the Books Papers and Cash, as may be necessary in the premises

Have the Honor to Report

That they express what they believe to be the unanimous sentiments of the Common Council, that the City Treasurer during the period of near Twenty six Years has preserved the entire confidence and approbation of the Corporation by his integrity and faithful discharge of the duties of his office; and while they yield to the request signified in his communication of the 26th ulto [240] of accepting his resignation on account of the duties of this office being too oppressive for his declining years; they recommend that Whitehead Fish Esquire Cashier of the Manhattan Company be appointed Chamberlain and City Treasurer in the place of Mr Phœnix. It is also recommended that a Committee be appointed to examine the Accounts of the City Treasurer, and deliver over all the Accounts, Books, Papers, & Cash in his possession belonging to the Corporation to the new Treasurer, and to make the necessary arrangements accordingly with him.

And the Committee with a view to render the present system of Keeping the accounts of the Corporation more perfect, beg leave further to recommend that all receipts in future for money paid to the Chamberlain shall not be deemed good & sufficient unless signed by the Chamberlain & Countersigned by the Comptroller; that all Warrants when passed by the Supervisors as paid, on a settlement with the

Chamberlain shall be stamped, or otherwise marked, so that the same may never again be produced.

July 12th Signed James Drake
John Bingham
Peter Mesier
Jacob Mott

Which Report was agreed to

Whereupon Resolved that Whitehead Fish be and he is hereby appointed City Chamberlain And Resolved that the following Gentlemen be a Committee to examine & settle the accounts of the late Chamberlain Viz. Aldermen Mesier Bingham & Drake

[241] A Report from Daniel Phœnix City Treasurer, shewing the present state of the Treasury was received and referred to the above Committee

An Account was received from William Mooney Superintendant of the Alms House of the receipts and disbursements of said Institution for the Quarter ending the 21st July which was referred to the Comptroller.

The Committee to whom was referred the Petition of Benjamin F. Haskins reported

That the statement made by Mr Haskins the petitioner is true, and that in their opinion the City Inspector ought to be directed to serve Ordinances upon all the proprietors of lots adjoining those of Mr Haskins directing them to fill up the same without delay and in case that they refuse or neglect to fill the same, that the Street Commissioner cause the same to be filled up and assessed agreably to Law.

Augt 7. 1809. (Signed) Mangle Minthorne

On the eleventh of January last the Subscriber had the honor to submit to the Board among other documents, a statement of Bonds payable, accompanied by the following memorandum.

"Several Bonds have been given for Canal Street some of which are not on the Books in the Comptrollers Office but from information obtained of the Street [243] Commissioner the whole amount of the Debt was.....	45.228.25
Supposed by him to be paid.....	12.788.25
balance.....	$32.440.

Between three and four years interest at 7 P Cent per annum is now due on these Bonds, which will make the whole amount shortly payable, upwards of Forty Thousand Dollars.

The injurious consequences arising from the system formerly pursued of issuing Bonds for opening of Streets, begin now to appear. There can be no question but that owners of land taken by the public for Streets, should be fairly and honorably paid within a reasonable stipulated time; and it must be also evident that the assessment & Collection of the like amount ought punctually to be made within the same period. The evils that result from not strictly adhering to this mode of conducting the business, must be apparent. The Bonds issued are transferred frequently from the original holder, and the present possessor expects payment at the time stipulated, without regarding the object for which the Bond was given, and depends on the good faith of the Corporation for punctual payment. From whatever cause a delay has arisen in the Assessment and Collection of the amount

payable by individuals benefitted by the Streets, the inconveniencies & loss resulting therefrom to the Corporation is still produced and the evil will necessarily continue & encrease till a more rigid adherence a more equitable mode [244] is pursued. What answers ought to be returned to the applications abovementioned is now brought forward and is attended with no inconsiderable embarrassment. The credit of the Corporation stands pledged on one hand to a due compliance with the conditions of the Instruments which they have executed; and on the other the situation of the Treasury absolutely forbids the granting of Warrants, which cannot at present be satisfied, and to issue the latter without possessing adequate means for their discharge will not diminish the difficulty. The Subscriber is satisfied that every exertion has been made in his department, to effect the collection of monies due to the Corporation, and to maintain the credit of the Treasury; and if the expences have encreased more rapidly than was anticipated, it has been owing to occurrences over which he had no controul. There has been no diminution in the collection of the ordinary branches of Revenue and considerable sums will still become due in the course of the Current year, from the same quarter. The Sale of Lots adjacent to the Collect and in other places together with the Tax for the present year, are sources from which supplies may confidently be expected. The first will probably produce a considerable sum, and it now rests with the Committee on that subject to digest the best plan for accomplishing this important object. About one half of the Assessment Books are returned; when the whole are received, they will immediately be laid before the Supervisors for [245] adjustment, & no time will be lost in expediting the calculations, in order that the respective Collectors may proceed as promptly as possible in Collecting the Tax.

Considering the subject in question, with all that impartiality and attention which it demands, the Subscriber is induced to recommend from a review of the premises, that the payment of all Bonds given for Canal Street, should, of necessity, be suspended for the present

As new Commissioners are appointed to regulate Canal Street, strong hopes are entertained that the Completion of this protracted business, is not very remote

The petitioner undoubtedly has rendered himself by the conduct for which he is now in confinement the just subject of punishment— But as that has been already very sensibly felt by him, & there is no probability of his making any satisfaction in money the Undersigned is of opinion that the Common Council would be justified in remitting the penalty particularly as the Petitioner may on application under the Act commonly called the Two Hundred Pound Act procure his liberation which will be attended with expence to him & in all probability with no advantage to the Common Council.

The Undersigned has therefore the honor to recommend the following Resolution

Resolved that Isaac A. Van Hook Esq^{r} the late Attorney of this Board be and he is hereby authorized to discharge John M^{c}Dermot a prisoner confined in Jail at the suit of this Board upon payment of Costs—And if in his opinion the said John M^{c}Dermot shall be unable to pay them, then that the said Attorney discharge him without costs.

easterly by the farm in the possession of Thomas Astin, Southeasterly by the East River or Sound & Northwesterly partly by land belonging to this Corporation. That Lot N° 204 was sold in fee to J. And that lot N° 205 still belongs to & is now in the possession of the Corporation, that the above described lots lie between the Main road and the land of the petitioners; and that the ground [249] reserved for Streets between said Lots is so extremely rough, irregular & rocky that a safe and tolerably convenient road could not be made between any of them without incurring an expence of several thousand dollars, which in the opinion of the Committee would be inexpedient at present, but inasmuch as the Petitioners have no road or Way to and from their land but by the indulgence of individuals through whose land they now pass, & inasmuch as a safe and practicable road might be opened from the Main Road to the land of the petitioners through lot N° 205 without much expence to the proprietors, the Committee would recommend that the said lot N° 205 should be sold to the Petitioners in fee simple at the same rate p^{r} acre as the adjoining lot N° 204 was sold for to John Wilkes in the Year 1806 but as said lot N° 205 is deficient in quantity Viz three feet in front & rear on the same throughout said lot; that in consequence of said deficiency the Committee would recommend that the Sale should be made to them exempt from the payment of an annual rent.

*The Street Commissioner presented an Ordinance for raising regulating and paving South Street from Coffee House Slip to Old Slip which was passed and Samuel Tooker Robert Morris Jun^{r} John Nitchie S^{r} John H. Sickles & George Gosman were appointed Assessors

The Street Commissioner presented the following report respecting Ground at Beekman Slip

" The Street Commissioner has the honor to represent to the Board that the Referees appointed to value the piece of Ground proposed to be sold to M^{r} Schermerhorn on the West side of Beekman Slip think it [251] necessary that they should be furnished with a survey & map of the Shape and quantity of ground to be valued, to be annexed to their award in order to form a just decision of the value of the property and that the Ground be staked out correctly to prevent further disputes or misunderstanding.

In order to effect this it will be expedient for the Board to de-

termine upon the precise line of Mr Codwise's Lots on Burling Slip; for if the Southerly Corner of his lots on South Street should be directed to be placed 25 feet from the inside of the wharf sunk by him on the east side of Burling Slip the Corporation will obtain a front of three feet upon South Street adjoining Beekman Slip, which will considerably encrease the value of that plot of Ground & render it more useful to Mr Schermerhorn If on the contrary the corner of Mr Codwise's Lot should be directed to begin 28 feet from the wharf the survey will bring the ground to a point or sharp Corner upon South Street & very little encreaze the size of Mr Schermerhorns lots there, as may be seen by an inspection of the enclosed sketch of the premises

The Street Commissioner further represents that *that* in all probability Burling Slip will in a few years be filled up; in which case the Street will be considerably more than 100 feet wide—that Mr Codwise by the tenor of his Grant, has the use of a street or Wharf 25 feet wide & no more, & that the survey placing his corner 25 feet from the Wharf or Slip will be no possible inconvenience to him, as the Street will then be the width originally intended; & his ground is still vacant.

The Street Commissioner is of opinion that the Corporation ought to avail themselves of this [252] opportunity of obtaining compensation for the said three feet of ground, which will otherwise be entirely lost to them & recommends the following Resolution

Resolved that the Southwesterly line of the Water Lots granted to George Codwise Junr on the East side of Burling Slip and lately filled up by him commence on the Northerly line of South Street twenty five feet easterly from the inside of the present wharf of Burling Slip and thence continue in a straight line to the Northwesterly corner of his lots on Front Street and that the Street Commissioner procure a Survey and map of the lots between Beekman & Burling Slips & cause the Ground to be staked out in conformity thereto

The Street Commissioner further represents that the Referees are of opinion that it will be adviseable for the Corporation to enter into Bonds with Mr Schermerhorn to abide by their decision giving them power to choose a third person in case they disagree—The Street Commissioner being of the same opinion presents the draft of a Bond for that purpose which he submits for the consideration of the Board.

Commonalty in the proceedings aforesaid amount to Six
$6'179:0 Thousand one hundred and seventy nine Dollars besides such sums as the said Mayor Aldermen & Commonalty by their Street Commissioner have agreed to pay Henry Brooks for a Gore of Land required of him

Therefore be it Ordained by the Mayor Aldermen and Commonalty of the City of New York in Common Council convened this fourteenth day of August in the year of our Lord One thousand eight hundred and nine in pursuance & by virtue of the power in them vested by Law, that Peter Bonnett, John P. Anthony, William Whitlock Samuel Stilwell and Luke Kip being disinterested freeholders of the City of New York be and they are hereby authorized and directed to make an equitable assessment of the aforesaid sum [255] of Six Thousand one hundred & seventy nine Dollars and all other expences in the premisses, among all the owners and occupants of the houses and lots of Ground intended to be benefitted by the aforesaid improvement, in proportion as nearly as may be to the advantage which each shall be deemed to acquire."

He therefore presented An Ordinance for assessing the same on the persons to be benefitted which was passed and Peter Bonnett, John P. Anthony W^{m} Whitlock Samuel Stilwell and Luke Kip were appointed Assessors.

The Street Commissioner reported that Justus Dearman by his agreement is entitled to one third of his money for sinking the Pier on the East side of Old Slip and that the portion due from the Corporation was D^{s} 1066 $^{6}\frac{7}{100}$ which he recommended should be paid; Ordered that a Warrant issue for that sum.

The Street Commissioner presented an Assessment for regulating Pitt Street which was confirmed and Thomas Lovett was appointed to collect the same.

The Street Commissioner presented an Assessment for opening Frankfort Street which he recommended previous to confirmation should be published in the Papers, & that 100 Hand Bills should be struck informing of said assessment—Which was directed accordingly.

The Street Commissioner represented that Halsey and Westervelt Contractors for building the Center Pier at Peck Slip were entitled to receive D^{rs} 1500 on their Contract having sunk three Blocks and prepared other materials.

Ordered that a Warrant issue in their favor for that Sum.

[256] The Street Commissioner informed the Board that the un-

finished Assessments which were formerly put into the hands of Mr Bussing to collect & were afterwards placed for that purpose in the hands of Richard Clarkson still remained uncollected & that Clarkson had left the City—Whereupon Ordered that the Attorney of the Board take measures for the recovery of the sums received by Clarkson & unpaid by him from the sureties of said Clarkson.

A representation was made to the Board that John Bush at No 8 Roosevelt Street had at a fire on the 7th Augt refused to deliver out his fire buckets Ordered that the same be referred to the Atty of Board.

A Letter was received from James Fairlie declining an Acceptance of the appointment of Commissioner for Canal Street.

The Board having been informed that Mr Rutherford declined to act as a Commissioner for Canal Street—William H Ireland & Daniel J. Ebbets were appointed Commissioners

Resolved that the Secretary give notice to those persons of their appointment & that their neglecting to act be considered as a resignation of their Office.

Resolved that Peter Van Hooter, Isaac R Remsen, Johon John, Nicholas Fox & Edward Bradwell who were at the last Sessions of the Peace sentenced to the County Prison be employed on the Public Highways under the direction of the Road Committee.

The following Resolution was presented & passed

[257] "Whereas applications are frequently made to the Board for Water Lot Grants, and the applicants afterwards neglect to take them out; therefore Ordered that all communications for Grants shall be accompanied with a Map or Survey of the property applied for, certified by a sworn Surveyor; and after a report thereon by the Comptroller recommending the issuing of a Grant; the Applicant shall execute the same within four weeks from such report, or forfeit his claim to said Grant

Ordered that the Clerk cause the above resolution to be inserted in the newspapers employed by the Board for the space of four Weeks"

Which was agreed to.

The following information was also directed to be published three times in the papers employed by the Board

"As frequent instances occur of Children straying from their homes, & many persons may be ignorant of the proper place whither they ought to be sent, the Corporation have designated the Alms House as an Asylum for lost children, where it is requested they may be immediately sent, that parents & guardians may know where to apply for information"

Resolved that the Comptroller be authorized to issue to the Heirs of Thomas Ten Eyck Two Bonds one for Dollˢ 1000 and one for $500 upon the surrendering of a Bond for Dᵒ 1500 some time since given by the Board to Thomas Ten Eyck deceased.

William Devoe of the Ninth Ward Cordwainer was admitted a Freeman of this Corporation and took the Oaths prescribed by the Charter.

Ordered that the Mayor issue his Warrants to pay as follows.

The Minutes of the last meeting were read and approved.

A Petition was received from Peter Wilt praying license as a Butcher and to be assigned to Stand N° 17 Fly Market, which was referred to the Market Committee.

A remonstrance was rec'd from sundry Butchers on the subject of selling meat at other places than the established Markets and complaining of the same which was referred to the Market Committee.

A further Petition was rec'd from Joseph Conklin stating that the *money due to him for regulating and paving Rynder Street was still unpaid & praying the interposition of the Board in his favor—Ordered that the same be referred to the Committee on his former petition Viz Aldermen Wood Mesier & Mr Slidell

[268] A Petition was rec'd from Ephraim Brasher & others on the subject of laying the Walks in Broadway which was referred to the former Committee on this subject Viz Aldermen Mesier Bingham & Mr Haight

A Petition was rec'd from sundry Inhabitants praying that so much of North Street as *as* is between the East side of the Bowery & the West side of Orchard Street may be opened & that so much of said Street as is between the Bowery and First Street may be regulated

Whereupon Ordered that the Street Commissioner report an Ordinance agreably to the prayer of the Petition

The Attorney of the Board submitted a letter rec'd by him from Thos A. Emmett Esqr stating that he was directed to renew the †suit of Capt. Colver on the subject of the Mud Machine in the name of his Brother, & requesting that the said Attorney would enter an appearance in behalf of the Corporation & that he would also consent

† Marginal note reads *103.*—Ed.

that the Testimony taken in the former cause be used without a further examination

Whereupon Resolved that the same be referred to the Council & Attorney of the Board to report thereon.

A Letter was rec'd from Peter H. Wendover complaining that there are constant infractions of the Sunday Law by racing Horses.

Ordered that the same be filed.

[269] A letter was rec'd from Alderm[n] Bingham (who on account of illness in his family was unable to attend the Board) recommending that the Roads thro' the Inclenberg purchase should be opened—Ordered that the same be referred to the Road Committee.

An application was rec'd from John H. Sickles Treasurer of the Building Committee, stating that Johnston & Stevens had fulfilled their Contract for the delivery of Marble, & requesting the advance of Dollars 3000 for the settlement of their account—Whereupon Ordered that a Warrant issue in favor of M[r] Sickles for that amount.

It was also directed that a Mortgage given by Nathan Johnson & Elisha Stevens Jun[r] bearing date on 27[th] June 1805 upon certain lands in the County of Berkshire & State of Massachusetts for securing the payment of D[rs] 4000. to the Mayor Aldermen & Commonalty of New York should be given up to said Johnson & Stevens to be cancelled, the same having been satisfied.

The following person was appointed a member of the Hook & Ladder Company N° 3 at Greenwich the Chief Engineer certifying a vacancy

Geo: Smith Public Porter Spring Str[t] 8[th] W. vice W[m] Welling resig[d]

A Return was rec'd from the Police Office stating that Capt. Snow Had reported that he had suspended Selick Waterbury one of his Watchmen for neglect of duty—Which was referred to the Watch Committee

A Report was received from the Trustees of the African Free School stating that the interest of [270] the fund of the Institution was appropriated to its use & that there were at present 120 Children educated in the School.

Ordered that the same be filed.

The Committee to whom was referred the Petition of the New York Free School Reported

That a considerable sum of money has been expended by the memorialists in repairing & fitting up the Old Arsenal for the

reception & accommodation of the school; that in the appropriation of their funds to this object, every attention appears to have been paid to œconomy & a faithful application of their means, consistent with due regard to beauty of architecture and convenient distribution of apartments: that their resources are now exhausted and the building unfinished; that they are reduced to the necessity of asking assistance from the liberality of this Board, or of seeing the work entirely suspended: that the sum of $1500 would enable them to complete the building and the rent of the lower part of the House added to the annual allowance of the Legislature will defray all future expences of the school.

Under these circumstances, the Committee impressed with a high sense of the usefulness of the free school institution, & feeling it incumbent on the Common Council as Guardians of the poor and unprotected to extend its patronage so far as to enable the Memorialists to complete their building, recommend that they be authorized [271] to borrow the sum of $1500. for the purpose of completing the School House, & that this Board will guarantee the payment of said sum, within Seven Years, with legal interest annually

Jacob Mott

Jasper Ward.

Ordered that the same be confirmed

The Committee to whom was referred the *Application of Abraham Cannon to be permitted to transfer his Lease of the Ferry at Corlaers Hook to M[r] John Gardner, reported that in their opinion leave should be given to make the transfer—Which was confirmed.

The Committee on the Petition of the Inhabitants of Essex Street praying that said Street might be regulated between Grand & Delancey Streets reported that in their opinion the prayer of the Petition should be forthwith complied with, and that the Street Commissioner prepare an Ordinance accordingly

Which was agreed to.

The Attorney of the Board to whom had been committed the †Petition of James Farrell praying remission of a fine for selling cloathing opposite to N° 159 front Street & of John Rosback praying remission of a penalty recovered against him for suffering a Nuisance on his premisses reported on the former case that in his opinion the fine

* Marginal note reads *236*.—ED.
† Marginal note reads *259*.—ED.

should be remitted & in the latter case that one half of the Penalty should be remitted to the Petitioner

Which several reports were confirmed.

[272] The Committee to whom had been referred the Communication from the Commissioners of the Alms House made a report, which together with said communication was referred to a Committee consisting of Aldermen Bingham Mesier Messrs Jno Drake Torbert Douglass Hegeman Mulligan

A Report was rec'd from the City Inspector's Department recommending that Fourth Street should be regulated from Division Street to Pump Stt which was approved & an Ordinance passed therefor, & Benjn Thurston Ebenezer Clark Abraham Van Gelder, Robert Seaman & John Pell were appointed Assessors.

The City Inspector presented Ordinances for the correction of sundry nuisances from No 5065. to 5078 which were severally passed.

The Comptroller presented a Deed from the Corporation to John Lawrence & Richard Riker for Lot No 205 part of the Common Lands And a Lease to Thomas Magrath for a Ferry at Manhattanville for ten years from the first day of May 1808, which were ordered to pass on being approved of by the Council of the Board.

The Comptroller also reported a Lease to Andrew I. McLaughlin for the Flag Staff at [273] the Battery, which was referred for further consideration to The Recorder Mr Hegeman & Mr Mulligan

The Comptroller also presented the following Report on the *Petition of Peter Costleyou which had been referred to him

The Comptroller respectfully Reports on the petition of Peter Costleyou, requesting to compromise with the Corporation for Quit Rents on a Water Lot Grant at Whitehall Street.

At a former meeting of the Board, the Subscriber had the honor to state verbally his opinion as to the impolicy and highly injurious consequences which would arise to the revenue by commuting for Quit Rents. He is still of opinion that it would be dangerous to establish a precedent, attended with many objections, all affecting the fiscal resourses of the Corporation. However desirous it might be to extinguish a number of annual payments inconsiderable in amount when taken separately; and notwithstanding the plausibility of the suggestion of vesting the amount commuted in other real estate, which would create an annual interest, yet it is apprehended from a minute investigation of the various advantages and evils attendant on a modification of the revenue system in this respect, that the latter would greatly pre-

ponderate & far surpass any essential benefit to be derived from a change.

Under these considerations it is respectfully recommended, that no infringement should be made at present on Grants for Water Lots, & consequently [274] that the request of the Petitioner cannot be complied with.

Respectfully submitted

Which Report was confirmed

The Street Commissioner presented an Ordinance for paving Jay Street from Washington to West Street which was passed & Wm Hilyer George Cleland, Benjamin Romaine Gideon Tucker & John Mors junr were appointed Assessors.

He also presented Ordinances for laying Walks & Curb Stone on Water Street on the north side of Cherry Street from Montgomery Street to Corlaers Hook & for laying Walks & Curb on the north side of Cherry street from Rutgers to Gouverneurs Street, which were passed & Thomas Timpson James McMaster, James Dobbin, Dennis McCarty & Benjamin North were appointed Assessors.

The Street Commissioner presented an Ordine for carrying out a Pier on the East side of Beekman Slip which was agreed to—and the ordine passed on the 31st July last was rescinded.

A Communication from the Street Commissior on the subject of Canal Street was received and referred to Alderman Mott Messrs Torbert & Mulligan

The Street Commissioner presented the following Report accompained by a Map designating the Ground of the Corporation taken in by Mr Fisher

[275] "The Street Commissioner has the honor to represent to the Board that when the Jury were impannelled & sworn in the case of opening Collect Street he took the liberty of representing to the Court, that all the ground included in the summons to Leonard Fisher did not belong to him according to the appearance upon the Maps of the Collect, but that some part of it required for the Streets as well as other grounds that Mr Fisher has lately inclosed in fence belongs to the Corporation—The Street Commissioner is sorry to say that the Court would not at that time take notice of the subject—stating that the Corporation were committed by the description in the Summons; & consequently that all the ground required for Collect Street which Mr Fisher had in his enclosure was valued as his property.

The Undersigned desirous of promoting Justice as well in favor of the Corporation as an individual caused a survey to be made agreably to the Deed of Mr Fisher (which he would never shew until compelled by the Court) & finds that his opinions of Mr Fishers trenching upon the Grounds belonging to the Corporation are well founded.

The Board are no doubt well convinced of the propensity of Individuals to trench upon Public grounds, & as Mr Fishers enclosure is of a few years date, they will judge of the propriety of directing legal measures to be pursued to compel him to render justice.

Augt 28. 1809 (Sd) John S. Hunn

[276] Ordered that the same be referred to Messrs Douglass Campbell Mulligan

The Street Commissioner presented a Report stating that Mr William Lawrence had enclosed by a fence part of Dover Street, & that it was necessary for the Board to determine the width of Dover Street Ordered that the same be referred to the Alderman & Assistant of the 4th Ward & St Comssr

The Street Commissioner presented a Report recommending to the Board to unite with Mr John R. Livingston in making Goerck Street

Ordered that the same be referred to the Aldermen & Assistants of the 10th & 7th Wards & Stt Commissioner

The Street Commissioner presented an account of James Cheetham for printing—Ordered that the same be referred to Aldermen Fish Mott & Mr Mulligan

The Street Commissioner recommended that a Warrant be directed to issue to *Halsey and Westervelt for Dollars 1350. on account of middle Pier at Peck Slip—Ordered that the Warrant issue

Alderman Bingham was at his request discharged from the committee on the †remonstrance of Walter Bowne against the Assessment for opening Frankfort Street & Mr John Drake was substituted in his place.

An application was rec'd from John Mowatt for permission to build a vault opposite his house [277] in Pine Street which was granted under the direction of the Alderman & Assistant of the Ward and Street Commissioner

An application was rec'd from John S Roulet & others in behalf of John Chaviteau a french Emigrant from the Island of Cuba Ordered that the same be referred to the Commissioners of the Alms House with authority to grant such relief as they shall judge expedient.

The Committee to whom was referred the remonstrance of Walter Bowne against the *Assessment of Frankfort Street Reported that in their opinion the Assessment on Frankfort Street should be confirmed

A further Remonstrance was rec'd from Walter Bowne on the same subject & praying to be heard by Council—Whereupon Resolved that the Report of the Committee be agreed to [280] that the Assessment on Frankfort Street be confirmed & that Henry Van Pelt be appointed Collector.

The Committee to whom was referred the several †petitions & remonstrances respecting the foot walks in the Bowery Reported

That they on reflection are of opinion, an Arch of a Cord so long as would be requisite, should the foot walk be only sixteen feet would produce to the neighborhood an inconvenience arising from the dust and snow being constantly blown off the crown of the arch on the foot walk—Also that as we have a standing Ordinance regulating this subject, & as the street is now about to be permanently regulated, we can see no reason why the principles of that Ordinance should not in the present case apply

The Superintendant of Repairs Reported that the Flag Staff on the Battery was in a decayed state & dangerous to the inhabitants Ordered that he take measures for repairing the same, or for erecting a new one as he shall judge most adviseable.

The Comptroller agreably to the Report of the Committee on said subject Reported a Bond which he had drawn from the Corporation of the City of New York to the ‡New York Free School Society for $1500, payable in seven years at seven ℔ Cent Interest

Ordered that the Corporate Seal be affixed thereto & the same delivered to the Trustees of said Society.

The Street Commissioner recommended [282] that Ebenezer Clark be appointed Assessor for opening Bancker Street in place of Abraham Bogert who was interested which was agreed to.

The St[t] Commissioner presented the following communication

That in order to secure the north side of the Pier directed to be sunk on the West side of Peck Slip it will be necessary to sink a Bulk Head & make the wharf on the South side of South Street between the Pier on the West side of Peck Slip & the Pier said to belong to Peter Schermerhorn and Ebenezer Stevens, as that portion of South Street remains unimproved all which will more clearly appear upon an inspection of the enclosed draft of the premises.

A Petition from Fire Engine Company N° 7 praying for a new fire engine House was read & referred to the Committee on the Fire Department.

A Petition was rec'd from the Trustees of the African Free School, requesting that [289] as the School House now occupied by the New York Free School will soon be vacant that it may then be applied to their use. Resolved that the said application be referred to Aldermen Hopkins Bingham & M[r] Haight

The Superintendant of Repairs communicated to the Board that he was informed that the Ground at present occupied by the Flag Staff at the Battery would probably be used by the United States on the completion of the works now erecting near that place—Whereupon Resolved that the said representation be referred to the following Committee with authority for them to select a scite whereon to erect a Flag Staff on the Battery The Committee were Ald[n] Fish Mess[rs] Mulligan & Campbell.

A Petition was rec'd from Simon V[n] Antwerp stating that he was a purchaser at the Sales of the Inclenburg Lots, that as the Corporation had neglected opening the roads which by Contract he understood they were bound to do, he had from that circumstance sustained considerable injury, and as no Conveyance had been made to him of the ground, he prayed that the purchase money which he had paid might

be returned to him. Ordered that it be referred to the Road Committee.

A Petition was rec'd from John Lovett praying that further time might be given him for making Goerck Street than that mentioned [290] in the Ordinance lately passed on that subject Ordered that the same be referred to the Aldermen & Assistants of the 10th & 7th Wards.

A Petition was rec'd from John Littel stating that he was the owner of a Lot in Columbia Street, that he understood said Street was objected to on the part of the Board & praying that he might be permitted to build on said Street or that the value of his lot might be paid to him, which was referred to the Alderman & Assistt of the 8th Ward & Street Commissioner.

A Petition was rec'd from the owners & occupants of Hudson Square praying that the said Square might be regulated & the Curb stone laid around the fence—Ordered that the Street Commissioner prepare an Ordinance in conformity to the prayer of the Petition

A Petition from George McKerig stating that *that* he was proprietor of a lot in Pearl near Oak Street on which he wished to build & praying that the line of his lot might be ascertained

Resolved that the same be referred to the Aldermn & Assistt of the 4th Ward & St Commissioner with authority to comply with the prayer of the Petition.

The Committee to whom had been referred the subject of opening the roads through the Inclenbergh Lots presented the following Report

"The Committee to whom was referred a Communication from the Committee of Finance [291] on the subject of the Inclenbergh Lots, Report that on the 25th day of March 1806 said lots were sold at auction to the highest bidder reserving to the Corporation an annual rent of twenty bushels of wheat on each lot. That 25 P Cent of the purchase money was to have been paid down & the residue in two equal payments of six & twelve months with interest at six P Cent. of all which about one half has been received; that at the time of Sale a Map or Diagram of the property was exhibited on which were pourtrayed certain Streets or Avenues communicating with said lots & without which, no access could be had thereto; said Streets and avenues passing also through the grounds of several individuals; that in pursuance of an implied stipulation on the part of this Board to open said Roads, a Jury was duly impannelled & returned and did proceed to value the ground so to be used as one of said streets or roads Viz:

the Albany Avenue, and made return of their Verdict to the Mayors Court, which said Court accepted and approved the same, but which has never been confirmed or acted upon by this Board—That the delinquent purchasers avail themselves of the want of access to their lots alledging that as a non performance of the conditions of sale on the part of the Corporation & thereby excusing themselves for non-payment of the purchase money—Under all the circumstances of the case the Committee recommend [292] that the verdict of the Jury be confirmed by this Board & an Ordinance passed for carrying the same into effect; which Ordinance is herewith presented.

All which is respectfully submitted

Ordered that the same be referred to the Council and Attorney of the Board with directions to take immediate measures for abating the nuisance.

The Committee to whom was referred the *Report of the Street Commissioner on the permanent regulation of Cherry Street Reported

That in their opinion it is out of the power of the Street Commissioner or any other person to make a permanent regulation for Cherry Street until the Common Council determine on the line of the River whether South Street shall extend in front of this portion of said Street or not. The Street Commissioner has been ordered by the Board better than three Years since to have the Soundings taken and a profile made in front of this part of the river which this very street fronts in order that [301] the Common Council might adopt a permanent plan for the margin of the River. The members of the Board or several of them must be acquainted with the situation of this part of our River; the Burl Rock reef runs out in front of this part of the City from four to five hundred feet and at low tide it is nearly bare, & very dangerous to our Coasting vessels, it is believed that this Reef must be covered by a large Pier or be docked over *it* to secure a sufficient depth of water in front of the City. The Soundings and a profile of this part of the River are certainly requisite to be had before the

* Marginal note reads *296*.—ED.

Board can determine on the line of South Street We are therefore of the opinion that the Ordinance as passed for laying the Curb stone & making a gravel walk as requested by the inhabitants ought to be carried into effect immediately. We also recommend that in order to prevent any mistakes arising from a temporary regulation that the Profile as presented be painted on a board and placed up in Cherry Street between Rutgers and Gouverneur Streets, and that the Superintendant of Repairs have the same prepared and put up at some conspicuous place

All which is submitted — Jacob Mott, Samuel Torbert

Which Report was confirmed.

The Committee to whom was referred the *Petition of John Remsen with direction to ascertain & fix the permanent lines of the south side of Front Street between Whitehall Street & Broad Street [302] and the permanent line of South Street, between Whitehall and Broad Street Reported Viz

A straight line from the South corner of Broad Street belonging to Jeremiah H. Pierson & Isaac Pierson N° 23. to the Brick House belonging to John Johnson N° 1. Front Street to be hereafter the permanent line of said Street. And furtheir a straight line drawn from the Corner Store formerly belonging to John Delafield now occupied by Nathaniel Wells being the Corner of South and Broad Streets, to the Corner of John B. An Account was presented by John Thompson for damages done his trees by the Surveyors in running the line of Albany Avenue Ordered that the same be referred to the Road Committee.

An account from John Riker for work at the Park in George & Lombard Street amounting to £28.19.0 was presented & a Warrant ordered to issue for payment of the same.

The Street Commissioner in obedience to the direction of the Board presented an Ordinance [314] for regulating Mercer Street from Broome to Bleecker Street, which was passed and Jonathan Pinkney, Gilbert Coutant, John Vreeland, George Cleland, & John Stevens were appointed Assessors.

The Street Commissioner having been directed by a Resolution of this Board on the 18[th] inst, to give the reasons (if any) why Crosby Street has not been opened Reported

"That the regulations of the ground in the vicinity of the upper part of Crosby Street require an outlet for the Water Northwardly as it is impracticable to raise the Ground any higher than the regulating lines upon the profile in order to carry the Water into Canal Street.

Broadway has been reduced ten feet at the intersection of Bleecker Street with a view to carry the said water from Crosby Street through Bleecker Street across Broadway to the Westward as well as to afford an outlet for *for* the Water that would at all events require a discharge immediately from Bleecker Street

These plans were devised under the strong presumption (& there were good reasons for that presumption) that M[r] Bleecker would cede Bleecker Street from the Bowery to Broadway gratis agreably to a plan he exhibited in the office of the subscriber made by Charles Loss City Surveyor.

This Cession has not yet been made and it has now become questionable whether it [315] will be done without compensation, as several applications have been made to Mr Bleecker by Committees of the Corporation & the Undersigned without the desired effect, And it still remains for the Common Council to determine, whether it will not be more conducive to the public good to abandon the idea of opening Bleecker Street and to carry Crosby & Mulberry Streets into Bond Street, which is less than two hundred feet further northward? and especially as the expence of opening Crosby Street & Mulberry St^{t} added to the expence of opening Bleecker Street would be, more than the adjoining lots could bear & in fact more than they are worth.

The Street Commissioner conceives it highly important that the Board should determine upon these subjects before they proceed legally to open Crosby Street which may commit them to the opening of Bleecker Street; for he sees a disposition prevalent abroad to take every advantage of the Corporation in these matters.

All which is submitted

John S. Hunn

Whereupon on Motion of Mr Ward Resolved that the Street Commissioner treat with Mr A. L. Bleecker for the opening of Bleecker Street from Broadway to Bowery Road.

A Letter was rec'd from Peter P. Van Zandt praying that Warren Street might be regulated below Washington Street—Ordered that the same be referred to the Alderman & Asst of 5th Ward & St Comssr.

The Committee on Wharves Piers & Slips presented the following Communication

"The Committee on Wharves Piers & Slips have to [320] represent to the Common Council the precarious situation they are in with respect to enlarging the Public Slips. The Law passed in 1806 by the Legislature authorizing the Common Council to enlarge the Public Slips declares that an affidavitt made before one of the Judges of the

Supreme Court or a Master in Chancery, that they have advertized according to Law & that the proprietors have refused or neglected to comply therewith shall be conclusive evidence in Law and that a Certificate of the oath shall be filed. The Committee have to represent that not a single affidavitt has been made in any case whatever. They now recommend that the Street Commissioner be directed to make the Oath as the law directs in every case where the Common Council have passed ordinances for the enlarging of Slips since the passing of the Law by the Legislature authorizing them to do so. The Committee recommend that the Comptroller attend & see that the Oath be taken & duplicate Certificates thereof to be filed in his office & in that of the Clerk of the City & County of New York that if any dispute should arise questioning the authority of the Common Council to take the Waters in p[o]int adjoining the Public Slips; the Law and Certificate may be plead in evidence

Jacob Mott
Signed Saml M. Hopkins
James Drake

Whereupon Resolved that the Comptroller be directed to take the measures in said Communication advised.

A Report was rec'd from the Police Office that [321] *that* Capt. Van Wart had returned that he had suspended John P. Moss one of his Watchmen for sleeping on his post—Ordered that the same be referred to the Watch Committee

The City Inspector reported drafts of Ordinances for the correction of Nuisances from Nº 5131 to 5144 which were ordered to pass.

An account of John McKenzie for filling in certain lots corner of Broadway & Sugar Loaf Street was presented amounting to Drs 64.

Ordered that a Warrant issue for the payment of the same & that the monies so advanced remain a lien on the said lots agreably to the Law in such Case made & provided.

The Committee to whom was committed the *Communication made to the Board by John Pintard at their last meeting reported—That so much of the said Communication as respects the Cross-Walks deserves the particular attention of the Board & that a Resolution or an Ordinance if necessary ought to be passed accordingly—On the remaining part the Committee are of opinion that the Corporation have no power to take any measures.

Which Report was agreed to.

* Marginal note reads *308*.—Ed.

The same Committee to whom had been referred the *Petition of the Master Chimney Sweeps reported that it is not expedient at present to take any measures thereon; Which was agreed to.

The Committee upon the applications of John R. Livingston & others respecting the Bulk-head in Goerck Street Report

That from the difficulty & expense of making the Bulkhead referred to the Committee believe it to be true that the work cannot be finished within the time limited by the former [322] Regulation. They therefore recommend that the time limited for building the said Bulkhead be extended to the first day of August 1810. The Committee are induced to recommend this from a persuasion that the parties concerned are engaged and exerting themselves to finish the work as soon as possible.

(Signed.) Jacob Mott
Mangle Minthorne
John Drake.

Which Report was agreed to.

The Committee to whom had been referred the †Application of the Company established to run Steam Boats between this place & Paules Hook Reported

That from the Insular situation of this City they conceive it the duty of the Corporation to patronize every scheme calculated to facilitate the intercourse with the surrounding Country: And as the insecurity & delay of the present ferry establishment has long been a subject of complaint and as the safety & utility of the Steam Boat project has been so satisfactorily proven, they are induced to recommend some arrangement being immediately formed with these Gentlemen.

As far as the Committee are informed no unwillingness to give a liberal consideration for the Lease exists. The Plan herewith submitted has been scientifically explained & the Committee are satisfied with the demonstrations given of the utility & entire practicability of the design. But as the expense will unquestionably be considerable & as your Committee are not sufficiently [323] informed of the views of the applicants in the detail they would now recommend appointing a Committee to confer, fix and settle the Covenants, conditions and such other agreements as necessarily appertain to this subject, with such correspondent Committee as may be for this purpose appointed

Whereupon Resolved that this Board approve of the said Report & Resolved further that the same Committee be authorized to confer & adjust with a Committee on the part of the said Company the terms of an agreement & Report the same to this Board.

The Street Commissioner agreably to the order of the Board presented a draft of an Ordinance for filling in a sunken lot belonging to P. Ogilvie & also two Ordinances directing 20 feet of the lots on Pitt Street & 20 feet on the north side of Stanton Str^{t} from Pitt to Columbia Street to be filled in within 30 days, Which said several Ordinances were passed.

The Committee to whom had been referred the *Communication of the Street Commissioner respecting the practise of sinking pits in the streets for the deposit of Stable Manure reported that the practise was improper & that the St^{t} Commss^{r} should take measures for filling up those made & should for prevention of the same in future present an Ordinance to the Board—Agreed to.

[324] The Street Commissioner recommended that Gilbert Coutant be appointed Assessor for opening Albany Avenue in place of Abraham Brevoort who declines acting & that Charles M^{c}Carthy be appointed Assessor for paving Front Street in place of John Seaman who declines, having removed—Which was agreed to.

The Street Commissioner recommended that $1500 be advanced to Halsey & Westervelt on their Contract for Piers on the West side of Peck Slip

Ordered that a Warrant issue for that sum

The Street Commissioner presented the following Report recommending a Bond & Warrant for $1780 to be issued for piers between Burling Slip & Fly Market

"The Street Commissioner represents to the Board that Walter Allen & Daniel Woolsey have produced certificates from the Inspector of the Piers they are building, that they are worked up to low water, when the first installment becomes due.

* Marginal note reads *315.*—ED.

The Street Commissioner has understood that the proprietors of the Lots between Fly Market Slip & Burling Slip have agreed to advance to the Corporation the money for its proportion of the said piers; And he therefore recommends that a Bond or Bonds be directed to issue to such person or persons as the proprietors may direct for the sum of Seventeen Hundred & Eighty Dollars, being about the amount of the first installment. [325] And that a Warrant be directed to issue on the Treasurer for the same amount as has been done in like cases

All which is respectfully submitted

Oct^{r} 2^{d} 1809. (S^{d}) John S. Hunn

Which was agreed to.

The Street Commissioner presented a report respecting the Piers between Beekman & Peck Slip which was ordered to be referred to the Committee on Wharves Piers & Slips.

one at the Corner of said Street, which was also referred to the Lamp Committee.

A Letter was rec'd from David Marsh requesting to be informed whether North Street was immediately to be carried through from the Bowery to Broadway as had been directed—Ordered that the same be referred to the Alderman & Assistant of the 8th Ward.

A Petition of Edward W. Laight, for himself and the Brothers and Sister of the said E. Laight *respecting that a Grant might issue to them for land under water opposite their property on the East River beginning at Two hundred & twenty five feet from the Westerly side of Walnut Street & extending Westerly One hundred & twenty five feet—Ordered that the same be referred to the Alderman & Assistant of the 7th Ward.

A Petition was rec'd from John Weathershire praying the speedy determination of the Board respecting the verdict of a Jury valuing his property to be taken for opening Chamber Street which was referred to the Committee on opening Chamber Street Viz: Aldermen Mott, Drake & Mr Hegeman

A Petition from Jacob McKeag praying remission of fine for selling liquors without a license was read and referred to the Attorney of the Board.

A Petition was rec'd from James Moore stating that one John Long had in 1795 died leaving some effects & that a Mr Rathbone who was indebted to said Long had administered on the Estate and taken his effects; That the Petitioner had advanced money for Long in his sickness & for funeral expences & praying that the Corporation would have justice done him

Ordered that it be referred to the Attorney of the Board.

[331] The Committee to whom was referred the †petition of the Inhabitants of Budd Street praying that said Street might be paved from Greenwich to Hudson Street reported in favor of the Petitioners & that the St Commissioner should be directed to report an Ordinance at the next meeting of the Board for carrying the same into effect.

Which report was agreed to.

The Committee to whom had been referred the ‡Resolution for placing a Watchman at the Theatre reported that in their opinion the Board ought not to take upon themselves the concern of any Institutions but such as are for the public benefit, that they were of opinion that the proprietors by employing the Peace officers as heretofore

practised may have order as well preserved as by placing a Watchman at the door.

Which Report was agreed to.

The Committee to whom was referred the *Petition of the Inhabitants of Walker Street respecting a lot of W^m J. Waldrons to be appropriated for an Engine House and Watch House reported "That your Committee find that certain ground was taken for the opening of Walker Street and amongst other grounds a certain piece taken from W. J. Waldron which was considerable more ground than was wanted for the use of the Street, but this ground has been taken, the Jury have appraized it and brought in their verdict, the Committee under these circumstances believe that the Public [332] cannot be obliged to pay for such surplus Ground, but the Committee believes that the ground so taken and not wanted for the Street is a suitable situation for a Watch House and Fire Engine house. The Com^e are therefore of opinion that the Board had better pay for the ground so taken for the use of a watch & fire Engine Houses

and Whitehall Slips. The Grant which was lately laid before the Board by the Attorney was only [333] to Peter Goelet one of the owners; but as it is necessary that all of them should have a title from the Corporation for the proportion which each of them respectively holds, agreably to a Law of this State; a new Conveyance has been drawn by the Attorney of the Board which is herewith presented. In this Conveyance there is a Covenant that the Owners shall uphold the said Piers at their own expense, agreably to the opinion of Mr Harrison the former Counsel of the Board. It is also recommended that the Grant be referred to the Counsel of the Board for his approbation.

The Minutes of the last meeting were read and approved.

The following Ordinance was passed

A Law respecting Swine

Whereas, the great number of Swine, which, at present, run at large, in the City of New York, are extremely destructive to the pavements, and in other respects injurious; for remedy whereof

Be it Ordained by the Mayor, Aldermen and Commonalty of the City of New York in Common Council convened, this nineteenth day of October one thousand eight hundred and nine That from and after the first day of November next no Hog Shoat, pig, or Swine shall be permitted to run at large in any road, street, lane, or alley of the said City unless such hog shoat pig or swine shall have a ring or rings in its nose; so as to prevent it from [340] rooting up any ground or pavement, under the penalty of Three Dollars to be recovered against the owner of any such animal, in any Court having cognizance thereof with costs of suit.

And be it further Ordained, That if any Hog, shoat, pig, or swine, shall be found at large without a ring or rings being fixed in the nose as aforesaid, and when the owner of such hog shoat, pig, or swine is not known, it shall be lawful for any person or persons, to cause the same to be sent to either of the public pounds: & the keepers thereof are hereby enjoined to dispose of the same agreably to law.

And be it further Ordained, That the Attorney of the Board shall be authorized, after the recovery and receipt of any penalty under & by virtue of this Ordinance, to pay to the person who shall give the said Attorney such information of any offence against this ordinance as shall enable the said Attorney to prosecute the offender to judgement such part thereof, not exceeding one half of the said penalty so recovered and received as in his judgment he shall deem just and proper."

A Petition was received from the inhabitants of Elm Street between Hester & Grand Streets praying that that part of the street may be regulated & paved. And also that a lamp may be placed in the centre of said Street—Ordered that the former part of said Petition be referred to the Alderman & Assistant of 6th Ward & [341] the Street Commissioner & that the latter part be referred to the Lamp Committee.

A Petition was received from Adam & Noah Brown & others proprietors of Lots in that part of the City in the 10th Ward called Manhattan Island Stating that it appears from a late survey that the Proprietors from some mistake have not located upon the precise lots to which they have title but that one possesses what agreably to this survey belongs to another that in order to remedy this & to avoid law suits they have mutually agreed to release to each other agreably to their respective locations, that they wish to take out Water Grants agreably to such Releases and that such of the petitioners as have already obtained grants are willing to surrender the same to the corporation; but previous to executing such releases they wish to be informed whether the Board will accept of such surrender and will grant to the several Petitioners, Water-rights agreably to such releases.

Whereupon it was Resolved that the same be referred to the Comptroller.

A Petition was received from sundry inhabitants of Thompson Street praying that a Lamp may be erected in said Street which was referred to the Lamp Committee.

An Application from the Committee of the Alms House for an advance of $5000 was received—Ordered that a Warrant issue for that sum.

A Petition was received from Fire Engine Company N° 20. praying that four men may be added to their Company, and that an additional, [342] length of leader may be ordered, which was referred to the Fire Department.

A Petition was received from James. C. Roosevelt stating that he is erecting a House at the Corner of Leonard Street & Broadway, that the adjoining houses were built previous to the present law regulating Stoops; that if he builds his Porch agreably to the present law, it will destroy the uniformity of that Block besides subjecting him to a very inconvenient flight of steps & praying that in the erection of his stoop he may be permitted to conform to the former regulation—Ordered that the same be referred to the Alderman & Assistant

of the 5th Ward with authority to grant the prayer of the petition if in their opinion proper.

The Committee appointed to consider the subject of the Petition of John Gardner & others relative to the situation of the lower part of Grand Street Reported

That it will be adviseable to direct the proprietors of the adjoining lots to repair the Bulk head and raise it to the heighth of the intended permanent regulation of Grand Street and as it is now in

a situation to let sand pass through into the Slip which will in a short time fill up & destroy that harbor they are of opinion that the same ought to be thouroughly repaired & rendered secure against such Contingency.

The Committee therefore present the draft of an Ordinance for the purpose which they recommend to be passed & enforced.

[346] The Committee appointed to consider the subject of the application of the Proprietors of Ground assessed for opening Amity Street reported that in their opinion in order to obviate the objections of the Petitioners it would be expedient for the Corporation to assume the payment of one third of the amount & that the residue be collected without delay—Which Report was confirmed.

The Committee to whom was referred the petition of the Trustees of the African Free School and of the Trustees of the Economical School presented a report as follows

That the African Free School consists at present of about one hundred & thirty Scholars, that the Institution is conducted according to Lancasters plan and as appears to the Committee is attended with great success the School is orderly & decent & the Scholars appear to have made a very handsome progress and the Institution is in the opinion of the Committee entitled to every encouragement the Corporation can afford.

The Committee have not visited the Economical School, but they have no doubt but it is a meritorious institution. The Committee however explained to the Trustees of the economical School that the present building for the Free School is temporary and would probably be removed in the Spring. Upon this understanding the [347] application on the behalf of the economical School was waved.

The Committee are of opinion that nothing should be done to prevent the removal of the building now used for the Free School. But with a view to afford a temporary accommodation to the African School the Committee are of opinion that the use of that building should be allowed to that institution till the first day of May next but

upon the strict & express understanding that they are to remove from it by that day.

The Committee on Wharves Piers & Slips to whom the Communication of the Street Commissioner was referred respecting the size of the intended Basin between Beekman & Peck Slips reported

That the distance between the two Slips is too small for two middle piers & that if one pier is determined upon to run in the middle it will afford two good Basins of 200 feet from each.

The Committee therefore recommend that the Board adopt that plan, and that the proprietors of Lots on the East side of the Center line of the said intended pier be included in the expence of the Pier now building on the West side of Peck Slip: And they further recommend that the Street Commissioner make out the apportionment of the expence accordingly

Which Report was confirmed.

[352] The Street Commissioner presented the following Report That he has been frequently called upon by the Commissioners of Canal Street for the precise situation of the Streets on the West side

of Broadway which will be intersected by the North line of Canal Street.

The Board are already possessed of the information that the streets upon Bayards West Farms cannot be surveyed correctly in consequence of the deficiency of ground and that the undersigned has made frequent attempts to effect correct surveys in Spring Street without being able to do so from the present Maps and buildings that are daily erecting upon that Street which will greatly encrease the difficulties unless some thing is done to prevent it by establishing the several Corners of the respective Streets.

The Street Commissioner has had several conversations with the Commissioners of Canal Street upon this subject & explained to them the difficulties which they perfectly understand; but at the same time they remark that it will be impossible for them to go on with their charge until the Corporation furnish them with the data from which to calculate their assessment

The Commissioners agree with the Undersigned that the Board have the power to relieve them of the present difficulty by causing a correct survey to be made of Spring Street laying off the Blocks [353] and Streets from the Corner of Broadway and taking the half lot which will be deficient on the West side of Bayards Farm by assessment upon the proprietors benefitted And it is recommended that the Board order such survey to be laid before them for that purpose.

All which is respectfully submitted.

Which Recommendation was agreed to.

The Street Commissioner presented an assessment for paving of Front Street which was confirmed and Adolph De Grove appointed Collector

The Street Commissioner presented an Assessment for filling in certain sunken lots in Spring Street which was confirmed and Ebenezer Clark was appointed Collector.

The Street Commissioner presented the following communication together with the Assessment therein mentioned Viz:

The Street Commissioner covers the assessment for repairing and extending the main sewer in Gouverneurs Lane having advertized the same agreably to the directions of the Board.

Gerard Walton who is largely assessed has Stated to the Undersigned verbally & by letter that the property assessed as his, belongs to

the heirs of the late Jacob Walton to whose estate [354] he acted as Executor, & that he paid to Mr Gouverneur above Seven hundred dollars for an equal right in the Sewer & has a conveyance to that effect.

The Assessment laid upon Mr Waltons property is much greater in proportion than that upon the property of the late Mr Gouverneur and Mr Tooker one of the assessors has informed that it was so done upon the presumption that Mr Watsons heirs had no interest in the Sewer.

If the representation of Mr Walton is correct (and there can be no doubt of it) the assessment is unequal & improper and it is recommended that it be referred to the same Assessors to investigate the subject.

The Street Commissioner further represents to the Board that the work for which the assessment has been made was done by the day under the Superintendance of a worthy but poor man, who has by borrowing endeavored to pay off his workmen only in part; That the assessment has been unfortunately delayed beyond his expectations & that he is now in great distress for the money which in consequence of the present errors in the Assessment will not be collected in several Weeks. The Street Commissioner therefore recommends that a Warrant be issued in favor of Samuel Tooker one of the Assessors for five hundred dollars to relieve the workmen & to be refunded from the first money collected

All which &cª John S Hunn

[355] Which was agreed to. On a question to reconsider that part of the Street Commissioners communication which recommended a Warrant to issue to Saml Tooker for $500 the Board agreed to reconsider the same and on the question to agree to advance the said Sum it passed in the negative.

The Street Commissioner presented an Ordinance for paving Vandam Street from Greenwich Street to Hudson Street which was passed and John Hopper Junr John P. Ritter, Joseph Watkins, Geo: Cleland & Ebenezer Clark were appointed Assessors

The Street Commissioner recommended that a Warrant issue to Halsey & Westervelt for $1058.$^{25}/_{100}$ being the first installment due from the Corporation for building the 40 feet pier on the West side of Peck Slip—Ordered that a Warrant issue for the said sum.

The Street Commissioner presented an Ordinance for regulating the Streets around Hudson Square which was passed and George

The Minutes of the last meeting were read & approved.

*A Memorial was rec'd from John Wethershire stating that he had been informed that the Board intended to relinquish the plan of continuing Chamber street through to Chatham Street, that in consequence thereof he gave notice that unless the sum awarded to him by a Jury for that purpose should be paid him in sixty days from the time of the award that he will take measures for compelling payment of the same, that he was willing in the mean time to treat with the Board respecting the injury which he had sustained.

Ordered that the same be referred to the Council of the Board, Comptroller, & Street Commissioner.

A Petition was received from Stephen Jumel stating that some time since he had from motives of compassion taken under his care a Mr Pechon a resident of Boston who was then in this City & laboring under a partial (as it was then thought) derangement of mind; that the disorder of said Petion was not removed but that he was now confined in the New York Hospital, that Mr Petions resources being very limited he prayed that the Board would provide for his maintenance Ordered that the same be referred to the Commissioners of the Alms House.

A Communication was received from Messs Gosman & Macomb praying payment of the sums due to them for laying the Curb Stone in the Bowery agreably to [359] a Resolution of the Board of the 17th April last—Ordered, that the same be referred to Alderman Bingham Messrs Douglass & John Drake

A Petition was rec'd from sundry Quarrymen praying that the Wood Inspectors might be authorized to inspect Stone brought to the City for sale—Which was referred to the Committee on applications.

Petitions were received from William White & Jacob Bedell praying remission of fines for selling liquors without license—from Geo: Riker praying remission of a penalty of fifty dollars recovered in the Justices Court for a breach of a law of the Corporation & from John Hutchings one of the [360] Constables of the City praying reimbursement of a Judgement amounting to Dol^{s} 11 $7\%_{100}$ recovered against him for a Wheelbarrow which he broke in removing a vagrant to the Bridewell

the same were severally referred to the Attorney of the Board

A Petition was received from the Inhabitants of the village of Greenwich praying for additional Lamps—which was referred to the Lamp Committee, and

A Petition from the same praying that an alteration might be made in the Watch districts so as to furnish them with stationed Watchmen, was referred to the Watch Committee.

A Petition was rec'd from Rich^{d} V. Morris & Gilbert Robertson in behalf of the Divisees of *of* Jacob Walton & Isaac Gouverneur deceased stating that their Testators were at the expence of constructing the Drain under Gouverneurs lane—that the Assessment for the late extension of the said drain has been laid upon their property without any allowance for their former disbursements in constructing the same which they consider to be inequitable; that they are willing for a proper Consideration to convey the said drain to the Corporation —that the expense thereby incurred may then be laid upon the property benefitted by it & that they then will be willing to bear their equitable proportion of the same

Ordered that the same be referred to the Alderman & Assistant of 1st Ward & the Street Commissioner.

[361] A Memorial from Benj^{n} Romaine, John W. Elseworth, W^{m} Hillyer, W^{m} Hoogland & W^{m} Ryer appointed Assessors for Walker Street was received which stated that they were Residents of and

near said Street & therefore requesting to be excused serving as Assessors—Ordered that the same be referred to the Street Commissioner.

A further Petition was rec'd from Ab^{m} Stagg requesting an advance upon account for the paving of the Bowery Road, which was referred to the Street Commissioner.

A Petition was rec'd from Gerard Rutgers praying that the paving of a part of Broome Street may be deferred—Ordered that the same be refer^{d} to the Alderman & Assistant of 8th Ward & St^{t} Comm^{r}

A Petition was rec'd from Adam Fink praying to be assigned to Stand N^{o} 3 in Spring Street Market—and from Benj^{n} Lovell praying to be licensed as a Butcher & to be assigned to N^{o} 18 Chatham Street Market at present occupied by Henry Carrier, who it appeared by his Certificate annexed was willing to relinquish the same, were severally referred to the Market Committee who immediately reported that in their opinion it would be proper to grant the prayers of the petitioners

Which report was confirmed

A Petition was rec'd from the Inhabitants of Haerlem praying that an Inspector of Wood might be appointed for that place & recommending Amasa Shurtliff to that office—Whereupon [362] Resolved that the prayer of the said petition be granted, and that Amasa Shurtliff be appointed an Inspector of Wood for the town of Haerlem.

An account of Isaac A. Van Hook for Costs in suit of Mayor &c v^{s} M^{c}Dermott amounting to $43 $^{88}/_{100}$ was presented—M^{r} V^{n}Hook stated that the Board having directed that M^{c}Dermott should be discharged without payment of Costs in case he was unable to pay them—that the Attorney of the Board upon examination finding him in extreme poverty had released him without payment of costs—he therefore solicited payment of his Bill—Ordered that the same be referred to the Attorney of the Board.

A Petition from Pat. M^{c}Koy praying permission to transfer the lease of Lot N^{o} 17 Colden Street to Richard Lawrence & to have the lease made out in his name was read & referred to the Comptl^{r}

A Petition was received from Burdett Stryker and John Dikeman lessees of fly-market-ferry stating that during the period in which the Intercourse between this City and Brooklyn was interdicted by the Board of Health, their receipts of ferriages bore so little proportion to their expenditures that they were losers to the amount of $619, &

praying relief from the Board—Ordered that the same be referred to the Ferry Committee.

The Comptroller to whom had been committed "the application of Isaac Bronson Assignee of a Bond given to Miller & Baker for property in [363] Canal Street requesting the Interest due to 25th instt "Reported

"That having stated at large in his communication to the Board the 7th August last the peculiar situation of the Bonds connected with the regulations of Canal Street, he perceives no reason for deviating from the Report then made, & which received the approbation of the Board—And accordingly recommends that no alteration should be made in this instance, but that all the holders of Bonds in similar circumstances ought to be placed on the same footing till the business is settled by the Commissioners."

The St[t] Commss[r] reported that agreably to the direction of the Board he had conversed with M[r] A. L. Bleecker on the subject of opening Bleecker Street from Broadway to the Bowery—that M[r] Bleecker had informed him that his son James would call & let him know his determination—that M[r] James Bleecker had accordingly called & informed the St[t] Comss[r] that his father consented to cede Bleecker Street from Broadway to Bowery Road to the Corporation, Gratis, reserving to himself the right of compensation for any other streets that the Corporation may direct to be run through his ground subject to the usual assessment. Ordered to be referred to the Alderman & Assistant of *of* the 8[th] Ward & the Street Commissioner.

The Street Commissioner presented to the Board the following statement respecting the Pier on the East side of Old Slip—" That the proprietors of lots fronting on South Street who have consented to advance to the Corporation the $3200 on account of the Pier on the East side of Old Slip are unwilling to make the advance in any other way than by dividing it equally between them—And as there are eight persons interested they propose that eight Bonds should be directed to be executed to them respectively each 400 Dollars, and state thro' M[r] Dearman that the money is now ready to be advanced in that way.

[367] It will amount to the same thing as if the whole was advanced by one person—The Street Commissioner therefore respectfully states

That a Warrant has already issued to M[r] Dearman & remaining in his hands for	1066.67
And recommends that another Warrant for the Balance being	2133.33
be directed in favor of J. Dearman making the sum of the advance...	3200.00

to be disposed of as above stated

(S[d]) John S. Hunn

Which was approved & a Warrant ordered to issue to Justus Dearman for $2133 $^{8}/_{100}$.

The Street Commissioner represented that the pavement laid down last fall in Bayard Street had been washed away by the rain & carried into the low grounds of the Collect—He recommended that a special Committee be appointed to view the premises and direct measures proper to correct the evil. Ordered that the following be a Committee for that purpose Ald[n] Bingham Miller & M[r] Douglass.

The Comptroller & Street Commissioner who were directed to treat with the Proprietors of Ground required to extend Chamber Street to Chatham Street Reported

That they have called upon the said proprietors. and received the following answers from them respectively.

[368] John Murphy claiming compensation for a building fronting Augustus Street asks for his interest therein Two Hundred & fifty dollars.

John Nicholas Weathershire demands for his house and lot in Augustus Street & adjoining the above four thousand Six hundred dollars but will deduct $100 if he is permitted to remove the building.

Peter Bonnett owning the lot on which the house stands claimed by Murphy asks $1500 dollars for it subject to that incumbrance and 8500 dollars for his three lots in Chatham Street, subject also to Mr Lorillards lease.

Peter Lorillard who owns a vacant lot in Augustus Street & has leases for several years upon the lots owned by Mr Bonnett would not fix any price upon his property at the time he was applied to; but said he would write his answer & send it to the Undersigned on Monday morning, which letter has been received and is herewith presented for the information of the Board.

The Undersigned do not pretend to give an opinion upon the real value of the property above mentioned. They have supposed it to be worth much less than the sums demanded for it; but as part of the Ground has already been estimated by a Jury, it may be presumed that a new verdict will be little less.

The price of the ground required to open the Street 75 feet wide according to that calculation amounts to above 22'000 Dollars.

[369] It is probable that above one half of this sum will be taxed upon the Corporation property in Chatham & Augustus Streets which already commands a high rent & if it should be determined that the conveyance to Mr Bonnett is illegal or improper the Corporation will be put to the expence of near twenty thousand Dollars, to open a Street only two hundred feet long through the centre of a Block of the usual size and in the vicinity of a high ground where as much open space is already reserved as in any other part of the City! But it is for the Board to determine whether the objects to be obtained by the opening of Chamber Street will warrant such an excessive expenditure of the public money.

The Comptroller & Street Commissioner here take the liberty to

remark, that in their opinion it could never have been the intention of the Legislature, that the Corporation should without compensation be compelled to throw open for Streets the property which belongs to the Citizens at large, when by so doing they would benefit but a small section of the City, any more than they would be bound to purchase such streets by direct drafts upon the public treasury.

Such constructions have been however put upon the law by the Courts & there appears to be no method of getting clear of the sacrifice, without the aid of the Legislature.

Independent of the above it is evident from the Conduct of Mr Archer in Canal Street—Mr Bowrowson in Sullivan Street & Mr Weathershire in the street abovementioned, that under the present [370] Law, a designing, obstinate or ignorant individual in defiance of the power of the Corporation may render them liable to pay such enormous additional expences, as may induce them to abandon an important & laudable improvement

The Undersigned therefore respectfully suggest the propriety of petitioning the Legislature at the next Session to grant relief in the Premises

Whereupon Resolved that it is inexpedient to extend Chamber Street in Chatham Street.

The Committee to whom was referred the Petition of the Inhabitants in the vicinity of Peck Slip praying for an alteration of the Bridge from the East to the West side of the Slip Reported

That they have duly attended to the subject of said petition, & viewed the situation of the premises, & in investigating the different claims of those interested therein beg leave to mention a few facts relative thereto: They find that the principal number of petitioners for the Piers and bridge were on the east side of said slip with a view of forming a Basin in front, & your Committee find by the map as approved by this Board that a bridge was proposed to be built on that side—that the distance between the piers is fifty feet on the East side & thirty feet on the West side—that to have a sufficient bridge on the West side it will be necessary to [371] sink a small block of about six or eight feet further in the Slip—Owing to some mistake of the Dock Builder by having the bridge on the West side there would be a great obstruction to the passage of Carts by the narrowness of the dock at Mr Lydigs store having only a width of 16½ feet for the

business of the two piers. And nothwithstanding your Committee think the first petitioners have a claim to have the bridge on the East side; yet as the whole of the bridges are built at the expence of this Board and as the property from Water Street to the Bulk head is likewise owned by it, your Committee feel a reluctance in deciding on which side the bridge should be built & therefore it is *therefore it is* their wish to refer the ultimate decision of the whole to this Honorable Board

Whereupon Resolved that the bridge be erected on the West side of the said Slip, & that the Street Commissioner make such deduction on the Contract as may be just & reasonable.

The Committee to whom was referred a Report of the Street Committee together with a letter from Thomas Barrow Agent for the Corporation of Trinity Church on the subject of opening Greenwich Street to Christopher Street Reported

That in opening Greenwich Street thro' the Nursery nothing farther has been done than cutting down the trees, & that unless the numerous small stumps are grubbed [372] or ploughed out, and the rubbish removed it will be impossible for Carriages to pass in safety —this cannot be done in Winter & if it is left until the frost is out of the ground in the Spring it will be a muddy disagreable & almost impassable road the ensuing Summer—That the road is sixty six feet wide, of which 36 feet in the centre may be cleared the Stumps removed & the road arched & regulated by Contract for about 120 or 130 Dollars

This the Committee beg leave to recommend for the present, & that the expence to be incurred therein be included in the sum to be assessed on the proprietors of lots who may be benefitted thereby when a farther regulation of said street shall take place

The Committee to whom was referred the Petition for opening of Lispenard Street into Broadway Reported

That they have viewed the premises & caused a Map thereof to be made & find that there are but two wooden buildings except sheds and they are old & of but little value. That almost every person who will be assessed have signed the petition & that, the Committee have heard of no opposition to the measure altho' the application for this object has been generally known for several months—that it will in the opinion of the Committee be [373] of great benefit to all the Inhabitants of Lispenard Street to open the Communication direct to Broadway and especially to the owners of the property between Broadway & Church Streets—& that it will be a real public advantage—All which, by an inspection of the Map will appear & to which the Committee beg leave to refer

The Committee therefore recommend that said Lispenard Street be opened agreable to the red lines of the Map & that the St[t] Commissioner be directed to treat with the proprietors accordingly

The Street Commissioner to whom was referred an application for regulating that part of Bridge Street lately opened between Whitehall & State streets presented an Ordinance for that purpose which was passed & Rob[t] Morris Jun[r] Garrit Storm Samuel Tooker Nicholas Van Antwerp and Wandle Ham were appointed Assessors.

The Committee to whom the communication of the Street Commissioner was referred respecting the survey of the Ground along South Street between Burling & Beekman Slips Reported

That as the present wharf along Burling Slip is not too wide for the comfortable use of the inhabitants trading there, it is adviseable to let the property remain in the situation as originally intended and they recommend that the Street Commissioner direct the survey of M[r] Codwise's & M[r] Schermerhorns lots [374] to be sett off & mark Stones placed in such manner as to preserve Beekman Slip of the width of Eighty four feet to the corner of M[r] Schermerhorns ground. The Committee further report that by the delay of this business the time limited in the Bonds executed between the Corporation & M[r] Schermerhorn has expired & they recommend that they may be renewed so

Which Report was confirmed.

The Comptroller & Street Commissioner to whom was referred the application of Walter Bowne for payment of the award in his favor for opening Frankfort Street Reported

That they have investigated the subject & find that the award in his favor was confirmed on the 15th Septr 1808 for Drs 4000.

That it was not until the 5th January last that the Ordinance was passed to assess the same upon the persons benefitted and that the Assessment was not prepared and delivered to the Collector until about the 8th day of Septr last

From the Assessment it appears that the Assessors have allowed Mr Bowne 100 dollars for interest which is stated to be intended as a full compensation for the detention of his money—calculating the Interest (after deducting six months from the Verdict of the Jury) to the time the Assessors commenced their operations.

The Undersigned further report that upon [375] inspecting the Assessment they find that the remaining property of Mr Bowne has been assessed 1243 10/100 Dollars which is to be deducted from the Sum due to him on the award & upon which Mr Bowne ought not, in the opinion of the subscribers, to expect interest.

The Undersigned further Report that there is now collected & ready to be paid to Mr Bowne 1500 Dollars which he has refused to accept, unless the whole demand is settled.

From the aforesaid premises the following account may be stated which is probably near the truth & such as Mr Bowne ought to be satisfied with Viz .

Verdict of the Jury 15th Septr 1808.....	4000.
Assessment deducted immediately or as soon after as made out.....	1243.10

	2856.90
Now ready to be paid to him.....	1500.
	$1356.90

The Undersigned lastly report that as the return of Henry Van Pelt Collector for the above Assessment is this day presented by the Street Commissioner, there appears no doubt but that the residue of the money may be soon obtained & that the advance by the Corporation will therefore be unnecessary if not improper

[376] The Market Committee on the Petition of Christian Truss to have a Butchers License & to be assigned to Stall N° 3 Fly Market —and on the Petition of Daniel Reynolds to have a Stall in the vicinity of the State Prison Reported in favor of the prayers of said Petitioners, which report was confirmed—They also Reported on the Petition of Peter Wilt, that as Stall N° 17 Fly Market was vacant that the same be assigned to him Which was confirmed

The Committee appointed to investigate the accounts of William Mooney late Superintendant of the Alms House from the time of his first Appointment, and to whom was also referred the subject of Rules for the regulation of the Alms House Reported in part

That they have examined the Books of Account kept by the Clerk of the Alms House since the time of Mr Mooneys appointment and have so far compared them with original receipts and documents as to leave no doubt in the minds of the Committee that the entries in the Books are correctly made in conformity to the Vouchers.

It is already well understood by the Board that an alarming increase has been discovered in the late expences of the Alms House Establishment. The Committee conceived that to accomplish the different objects of their appointment it would be necessary to trace the extent & causes of this increase, not only [377] with reference to Mr Mooneys accounts but with a view to discover how far the Institution can be conducted at less expence & upon better principles. For these purposes the Committee have gone into a general examination of the number of paupers, the quantities, kinds, and Cost of the articles consumed in their support and the expence of the whole Establishment for each quarter of the last six years.

The details furnished by this examination are so minute and numerous that the Committee have not thought it proper to occupy the time of the Board by presenting the whole of them, but they will be

made the subject of a further report if the Board should think proper so to direct.

The annexed statement marked A shews the average number of paupers in the House calculated upon the returns at the four usual Quarter days) also the total expence of the House and the sums drawn from the City Treasury for that expence for each year from the 1st Novr 1802 to 31st July 1809 with the exception of two or three items thereof which the Committee could not obtain in time for this Report.

In explanation of this Statement it may be proper to remark 1st that the annual accounts have most usually been made up to the thirty first day of October—but in the annexed statement the Committee have made out most of them to the thirty first of July [378] not only to bring down the account to the latest convenient time but also to furnish a statement (which could not otherwise be done) of an entire year during which Mr Mooney was Superintendant.

2d It may be proper also to remark that the accounts stated as the total expence of the House are not always those which stand charged in the Comptrollers Books to the Superintendant, but are those which were applicable to the Alms House itself exclusive of public donations for the out door poor, & other extraneous expences—This method of Stating it is conformable to a suggestion of Mr Mooney.

3d The remaining funds (besides those drawn from the Public Treasury) are supplied by various small sources of revenue belonging to the Alms House, such as Bonds for the support of Children & Emigrants, Sales of useless articles, the labor of Paupers &ca

By the said Statement A it appears that the expences of the year ending on the thirty first of July last much exceed the expences of any former year, and are nearly double the expences of the year ending the 31st July 1804 The Committee also observe that in general though not always there has been a progressive increase in the articles of expenditure & that this increase in most cases greatly exceeds the ratio of the number of Paupers.

[379] The Committee have endeavored to go farther and ascertain with exactness in what particular articles the increase consisted, whether it was owing to an augmentation of price or of quantity and in either case whether such augmentation was necessary. In a part of this enquiry they have been greatly aided by some valuable documents found in the Comptrollers Office containing complete returns of articles consumed in the Alms House for the years ending on the thirty first of October 1803 & 1804. To form a comparison with one

of these, the Committee have made out another like statement from the Books of Mr Mooney for one year ending on the thirty first of July last. The annexed paper marked B contains these two Statements, Viz for 1804 & 1809.

On the comparison of the articles consumed for those two years the Committee observe with regret, that the greatest increase has taken place in the consumption of those articles which are used as the gratifications of luxury or intemperance, while the use of some articles which might contribute to the comfort of the sick or feeble has been diminished or discontinued

The quantity of Rum consumed in the latter year is more than double that in the former, that of Gin is six times & of Brandy five times as much as in the former year.

The Expences of that part of the establishment which is called the middle House appeared to the Committee to merit particular attention. The family composing the Middle House consisted [380] of Mr & Mrs Mooney their five sons & four Officers of the House making eleven persons in addition to which there was a second table for about seven persons in domestic employments about the house, in all twelve men and six women. Certain supplies were also furnished to some of the other servants.

The four bills next particularly specified are with very trifling exceptions incurred for the support of the Middle House in addition to which the Establishment used all other articles it had occasion for from the common Stock.

The Committee have made quarterly statements of the amount of those four Bills, more particularly because being among the accounts which have very considerably increased even during Mr Mooneys time it was thought proper to give the precise sums. The following are the quarterly amounts of the four bills alluded to Viz

The other Expences of the Middle House are [382] completely mingled with the Establishment at large, for which reason no estimate of them can be made that would not be altogether conjectural.

In former years the Committee find that the amounts charged for House Expences were usually from Seventy or Eighty to about 150 dollars pr quarter & never exceeding so far as the Committee learn

so much as 200 Dollars. The expences incurred by the present Commissioner for one month from the 18th Septr to the 18th Octr have been as follows.

Marketting	44.81
Small Meats for Middle House	8.
Small Contingencies	10.77
Small Groceries	33.33
	$96.91

It is remarkable with regard to certain articles of consumption that two separate amounts Viz an account for articles purchased in gross quantities & an account for the like articles purchased from day to day by retail have been progressing at the same time. This has been the case at least for a year & to what extent previous to that time the Committee have not the means to state as Mr Mooney's Memorandums are not preserved except for about a Year previous to August last.

To give a more particular view of the Charges for certain articles mostly of the Class of luxuries several of which were used exclusively & others chiefly in the Middle House the Committee annex the Statement C. shewing the quantities & prices of such articles for one year ending on the 31st day of July last which statement will also shew the [383] extent to which some articles have been purchased both in Gross & by Retail as abovementioned in the same quarters.

There are some expences in this institution for which from their nature regular vouchers are not expected to be furnished by the person receiving the monies. Accordingly it has been usual to admit the accounts for those expences upon the mere Statement of the Superintendant. Of this kind in the present accounts are the Charges for Marketting—Small Contingencies—Donations of Small sums of money to the poor applicants (partly without vouchers) and the small sums occasionally advanced to Mrs Mooney within the last year, of the particular employment of which no account is given. The Quarterly amounts of these Expences collectively stands thus.

This Statement again presents the observation before made not only that the Items are beyond former precedent but that the amount even in Mr Mooneys time has increased, & that the Charges during the present year are throughout larger than those for the Corresponding quarters of the last year

It also presents this farther remark that considerable donations of money from Mr Mooney [384] became the less necessary & the less proper since the employment of Mr McPherson at a stated Salary for the express purpose of examining and reporting upon the situation of the out-door poor and distributing money for their relief. It is universally admitted that the giving of money is the worst method of relieving the poor, & in former years the Committee find that in several quarters no money whatever was given & in other cases less than twenty dollars Pr Quarter & in no case did the amount exceed 150 or 200 Dollars Pr quarter unless in times of unusual public distress. The following are the separate & total quarterly amounts of money distributed by Mr Mooney & Mr McPherson since the former entered upon his Office Viz

1808	By Mr Mooney	By Mr McPherson	Total
April 30th	138.73	165	308.73
July 31	170.	250	420.
Octr 31	306. 1	175	481. 1

Jany 31	449.52	781	1230.52
April 30	232.35	100	332.35
July 31	274.25	270	544.25

The Committee have shewn to Mr Mooney the most material of the several statements presented by this Report—they have fully stated to him the conclusions to which the facts might lead unless explained or answered; they have offered him the perusal of their Statements in order to examine the accuracy of them & they have given him a full and attentive hearing upon the whole subject.

[385] Mr Mooney has remarked as to the increased quantities of the articles consumed that it is accounted for by the great increase of the numbers of poor in the House & also of those from without who were relieved upon their application by occasional donations of Provisions. He also mentions the expences of the prisoners at work on the Roads, & on Governors Island & the increase of the Hospital Roome—And with regard to certain articles used in the middle house he States that the consumption of them has been much increased by the frequent meetings of the Corporation, & of Committees & of the

Commissioners of the Poor and of other persons attracted by business with them especially at particular seasons. And he intimates that the house had become too much a place of habitual resort for certain other persons. Of this the Committee have no knowledge nor any means to form a correct judgement and the different members of the Board will best know how far they have personally contributed to the Consumption of the articles alluded to.

There has doubtless been some increase in the number of the poor, the additional numbers were however mostly sent to Bellevue & a few to Bridewell And the expence of Bellevue as far as it can be ascertained is deducted from the Statement of Mr Mooneys Expenditure as is also his account for County Convicts, besides which the prisoners at labor would if not so employed have been at the Expence of this establishment. However the Committee are of opinion that some of these [386] Causes have to a certain degree increased the actual & necessary expence of the house during a part of the last year.

Mr Mooney has alledged with truth that the prices of Medecine & of some articles of Cloathing & of Groceries have increased during the last year. But the Committee doubt whether on the whole the supplies of articles of sustenance have been much dearer than formerly.

The length & severity of the last winter exhausted the Stock of fuel & made it necessary to purchase a further quantity at enhanced prices. It is also true that there has been during Mr Mooney's time some additional expences for small salaries to different officers.

It is proper to remark that the liquors mentioned in the annexed Statement include the Supplies prescribed for the sick. And with respect to several other articles mentioned in the Statement it is true that considerable quantities were usually distributed to some of the paupers who were considered as entitled to favor. But these causes do not appear to the Committee to justify the charges of so large quantities—especially in relation to the articles of Wine, spirits, Gin & Brandy—the Committee after a careful investigation of facts are compelled to say that the quantity charged amounting to upwards of twelve hundred Gallons in one year is unreasonable. It is more than four times the quantity consumed in the year next previous to 1804.

[387] The Committee find that the support of the poor as regards the necessaries of life has been very similar in Mr Mooneys time to previous usage Two or three articles of supply have been retrenched & in the use of some others the Committee believe there has been unnecessary profusion & some waste

The Committee have not accurate information of the Stock on

hand at the time when Mr Mooney came into the Alms House and left it—they have no evidence on the whole that the Stocks are very different except in the article of wood of which Mr Mooney left a good supply.

The Committee respectfully submit some principles which they conceive ought to govern the settlement of the accounts Viz.

1st That for such articles as have been actually purchased & distributed to the poor or towards their support the public are bound to pay even if it should appear that the supply has been injudicious or wasteful.

2d That no expences for the Middle house beyond those which are necessary for the more comfortable sustenance & refreshment of that family & of the officers attending on public business should be charged upon the fund appropriated to the poor & that no part of that fund should in any case be diverted to the support of hospitality or of luxury of any kind.

3d That as certain accounts have usually been audited upon the statement & memorandums of the Superintendant therefore a reasonable [388] Sum having due regard to the season of the year & other circumstances should be allowed to Mr Mooney for those accounts but that any excess beyond such reasonable sum & unsupported by vouchers ought to be submitted to the Judgement of the Board or to a reference by a rule of Court or other examination

The whole amount of the beforementioned expences peculiar to the Middle House added to the whole amount of small donations charged by Mr Mooney while in office is 6567 $^{83}/_{100}$ Dollars. The particulars of which that Sum is composed will appear from the annexed Statements. The Balance claimed by him to the 31st July last is Drs

Upon the whole view of this subject the Committee have not thought it right to take upon themselves the determination of the question whether any & how much of the balance claimed should be paid to Mr Mooney without farther investigation. They therefore have laid the foregoing facts & opinions before the Board for their decision thereon.

The accounts for the time subsequent to the 31st day of July last having not yet been examined may be made the subject of a separate Report if the Board shall so order.

All which is respectfully submitted

NOVEMBER 6, 1809 TO APRIL 4, 1810

[1] In Common Council November 6. 1809

Present DeWitt Clinton Esq[r] Mayor
Jacob Mott Esq[r] Dep[y] Mayor

Peter Mesier	Esq[rs] Aldermen	John W Mulligan	Esq[rs] Assistants
Samuel M Hopkins		Adrian Hegeman	
James Drake		Thomas J Campbell	
John Bingham		Isaac S Douglass	
John D Miller		Samuel Torbert	
Thurston Wood		Jasper Ward	
Mangle Minthorne		John Drake	

The Minutes of the last Meeting were read and approved.

Roswell Graves, William Welling, and John A Haring were admitted to the Freedom of the City and Severally took the oath prescribed by Charter.

A Petition was received from Daniel French stating that he had made great improvement in the construction and use of Steam Engines for which Improvement he had obtained a Patent. That the improvement may be applied to Boats for the purposes of ferrying across Rivers and upon a Plan infinitely cheaper than any yet in use, that his Machinery is nearly ready for Exhibition and Experiment that when completed he would be desirous of leasing Paulus Hook Ferry and therefore prayed that the Board would defer granting a Lease of that Ferry until the Petitioner had had an opportunity of exhibiting his Machinery

A Petition was also received from [2] Elisha Morrill and Levi Kendell stating that they had obtained a Patent for an Invention which they b[e]lieved more powerful in its application to the working of any kind of machinery than any hitherto discovered that understanding that a lease was to be given for the Establishment of Steam Boats on the Ferry at Paulus Hook and believing their Invention Superior to all other discoveries, they requested the Board would investigate its merits, and if satisfied in the result; they would be willing to establish it on the several ferries of this City. Whereupon Resolved that the two foregoing applications be referred to the Committee on the application of Elisha Boudinot and others Proprietors in the Steam Engine Company Viz Aldermen Drake, Mesier & M[r] Torbert

A Petition was received from William Berrian and others for a Well in Thomas Street which was refered to the Alderman & Assistant of the Ward and Superintender of Repairs with authoroty to make the usual allowance

A Petition was received from James Douglass and others praying payment of a Balance due to them for Curb Stone furnished by them for Rivington & Rynder Streets—ordered that the same be refered to Aldermen Drake, Mesier & Mr Hegeman

[3] A Petition was received from Ebenezer Whiting requesting that a small irregular Lot of ground at Brooklyn adjoining the house occupied by Benjamin Smith may be leased to him and was refered to the Comptroller

A Petition was received from Wm St Leger requesting that the ensuing Charter Election for the 5th Ward might be holden at his house and was referred to the Alderman & Assistant of the Ward

A Communication was received from the Commissioners appointed to lay out Canal Street Resolved that the same be refered to the following Committee with authoroty to act in the Premisses as they shall judge advisable Viz Aldn Bingham Mr Mullegan & Mr Torbert

A Letter was received from William Mooney late Superin[ten]dant of Alms House requesting that the Board would take no order upon the Report of the Committee in his case until the next meeting of the Board. Ordered that Mr Mooney be permitted to examine at the Alms House the Books of accounts lately kept by him as Superintendant

A Petition was received from Thomas Stagg Jr remonstrating against building the Bridge at Peck Slip from the west side to [4] the middle Pier. Ordered that the same be refered to the Committee on Wharves Piers and Slips

A Petition was received from Doctor David Hosack stating that he intended to make an application to the Legislature at the next Session soliciting them to purchase the Botanic Garden in order that the same may be connected with the Medical Schools of this City. That Previous to this application he was desirous of freeing the Ground from the Quit Rent which is now paid to the Corporation. That having been necessarily led to very great and unexpected expences in the improvement of those Grounds and those being for purposes of Public utility he hoped the Board would freely relinquish to him the Quit Rent, but if they supposed a precuniary compensation from him was proper, he begged they would ascertain what that should be. Where-

upon it was resolved that the same be refered to. Alderman Hopkins Bingham & Mr Torbert

A Memorial was received from William J. Creed resigning his Station as Apothecary to the Alms House and requesting compensation for having acted as Physician to Belle vue and to the Convicts employed on the Highway. Resolved that the same be refered to Alderman Mott, Miller & Mr Douglass

[5] A Petition was received from Rodman Bowne praying an extension of his Lease of the Ferry at Catharine Slip which was refered to the Ferry Committee

A Petition was received from Nicholas Stevens to be appointed a Butcher and to be assigned to Stall No 9 Fly Market and also a Petition from William White praying to be removed from No 5 Duane Market to No 18 Hudson Market. Ordered that the said Petitions be refered to the Market Committee.

A Petition was received from the Washington Mutual Assurance Company praying that their Surveyor might be appointed a Fire Warden of this City—Ordered that the same be refered to the Fire Department

A Petition was received from Lewis Webb and Joseph Webb praying for a water Grant opposite property they have lately purchased at the corner of Clarkson & Washington Streets on the Hudson river which was refered to the Comptroller

The Market Committee to whom was refered the Petition of Henry Ehrenfrizt praying for the Stall No 2 in Grand Street Market, reported that in their opinion the prayer of the petition should be granted which was confirmed

[6] A Report was received from the Police office that Capt Van Wart returned. that he had suspended Daniel Sherwood one of his Watchmen for being drunk on his Post. That Capt Darleing had returned that he had suspended John Felter for being intoxicated and John Joseph for being a sleep on his Post. That Capt Anderson had returned that he had suspended Abraham Delancy for being asleep on his Post. Ordered that the said Returns be refered to the Watch Committee

The Finance Committee presented the following Report. that agreeably to resolutions of the Board, the sale of sundry Lots of Ground on Broad Way, White Street and Elm Street in the vicinity of

The Lot marked B South corner of Broad Way and White Street, was bid in by the Committee for D$ 3,800, which sum has since been offered for it, by a person who will pay Two thousand dollars in Cash the rest in instalments agreeably to the conditions of sale.

The Board will judge of the expediency of acceding to the offer as above mentioned

Signed
John Bingham
James Drake
Thomas J Campbell
Jasper Ward

Whereupon Resolved that the Committee be authorised to sell said Lot marked B for the sum of 4,000 Dollars

The Alderman and Assistant of the 8th Ward to whom was committed the subject of the Cession of Bleecker Street reported, that they

are of opinion that the Street Commissioner ought to receive such deed in behalf of this Board. The Committee further report that the Street Commissioner be directed to agree with Mr Bleecker for the [8] opening of Crosby Street to Bleecker Street, by having the same valued by a Jury, and that he treat with the present Tenant for the damage the same may cause to his garden. and that if he can make such arrangements that he will immediately open said Street. That the Street Commissioner take immediate measure for opening Mott Street to the intended Bleeker Street

Signed Thurston Wood
Jasper Ward

Which was confirmed

The Committee to whom was refered a Petition from the Inhabitants of the Village of Greenwich requesting that a Watch might be established in said Village

Reported that they are of opinion that a branch taken from the third watch District, a small watch might be granted to that Village and to include in said District so to be made the Settlement round Spring Street Market. If the following arrangement should be thought adviseable there will in that case be no additional expence for Watchmen. The 2 Men that now stand at the Spring Street Market to be considered as part of said intended watch, also the 8 Men that are now the Patrole at the Village would become standing men and by taking 4 from the Patrole in the lower Watch where they are not wanted would make [9] a sufficient Watch without any additional expence to the Public, only for a foreman a room for the Watch and fuel. The Committee further believe that such Watch ought to be considered as a Branch of the watch of the third district

Thurston Wood
Signed John Bingham
Mangle Minthorne

Which Report was confirmed and said Committee authorised to carry the same into effect

The Alderman & Assistant of the 4th Ward to whom was refered the subject of the Main Sewer in Roosevelt Street Reported that they are of opinion that the Sewer ought to be immediately commenced and that money be borrowed of Simeon Skillan one of the Assessors for the purpose of paying off the workmen who has consented to lend the sum of Six hundred dollars upon legal Interest provided the interest is paid on the whole sum from the date of the first payment. The Committee

are further of opinion that the Interest ought to be charged upon the assesment and that the payment be made under the inspection of the Alderman of the fourth ward. To all which they sollicit the sanction of the Board

Signed James Drake
Adrian Hegeman

Which Report was agreed to

[10] The Council & Attorney of the Board to whom was refered the Petition of Zophar R Jarvis Reported That from an examination of the precept for opening Broad Way and also a Deed from Mr Dunham for the premises in question to the Corporation, it evidently appears that part of the Improvements of Mr Dunham do project into Broad Way. To what extent this projection exists the undersigned could not determine as they had not the assistance of a Surveyor.

The Common Council having refered the Petition of Mr Jarvis to the undersigned with Instructions to take measures for the removal of the buildings in question it is respectfully suggested that a Survey be immediately made of the same, that the extent of the encroachment may be accurately ascertained.

All which &c
Signed James Woods
Samuel Cowdery

Which was confirmed and the Survey therein mentioned directed to be forthwith made

The Comptroller on the Petition of Isaac A Van Hook Reported that the only question which admits of doubt, is the charge of Ten Dollars Cou[n]sel fee, in addition to the sum taxed of $33.48.

From respectable authority it has been intimated that this fee is not usual on [11] occasions of this kind; but as the subscriber is not sufficiently acquainted with the nature of the transaction to decide on the legality of the charge in question, he respectfully submits the decision to the Board, as to the account which ought to be allowed.

Signed G N Bleecker Compt'ler

Whereupon ordered that a Warrant issue to I. A Vn Hook for the amount of his bill exclusive of the charge of Counsel fee the warnt to be for 33.48/100 Dollars

The Comptroller on the application of Stephen Hitchcock to be allowed an Account against him for Costs of suit in the case of Silas Carman of Long Island, for Manure sold to him while Mr Hitchcock was Superintendent of Streets, and which has not been charged in the

settlement of his account Reported that It appears reasonable to allow the amount which is $5.^{5}\%_{00}$ and if approved by the Board a warrant might issue accordingly

Respectfully submitted
Signed G. N. Bleecker Comp^tler.

Whereupon ordered that a Warrant issue to him for D^s $5.^{5}\%_{00}$

[12] The Comptroller on the Petition of Patrick M^cKoy for permission to transfer his Lease of N^o 17 Colden Street to Richard P Lawrence and to have a new Lease to himself for Lot N^o 17 adjoining reported that the prayer of Petitioner be granted, which was confirmed.

The Ferry Committee on the compensation which was to be made to Jacob M^cKeag Lessee of Horns Hook ferry reported that by a former resolution of this Board the Corporation agreed to pay the said M^cKeag the value of a House that he was directed to build, and the time for the valuation was fixed for the first of May last; and M^r M^cKeag wishes to have the valuation made

The Ferry Committee recommend the appointment of the Superintendent of repairs and John M^cComb Ju^r on the part of the Corporation to meet a Carpenter and Mason to be appointed on the part of J. M^cKeag to make the Valuation; with power to choose an umpire in case of disagreement

James Drake
Signed Samuel Torbert
John Bingham

Which was confirmed

*The Street Commissioner in obedience to the direction of the Board reported that he had caused notices respecting runing out Piers to be published in the New[s]papers and he enclosed the affidavit that he had made of the fact. Ordered that the said affidavits be refered to the Counsil of the Board to know whether they are made conformably to Law

The Street Commissioner presented a Conveyance from M^r Peter Goelet for his Rights on the Easterly side of the Pier on the West side of the Exchange Slip, which had been examined by the Counsel of the Board.

Ordered that the same be recorded & filed in the Comptrollers office.

The Street Commissioner presented an Assessment for the Sewer

* New page not numbered.—Ed.

in Gouverneurs Lane which was confirmed and Henry Van Pelt was appointed Collector.

The Street Commissioner presented an Assessment for regulating Essex Street from Grand Street to Delancy Street, which was confirmed and Isaac Keeler was appointed Collector

The Street Commissioner to whom was refered the communication from the Assessors appointed to make an assessment for opening Walker Street reported that according to the opinion of the Council of the Board some time [14] since presented to the Common Council it is not in the power of the Corporation to release an assessor from the duties assigned to him after his qualification unless he should be considered interested, and this opinion seems to be founded on the best moral principles, the reverse of which would continually retard the operations of Society.

The Street Commissioner therefore renews his recommendation of Joseph Dederer as an Assessor in lieu of William Hillyer (interested) and recommends that the Assessors already qualified be directed to perform their duty.

All which is respectfully Submitted

Signed Jn° S Hunn

Which was confirmed

The Street Commissioner by the advice of the Inspector recommends that Warrant for $1000 be directed to issue to Daniel Woolsey for his second Instalment on the Pier at Burling Slip. And that the Mayor sign a Bond to such person or persons as the proprietors may direct for 1783 D^{s} including the above and 783 Dollars directed at the last meeting of the Board in favor of Walter Allen. Which [15] was agreed to and that the Interest be at 7 P^{r} Cent

The Street Commissioner presented the following respecting trees in Broad Way. That M^{r} Samuel Burling has offered to furnish as many Poplar trees of a suitable size, as may be necessary to line Broad Way from Leonard to Art Street on both sides provided the Corporation will remove them at their expence.

The Street Commissioner has consulted a number of the proprietors of Lots, and find them exceedingly anxious to accept of the liberal offer of M^{r} Burling and one of them has offered to cart a great portion of them at his expence.

This arrangement will be a great additional beauty to Broad Way the pride of our City, and as the cost of digging up and planting them cannot be much and this is the proper season and also a suitable time

while the Curb Stones are laying. The Street Commissioner suggests the propr[i]ety of the Board directing the same to be done under his inspection and the expence charged upon the assessment which is not yet made out

All which &
Signed John S Hunn

Which was confirmed

[16] The Superintendent of Streets reported that he discontinued the employment of the Bell Carts sin[c]e the first of the present month which was approved of.

Resolved that the following persons be a Committee to examine and report at the next meeting of the Board what persons who are now employed in the Street Department it would be proper to discharge Viz Alderman Drake, Mesier & M[r] Campbell

Resolved that the Watch Committee be authorised to purchase the House at the corner of Beach Street & Chapple S[t] lately owned by William J Waldron to be applied to the purpose of a Watch House

The Street Commissioner requested leave of absence for a few days which was granted

Resolved that the Street Commissioner cause notices to be served upon the occupants of part of North Street to remove their buildings and fences from off the Street between the Bowery and Orchard *Orchard* Street without delay

[17] Resolved that the Committee on Laws and Ordinances be requested to revise the Sunday Law and report whether in their opinion any, and what amendment ought to be made therein.

Resolved that the Alderman & Assistant of the 2[nd] Ward be added to the Committee appointed at the last meeting of the Board on the Petition of R V Morris & Gilbert Robinson in behalf of the devisees of Jacob Walton & Isaac Gouverneeur deceased.

The Minutes of the last Meeting were read and approved.

A Petition was received from Christian Borges stating that he had been called upon by the Collector of the 4th Ward for the sum of 13 Dollars and some Cents which were assessed upon a House fronting Chatham Street, that the house was in July last destroyed by fire which was the cause of great loss and distress to Petitioner and praying to be relieved from the Assessment

Ordered that the same be refered to the Alderman & Assistant of the 4th Ward.

[34] A Petition was received from the Freeholders on the East side Pecks Slip remonstrating against the Erection of the contemplated Bridge on the west side which was refered to the following Committee and the former Committee appointed on the same subject wer[e] Discharged from the further consideration of the same Committee, Aldermen, Mesier, Fish &. Minthorn

The folg communication from James Drake Esquire was received with a Map accompanying the same, stating that he did purchase of the Corporation at Auction the Lots of ground, corner of Elm & White Streets being 103½ feet on White Street & 62 feet 9 Inches on Elm Street; since which, on reflection he thinks if the Lots fronted on White insted of Elm Street, they would be more pleasant, fronting the sun, and being about purchasing the Lots adjoining his on Elm Street, bought by Mr Kipp, and as the Deeds are not yet made out, he Solicits the Board to so alter the Line of his Lots as that they may be

made to front on White Street, the corner Lot to contain 19 feet 6 Inches and four others to contain 21 feet each, which will make 103 feet 6 inches on White Street and about 84 feet on Elm Street at [35] 8 Bushels of wheat each. And as on the view the subscriber takes of the property he thinks it can be no disadvantage to the Board he therefore prays the Board may grant his request

As the subscriber perceives no reason for altering the opinion which he had the honor lately to submit to the Board on this subject and as a departure from a late decision, in favor of any individual, might incur the Supposition of partiality and instability derogatory to the dignity of the Corporation it is respectfully Submitted, that they adhere to their former resolutions, on applications of a similar nature with the present

Which was confirmed

The following was the communication alluded to in said report

To the Honorable the Mayor, Recorder Aldermen, & Commonality of the City of New York in Common Council convened

The Commissioners appointed to lay out Canal Street having judged it for the Public Interest to alter the direction of said Street, from the one formerly Contemplated, and by so doing there will be left a strip of Ground on the North East side of said Street, formerly purchased by the Corporation and which will not now be required for the use of said Street. The Commissioners are of the opinion that in most cases, where Individuals own on both sides of the Street there will be no difficulty in making an Equitable exchange but in some instances that may perhaps be impracticable. The Commissioners perceive by [41] the Law under which they act that the Ground obtained by altering the direction of Canal Street belongs to the Corporation over which the Commissioners have no Controll and at the same time they are directed and required to make out a just and true estimate of all the expences that has or may occur, and to assess the same on those who are deemed to be

benefited by the said street The Commissioners conceive that the Law under which they act does not authorise or warrent them in purchaseing or paying for more Ground than what will be wanted for said Street, and here a doubt might arise whether the spirit of the Law would not require them to deduct the price or value of the Ground which may be left from the sum total of expence, under this view of the subject the Commissioners beg leave to suggest to your Honorable Body the propriety of entering into some arrangement to remove the difficulty above stated, either by empow[er]ing a Committee of your own Body or the Commissioners to negociate with several Individuals concerned and to adjust exchange or sell the above described strip of Land. All which is respectfully Submitted

[42] The Committee to whom was refered the Account of John Pintard for indexing the Minutes of the Common Council reported, that they have examined with considerable satisfaction and pleasure the Index made by your late Secretary to Volumes N° 8. 9. 10. & 11 of the Minutes, and approve of the Style and manner of his performance as admirably calculated to render a reference to the subject, they contain easy and perspicuous, and recommend as a Compensation therefor, the issuing a Warrant in his favor for $228 Dollars being at the moderate rate of 3 Dollars p[r] day while actually engaged in the above service

Your Committee beg leave further to observe that from the changeable character of the Board a want of knowledge relative to antecedent transactions must frequently occur in New Members; and that consequently a luminous and copious Index to the Minutes from the conclusion of the Revolutionary War up to the present time, would be requisite if not indispensably necessary. To acquire without such a guide, the history of subjects on which *on which* the Board may be called to Act, will require great [43] Sacrifice of time and Labor. And should the contentions of party (which is not improbable) entirely change the Members, how can business progress, or how can an acquaintance with the circumstances of previous Measures be had, except by a refference to preceding Acts of the Board

To complete an Index for the period before mentioned, there only remains yet to be done, six Volumes, to Wit from N° 12 to 17 in-

clusive for N° 18 & 19 were completely Indexed by M^r Pintard while acting as Clerk, and for which he makes no seperate charge

Presuming therefore that the finishing of so necessary a work, would be very desireable, and believing M^r Pintard from his acquaintance with the minutes and apt capacity to this object, better qualified than any other person, do take the liberty to recommend the completion of the business to be assigned to him: and that for an Index to be made in a stile and manner similar to what we have examined to the residue six Volumes, he be allowed three hundred dollars to be paid when the whole is perfected

And your Committee as advised respectfully Submit

The Superintendent of Repairs requested that a Warrant might issue in favor of Benjamin Hoogland for 375 Dollars being the second payment for the Flag Staff erecting at the Battery. Ordered that a Warrant issue for the same

The Attorney of the Board stated that the Council of the Board being absent from Town at the time of the Inquest being taken in the case of opening Chatham Street he had therefore employed Geo. Griffin as Cou[n]sel in the cause and he recommended that a fee of 25 D^{s} be paid to M^{r} Griffin. Whereupon it was Ordered that a Warrant issue in favor of M^{r} Griffin for that Sum

[55] Upon the recommendation of the Fire Wardens in the 2nd Ward John Mowatt Jun^{r} was appointed a Fire Warden of the said Ward in the place of Isaac Wright who had removed from the Ward.

The Market Committee on the Petition of Nicholas Stevens reported, that they were at the last Meeting of the Board induced from the consideration that it was a money transaction to report against the application of said Stevens, but being now informed that the Money paid was only for the Block on Stall and not for the Stand and the

said Stevens having served an apprenticeship to the trade of a Butcher and very well recommended, they do therefore recommend that he receive a Licence for the Stand N° 9 Fly Market, which report was agreed to

The Lamp Committee to whom had been refered back their Report on the Account of Jacob Cholwell and his remonstrance returned them again to the Board and no further order was taken thereon.

The Committee to whom was refered the application of John F Randolph to be appointed Apothecary to the Alms House Reported that they had had an interview [56] with M^r^ Randolph and Stated to him that a part of the duties required of him would be to attend to the Convicts at the Powder House Prison the Paupers in the Winter Season at Bellevue together with the Alms House and County Prison which he readily assented to. The Committee in consequence thereof and from the recommendation given to them by Doctor Valentine Seaman are of opinion that the said Applicant is worthy the appointment he requests. Whereupon resolved that John F. Randolph be and he is hereby appointed Apothecary of the Alms House

The Counsel of the Board to whom had been refered the Resolution of the 20^th^ respecting a Lease of Flag Staff at the Battery to Andrew I M^c^Laughlin reported that he had been informed that M^r^ Andrew I M^c^Laughlin therein named under an expectation of receiving from the Corporation, a lease for the use of what is commonly called the Flag Staff, expended a considerable Sum of Money thereon and that this expectation was formed in consequence of resolutions heretofore passed by this Honorable Board; That in & by an [57] Act of the Legislature of this State passed the 16 March 1790. entitled an *An* Act for securing and improving certain Land in the City of New York for Public use and for other purposes therein mentioned it is enacted that certain land (on a part whereof the Flag Staff is erected) is invested in this Corporation to remain for the purposes of erecting Public buildings and works of defence but without any power to dispose thereof for any other purpose whatsoever—and without any power of selling any part thereof.

To the question as I conceive refered to me I answer. that I am of opinion. the Corporation may give to M^r^ M^c^Laughlin or any other person a permission to use and enjoy the said flag Staff by lease or parol if in their opinion it is considered as a building for Public purposes. or as work of defence—but whether the Flag Staff comes within either of those descriptions it is not in my judgement to say.

I am also of opinion that the said Act of the Legislature vests a

descretionary power in y^e^ Corporation so to use the said land at all times as to them shall seem meet, provided it shall be free for the erection of Public Buildings and Works of defence when deemed necessary and proper

Signed Ja^s^ Woods

Whereupon resolved that the same lay for further consideration

[58] The Committee to whom was refered the Petition of Gosman & MacComb praying payment of their Account for laying the Curb Stone and filling up the walks in the Bowe[r]y road. Reported it as their opinion that a Warrant for 600 Dollars should issue to them on account. which was agreed to.

The Counsel and Street Commissioner to whom was refered the application of John N Weathershine reported, That the same ought to be taken in connection with the following fa[c]t "that he was informed previous to and at other times during the erection of his building that a Resolution of the Corporation had passed for connecting Chamber Street to Chatham Street and that he was advised and requested in due form to desist from such building, but that he continued the same until the Jury who were impannelled upon the occasion came to view the Premises the subscribers are therefore of opinion that as it has been determined by the Corporation to vacate their resolution in regard to the Street above mentioned That the Petitioners loss and damage ought to be computed from the time of such view had by the Jury and that the same together with the legal Costs & charges in that behalf ought to form the Basis of a proper estimate [59] to be allowed to him. Whereupon resolved that the same be refered to the Alderman & Assistant of the 6^th^ Ward.

The Street Commissioner presented the following recommendation respecting the Assessment in the Bowry.

The Board having directed that Messrs Gosman & M^c^Combs should complete their contract for laying Curb in the Bowry to the two Mile Stone and the said Work being now finished, The Street Commissioner recommends that a suitable person be appointed to collect the money due upon the original assessment—and at the same time remarks that the assessment upon the portion of the Street lately operated upon by Mess^rs^ Gosman & M^c^Combs was never demanded by the former Collectors in consequence of an order of the Board to stop the work.

The Street Commissioner has the honor to enclose a Deed from Richard Amos and his wife to the Corporation for the Streets runing through his property near the State Prison, which is presented gratis but upon the condition that the old building he has now erected the Corner of which will be in greenwich Street shall not be removed by any act of the Corporation for the ensuing five Years—Which it is presumed the board can have no objection to.

The Street Commissioner further states that M[r] Amos is desirous that the course of those Streets should be established before any further Sales are made by him and it is therefore recommended that the following resolution be passed

Resolved that this Board will accept of the cession of the Streets running through the property of Richard Amos, a deed for which is this day presented by the Street Commissioner and that the Street Commissioner take order for Surveying the said Streets and placing the necessary Corner Stones All which is respectfully Submitted

Jn[o] S Hunn

[61] Which report was agreed to, and it was further resolved that it be refered to the Road Committee to consider of the propriety of opening Hudson Street through the Grounds of Richard Amos.

The Street Commissioner presented the following

The Street Commissioner covers an account exhibited by John Anderson for Building the Bulk head at Goerk Street which is correctly stated, the balance of 800 Dolls being due to him from the Corporation for their half of the said Work and for which a Warrant is recommended to be directed.

The Street Commissioner further remarks that the wharfage in front of this Bulk head, being the sole right of the Corporation it is adviseable that it should be put in charge of such persons as they may direct to collect the same.

All which is respectfully
Submitted
(Signed) John S Hunn

Which was agreed to and a Warrant for 800 Dollars ordered to issue to John Anderson

[62] The Street Commissioner presented an ordinance for regulating part of Thompson Street which was passed and Ebenezer

Clark, Geo. Cleland, Gilbert Coutant, Jonathan Pinckney, and Stephen Ludlum were appointed Assessors.

The Street Commissioner presented the following

The Street Commisisoner has the honor to present an account of Thomas Scott for paving in front of Albany Bason agreeably to an order of the Board which is now completed and amounts to 1153.$^{1}/_{100}$ Dollars and he recommends that a Warrant be directed in favor of said Scott for 600 Dollars on account and as it is probable the Board will consider it resonable that the proprietors of the Houses & Lots of Ground fronting this square on the south side should contribute towards this expence, the Street Commissioner recommends that the subject be refered to a Committee to determine what portion of it they ought to pay—Whereupon resolved that a Warrant issue in favor of Thomas Scott for 600 Dollars and that the subject recommended be refered to the Alderman & Assistant of the first Ward

[63] The Street Commissioner presented an Assessment for paving Broome Street from the Bowry Lane to Broard Way which was confirmed and Isaac Keeler appointed Collector.

The City Inspector & Street Commiss^{r} presented the following, The Committee to whom had been refered the Communication of the Street Commissioner relative to the situation of Bayard Street having reported that an ordinance ought to be passed directing M^{r} Lynch to fill up his Ground to considerable distance, The City Inspector & Street Commissioner have the honor to enclose the draft of an Ordinance directing that the sunken Ground be filled up to the distance of one hundred feet Westerly of Orange Street including that portion of Bayard Street and so much of Orange Street as may be impaired which they recommend to be passed

(Signed) J Morton
J S Hunn

Whereupon Resolved that the said Ordinance be passed.

[64] The Street Commissioner presented an Assessment for opening Walker Street into Beach Street, which was ordered to be published in the News Papers employed by this Board

The City Inspector presented Ordinances for correction of sundry Nuisances from N^{o} 5178 to N^{o} 5183 which were severally passed

The Comptroller agreeably to a former Resolution of the Board of the 6th instant presented Leases to Patrick M^{c}Kay and Richard P Lawrence, which having been examined by the Counsel of the Board were directed to be executed according to Law

The following Resolution was presented and agreed to. It appearing from the representation of all the members of the Committee on Chamber Street that the Conveyance to Peter Bonnett of certain property in that Street was for the sole purpose of placing the property of this Corporation on the same footing as that of all the other proprietors interested in that improvment and that the conduct of Mr Bonnett in receiving & giveing up that Conveyance was not dictated by any considerations of private interest but was entirely for the purpose of Benefiting the [65] Board. Whereupon Resolved that the Board return him their thanks for his conduct on that occasion.

Ordered that the Mayor issue his Warrant for payment of the following Sums

The Minutes of the last Meeting were read and approved.

The City Inspector presented a draft of an Ordinance for filling in a sunken part of Spring Street between Broad Way and Elizabeth Street, which was ordered to pass

The Committee on the representation of Robert Fulton Esquire reported that entertaining the highest respect for the talents & information of Mr Fulton, they consider him entitled to the gratitude of the Public for the offer of his services without compensation in the [68] improvement of our Police. The Committee are of opinion that this Board ought not to neglect the opportunity of availing itself of services which may be so beneficial to the City—They have not yet however been able to devise any plan for the purpose and as some of the present members are to go out of office they earnestly recommend that the subject be resumed by the Board as early as may be.

(Signed) Samuel M Hopkins
Jacob Mott

Whereupon ordered that the said report lie for consideration

The Comptroller on the Petition of John Higgins for remission of rent reported a Statement of the case which was ordered to be refered to Aldermen Mesier, Minthorne & Mr Douglass

The Committee on Laws & Ordinances to whom was refered the Resolution respecting the Sunday Law reported, that in their opinion further Legislative aid is necessary to carry into effect the object intended

Signed Samuel M Hopkins
John W Mulligan

Whereupon resolved that the same be [69] refered to the Committee on Laws and Ordinances to report what further Legislative Provisions are necessary.

The Committee on the Accounts of the late Superintendent of the Alms House to whom was refered the Petition of Everitt & Misserve reported that the Warrant for 4,000 Dollars issued to the Chairman of said Committee has been transfered to the Commissioners of the Alms House

An account of Marsh & Hutchings Marshalls for attending at the Fly Market amounting to 28 Dollars was presented.

Ordered a Warrant issue for payment of the same.

The Comptroller & Attʸ of the Board to whom had been refered the Petition of Theodorus Bailey & Elbert Anderson presented a report stating That the Lots in Chatham Street leased to the Applicants were leased so as to commence on the first day of May 1808 and that of course the rent began to accumulate from that day. That when Messʳ Bailey & Anderson went to take possession, they found the premises occupied by the Tenants that had formerly hired the same from Mʳ Cary Ludlow the former Lessee. That finding these persons in possession, who refused to [70] remove Messˢ Bailey & Anderson were under the necessity of commencing an Action of Ejectment which would have been tedious and expensive and would not have been determined in all probability under six months, or of agreeing with the Tenants, that if they would remove they should be exonerated from the rent till the first of August then next. That they adopted the latter mode of adjustment, as they were then ready to build upon the Lots.

Should the Board be of opinion that in justice and equity the Applicants are entitled to a remission of rent from the 1ˢᵗ May till the first of August, it will be left to their decision what answer to return the petitioner.

(Signed) G N Bleecker
S Cowdry

Whereupon resolved that one quarters rent be remitted to them.

The Committee on Laws & Ordinances to whom had been refered the Petition of the Directors of the Washington Mutual Insurance Company and the report of the Fire department thereon Reported that they have not been able to prepare a proper Law upon the [71] Petition and as two of the present members are about to go out of Office they recommend that the within Petition be referred to a new Committee. Whereupon resolved that the same be referred to the Committee on Laws & Ordinances

An Account of the Tax for the Year 1808 which had been received in the Treasury was presented and is as follows

The Street Commissioner presented Assessments for filling in parts of Wooster, Varick, Lawrence, Thompson & Greene Streets on the North side of Spring Street, which were confirmed and Ebenezer Clark was appointed Collector

The Street Commissioner presented a deed from Wm W Gilbert & Betsey his Wife duly acknowledged for Cozine & Gilbert Streets Resolved that the same be accepted [72] and the Deed be Recorded and afterwards filed in the office of the Comptroller.

The Street Commissioner enclosed the assessment for opening Walker Street into Beach Street having Advertised the same as directed by the Board, but he stated that John W Elsworth one of the Assessors was an Occupant within the District and therefore interested, and that William Hoogland one of the other Assessors would this day become a Member of the Board and therefore he suggested the propriety of appointing others in their stead,

Whereupon Leonard Warner & George Cleland were appointed Assessors in the places of Mr Elsworth & Mr Hoogland and the Assessment was directed to be returned to the Assessors for further Consideration

The Street Commissioner presented an Assessment upon the Lots in the Vicinity of Beekman Slip to raise the Money advanced by the Corporation towards filling in and raising the same, which assessment was confirmed and Henry Vn Pelt appointed Collector

The Committee on the Petition of the Freeholders on the East side of Peck Slip [73] to have the Pier lately built in said Slip connected by a Bridge to that side Reported, that finding the Neighborhoods both on the East and west sides of the Slips zealously claim equal right to be accommodated in the way they respectively propose and

discovering no obligation or promise on the part of the Corporation in relation to the controversy conceive the question ought to be decided exclusively on the basis of Public benefit and convenience.

Your Committee deem it indespensably the duty of the Corporation, whenever practicable, so to plan the improvements of the City that the Public Money expended therefor, will at the same time enhance the Value of the Public property, and as in the present instance Corporation Estate, which on the west side of this Slip is large, will be materially benefitted by having the Bridge connected with that side, while the general accomodation will be equally, if not, better promoted your Committee cannot but advise an adherence to the last decision of the Board on this Subject. Your Committee beg leave further to observe that from their own knowledge of local circumstances, as also from the concurrent sentiment of the residents throughout the whole neighborhood they are of opinion that by filling up Peck Slip to [74] the south Line of Front Street the convenience of that part of the town will not only be greatly promoted, but the health of the City also essentially benefitted and accordingly recommend the measure

All which is humbly Submitted

Which report was confirmed

The Committee on the Petition of Doc^{r} David Hosack presented a report which was ordered to lie for further consideration

A Communication was received from Samuel Gilford Ju^{r} and John Mowatt Ju^{r} two of the Fire Wardens of the 2nd Ward stating that on the Evening of the 30 Ult^{o} an attempt had been made to set fire to the range of wooden Buildings in front Street between Crane Wharf and Beekman Slip, by placing a coal of fire in some damp powder and laying the same in a pile of staves at the rear of Store N^{o} 203 Front Street.

Whereupon resolved that his honor the Mayor be authorised to issue his Proclamation offering a reward of [75] 300 Dollars to any person who shall give such information as that the offenders may be discovered and presecuted to conviction

The Committee to whom was referred the Assessment on Rynder Street reported that they have investigated the subject with considerable attention and find that the Assessors made out a List different from that delivered by the Surveyor, that they named some Lots

which lay on Hester Street as situate on Rynder Street and some which were on Rynder as situate on Hester Street, that they have charged Mr Minthorne for 87 feet front more than he ownes, and also charged him a much greater Sum than his opposite Neighbors towards the expence of the intersections, and finally that it appears to the Committee that the Assessors have not acted up to the principles usually adopted by assessors in like cases. The Committee therefore recommend that as almost all the money upon the assessment is Collected, and it will be difficult to raise it upon a new assessment that the Street Commissioner & Comptroller liquidate with Mr Minthorne an equitable plan, the sum wch he ought to pay and a warrant in favor of the Contra[c]tors be issued for the balance

Which was agreed to

On the request of the Superintendent of Repairs a Warrant was ordered to be issued in favor of the Chairman of Committee of Repairs for 500. Dollars.

[76] The Building Committee Reported that they have examined the account of John H Sickles Treasurer for the New City Hall (by James Drake) and have compared the Vouchers with the Treasurers Books and find them correct. They communicate an account of J H Sickles for the expence of the new Building for the last year, they also communicate a report of John McComb Jur the Architect on the subject of the New City Hall: Also a statement of the whole expence of the New City Hall.

A Warrant is recommended to be passed in favor of Mr Sickles for the Balance due D$ 1057.1/100

The weather having put a stop to the Mason Work the Walls and Materials have been carefully covered and those persons have been discharged whose services could be dispenced with, *relating too Carpenters 29 Journamen Stone Cutters, and one Apprentice four Stone Sawyers & four Stone Cutters & one Apprentice who Mr Lemair has under his directions to assist in finishing the Carved Work. These Men I hope the Committee will agree to employ during the winter that the Stone may be prepared in time, so that the Masons may commence as early in the Spring as the weather will permit. As this Building has been a long time in hand [I] have little doubt but that the Committee will agree that no exertions on the part of Corporation should be wanting to enable the Committee to have it completely enclosed in the [79] ensuing season which may be easily done if the Materials are provided, and the directions given in due time

The Walls of the Wings have been ready these three months to receive the Roof, nearly all the Steps of the principle Stairs are laid and the remainder complete to lay—the Stone Cutters will be able to finish the cornice and to prepare part of the stone for the Attic Story this winter, the Stone for the inside over the grand Stairs and for the Balustrade may be got ready in the course of the Season and laid So that we may indulge the pleasing idea of seeing nearly the whole of the outside work Completed the next season

I am very respectfully
Your Humble Servt

War Department
5 Decʳ 1809

Sir

Your letter of the first instant is received Lighting the Harbor of New York for the safety of Navigation by the Government of the United States is by Law provided for and assigned to another Department; no authority therefore can be given from this relating to that object unless it should be on application from that Department, or in the present instance the [96] Corporation of that City to afford them

the necessary accomodation at Ports or places ceded to the United States and occupied as Military Posts.

Respectfully

Your Obt Sert

W Eustice

Whereupon Ordered that the same be referred to the Committee of defence

[125] The City Inspector presented drafts of Ordinance for correction of Nuisances from Nº 5184 to Nº 5189—which was ordered to pass

The Clerk was directed to cause the Law to prevent the firing of Guns and Setting off Squibs in the City of New York to be published in Hand bills and in the papers employed by this Board.

The Comptroller presented an Account of Israel Haviland for repairing Hose for Fire Engines from the 19th June to 25 Novr 1809 accompanied by a Statement of the expences of the Fire Department, for the last eight Years amounting on an average to 5486 Ds pr Ann. He suggested whether a plan might not be devised whereby the several Fire Engines Companies in this City who were greatly benefitted by the present organization of the Fire Department should bear a proportion of those expences.

He also presented an account of Richard L Degroot for taking down the old and raising the new Flag Staff at the Battery amounting to 1089 $^{3}/_{100}$ Dollars—Whereupon Ordered that the said Comns of the Comptroller be referred to the Committee on the Fire Department.

[126] The Building Committee presented the following Report

That they have conversed with Mr McComb respecting the necessary preparations for going on with the New City Hall next season—They find that the Sum of 50,000 Dollars will be requisite to complete the roof, covering it with Copper—The Committee wish the advice of the Board whether on the whole it will not be a saving of expence for the Committee to give orders that the Building be got under roof the next season.

The Treasurer requests a Warrant of 4,000 Dollars, two thousand of which is wanted to pay the accounts already due

Signed Charles Dickinson
John Bingham
Isaac S Douglass

Whereupon Resolved that the Building Committee be requested to take measures for roofing the Building next season and that a Warrant issue to the Treasurer for 2,000 Dollars

The Market Committee to whom was referred the Petition of Andrew Fisher praying to be assigned to 49 Fly Market—reported in favor of Petitioner which report was confirmed.

[127] The Comptroller reported that Philip Jacobs had offered 4000 Dollars for Lot designated on the Map by letter B south corner of Broad Way and White Street payable in his Note for 3000 Dollars on 6 March next the residue in 6 Months after—Ordered that the Comptroller accept the offer on said Notes being made payable with interest from date

The Committee to whom was referred the offer of Stephen Sayer to supply by contract a quantity of fine Wood reported that fixing a contract price for any considerable quantity of fuel might in their opinion have an influence on the market price of that necessary Article, that should a Contract be entered into on the part of this Corporation for any given quantity of fire Wood, and the price in the Market at the time stipulated for the delivery thereof should be less than that contracted for there can be no doubt, but the quantity would in that case be furnished, and the difference of price would be the amount of loss, which the Corporation would sustain whereas should the reverse be the case and the price in the market should exceed that stipulated in the Contract, there is reason to apprehend that a punctual performance [128] of the Contract might not take place to the great inconvenience & disappointment of the Common Council—The Committee are therefore of opinion that it is not expedient for the Board to enter into the Contract proposed
